(collectively, the Final Changes).

Provided all necessary regulatory and ministerial approvals are obtained, the Final Amendments will come into force on April 16, 2024.

The text of the Final Amendments and the Final Changes is contained in Annexes B through I of this notice and will also be available on websites of CSA jurisdictions, including:

www.lautorite.qc.ca www.albertasecurities.com www.bcsc.bc.ca nssc.novascotia.ca www.fcnb.ca www.osc.ca www.osc.ca www.fcaa.gov.sk.ca www.mbsecurities.ca

Substance and Purpose

The Final Amendments and the Final Changes implement an access model for prospectuses, generally, for non-investment fund reporting issuers (the **Access Model**). The Access Model for prospectuses provides alternative procedures whereby access may be provided to a final prospectus or a preliminary prospectus, as applicable.

Under the Access Model,

- in all jurisdictions except British Columbia, Québec and New Brunswick, providing public electronic access to a
 prospectus and alerting investors that the document is accessible through SEDAR+ will constitute delivery for
 prospectuses, generally, under securities legislation;
- in British Columbia, Québec and New Brunswick, providing public electronic access to a prospectus and alerting
 investors that the document is accessible through SEDAR+ will satisfy the conditions of an exemption from the
 requirement under securities legislation to send a prospectus (the **Delivery Exemption**);
- delivery of a prospectus will occur, or the conditions of the Delivery Exemption will be met, when:
 - the prospectus is filed on SEDAR+, and
 - where applicable, a news release is issued and filed on SEDAR+ indicating that the prospectus is accessible through SEDAR+ and that an electronic or paper copy can be obtained upon request.

In British Columbia, Québec and New Brunswick, the Access Model is structured as an exemption from the delivery obligation, as this approach better aligns with the legislative authority in those jurisdictions, while in all other jurisdictions the Access Model is structured to satisfy the delivery obligation under securities legislation. However, the access procedures are substantially equivalent to the conditions of the Delivery Exemption. In either case, the Access Model is intended to achieve the same outcome of providing investors with electronic access to a final prospectus or preliminary prospectus, as applicable.

We recognize that information technology is an important and useful tool in facilitating communication with investors. The purpose of the Access Model is to modernize the way prospectuses are made accessible to investors and reduce costs associated with the printing and mailing of prospectuses, which are currently borne by issuers. The Access Model for prospectuses offers benefits for both issuers and investors by providing a more cost-efficient, timely and environmentally friendly manner of communicating information to investors than paper delivery.

We understand that investors that are involved in a prospectus distribution are actively engaged by virtue of their interest in the offering and are communicating with a dealer who provides them with information about the distribution. We also understand that, when considering an investment in prospectus distributions, investors are aware that information relevant to their decision making is accessible through SEDAR+ and do not generally wait for, or rely on, paper delivery of a prospectus to inform their investment decision. The Access Model is consistent with the general evolution of our capital markets, including how investors are increasingly accessing and consuming information electronically.

The Access Model is not mandatory for issuers. Also, prospective purchasers or purchasers will have the ability to request a copy of a preliminary prospectus or final prospectus in electronic or paper form. A prospective purchaser that has been solicited to purchase under a prospectus distribution or that has indicated an interest in purchasing under a prospectus distribution without having been solicited, will usually already have a relationship with a dealer, or will otherwise have taken steps to become aware of the distribution before purchasing the securities. The prospective purchaser or purchaser is able to get the information they need to make an informed investment decision about the securities, including obtaining a copy of, or getting access to, the preliminary prospectus or the final prospectus. On this basis, the Access Model is well suited for prospectuses because it reduces regulatory burden on issuers without compromising investor protection and the efficiency of the capital markets.

Background

On January 9, 2020, we published CSA Consultation Paper 51-405 *Consideration of an Access Equals Delivery Model for Non-Investment Fund Reporting Issuers*. The purpose of the consultation was to provide a forum for discussion on the appropriateness of implementing an access model in the Canadian market. We solicited views on whether an access model should be introduced, the types of documents to which the model should apply and its mechanics.

At that time, a significant majority of commenters expressed general support for implementing an access model in Canada. In light of the comments received and our analysis, we considered it appropriate to prioritize implementing an access model for prospectuses generally, annual financial statements, interim financial reports and related management's discussion and analysis (MD&A).

Summary of Written Comments Received by the CSA

On April 7, 2022, we published for comment proposed amendments and proposed changes to implement an access model for prospectuses generally, and for annual financial statements, interim financial reports and related MD&A for non-investment fund reporting issuers (the **Proposed Access Model**). During the comment period, which ended on July 6, 2022, we received submissions from 29 commenters. We have considered the comments received and thank the commenters for their input. The names of commenters and a summary of their comments, together with our responses, are contained in Annex A of this notice.

