13.2.1 Canadian Securities Exchange – Public Interest Rule – Amendments to Policy 4 Corporate Governance and Miscellaneous Provisions – Notice and Request for Comments

CANADIAN SECURITIES EXCHANGE

PUBLIC INTEREST RULE

CORPORATE GOVERNANCE AND EMERGING MARKETS ISSUERS GUIDANCE AND REQUIREMENTS

NOTICE AND REQUEST FOR COMMENTS

Notice 2017-018

October 20, 2017

The Canadian Securities Exchange ("CSE") is publishing amendments to Policy 4 Corporate Governance and Miscellaneous Provisions ("Policy") to incorporate existing guidance into the Policy ("Amendments").

Background

On March 20, 2012, the OSC published the results of the Emerging Markets Issuer Review ("OSC EMIR Report") in Staff Notice 51-719, which identified material disclosure deficiencies in more than 60% of the issuers. On November 9, 2012 the OSC subsequently published Staff Notice 51-720 – *Issuer Guide for Companies Operating in Emerging Markets* ("OSC EMI Guide").¹ The OSC EMI Guide does not propose or require the implementation of emerging markets issuer requirements. Rather, the OSC EMI Guide highlights potential areas of risk, identifies key questions that directors and management should address and outlines the expectations of OSC Staff with respect to the existing disclosure regime for reporting issuers.

The CSE views the OSC EMI Guide and the OSC EMIR Report as beneficial guidance to all issuers, not just those with operations in emerging markets, and subsequently adopted the guidance by reference through its publication on May 10, 2013 of Notice 2013-002 – CNSX – Issuer Guidance – Disclosure Obligations ("CSE Guidance Notice").²

A. Description of the Public Interest Rule

Policy 4

Policy 4 "Corporate Governance and Miscellaneous Provisions" is proposed to be amended.

Directors & Officers

The following new sections codify the CSE's existing practice of requiring separation of the roles of CEO and CFO, and requirements for management experience and expertise:

- new section 3.5 has been added whereby it will be required that Listed Issuers have a CEO, CFO, and a corporate secretary. The CEO and CFO roles will need to be held by different individuals. There is also a proficiency requirement for CFOs.
- new section 3.6 has been added whereby it will be required that an issuer's directors, officers and management have adequate Reporting Issuer experience as well as relevant experience and expertise to the issuer's industry and factors in each jurisdiction within which the issuer operates.

Guidance for Issuers with Principal Business Operations or Operating Assets in Emerging Markets

New section 4 has been added to Policy 4 which provides guidance for issuers with their principal business operations or operating assets in emerging markets based on the OSC EMI Guide.

Requirements for Issuers with Principal Business Operations or Operating Assets in Emerging Markets

New section 5.1 has been added to Policy 4 which requires issuers with principal business operations or operating assets in emerging markets to provide a title opinion or appropriate confirmation and a satisfactory legal opinion that it holds the necessary license, permit, or approvals to operate in the jurisdiction.

¹ <u>http://www.osc.gov.on.ca/documents/en/Securities-Category5/sn_20121109_51-720_issuer-guide.pdf.</u>

² <u>http://thecse.com/en/about/publications/notices/notice-2013-002-cnsx-issuer-guidance-disclosure-obligations.</u>

New section 5.2 has been added to Policy 4 which requires that all [or the majority] of the members of the audit committee must be financially literate as defined in NI 52-110 *Audit Committees*.

New section 5.3 has been added to Policy 4 which requires disclosure of risks and mitigation steps in the Listing Statement.

B. Expected Date of Implementation of the Proposed Public Interest Rule

The proposed Amendments are expected to be implemented December 4, 2017.

C. Rationale for the Proposal and any Relevant Supporting Analysis

The Amendments codify in the Policy the guidance previously provided in the CSE Guidance Notice, and include additional information consistent with the OSC EMI Guide. Specifically, a more descriptive list of the areas of concern as described in the OSC EMI Guide is included. The Amendments outline common best practice and are currently in effect for other exchanges in Canada (see section G below: "Introduction of a fee model, feature or Rule that currently exists in other markets or jurisdictions").

D. Expected Impact of the Proposed Public Interest Rule on the Market Structure, Members and, if applicable, on Investors, Issuers and the Capital Markets

The Amendments are intended to improve Issuer procedures to mitigate certain risks, and to provide adequate disclosure of those procedures and risks. For Listed Issuers, the impact is expected to be negligible because the CSE has been exercising its discretion to apply most of the principles since the publication of the CSE Guidance Notice. Issuers applying for listing will need to follow the new requirements and be expected to take into consideration the codified guidance.

There is no impact on Market Structure and Members.

Investors will be beneficially impacted with the imposition of higher standards. This will also benefit the Canadian capital markets.

E. Expected Impact of the Public Interest Rule on CSE's compliance with Ontario securities law and in particular on requirements for Fair Access and Maintenance of Fair and Orderly Markets

The proposed amendments are not expected to impact the CSE's compliance with Ontario securities law, including the requirements for fair access or the maintenance of fair and orderly markets.

F. Imposed Requirements by the Public Interest Rule on Members and Service Vendors to Modify their Own Systems after Implementation of the Rule, and a Reasonable Estimate of the Amount of Time needed to Perform the Necessary Work, or an Explanation as to why a Reasonable Estimate was not Provided

No technology changes will be required as a direct result of the Amendments.

G. Introduction of a fee model, feature or Rule that currently exists in other markets or jurisdictions

The Amendments are consistent with requirements of other Canadian exchanges, as indicated below.

Section 17.3</u> <u>specifically addresses "any risk factors material to the Issuer</u> <u>that a reasonable investor would consider relevant to an</u> <u>investment in the securities being listed and that are not</u> <u>otherwise described under section 17.1 or 17.2." For listing</u> <u>applicants with their principal business operations or</u> <u>operating assets in emerging markets, the OSC EMI Guide</u> <u>areas of concern should be addressed in the context of the</u> <u>guidance provided by OSC Staff.</u>	CSE Form 2A – Listing Statement includes specific disclosure requirements concerning risk issues. Section 17 – Risk Factors – includes, in the first 2 sections, some of the common risks that should be described. Section 17.3 specifically addresses "any risk factors material to the Issuer that a reasonable investor would consider relevant to an investment in the securities being listed and that are not otherwise described under section 17.1 or 17.2." For listing applicants with their principal business operations or operating assets in emerging markets, the OSC EMI Guide areas of concern should be addressed in the context of the guidance provided by OSC Staff.
b) Continued Listing	b) Continued Listing
All listed companies are reminded that the OSC EMI Guide provides an excellent reference for any questions regarding continuous disclosure requirements, including disclosure in CSE filings. CSE Form 9 – Notice of Proposed Issuance of Listed Securities, and CSE Form 10 – Notice of Proposed Transaction, for example, each include questions that relate to one or more of the OSC EMI Guide areas of concern. A change related to any of these areas could be material information that requires immediate disclosure by news release.
