PART 1
PURPOSE AND APPLICATION OF THE COMPANION POLICY

Purpose

1.1 The purpose of this Companion Policy (the Policy) is to help you understand how the Canadian securities regulatory authorities (CSA or we) interpret or apply certain provisions of National Instrument 81-106 *Investment Fund Continuous Disclosure* (the Instrument).

Application

1.2 (1) The Instrument applies to investment funds. The general nature of an investment fund is that the money invested in it is professionally managed on the basis of a stated investment policy, usually expressed in terms of investment objectives and strategies, and is invested in a portfolio of securities. The fund has the discretion to buy and sell investments within the constraints of its investment policy. Investment decisions are made by a manager or portfolio adviser acting on behalf of the fund. An investment fund provides a means whereby investors can have their money professionally managed rather than making their own decisions about investing in individual securities.

(2) An investment fund generally does not seek to obtain control of or become involved in the management of companies in which it invests. Exceptions to this include labour sponsored or venture capital funds, where some degree of involvement in the management of the investees is an integral part of the investment strategy.

Investment funds can be distinguished from holding companies, which generally exert a significant degree of control over the companies in which they invest. They can also be distinguished from the issuers known as "Income Trusts" which generally issue securities that entitle the holder to net cash flows generated by (i) an underlying business owned by the trust or other entity, or (ii) the income-producing property owned by the trust or other entity. Examples of entities that are not investment funds are business income trusts, real estate investment trusts and royalty trusts.

(3) Investment funds that meet the definition of "mutual fund" in securities legislation – generally because their securities are redeemable on demand or within a specified period after demand at net asset value per security – are referred to as mutual funds. Other investment funds are generally referred to as non-redeemable investment funds. The definition of "non-redeemable investment fund" included in this instrument summarises the concepts discussed above. Because of their similarity to mutual funds, they are subject to similar reporting requirements. Examples include closed-end funds, funds traded on exchanges with limited redeemability, certain limited partnerships investing in portfolios of securities such as flow-through shares, and scholarship plans (other than self-directed RESPs as defined in OSC Rule 46-501 *Self-Directed Registered Education Savings Plans*).

(4) Labour sponsored and venture capital funds may or may not be considered to be mutual funds depending on the requirements of the provincial legislation under which they are established (for example, shares of Ontario labour sponsored funds are generally redeemable on demand, while shares of British Columbia employee venture capital corporations are not). Nevertheless, these issuers are investment funds and must comply with the general disclosure

rules for investment funds as well as specific requirements for labour sponsored and venture capital funds included in Part 8 of this Instrument.

Definitions

1.3 (1) A term used in the Instrument and defined in the securities statute of a local jurisdiction has the meaning given to it in that statute unless (a) the definition in that statute is restricted to a specific portion of the statute that does not govern continuous disclosure, or (b) the context otherwise requires.

(2) For instance, the term "material change" is defined in local securities legislation of most jurisdictions. The CSA consider the meaning given to this term in securities legislation to be substantially similar to the definition set out in the Instrument.

(3) The Instrument uses accounting terms that may be defined or referred to in Canadian GAAP applicable to publicly accountable enterprises. Some of these terms may be defined differently in securities legislation. National Instrument 14-101 *Definitions* provides that a term used in the Instrument and defined in the securities statute of a local jurisdiction has the meaning given to it in the statute unless the definition in that statute is restricted to a specific portion of the statute, or the context otherwise requires.

Plain Language Principles

1.4 The CSA believe that plain language will help investors understand an investment fund's disclosure documents so that they can make informed investment decisions. You can achieve this by

- using short sentences
- using definite, everyday language
- using the active voice
- avoiding unnecessary words
- organizing the document into clear, concise sections, paragraphs and sentences
- avoiding jargon
- using personal pronouns to speak directly to the reader
- avoiding reliance on glossaries and defined terms unless it helps to understand the disclosure
- using technical terms only where necessary and explaining those terms clearly
- avoiding boilerplate wording
- using concrete terms and examples
- using charts and tables where it makes the disclosure easier to understand.

Signature and Certificates

1.5 The directors, trustee or manager of an investment fund are not required to file signed or certified continuous disclosure documents. They are responsible for the information in the investment fund's disclosure documents whether or not a document is signed or certified, and it is an offence under securities legislation to make a false or misleading statement in any required document.

Filings on SEDAR

1.6 All documents required to be filed under the Instrument must be filed in accordance with National Instrument 13-101 *System for Electronic Document Analysis and Retrieval (SEDAR)*.

Corporate Law Requirements

1.7 Some investment funds may be subject to requirements of corporate law that address matters similar to those addressed by the Instrument, and which may impose additional or more onerous requirements. For example, applicable corporate law may require investment funds to deliver annual financial statements to securityholders. This Instrument cannot provide exemptions from these requirements.

PART 2 FINANCIAL STATEMENTS

Interrelationship of Financial Statements with Canadian GAAP

2.1 (1) [repealed]

(1.1) Subsection 2.6(2) of the Instrument, applicable to financial years beginning on or after January 1, 2014, refers to Canadian GAAP for publicly accountable enterprises, which is IFRS incorporated into the Handbook, contained in Part I of the Handbook. IFRS is defined in National Instrument 14-101 *Definitions* as the standards and interpretations adopted by the International Accounting Standards Board.

Subsection 2.6(1) of the Instrument, applicable to financial years beginning before January 1, 2014, refers to Canadian GAAP as applicable to public enterprises, which the CSA considers to be the standards in Part V of the Handbook.

