Preamble

Background
The OSC Service Commitment was established to provide investors, registrants, and market participants with transparency on the standards and timelines they can expect when interacting with the OSC. As part of our ongoing commitment to accountability and transparency, this quarterly report has been created to provide timely updates to stakeholders on our performance against these targets. This report covers the period from April 1 to June 30, 2023.

Performance Measurement
Each service standard has a corresponding performance target; this represents our commitment to the service level that stakeholders can expect when interacting with the OSC. The performance target generally applies for routine matters and assumes that applications and filings are received in an acceptable form. For more information on what this means, refer to the full OSC Service Commitment document on the OSC website.

Performance results against each standard are collected and presented on a quarterly basis for greater transparency.

Important Note
The service standards in this report note the timelines and targets applicable for the Q1 2023-2024 reporting period. This includes the service standard changes resulting from the OSC’s most recent annual service commitment review which took effect starting April 1, 2023.

Five fiscal quarters of performance results are shown within this report. In instances where service standards have been updated within the last five quarters, the most up-to-date standards as of Q1 2023-2024 are noted along with their effective date. Past results reflect our performance against the service standards applicable at the time. To see previous service standards or commentary for any standards not met, please refer to the applicable OSC Service Standards Reporting posted quarterly to the OSC website.
Summary of Results

In Q1 2023-2024, staff continued to provide a high level of service to our stakeholders. There were 37 service standards applicable for measurement this quarter, representing services requested. Where a service is not requested (e.g., no applications), the measurement is N/A and not included in the total number of service standards met/not met. Overall, for services requested, the OSC met or exceeded 97% (36 out of 37) of its quarterly performance targets in Q1 2023-2024. We have provided explanations for all Q1 standards that were not met; for any prior quarters, please refer to the corresponding quarterly reports.