The Proposed Access Model for prospectuses was generally well received by commenters. However, several commenters expressed concerns about implementing the Proposed Access Model for annual financial statements, interim financial reports and related MD&A (**CD documents**). Following feedback on the Proposed Access Model for CD documents, the CSA is further considering ways to enhance the access model for these documents to address investor protection concerns, including potential negative effects on retail investors. In due course, subject to relevant approvals, we anticipate publishing a revised access model for CD documents to address model.

Summary of Changes to the Proposed Access Model

After considering the comments received, we made changes to the Proposed Access Model and the Final Amendments and the Final Changes reflect certain of the comments and improve or clarify the procedures, including the following:

1. Clarified that the Access Model is not mandatory

The Access Model is not mandatory. However, in light of certain comments that suggested this was not clear, we have clarified that the Access Model provides alternative procedures for an issuer to provide electronic access to a final prospectus or preliminary prospectus, as applicable.

We also revised the Final Amendments and the Final Changes to indicate that the requirement under securities legislation to deliver or send a prospectus or any amendment may be satisfied, or the conditions of the Delivery Exemption are met, by providing access to the document in accordance with the alternative procedures under the Access Model.

2. Guidance on dealer's obligation under securities legislation

We added guidance in 41-101CP, 44-102CP and 44-103CP to clarify that a dealer may rely on the Access Model to satisfy, or be exempt from, the requirement under securities legislation to deliver or send a prospectus and any amendment.

3. Purchaser's or subscriber's rights

We added guidance in 41-101CP, 44-102CP and 44-103CP to clarify that a request for an electronic or paper copy of the final prospectus or any amendment will not affect the calculation of the period of time during which a purchaser or subscriber's rights must be exercised.

4. News release contents

We added guidance in 41-101CP, 44-102CP and 44-103CP to clarify that a news release containing information relevant to the applicable offering may also include the information required under the Access Model.

5. News release for shelf distributions and post-receipt pricing (**PREP**) prospectuses

As the Access Model has been adapted to suit the particularities of different types of prospectuses, we revised the news release requirement for shelf prospectuses and PREP prospectuses to allow a forward-looking notice that the document will be accessible through SEDAR+ within 2 business days.

We recognize that in some circumstances, an issuer may issue a news release disclosing material information with respect to an offering prior to the filing of the final prospectus. For example, a news release is commonly issued immediately after pricing is determined for shelf prospectuses and PREP prospectus offerings. Subsection 6.4(2) of NI 44-102 and section 4.8 of NI 44-103 impose prescribed time limits for filing a shelf prospectus supplement and supplemented PREP prospectus, respectively, once the offering price of the securities to which the document pertains is determined.

Given the specified time limits for filing shelf prospectus supplements and supplemented PREP prospectuses, we are of the view that it is appropriate to allow the prescribed news release under the Access Model to be issued within 2 business days before the date the document is filed. The Final Amendments will allow an issuer to issue a single news release that satisfies the objective of the news release requirement under the Access Model.

6. Copy of a preliminary prospectus

We removed the 2-day time limit <u>within</u> which an issuer or dealer must send a copy of the preliminary prospectus if requested by a prospective purchaser in accordance with securities legislation.

The ability for purchasers and prospective purchasers to request an electronic or paper copy of a final prospectus and preliminary prospectus, as applicable, is a fundamental aspect of the Access Model. Under the Access Model, a copy of the preliminary prospectus or any amendment must be sent by the issuer or dealer without charge to a prospective purchaser that requests a copy. However, unlike the right of withdrawal, revocation or cancellation in connection with a final prospectus, we acknowledge that there is no time sensitive action required from, or investment decision by, prospective purchasers in connection with a preliminary prospectus. Therefore, we are of the view that the time limit to send a copy of the preliminary prospectus, if requested by a prospective purchaser, is not necessary.

As we do not consider these to be material changes, we are not republishing the Final Amendments and the Final Changes for a further comment period.

Local Matters

Where applicable, an additional annex is being published in any local jurisdiction that is making related changes to local securities laws, including local notices or other policy instruments in that jurisdiction. It also includes any additional information that is relevant to that jurisdiction only.