(2) The CSA believe that an investment fund's financial statements must include certain information, at a minimum, in order to provide full disclosure. The Instrument sets out these minimum requirements, but does not mandate all the required disclosure. Canadian GAAP applicable to publicly accountable enterprises also contains minimum requirements relating to the content of financial statements. An investment fund's financial statements must meet these requirements as well.

In some cases, the Instrument prescribes line items that may already be required by Canadian GAAP, but these line items are expressed more specifically for the activities of an investment

fund. For example, Canadian GAAP requires a "trade and other receivables" line item on the statement of financial position, but the Instrument requires accounts receivable to be broken down into more specific categories. In other instances, the line items prescribed in the Instrument are in addition to those in Canadian GAAP.

While the Instrument prescribes line items, it does not prescribe the order in which those line items are presented. Investment funds should present line items, as well as any subtotals or totals, in a logical order that will contribute to a reader's overall understanding of the financial statements.

Investment funds are responsible for disclosing all material information concerning their financial position and financial performance in the financial statements.

(3) [Repealed]

Classification of Securities Issued by an Investment Fund

2.1.1 (1) One goal of the Instrument is comparable financial statement presentation between investment funds. However, the adoption of IFRS results in certain changes to this presentation. For example, the presentation is impacted by the classification of an investment fund's securities as either equity instruments or financial liabilities. Certain line items, such as "total equity or net assets attributable to securityholders", acknowledge the difference between an equity and liability presentation, but maintain a comparable measurement between investment funds regardless of this classification.

(2) If an investment fund's securities are classified as financial liabilities, IFRS requires financing costs to include certain distributions made by the investment fund to those securityholders. However, if an investment fund's securities are classified as equity instruments, distributions to holders of these securities are not included in financing costs (and are not recognized as an expense), creating a difference that reduces comparability. To address this, the Instrument requires distributions to be excluded from certain calculations, specifically: (i) increase or decrease in net assets attributable to securityholders from operations as disclosed in the statement of comprehensive income, and (ii) determination of total expenses for the management expense ratio (MER).

(3) For investment funds that classify their own securities as financial liabilities, "net assets attributable to securityholders" represents the equivalent of "total equity" for investment funds that classify their own securities as equity instruments. Net assets attributable to securityholders does not include amounts owed on securities issued by the investment fund that provide leverage to the fund.

Filing Deadline for Annual Financial Statements and Auditor's Report

2.2 Section 2.2 of the Instrument sets out the filing deadline for annual financial statements. While section 2.2 of the Instrument does not address the auditor's report date, investment funds are encouraged to file their annual financial statements as soon as possible after the date of the auditor's report.

2.3 [repealed]

Length of Financial Year

2.4 For the purposes of the Instrument, unless otherwise expressly provided, references to a financial year apply regardless of the length of that year. The first financial year of an investment fund commences on the date of its incorporation or organization and ends at the close of that year.

Contents of Statement of Comprehensive Income

2.5 The amount of fund expenses waived or paid by the manager or portfolio adviser of the investment fund disclosed in the statement of comprehensive income excludes amounts waived or paid due to an expense cap that would require securityholder approval to change.

Disclosure of Investment Portfolio

2.5.1 (1) The term "statement of investment portfolio" is used to describe the disclosure required by section 3.5 of the Instrument. As this term is not used in the Handbook, preparers may refer to it as a "schedule of investment portfolio" within a complete set of investment fund financial statements. Regardless of how the disclosure is described, sections 2.1 and 2.3 of the Instrument require it to be included within a complete set of investment fund financial statements, and subsection 2.1(2) of the Instrument requires annual financial statements to be accompanied by an auditor's report, for the purposes of securities legislation.

If financial statements for more than one investment fund are bound together, Part 7 of the Instrument requires all of the information pertaining to each investment fund to be presented together and not intermingled with information relating to another investment fund. The CSA is of the view that this requirement applies equally to the portfolio disclosure, which should be presented together with the other financial information relating to the investment fund

(2) If an investment fund invests substantially all of its assets directly, or indirectly through the use of derivatives, in securities of one other investment fund, the investment fund should provide in the statement of investment portfolio, or the notes to that statement, additional disclosure concerning the holdings of the other investment fund, as available, in order to assist investors in understanding the actual portfolio to which the investment fund is exposed. The CSA is of the view that such disclosure is consistent with the requirements in the Handbook relating to financial instrument disclosure.

Disclosure of Soft Dollars

2.6 The notes to the financial statements of an investment fund must contain disclosure of soft dollar amounts when such amounts are ascertainable. When calculating these amounts, investment funds should include the quantifiable value of goods and services, beyond the amount attributed to order execution, received directly from the dealer executing the fund's portfolio transactions, or from a third party.

Securities Lending Transactions

2.7 (1) Section 3.8 of the Instrument imposes certain reporting requirements on investment funds in connection with any securities lending transactions entered into by the investment fund. These requirements were included to ensure that certain aspects of securities lending transactions are disclosed in the same manner.

Generally, in a securities lending transaction, the investment fund is able to call the original securities back at any time, and the securities returned must be the same or substantially the same as the original securities. The investment fund retains substantially all of the risks and rewards of ownership.

