CHI-X CANADA ATS AND CX2 CANADA ATS

OSC STAFF NOTICE OF PROPOSED CHANGES AND REQUEST FOR COMMENT

Chi-X Canada ATS Limited has announced plans to implement changes to its Form 21-101F2 for both Chi-X Canada ATS and CX2 Canada ATS on or about 45 days after approval, and is publishing the Notice of Proposed Changes in accordance with the “Process for the Review and Approval of Rules and the Information Contained in Form 21-101F2 and the Exhibits Thereto”.

The changes will introduce a new option as part of the No-Self Cross Feature offered as part of the Chi-Controls Risk Management Suite. Subscribers will be able to select to have fill reports received for both orders without having a trade be reported on the public feed.

A copy of the Chi-X Canada Notice including the proposed changes was published on our website at www.osc.gov.on.ca.