Subject	Summarized Comments	CSA Responses
Generally, supportive of the Proposed Access Model	 14 commenters expressed general support for implementing the Proposed Access Model in the Canadian market. These commenters noted a number of potential benefits, including that this model would: reduce regulatory burden and costs associated with printing and mailing documents for issuers, without compromising investor protection; modernize the way documents are made available to investors; promote a more environmentally friendly manner of communicating information to investors; recognize information technology as an important tool improving timely communication with investors; still allow for the delivery of paper copies for those investors who prefer to receive documents in that format; allow more efficient review of documents in electronic format rather than paper format. 7 of the 14 commenters acknowledged that there are potential limitations to implementing the Proposed Access Model, including that the model: does not provide meaningful notice of the availability and/or actual delivery, of a disclosure document; relies on SEDAR as the tool for accessing important company documents although it is not generally considered user-friendly and is not widely used by retail investors; potentially conflicts with requirements under securities law, as well as outside of securities legislation; requires investors to take action to access information about issuers, such as following the news releases of specific issuers. 	Ve thank the commenters for their views. We think that implementing the Access Model for prospectuses is appropriate because it provides several potential benefits, including promoting an environmentally friendly manner of communicating information to investors and recognizing information technology as an important tool in facilitating such communication. In our analysis, we considered that investors that are involved in a prospectus distribution are actively engaged by virtue of their interest in the offering and are communicating with a dealer who provides them with information about the offering. We understand that these investors generally do not wait to receive a paper copy of the prospectus to make their investment decision. We acknowledge the potential limitations identified but we note that many relate to implementing this model for CD documents. We are considering ways to enhance the access model for CD documents to address investor protection concerns, including potential negative effects on retail investors. Subject to relevant approvals, we anticipate publishing a revised access model for CD documents in due course. This would allow stakeholders an opportunity to evaluate and comment on any revised model we might develop.
Generally, not supportive of the Proposed Access Model	 14 commenters did not generally support implementing the Proposed Access Model in the Canadian market, most particularly for CD documents. These commenters noted a number of limitations, including that this model would: not provide meaningful notice of the availability, or actual delivery, of a disclosure document; rely on SEDAR as the tool for accessing important company documents although there is little knowledge or understanding of SEDAR among retail investors; not enhance efficient and timely communication with investors; shift the delivery burden on investors by requiring them to take steps to obtain information; require the use of information technology and make access to information subject to potential technology failure; have a negative impact on investor engagement, especially for retail investors; 	We thank the commenters for their views. We acknowledge the views expressed by commenters objecting to the implementation of the Proposed Access Model but we note that many of the limitations identified relate to implementing this model for CD documents. As mentioned above, we are continuing our work to address these comments as they relate to CD documents. We would like to remind commenters that investors can request electronic or paper copies of documents, or provide standing instructions to their intermediaries, in accordance with their preferences.

SUMMARY OF COMMENTS AND CSA RESPONSES

Subject	Summarized Comments	CSA Responses
	 not significantly reduce cost for issuers and may actually increase them for most average issuers; create confusion for investors, who would receive personal notifications for some of their holdings and would need to search for others. 10 of the 14 commenters acknowledged that there are potential benefits to implementing the Proposed Access Model, including that the model: 	
	 allows for the delivery of paper copies for those investors who prefer to receive documents in that format; reduces the reporting burden and costs associated with mailing and printing of documents for issuers; facilitates the communication of information to investors in a more environmentally friendly manner, and cost-efficient and timely manner; allows for a more efficient review of documents in electronic format rather than paper format. 	
Implementing the Proposed Access Model for prospectuses	 6 commenters suggested that the Proposed Access Model should also be an option available for rights offerings (which term may need to be defined in order to reduce ambiguity), medium-term note programs and other continuous distributions under a shelf prospectus, with the necessary practical adjustments, especially with respect to the issue and file a news release to alert investors that the document is available electronically should be made optional and/or that issuers and dealers be given the alternative, or even be encouraged, to provide notifications, such as through a subscription-based system, via their own websites or other electronic means of communication rather than via SEDAR. 2 commenters that are generally not supportive of implementing the Proposed Access Model expressed the view that implementing the access model for prospectuses was more appropriate than for CD documents as, in the context of prospectuses, investors are generally more sophisticated and are actively engaged in the process of buying the securities being offered. 2 commenters suggested that the Proposed Access Model should be an option rather than a requirement for all prospectus deliveries to allow for other delivery options, and that the Proposed Access Model should be canoption rather than a requirementers suggested that the prospectus should contain an additional cross-reference on the front page to alert investors to the section explaining how this withdrawal period is calculated. 2 commenters suggested that more information should be added in the proposed statement to be included in the news release regarding investor's 	We thank the commenters for their views. We are moving forward with implementing an Access Model for prospectuses. We would like to remind commenters that the Access Model is not mandatory; it is an option available for issuers. We acknowledge the comments asking that we extend the Access Model for prospectuses to rights offerings, medium-term note programs and other continuous distributions under a shelf prospectus. We note that these distributions are dealt with in a different manner in our rules and that the Access Model is not well suited for these distributions. Accordingly, we are not extending the Access Model to these types of distributions at this time. We think that the requirement to issue and file a news release is appropriate since it serves as a public notice that the prospectus is accessible through SEDAR+. Also, the news release specifies that an electronic or paper copy of the document can be obtained upon request. We note that several commenters agreed with the information to be included in the news release. The amendments require a cross- reference on the front page of the prospectus to alert investors to the