(2) [Repealed]

(3) The Canadian securities regulatory authorities consider that, for the purposes of disclosing the gross amount generated from securities lending transactions in the notes to the financial statements of an investment fund pursuant to subsection 3.8(4) of the Instrument, all amounts generated in relation to the securities lending transactions of the investment fund must be disclosed, prior to the deduction of any amounts paid to securities lending agents or other service providers pursuant to any revenue sharing arrangement. Furthermore, for the purposes of subsection 3.8(4) of the Instrument, the Canadian securities regulatory authorities are of the view that any proceeds generated as a result of investing the collateral delivered to the investment fund in connection with a securities lending transaction form part of the gross amount from the securities lending transaction and must be included in the amount disclosed in the notes to the financial statements under subsection 3.8(4) of the Instrument.

Change in Year End

2.8 (1) The change in year end reporting requirements are adopted from National Instrument 51-102, with appropriate modifications to reflect that investment funds report on a six month interim period.

(2) The definition of "interim period" in the Instrument differs from the definition of this term in National Instrument 51-102. An investment fund cannot have more than one interim period in a transition year.

(3) The interim financial report for the new financial year will have comparatives from the corresponding months in the preceding year, whether or not they are from the transition year or from the old financial year, they were previously prepared or not, or they straddle a year-end.

(4) If an investment fund voluntarily reports on a quarterly basis, it should follow the requirements set out in National Instrument 51-102 for a change in year end, with appropriate modifications.

(5) Appendix A to this Policy outlines the financial statement filing requirements under section 2.9 of the Instrument for an investment fund that changes its year end.

2.9 [repealed]

Mutual Funds that are Non-Reporting Issuers

2.10 The requirement in subsection 2.11(c) to advise the applicable regulator or securities regulatory authority of a mutual fund's reliance on the financial statement filing exemption provided in section 2.11 of the Instrument can be satisfied by a one-time notice.

PART 3 AUDITORS AND THEIR REPORTS

Acceptable Auditor

3.1 Securities legislation in most jurisdictions prohibits a regulator or securities regulatory authority from issuing a receipt for a prospectus if it appears that a person or company who has prepared any part of the prospectus, or is named as having prepared or certified a report used in connection with a prospectus, is not acceptable.

Investment funds that are reporting issuers, and their auditors, should refer to National Instrument 52-108 *Auditor Oversight* for requirements relating to auditor oversight by the Canadian Public Accountability Board.

Modification of Opinion

3.2 (1) The Instrument prohibits an auditor's report from expressing a modified opinion under Canadian GAAS. A modification of opinion includes a qualification of opinion, an adverse opinion, and a disclaimer of opinion.

(2) Part 17 of the Instrument permits the regulator or securities regulatory authority to grant exemptive relief from the Instrument, including the requirement that an auditor's report express an unmodified opinion or other similar communication that would constitute a modification of opinion under Canadian GAAS. However, we will generally recommend that such exemptive relief should not be granted if the modification of opinion or other similar communication is

- (a) due to a departure from accounting principles permitted by the Instrument, or
- (b) due to a limitation in the scope of the auditor's examination that
 - (i) results in the auditor being unable to form an opinion on the financial statements as a whole,
 - (ii) is imposed or could reasonably be eliminated by management, or
 - (iii) could reasonably be expected to be recurring.

Auditor's Involvement with Management Reports of Fund Performance

3.3 Investment funds' auditors are expected to comply with the Handbook with respect to their involvement with the annual and interim management reports of fund performance required by the Instrument as these reports contain financial information extracted from the financial statements.

Auditor Involvement with Interim Financial Reports

3.4 (1) The board of directors of an investment fund that is a corporation or the trustees of an investment fund that is a trust, in discharging their responsibilities for ensuring a reliable interim financial report, should consider engaging an external auditor to carry out a review of the interim financial report.

(2) Section 2.12 of the Instrument requires an investment fund to disclose if an auditor has not performed a review of the interim financial report, to disclose if an auditor was unable to complete a review and why, and to file a written report from the auditor if the auditor performed a review and expressed a reservation in the auditor's interim review report. No positive statement is required when an auditor performed a review and provided an unqualified communication. If an auditor was engaged to perform a review on an interim financial report applying review standards set out in the Handbook, and the auditor was unable to complete the review, the investment fund's disclosure of the reasons why the auditor was unable to complete the review should normally include a discussion of

- (a) inadequate internal control,
- (b) a limitation on the scope of the auditor's work, or
- (c) a failure of management to provide the auditor with written representations the auditor believes are necessary.

(3) The terms "review" and "written review report" used in section 2.12 of the Instrument refer to the auditor's review of and report on an interim financial report using standards for a review of an interim financial report by the auditor as set out in the Handbook.

(4) The Instrument does not specify the form of notice that should accompany an interim financial report that has not been reviewed by the auditor. The notice accompanies, but does not form part of, the interim financial report. We expect that the notice will normally be provided on a separate page appearing immediately before the interim financial report, in a manner similar to an auditor's report that accompanies annual financial statements.

PART 4 DELIVERY OF FINANCIAL STATEMENTS AND MANAGEMENT REPORTS OF FUND PERFORMANCE

Delivery Instructions

4.1 (1) The Instrument gives investment funds the following choices for the delivery of financial statements and management reports of fund performance:

- (a) send these documents to all securityholders;
- (b) obtain standing instructions from securityholders with respect to the documents they wish to receive; or
- (c) obtain annual instructions from securityholders by sending them an annual request form they can use to indicate which documents they wish to receive.

