## Statement on Litigation

In March 2018, Beleave engaged Havecon Horticultural Projects (together with its affiliates, "**Havecon**") to construct a greenhouse as part of the Company's approximately \$9 million Hamilton Phase 2 expansion project. The expansion plan included an additional 5,700 sq. ft. of indoor grow space, 55,000 sq. ft. of greenhouse space, and 29,500 sq. ft. allocated for offices, secure storage, and processing. Approximately 70% percent of the expansion (approximately \$6M) has been completed and the Company anticipates it will require an additional \$2.5M to complete the structural build and \$1.5M for security and further redesign to complete the warehouse and processing. In January 2020, a lawsuit was filed by Havecon in respect of labour and material costs for the construction of the site expansion.

The Company has reached an agreement on a payment schedule that allows for deferral of payment and the settlement of a portion of the debt through the issuance of shares. To date, the Company has issued Common Shares valued at \$100,000 as partial satisfaction of the debt owed to Havecon. The developer, Havecon Projects B.V., an affiliate of Havecon, continues to

complete construction in phases as capital becomes available through two possible asset sales. Havecon and the Company continue open dialogue and are committed to finishing the expansion project. In conjunction with the payment agreement established in January 2020, the Company anticipates completion before the end of 2020. This timeline is contingent on the closing of the pending asset sales, and so may be accelerated or delayed based on the timing of the sales. The Company will provide an update when one is available.

On March 13, 2020, J. Lohr Winery Corporation filed a trademark infringement claim in Federal Court against Seven Oaks, Beleave Cannabis Corp. and Beleave for its use of the Seven Oaks brand name. In light of the rules that prevent an alcohol company from branding any cannabis products, the Company does not believe the infringement holds merit and plans to dispute the claim.