	right to request a paper or electronic copy of the prospectus, such as the name of the disclosure document(s) being issued with direct hyperlinks, a toll-free number, highlights on any timing considerations an investor should be aware of and on any applicable rescission/withdrawal rights, as well as a form to request paper copies if desired.	disclosure explaining how the withdrawal right period is calculated under the Access Model.
Implementing the Proposed Access Model for CD documents	 3 commenters questioned the view of the CSA that retail investors were "generally aware" of filing timelines, especially with respect to companies incorporated in multiple jurisdictions, foreign issuers, and a full portfolio of companies with different quarter- and year-ends. 	We thank the commenters for their feedback and, as mentioned above, we are continuing our work on the Proposed Access Model for CD documents.
Proposed Access Model - News release component	 13 commenters did not support relying on a news release to alert investors that the document is available electronically as it is not sufficient or appropriate to give notice to retail investors in this manner. 9 commenters agreed that a news release is sufficient and appropriate to alert investors that the document is available electronically, and that this requirement is not particularly onerous or unduly costly for issuers. 3 commenters suggested that, if the requirement to file news releases is to remain under the Proposed Access Model, issuers should be allowed to issue and file news releases announcing document availability <i>prior</i> to the SEDAR filing date and prospectively specify the date on which (or by which) the applicable document would be filed. A separate news release could be issued to update the market in the event that an issuer becomes unable to complete the filing of the applicable document on or by the date specified. 2 commenters suggested that issuers should be allowed to use alternative forms of notice sent directly to purchasers. 	We thank the commenters for their views. We note that a news release is relied on to inform stakeholders of an issuer's activities, for example a material change in the affairs of a reporting issuer. We continue to think that a news release is a sufficient and appropriate way to alert investors that a document is accessible through SEDAR+. After further analysis, we concluded that it is appropriate to permit an issuer to provide a forward-looking news release prior to filing a document informing when a prospectus supplement or supplemented PREP prospectus will be accessible through SEDAR+. We think this is appropriate because there are specified time limits for filing these documents under securities legislation. We are of the view that allowing an issuer to issue a single news release disclosing material information with respect to a prospectus offering in these circumstances satisfies the objective of the news release requirement under the Access Model. In addition to any required news release under the Access Model, issuers can use alternative forms of notices that are sent directly to investors.
Proposed Access Model - SEDAR	 12 commenters suggested that the Proposed Access Model should not be implemented before the new SEDAR+ platform has been launched and used by investors. 9 commenters suggested that the new SEDAR+ platform should include a feature allowing investors to subscribe for push notifications alerting them of the filing of documents and/or to directly receive those documents. 4 commenters suggested that a direct hyperlink to the issuer's disclosure record and other features to 	We note that SEDAR+ was launched on July 25, 2023. We take note of the suggestions that investors be able to subscribe to a notification alerting them that a document has been filed and to use other features to pull information from SEDAR+.

Subject	Summarized Comments	CSA Responses
	pull information from SEDAR+ and repurpose it for electronic delivery to investors should be available.	
Proposed Access Model - Electronic or paper copy	 3 commenters suggested that the process of requesting paper delivery, providing standing instructions and changing those instructions should be facilitated by the Proposed Access Model. 2 commenters further suggested that mailing timelines should be enforced. 	We acknowledge these comments, and the amendments specify that when an electronic or paper copy of the final prospectus is requested, it must be provided within 2 business days.
Alternative	 14 commenters suggested requiring issuers to use electronic delivery (or 'push notification') to notify of the availability of documents and deliver them within the email or through a direct hyperlink or QR code, with the ability to download and print the document. 12 commenters suggested that issuers should be required to have a website (or social media channel) hosting an electronic copy of the document with an investor notification alert option. 2 commenters further suggested some standardization for the location, presentation and retention of the documents on issuers' websites. 4 commenters suggested that investors should be able to access information by any preferred means, including via SEDAR and/or issuer websites, email distribution or paper delivery, and that accessing the Proposed Access Model should be optional for issuers and investors. 2 commenters suggested that the CSA should examine means of using brokers' internet platforms through which many retail investors already access information as a means of notice and electronic delivery. 	We note that issuers can provide push notifications or alerts or post documents on their websites if they deem it appropriate. We would also like to remind commenters that the Access Model is not mandatory; it is an option available for issuers. As mentioned above, we take note of the suggestions that investors be able to subscribe to a notification alerting them that a document has been filed and the use of brokers' internet platforms.
Implementing the Proposed Access Model for other types of documents	 10 commenters did not support implementing the Proposed Access Model for proxy-related materials, and takeover bid and issuer bid circulars. 2 commenters submitted that extending the Proposed Access Model to time sensitive documents requiring participation raises investor protection concerns, at least until the access model is better understood by investors and supported by enhanced system access. 2 commenters supported implementing the Proposed Access Model for the annual information form, especially considering the proposed amendments to National Instrument 51-102 <i>Continuous Disclosure Obligations</i> to combine the MD&A and AIF in one reporting document (the "annual disclosure statement"). 	We take note of these comments, and we agree that it is not appropriate, at this time, to extend the Proposed Access Model to proxy-related materials, takeover bid and issuer bid circulars. As mentioned above, we are continuing our work to address these comments as they relate to CD documents.
Other comments	 7 commenters suggested that some education should be provided to investors regarding the importance of disclosure documents, the Proposed Access Model and how to navigate SEDAR (and ultimately SEDAR+) and access those documents. 6 commenters agreed that the Proposed Access Model should not be extended to investment fund reporting issuers. 	We thank the commenters for their views. Some of these comments were shared with our CSA colleagues working on other CSA initiatives since they relate to those projects. The CSA will be monitoring how the Access Model is being used and will