The choices are intended to provide some flexibility concerning the delivery of continuous disclosure documents to securityholders. An investment fund can use any combination of the delivery options for its securityholders. However, the Instrument specifies that once an investment fund chooses option (b) for a securityholder, it cannot switch back to option (c) for that securityholder at a later date. The purpose of this requirement is to encourage investment funds to obtain standing instructions and to ensure that if a securityholder provides standing instructions, the investment fund will abide by those instructions unless the securityholder specifically changes them.

(2) When soliciting delivery instructions from a securityholder, an investment fund can deem no response from the securityholder to be a request by the securityholder to receive all, some or none of the documents listed in subsection 5.1(2) of the Instrument. When soliciting delivery instructions, an investment fund should make clear what the consequence of no response will be to its securityholders.

(3) Investment funds should solicit delivery instructions sufficiently ahead of time so that securityholders can receive the requested documents by the relevant filing deadline. Securityholders should also be given a reasonable amount of time to respond to a request for instructions. Investment funds should provide securityholders with complete contact information for the investment fund, including a toll-free telephone number or a number for collect calls.

(4) Investment funds under common management can solicit one set of delivery instructions from a securityholder that will apply to all of the funds in the same fund family that the securityholder owns. If a securityholder has given an investment fund standing delivery instructions and then later acquires the securities of another investment fund managed by the same manager, the newly acquired fund can rely on those standing instructions.

(5) The Instrument requires investment funds to deliver the quarterly portfolio disclosure and the proxy voting record to securityholders upon request, but does not require investment funds to solicit delivery instructions from securityholders with respect to this disclosure. Investment funds are obligated to state on the first page of their management reports of fund performance that this disclosure is available.

Communication with Beneficial Owners

4.2 Generally, investment funds must apply the procedures set out in National Instrument 54-101 *Communication with Beneficial Owners of Securities of a Reporting Issuer* for the purposes of Part 5 of the Instrument, but an exemption from National Instrument 54-101 is available to investment funds that have beneficial owner information.

We recognize that different types of investment funds have different access to beneficial owner information (for example, mutual funds are more likely to have beneficial owner information than exchange-traded funds) and that the procedures in National Instrument 54-101 may not be efficient for every investment fund. We intend the provisions in Part 5 of the Instrument to provide investment funds with flexibility to communicate directly with the beneficial owners of their securities. If an investment fund has the necessary information to communicate directly with one or more beneficial owners of its securities, it can do so, even though it may need to rely on National Instrument 54-101 to communicate with other beneficial owners of its securities.

Binding

4.3 For the purposes of delivery to a securityholder, the Instrument permits more than one management report of fund performance to be bound together if the securityholder owns all of the funds to which the management reports relate. There is no prohibition in the Instrument against binding the management report of fund performance with the financial statements for one investment fund for the purposes of delivering these documents to a securityholder who has requested them.

Electronic Delivery

4.4 Any documents required to be sent under the Instrument may be sent by electronic delivery, as long as such delivery is made in compliance with National Policy 11-201 *Delivery of Documents by Electronic Means* and, in Quebec, Quebec Staff Notice *The Delivery of Documents by Electronic Means*. In particular, the annual reminder required by section 5.2 and the request form required by section 5.3 of the Instrument may be given in electronic form and may be combined with other notices. Request forms and notices may alternatively be sent with account statements or other materials sent to securityholders by an investment fund.

Website Disclosure

4.5 [Repealed]

PART 5 INDEPENDENT VALUATIONS

Independent Valuations

5.1 (1) Part 8 of the Instrument is designed to address the concerns raised by labour sponsored or venture capital funds that disclosing a fair value for their venture investments may disadvantage the private companies in which they invest. Section 8.2 permits alternative disclosure by a labour sponsored or venture capital fund of its statement of investment portfolio. Labour sponsored or venture capital funds must disclose the individual securities in which they invest, but may aggregate all changes from costs of the venture investments, thereby only showing an aggregate adjustment from cost to fair value for these securities. This alternative disclosure is only permitted if the labour sponsored or venture capital fund has obtained an independent valuation in accordance with Part 8 of the Instrument.

(2) The CSA expect the independent valuator's report to provide either a number or a range of values which the independent valuator considers to be a fair and reasonable expression of the value of the venture investments or of the net asset value of the labour sponsored or venture capital fund. The independent valuation should include a critical review of the valuation methodology and an assessment of whether it was properly applied. A report on compliance with stated valuation policies and practices cannot take the place of an independent valuation.

The valuation report should disclose the scope of the review, including any limitations on the scope, and the implications of these limitations on the independent valuator's conclusion.

(3) The independent valuator should refer to the reporting standards of the Canadian Institute of Chartered Business Valuators for guidance.

(4) A labour sponsored or venture capital fund obtaining an independent valuation should furnish the independent valuator with access to its manager, advisers and all material information in its possession relevant to the independent valuation.

Independent Valuators

5.2 (1) It is a question of fact as to whether a valuator is independent of the labour sponsored or venture capital fund. In determining the independence of the valuator, a number of factors may be relevant, including whether

- (a) the valuator or an affiliated entity has a material financial interest in future business in respect of which an agreement, commitment or understanding exists involving the fund or a person or company listed in paragraph (2)(a); or
- (b) the valuator or its affiliated entity is a lender of a material amount of indebtedness to any of the issuers of the fund's illiquid investments.

(2) The CSA would generally consider a valuator not to be independent of a labour sponsored or venture capital fund where

- (a) the valuator or an affiliated entity of the valuator is
 - (i) the manager of the fund,
 - (ii) a portfolio adviser of the fund,
 - (iii) an insider of the fund,
 - (iv) an associate of the fund,
 - (v) an affiliated entity of the fund, or
 - (vi) an affiliated entity of any of the persons or companies named in this paragraph (a);
- (b) the compensation of the valuator or an affiliated entity of the valuator depends in whole or in part upon an agreement, arrangement or understanding that gives the valuator, or its affiliated entity, a financial incentive in respect of the conclusions reached in the valuation; or
- (c) the valuator or an affiliated entity of the valuator has a material investment in the labour sponsored or venture capital fund or in a portfolio asset of the fund.

PART 6
PROXY VOTING DISCLOSURE FOR PORTFOLIO SECURITIES HELD

Proxy Voting Disclosure

6.1 (1) An investment fund's manager, acting on the investment fund's behalf, has the right and obligation to vote proxies relating to the investment fund's portfolio securities. As a practical matter, the manager may delegate this function to the investment fund's portfolio adviser as part of the adviser's general management of investment fund assets. In either case, the manager or portfolio adviser voting proxies on behalf of an investment fund must do so in a manner consistent with the best interests of the fund and its securityholders.

(2) Because of the substantial institutional voting power held by investment funds, the increasing importance of the exercise of that power to securityholders, and the potential for conflicts of interest with respect to the exercise of proxy voting, we believe that investment funds should disclose their proxy voting policies and procedures, and should make their actual proxy voting records available to securityholders.

(3) The Instrument requires that the investment fund establish policies and procedures for determining whether, and how, to vote on any matter for which the investment fund receives proxy materials for a meeting of securityholders of an issuer. The CSA consider an investment fund to "receive" a document when it is delivered to any service provider or to the investment fund in respect of securities held beneficially by the investment fund. Proxy materials may be delivered to a manager, a portfolio adviser or sub-adviser, or a custodian. All of these deliveries are considered delivered "to" the investment fund.

(4) The Instrument requires an investment fund to maintain an annual proxy voting record as of June 30 and to post this on the fund's designated website. However, investment funds may choose to disclose their proxy votes throughout the course of the year, and may also choose to disclose how they intend to vote prior to the shareholder meeting.

Proxy Voting Policies and Procedures

6.2 (1) Section 10.2 of the Instrument sets out, in general terms, what the securities regulatory authorities consider to be minimum policies and procedures for the proxy voting process. Investment funds are responsible for adopting any additional policies relevant to their particular situation. For example, investment funds should consider whether they require any specific policies dealing with shareholder meetings of issuers resident in other countries.

(2) An investment fund sometimes needs to vote securities held by it in order to protect its interests in connection with corporate transactions or developments relating to the issuers of its portfolio securities. The manager and portfolio adviser, or the agent of the investment fund administering a securities lending program on behalf of the investment fund, should monitor corporate developments relating to portfolio securities that are loaned by the investment fund in securities lending transactions, and take all necessary steps to ensure that the investment fund can exercise a right to vote the securities when necessary.

PART 7 MATERIAL CHANGE

Material Changes

7.1 Determining whether a change is a material change will depend on the specific facts and circumstances surrounding the change. However, the CSA is of the view that

- (a) the change of portfolio adviser of an investment fund will generally constitute a material change for the investment fund, and
- (b) the departure of a high-profile individual from the employ of a portfolio adviser of an investment fund may constitute a material change for the investment fund, depending on how prominently the investment fund featured that individual in its marketing. An investment fund that emphasized the ability of a particular individual to encourage investors to purchase the fund could not later take the position that the departure of that individual was immaterial to investors and therefore not a material change.

Confidential Material Change Report

7.2 The CSA are of the view that in order for an investment fund to file a confidential material change report under Section 11.2 of the Instrument, the investment fund or its manager should advise insiders of the prohibition against trading during the filing period of a confidential material change report and must also take steps to monitor trading activity.

PART 8 INFORMATION CIRCULARS

Sending of Proxies and Information Circulars

8.1 Investment funds are reminded that National Instrument 54-101 prescribes certain procedures relating to the delivery of proxy-related materials sent to beneficial owners of securities.

Notice-and-access

8.2(1) In the Instrument and this Companion Policy, references to registered holders and beneficial owners should be read to correspond with references to forms of proxy or voting instruction forms, as appropriate.

We expect that persons or companies that solicit proxies will only use notice-and-access for a particular meeting where they have no reason to believe it is inappropriate or inconsistent with the purposes of notice-and-access to do so, taking into account factors such as

- the purpose of the meeting,

- whether a better participation rate would be obtained by sending the information circular with the other proxy-related materials, and
- whether notice-and-access resulted in material declines in beneficial owner voting rates in prior meetings where notice-and-access was used.

(2) With respect to matters to be voted on at the meeting, the notice must only contain a description of each matter or group of related matters identified in the form of proxy, unless that information is already included in the form of proxy or voting instruction form. We expect that persons or companies who use notice-and-access will state each matter or group of related matters in the form of proxy or voting instruction form in a reasonably clear and user-friendly manner. For example, it would be inappropriate to identify the matter to be voted on solely by referring to disclosure contained in the information circular as follows: “To vote For or Against the resolution in Schedule A of the management information circular”.

The plain-language explanation of notice-and-access required in the notice can also address other aspects of the proxy voting process. However, there should not be any substantive discussion of the matters to be considered at the meeting.