Subject	Summarized Comments	CSA Responses
	 4 commenters suggested that the Proposed Access Model should be tested over a certain period of time (varying from 6 to 12 months) to make adjustments based on investors' experience. 4 commenters suggested that the Proposed Access Model should be adopted without delay once they have been finalized. 2 commenters suggested that a harmonized approach to the Proposed Access Model among the CSA would be most appropriate. 2 commenters encouraged the CSA to consider the compatibility of the regime with current delivery requirements under the various securities and corporate law provisions and engage with corporate law regulators in order to address and solve any potential incoherence or inefficiencies that may arise with the adoption of the Proposed Access Model. 2 commenters expressed the view that for the average issuer, the costs of relying on the Proposed Access Model would exceed the savings, which would deter them from using the access model. They are of the view that digital delivery would, on the other hand, provide cost savings to virtually all companies. 	consider whether any adjustments are warranted. We also want to remind commenters that although the drafting in the amendments is not identical for all jurisdictions, the Access Model is intended to achieve the same outcome of providing investors with electronic access to a particular document. We recognize that issuers may still be required to comply with certain delivery requirements under corporate law and other applicable requirements to which they may be subject. However, we do not view these potential limitations as roadblocks to introducing an Access Model under securities legislation. Data limitations present challenges to quantifying all the costs and benefits of an access model. But as mentioned above the Access Model is not mandatory; it is an option available for issuers.

COMPANION POLICY 41-101CP TO NATIONAL INSTRUMENT 41-101 GENERAL PROSPECTUS REQUIREMENTS

1. Companion Policy 41-101CP to National Instrument 41-101 General Prospectus Requirements is changed by this Document.

2. The following section is added after section 2.11:

Revocation of purchase – Alberta

2.12 In Alberta, section 130 of the *Securities Act* (Alberta) provides that an agreement to purchase securities is not binding on the purchaser if the dealer receives notice in writing that the purchaser does not intend to be bound by the agreement to purchase within the timelines set out in the regulations. If access to the final prospectus or any amendment is provided in accordance with subsection 2A.5(2) of the Instrument, the applicable timeline is that set forth in section 2A.4(3) of the Instrument. Otherwise, the applicable timeline is that set forth in Alberta Securities Commission Rule 46-503 *Revocation of Purchase*.

3. The following part is added after Part 2:

PART 2A: Access to a Prospectus

Delivery obligation

2A.1 Securities legislation generally requires a dealer who receives an order to purchase a security offered in a distribution to deliver or send to the purchaser a copy of the prospectus and any amendment. Securities legislation generally requires a dealer who solicits expressions of interest from a prospective purchaser to deliver or send to the prospective purchaser a copy of the preliminary prospectus and any amendment.

Part 2A of the Instrument provides alternative procedures whereby a dealer may provide access to a preliminary prospectus, final prospectus and any amendment. In British Columbia, Québec and New Brunswick, the alternative procedures are structured as an exemption from the delivery obligation, while in all other jurisdictions the alternative is structured as procedures to provide access to the preliminary prospectus, final prospectus and any amendment. The access procedures and the conditions of the exemption are substantially equivalent and both result in providing access to a preliminary prospectus, final prospectus and any amendment.

In jurisdictions except British Columbia, Alberta, Québec and New Brunswick, under subsection 2A.2(2) of the Instrument, a dealer may satisfy its delivery obligation under securities legislation if access to the document is provided in accordance with subsection 2A.5(2) or (3) of the Instrument.

In Alberta, under section 2A.3 of the Instrument, a dealer may satisfy its access obligation under securities legislation if access to the document is provided in accordance with subsection 2A.5(2) or (3) of the Instrument.

In British Columbia and New Brunswick, a dealer is provided with an exemption from the requirement in securities legislation to send a preliminary prospectus, final prospectus and any amendment if the conditions set out in subsection 2A.6(1) or (2) of the Instrument are met.