(3) Paragraph 12.2.1(h) requires establishment of a toll-free telephone number for the registered holder or beneficial owner to request a paper copy of the information circular. A person or company soliciting proxies may choose, but is not required, to provide additional methods for requesting a paper copy of the information circular. If persons or companies soliciting proxies do so, they must still comply with the fulfillment timelines in paragraph 12.2.1(i).

(4) Section 12.2.2 is intended to restrict intentional information gathering about registered holders or beneficial owners who make requests for paper copies of information circulars or access the non-SEDAR website.

(5) Section 12.2.3 is intended to enable registered holders and beneficial owners to access the posted proxy-related materials in a user-friendly manner. For example, requiring the registered holder or beneficial owner to navigate through several web pages to access the proxy-related materials, even within the same website, would not be user-friendly. Providing the registered holder or beneficial owner with the specific URL where the documents are posted would be more user-friendly. We encourage persons or companies soliciting proxies and their service providers to develop best practices in this regard.

(6) We expect that where stratification is used for purposes other than complying with registered holder or beneficial owner instructions, it is used to enhance effective communication, and not used if it would potentially disenfranchise registered holders or beneficial owners.

(7) Section 12.2.5 permits other delivery methods, such as electronic means, to be used to send proxy-related materials if the consent of the registered holder or beneficial owner has been obtained.

(8) National Policy 11-201 *Electronic Delivery of Documents* discusses the sending of materials by electronic means. The guidelines set out in National Policy 11-201 *Electronic Delivery of Documents*, particularly the suggestion that consent be obtained to an electronic transmission of a document, are applicable to documents sent under the Instrument.

(9) Whether persons or companies soliciting proxies may do so in compliance with foreign notice-and-access rules is not contemplated.

(10) A single investor may hold securities of the same class or series in two or more accounts with the same address. Delivering a single set of securityholder materials to that person or company would satisfy the delivery requirements under the Instrument. We encourage this practice as a way to help reduce the costs of securityholder communications.

(11) "Notice-and-access", as used in all of the following provisions of Companion Policy 54-101CP – *Communication with Beneficial Owners of Securities of a Reporting Issuer*, have the same meaning as in the Instrument, in addition to any other required adaptations:

- subsection 3.1(1);
- subsection 3.4.1(2);
- section 5.1.

PART 9 NET ASSET VALUE

Publication of Net Asset Value Per Security

9.1 An investment fund that arranges for the publication of its net asset value per security should calculate its net asset value per security and make the results of that calculation available on its designated website or to the financial press as quickly as is commercially practicable. An investment fund should attempt to meet the deadlines of the financial press for publication in order to ensure that its net asset values per security are publicly available as quickly as possible.

Fair Value Guidance

9.2 Section 14.2 of the Instrument requires an investment fund to calculate its net asset value based on the fair value of the investment fund's assets and liabilities. This may differ from the calculation of "current value" for financial statement purposes. Section 3.6 of the Instrument requires an explanation of this difference.

While investment funds are required to comply with the definition of "fair value" in the Instrument when calculating net asset value, they may also look to the Handbook for guidance on the measurement of fair value. The fair value principles articulated in the Handbook can be applied by investment funds when valuing assets and liabilities.

9.3 [repealed]

Determination of Fair Value in Calculating Net Asset Value

9.4 (1) A market is generally considered active when quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices reflect actual and regularly occurring market transactions on an arm's length

basis. Accordingly, fair value should not reflect the amount that would be received or paid in a forced transaction, involuntary liquidation or distress sale.

(2) A market is not considered to be active, and prices derived from it may be unreliable for valuation purposes, if, at the time the investment fund begins to calculate its net asset value, any of the following circumstances are present:

- markets on which portfolio securities are principally traded closed several hours earlier (e.g. some foreign markets may close as much as 15 hours before the time the investment fund begins to calculate its net asset value)
- trading is halted
- events occur that unexpectedly close entire markets (e.g. natural disasters, power blackouts, public disturbances, or similar major events)
- markets are closed due to scheduled holidays
- the security is illiquid and trades infrequently.

If an investment fund manager determines that an active market does not exist for a security, the manager should consider whether the last available quoted market price is representative of fair value. If a significant event (i.e. one that may impact the value of the portfolio security) has occurred between the time the last quoted market price was established and the time the investment fund begins to calculate its net asset value, the last quoted market price may not be representative of fair value.

(3) Whether a particular event is a significant event for a security depends on whether the event may affect the value of the security. Generally, significant events fall into one of three categories: (i) issuer specific events – e.g. the resignation of the CEO or an after-hours earnings announcement, (ii) market events – e.g. a natural disaster, a political event, or a significant governmental action like raising interest rates, and (iii) volatility events – e.g. a significant movement in North American equity markets that may directly impact the market prices of securities traded on overseas exchanges.

Whether a market movement is significant is a matter to be determined by the manager through the establishment of tolerance levels which it may choose to base on, for example, a specified intraday and/or interday percentage movement of a specific index, security or basket of securities. In all cases, the appropriate triggers should be determined based on the manager's own due diligence and understanding of the correlations relevant to each investment fund's portfolio.

Fair Value Techniques

9.5 The CSA do not endorse any particular fair value technique as we recognize that this is a constantly evolving process. However, whichever technique is used, it should be applied consistently for a portfolio security throughout the fund complex and reviewed for reasonableness on a regular basis.