In Québec, a dealer is provided with an exemption from the requirement in securities legislation to send a final prospectus and any amendment if the conditions set out in subsection 2A.6(1) of the Instrument are met. It is permissible to provide access to a preliminary prospectus if the document has been filed on SEDAR+ and a receipt has been issued and posted on SEDAR+ for the document.

Purchaser's or subscriber's rights

2A.2 Subsections 2A.4(2), 2A.4(3), 2A.4(4), 2A.6(4) and 2A.6(5) of the Instrument set out the period of time within which a purchaser's or subscriber's right to withdraw or rescind from, revoke or cancel an agreement to purchase a security or a contract to purchase or a subscription for a security must be exercised when access to a prospectus and any amendment is provided.

For the purposes of section 2A.4 and subsections 2A.6(4) and (5) of the Instrument, securities legislation in a jurisdiction sets out any provisions for who may exercise the right to provide a written notice, whether the notice is required and if so by when and to whom it must be provided, when receipt of the notice is deemed to be provided and who has the onus of proving time to provide a notice has expired.

If a purchaser or subscriber requests an electronic or paper copy of the final prospectus or any amendment from the issuer or dealer as permitted by subsections 2A.5(4) or 2A.6(3) of the Instrument, the request will not affect the calculation of the period of time during which the purchaser or subscriber may exercise these rights.

News release

- **2A.3** To provide access to a prospectus under Part 2A of the Instrument, a news release including prescribed information must be issued and filed on SEDAR+ after a receipt for the final prospectus and any amendment is posted. The requirements under paragraph 2A.5(2)(b) of the Instrument and the conditions under paragraph 2A.6(1)(b) of the Instrument may be satisfied by including the prescribed information in a news release that contains other information, for example a news release announcing information with respect to the applicable offering.
- 4. These changes become effective on April 16, 2024.

ANNEX F

CHANGES TO

COMPANION POLICY 44-102CP TO NATIONAL INSTRUMENT 44-102 SHELF DISTRIBUTIONS

- 1. Companion Policy 44-102CP to National Instrument 44-102 Shelf Distributions is changed by this Document.
- Subsection 2.6(3) is changed by adding ", subject to Part 6A," after "NI 44-102 provides that".

3. Section 2.9 is replaced with the following:

2.9 Delivery Obligations – Purchaser's or Subscriber's Rights – The securities regulatory authorities are of the view that statutory rights of rescission or withdrawal commence from the time of the purchaser's receipt of all relevant shelf prospectus supplements. It is only at this time that the entire prospectus has been delivered.

Subsections 6A.4(2), 6A.4(3), 6A.4(4), 6A.6(4) and 6A.6(5) of the Instrument set out the period of time within which a purchaser's or subscriber's right to withdraw or rescind from, revoke or cancel an agreement to purchase a security or a contract to purchase or a subscription for a security must be exercised when access to a prospectus and any amendment is provided.

For the purposes of section 6A.4 and subsections 6A.6(4) and (5) of the Instrument, securities legislation in a jurisdiction sets out any provisions for who may exercise the right to provide a written notice, whether the notice is required and if so by when and to whom it must be provided, when receipt of the notice is deemed to be provided and who has the onus of proving time to provide a notice has expired.

If a purchaser or subscriber requests an electronic or paper copy of the shelf prospectus supplement, the corresponding base shelf prospectus or any amendment from the issuer or dealer as permitted by subsections 6A.5(4) or 6A.6(3) of the Instrument, the request will not affect the calculation of the period of time during which the purchaser or subscriber may exercise these rights.

4. The following section is added after section 2.9:

2.10 Revocation of Purchase – Alberta – In Alberta, section 130 of the *Securities Act* (Alberta) provides that an agreement to purchase securities is not binding on the purchaser if the dealer receives notice in writing that the purchaser does not intend to be bound by the agreement to purchase within the timelines set out in the regulations. If access to the shelf prospectus supplement, the corresponding base shelf prospectus or any amendment to the documents is provided in accordance with subsection 6A.5(2) of the Instrument, the applicable timeline is that set forth in section 6A.4(3) of the Instrument. Otherwise, the applicable timeline is that set forth in Alberta Securities Commission Rule 46-503 *Revocation of Purchase.*

5. The following part is added after Part 2:

PART 2A ACCESS TO SHELF PROSPECTUS SUPPLEMENTS AND BASE SHELF PROSPECTUSES

2A.1 Delivery Obligation – Securities legislation generally requires a dealer who receives an order to purchase a security offered in a distribution to deliver or send to the purchaser a copy of the prospectus and any amendment. Securities legislation generally requires a dealer who solicits expressions of interest from a prospective purchaser to deliver or send to the prospective purchaser a copy of the preliminary prospectus and any amendment.

Part 6A of the Instrument provides alternative procedures whereby a dealer may provide access to a preliminary prospectus, final prospectus and any amendment. In British Columbia, Québec and New Brunswick, the alternative procedures are structured as an exemption from the delivery obligation, while in all other jurisdictions the alternative is structured as procedures to provide access to the preliminary prospectus, final prospectus and any amendment. The access procedures and the conditions of the exemption are substantially equivalent and both result in providing access to a preliminary prospectus, final prospectus and any amendment.

In jurisdictions except British Columbia, Alberta, Québec and New Brunswick, under subsection 6A.2(2) of the Instrument, a dealer may satisfy its delivery obligation under securities legislation if access to the shelf prospectus supplement, the corresponding base shelf prospectus, the preliminary base shelf prospectus and any amendment to the documents is provided in accordance with subsection 6A.5(2) or (3) of the Instrument.

In Alberta, under section 6A.3 of the Instrument, a dealer may satisfy its access obligation under securities legislation if access to the documents is provided in accordance with subsection 6A.5(2) or (3) of the Instrument.

In British Columbia and New Brunswick, a dealer is provided with an exemption from the requirement in securities legislation to send a shelf prospectus supplement, the corresponding base shelf prospectus, the preliminary base shelf prospectus and any amendment to the documents if the conditions set out in subsection 6A.6(1) or (2) of the Instrument are met.

In Québec, a dealer is provided with an exemption from the requirement in securities legislation to send a shelf prospectus supplement, the corresponding base shelf prospectus and any amendment to the documents if the conditions set out in subsection 6A.6(1) of the Instrument are met. It is permissible to provide access to the preliminary base shelf prospectus and any amendment if the document has been filed on SEDAR+ and a receipt has been issued and posted on SEDAR+ for the document.

- 2A.2 News Release To provide access to a shelf prospectus supplement, the corresponding base shelf prospectus and any amendment under Part 6A of the Instrument, a news release including prescribed information must be issued and filed on SEDAR+ after the supplement and any amendment is filed or within 2 business days before the date the document was filed. The requirements under paragraph 6A.5(2)(c) of the Instrument and the conditions under paragraph 6A.6(1)(c) of the Instrument may be satisfied by including the prescribed information in a news release that contains other information, for example a news release announcing the offering price of the securities or other information with respect to the applicable offering.
- **2A.3 Structured Notes –** Part 6A of the Instrument does not apply to MTN programs and other continuous distributions. The securities regulatory authorities note that MTN programs have routinely been used to distribute structured notes. Structured notes are generally specified derivatives for which the amount payable is determined by reference to the price, value or level of an underlying interest that is unrelated to the operations or securities of the structured note issuer. The securities regulatory authorities expect that structured notes will continue to be distributed under MTN programs or other continuous distributions, as they have been historically, and may have public interest concerns if they are distributed in another manner so that the issuer could rely on the access model permitted in Part 6A..
- 6. These changes become effective on April 16, 2024.

ANNEX H

CHANGES TO

COMPANION POLICY 44-103CP TO NATIONAL INSTRUMENT 44-103 POST-RECEIPT PRICING

1. Companion Policy 44-103CP to National Instrument 44-103 Post-Receipt Pricing is changed by this Document.

2. The following section is added after section 1.4:

1.5 Revocation of Purchase – Alberta – In Alberta, section 130 of the Securities Act (Alberta) provides that an agreement to purchase securities is not binding on the purchaser if the dealer receives notice in writing that the purchaser does not intend to be bound by the agreement to purchase within the timelines set out in the regulations. If access to the supplemented PREP prospectus or any amendment is provided in accordance with subsection 2A.5(2) of the Instrument, the applicable timeline is that set forth in section 2A.4(3) of the Instrument. Otherwise, the applicable timeline is that set forth in Alberta Securities Commission Rule 46-503 Revocation of Purchase.

3. The following part is added after Part 2:

PART 2A ACCESS TO SUPPLEMENTED PREP PROSPECTUSES

2A.1 Delivery Obligation – Securities legislation generally requires a dealer who receives an order to purchase a security offered in a distribution to deliver or send to the purchaser a copy of the prospectus and any amendment. Securities legislation generally requires a dealer who solicits expressions of interest from a prospective purchaser to deliver or send to the prospective purchaser a copy of the preliminary prospectus and any amendment.

Part 2A of the Instrument provides alternative procedures whereby a dealer may provide access to a preliminary prospectus, final prospectus and any amendment. In British Columbia, Québec and New Brunswick, the alternative procedures are structured as an exemption from the delivery obligation, while in all other jurisdictions the alternative is structured as procedures to provide access to the preliminary prospectus, final prospectus and any amendment. The access procedures and the conditions of the exemption are substantially equivalent and both result in providing access to a preliminary prospectus, final prospectus and any amendment.

In jurisdictions except British Columbia, Alberta, Québec and New Brunswick, under subsection 2A.2(2) of the Instrument, a dealer may satisfy its delivery obligation under securities legislation if access to the supplemented PREP prospectus, the preliminary base PREP prospectus and any amendment is provided in accordance with subsection 2A.5(2) or (3) of the Instrument.