Valuation Policies and Procedures

9.6 An investment fund's valuation policy should be approved by the manager's board of directors. The policies and procedures should describe the process for monitoring significant events or other situations that could call into question whether a quoted market price is representative of fair value. They should also describe the methods by which the manager will review and test valuations to evaluate the quality of the prices obtained as well as the general functioning of the valuation process. The manager should also consider whether its valuation process is a conflict of interest matter as defined in NI 81-107.

PART 10 CALCULATION OF MANAGEMENT EXPENSE RATIO

Calculation of Management Expense Ratio

10.1 (1) Part 15 of the Instrument sets out the method to be used by an investment fund to calculate its management expense ratio (MER). The requirements apply in all circumstances in which an investment fund calculates and discloses an MER. This includes disclosure in a sales communication, a prospectus, a fund facts document, an ETF facts document, financial statements, a management report of fund performance or a report to securityholders.

(2) Paragraph 15.1(1)(a) requires the investment fund to use its "total expenses" (other than distributions if these are an expense for the investment fund) before income taxes for the relevant period as the basis for the calculation of MER. Total expenses, before income taxes, include interest charges and taxes, including sales taxes, GST and capital taxes payable by the investment fund. Withholding taxes need not be included in the MER calculation.

The CSA is of the view that if an investment fund issues debt-like securities or securities that otherwise provide leverage to the fund, payments to holders of these securities should be treated as financing costs from the perspective of the investment fund's other classes of securities (the classes that benefit from the financing or leverage). These costs should not be excluded from total expenses when calculating the MER of the investment fund's other classes of securities. Securities that provide leverage generally include preferred shares.

Non-optional fees paid directly by investors in connection with the holding of an investment fund's securities do not have to be included in the MER calculation.

(3) The CSA recognize that an investment fund may incur fees and charges that are not included in total expenses, but that reduce the net asset value and the amount of investable assets of the investment fund. Sales commissions paid by an investment fund in connection with the sale of the investment fund's securities are an example of such fees and charges. We believe that these fees and charges should be reflected in the MER of the investment fund.

(4) While brokerage commissions and other portfolio transaction costs are expenses of an investment fund for accounting purposes, they are not included in the MER. These costs are reflected in the trading expense ratio.

(5) In its management report of fund performance, an investment fund must disclose historical MERs for five years calculated in accordance with Part 15. If the investment fund has not calculated the historical MERs in the manner required by the Instrument, we are of the view

that the change in the method of calculating the MER should be treated in a manner similar to a change in accounting policy under International Accounting Standard 8 *Accounting Policies, Changes in Accounting Estimates and Errors*. Under Canadian GAAP, a change in accounting policy requires a retrospective application of the change for all periods shown. However, the Handbook acknowledges that there may be circumstances where the data needed to restate the financial information is not reasonably determinable.

If an investment fund restates its MER for any of the five years it is required to show, the investment fund should describe this restatement in the first document released and in the first management report of fund performance in which the restated MERs are reported.

If an investment fund does not restate its MER for prior periods because, based on specific facts and circumstances, the information required to do so is not reasonably determinable, the MER for all financial periods ending after the effective date of the Instrument must be calculated in accordance with Part 15. In this case, the investment fund must also disclose

- (i) that the method of calculating MER has changed, specifying for which periods the MER has been calculated in accordance with the change;
- (ii) that the investment fund has not restated the MER for specified prior periods;
- (iii) the impact that the change would have had if the investment fund had restated the MER for the specified prior periods (for example, would the MER have increased or decreased and an estimate of the increase or decrease); and
- (iv) a description of the main differences between an MER calculated in accordance with the Instrument and the previous calculations.

The disclosure outlined above should be provided for all periods presented until such time as all MERs presented are calculated in accordance with the Instrument.

PART 11 INVESTMENT FUND WEBSITE

Requirement to designate a website

11.1(1) The purpose of Part 16.1 is to improve investor access to investment fund regulatory disclosure and other information that characterizes a fund. Investment funds' websites typically include regulatory disclosure (e.g., a prospectus, a fund facts document, an ETF facts document, continuous disclosure documents), as well as other information on a fund (e.g. a fund profile) and its management (e.g., the names of its investment fund manager, portfolio manager, custodian, trustee). Section 16.1.2 of the Instrument does not prescribe the disclosure that must be posted on an investment fund's designated website. The regulatory disclosure that must be posted on an investment fund's designated website is included in other provisions of the securities legislation applicable to reporting investment funds.

(2) The CSA would generally consider that an investment fund's designated website includes a set of webpages on the internet containing links to each other and made available online by the investment fund, its investment fund manager or a person designated by its investment fund manager.

In the CSA's view, an investment fund's designated website must be open-access to everybody and free of charge. The designated website may contain a webpage that is accessible only by the fund's securityholders (for example, with an access code and a password) for the sole purpose of posting confidential or non-public information that is not required by securities legislation.

(3) We note that an investment fund's regulatory disclosure and other information may be disseminated on a website that is established and maintained by the investment fund's manager or a person designated by the fund's manager, which may include a third-party service provider or an affiliate or an associate of the investment fund's manager.

The CSA does not expect an investment fund to create a stand-alone website to fulfil its obligations to post regulatory disclosure on a designated website. In order to improve flexibility and access to disclosure, investment funds may identify as a designated website, the website of another investment fund managed by the same investment fund manager, or of an affiliate or an associate of the investment fund's manager.

In any case, the investment fund's designated website is expected to clearly identify and differentiate between the information applicable to each investment fund. The designated website's user interface should make it clear to investors where information relating to their particular investment can be located.

(4) The Instrument does not specify how an investment fund should structure its designated website. Investment funds may choose to post all regulatory disclosure and other information pertaining to one investment fund on a single webpage dedicated to this fund or instead aggregate some regulatory disclosure and other key information for several investment funds that are part of the same investment fund family into a single webpage. The CSA expect that investment funds and their investment fund managers will adopt a consistent and harmonized structure within an investment fund's designated website in order to avoid any confusion amongst users.

(5) The investment fund's designated website should be designed in a manner that allows an individual investor with a reasonable level of technological skill and knowledge to easily do any of the following:

- (a) access, read and search the information and the documents posted on the website;
- (b) download and print the documents.

(6) Maintenance and supervision of an investment fund's designated website and its content should be accounted for in the compliance systems of the investment fund and its manager. The establishment and maintenance of a compliance system by investment fund managers is required under section 11.1 of NI 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. We also expect investment funds and their managers to take steps to protect themselves against cyber threats. In this respect, they should review and consult guidance issued by securities regulators and self-regulatory organizations.

(7) Investment funds and their investment fund managers should ensure the designated website accurately discloses regulatory disclosure and other information. If inaccurate disclosure regarding a fund is found on the designated website, it should be removed or

updated as soon as possible. A website that contains information that is out-of-date could in certain cases be considered inaccurate and misleading.

The Instrument does not specify the length of time that regulatory disclosure and other information must remain on an investment fund's designated website. The CSA are of the view that regulatory disclosure and other information should stay on a designated website for a reasonable length of time, and at least until replaced with more current information or documents. Some disclosure should be updated more frequently depending on its nature or its importance to current and potential investors (e.g. net asset values per security and past performance).

We generally encourage investment funds and their managers to archive documents or information that may retain historical or other value to investors on the designated website. However, documents or information that mislead investors should be removed.

(8) An investment fund and its manager may create hyperlinks leading to third-party websites. In such cases, a warning informing individuals that they are about to leave the investment fund's designated website may be appropriate.

(9) Section 16.1.2, sets out that an investment fund designates its website by identifying it in a specified location of the investment fund's prospectus, or its annual information form if it is required to file one under section 9.2. Where a prospectus or annual information form is prepared in respect of more than one investment fund, the designated websites of each investment fund, where they are different, should be disclosed.

When the fund designates its website under section 16.1.2, that website becomes the fund's designated website, including for the purpose of all requirements where a fund is required to disclose a designated website. For example, as required in Item 1 of Part I of Form 41-101F4 *Information Required in an ETF Facts Document* and in Item 1 of Part I of Form 81-101F3 *Contents of Fund Facts Document*, the website noted in the ETF facts document or fund facts document must reference the same website. If the address of the designated website is modified, it would be acceptable for the website located at the previous address to redirect visitors to the new address of the designated website, with a corresponding update to the prospectus or annual information form, and each other document that is required to refer to the designated website, occurring at the time of the next renewal or filing.

(10) Investment fund managers should consider the guidance concerning outsourcing found in sections 7.3 and Part 11 of the Companion Policy 31-103 CP, including that which indicates that the investment fund manager is responsible for any functions delegated or outsourced and must supervise the service provider.

APPENDIX A
EXAMPLES OF FILING REQUIREMENTS FOR CHANGES IN YEAR END

The following examples assume the old financial year ended on December 31, 20X0

| Transition Year | Comparative Annual Financial Statements to Transition Year | New Financial Year | Comparative Annual Financial Statements to New Financial Year | Interim Periods for Transition Year | Comparative Interim Periods to Transition Year | Interim Periods for New Financial Year | Comparative Interim Periods to New Financial Year |
|--------------------------|---|---------------------------|--|--|---|---|--|
| Up to 3 months | | | | | | | |
| 3 months ended 3/31/X1 | 12 months ended 12/31/X0 | 3/31/X2 | 3 months ended 3/31/X1 and 12 months ended 12/31/X0 | Not applicable | Not applicable | 6 months ended 9/30/X1 | 6 months ended 9/30/X0 |
| 4 to 6 months | | | | | | | |
| 6 months ended 6/30/X1 | 12 months ended 12/31/X0 | 6/30/X2 | 6 months ended 6/30/X1 and 12 months ended 12/31/X0 | Not applicable | Not applicable | 6 months ended 12/31/X1 | 6 months ended 12/31/X0 |
| 7 or 8 months | | | | | | | |
| 8 months ended 8/31/X1 | 12 months ended 12/31/X0 | 8/31/X2 | 8 months ended 8/31/X1 and 12 months ended 12/31/X0 | Not applicable | Not applicable | 6 months ended 2/28/X2 | 6 months ended 2/28/X1 |
| 9 to 11 months | | | | | | | |
| 11 months ended 11/30/X1 | 12 months ended 12/31/X0 | 11/30/X2 | 11 months ended 11/30/X1 | 6 months ended 6/30/X1 | 6 months ended 6/30/X0 | 6 months ended 5/31/X2 | 6 months ended 5/31/X1 |
| 11 to 15 months | | | | | | | |
| 15 months ended 3/31/X2 | 12 months ended 12/31/X0 | 3/31/X3 | 15 months ended 3/31/X2 | 6 months ended 6/30/X1 | 6 months ended 6/30/X0 | 6 months ended 9/30/X2 | 6 months ended 9/30/X1 |