In Alberta, under section 2A.3 of the Instrument, a dealer may satisfy its access obligation under securities legislation if access to the documents is provided in accordance with subsection 2A.5(2) or (3) of the Instrument.

In British Columbia and New Brunswick, a dealer is provided with an exemption from the requirement in securities legislation to send a supplemented PREP prospectus, the preliminary base PREP prospectus and any amendment to the documents if the conditions set out in subsection 2A.6(1) or (2) of the Instrument are met.

In Québec, a dealer is provided with an exemption from the requirement in securities legislation to send a supplemented PREP prospectus and any amendment to the documents if the conditions set out in subsection 2A.6(1) of the Instrument are met. It is permissible to provide access to a preliminary base PREP prospectus and any amendment if the document has been filed on SEDAR+ and a receipt has been issued and posted on SEDAR+ for the document.

2A.2 News Release – To provide access to a supplemented PREP prospectus and any amendment under Part 2A of the Instrument, a news release including prescribed information must be issued and filed on SEDAR+ after the document is filed or within 2 business days before the date the document was filed. The requirements under paragraph 2A.5(2)(c) of the Instrument and the conditions under paragraph 2A.6(1)(c) of the Instrument may be satisfied by including the prescribed information in a news release that contains other information, for example a news release announcing the information omitted from the base PREP prospectus or other information with respect to the applicable offering.

4. Section 3.3 is replaced with the following:

3.3 Delivery Obligations – Purchaser's or subscriber's Rights – The securities regulatory authorities are of the view that statutory rights of rescission or withdrawal commence from the time of the purchaser's receipt of a supplemented PREP prospectus. It is only at this time that the entire prospectus has been delivered.

Subsections 2A.4(2), 2A.4(3), 2A.4(4), 2A.6(4) and 2A.6(5) of the Instrument set out the period of time within which a purchaser's or subscriber's right to withdraw or rescind from, revoke or cancel an agreement to purchase a security or a contract to purchase or a subscription for a security must be exercised when access to a prospectus and any amendment is provided.

For the purposes of section 2A.4 and subsections 2A.6(4) and (5) of the Instrument, securities legislation in a jurisdiction sets out any provisions for who may exercise the right to provide a written notice, whether the notice is required and if so by when and to whom it must be provided, when receipt of the notice is deemed to be provided and who has the onus of proving time to provide a notice has expired.

If a purchaser or subscriber requests an electronic or paper copy of the supplemented PREP prospectus or any amendment from the issuer or dealer as permitted by subsections 2A.5(4) or 2A.6(3) of the Instrument, the request will not affect the calculation of the period of time during which the purchaser or subscriber may exercise these rights.

5. These changes become effective on April 16, 2024.

WHEREAS the Ontario Securities Commission (Commission) issued an order dated December 21, 2018 (Exemption Order) exempting The London Metal Exchange (LME) from the requirement to be recognized as an exchange under subsection 21(1) of the OSA and the requirement to be registered as a commodity futures exchange under subsection 15(1) of the CFA (Exchange Relief);

AND WHEREAS under section 38 of the CFA, the Exemption Order also exempts trades in contracts on the LME by a bank listed in Schedule I to the *Bank Act* (Canada) (**Bank**) entering orders as principal and only for its own account from the registration requirement under section 22 of the CFA (**Bank Relief**), subject to certain terms and conditions regarding the expiry of the Bank Relief;

AND WHEREAS, on March 11, 2021, the Commission varied the Exemption Order as part of a broader order to streamline the regulatory reporting requirements applicable to foreign commodity futures exchanges, multilateral trading facilities and swap execution facilities carrying on business in Ontario and reduce regulatory burden (**March 2021 Variation Order**);

AND WHEREAS the LME has applied to the Commission under section 144 of the OSA and under section 78 of the CFA for an order varying the Exemption Order to remove the provision that the Bank Relief will expire five years after the date of the Exemption Order;

AND WHEREAS the Commission has removed similar expiry provisions regarding registration relief granted to Banks trading contracts on other exchanges exempt from recognition under subsection 21(1) of the OSA and on other commodity futures exchanges exempt from registration under subsection 15(1) of the CFA;

AND WHEREAS, based on the application and the representations made to the Commission by the LME, the Commission has determined that it is not prejudicial to the public interest to vary the Exemption Order on the basis requested;

IT IS ORDERED, pursuant to section 144 of the OSA and section 78 of the CFA, that the Exemption Order is varied as follows:

1. Paragraph b.(iii) of the terms and conditions of the Exemption Order is repealed.

DATED this 21st day of December 2023.

Under the Process for Cease to be a Reporting Issuer Applications (for a dual application):

- (a) the Alberta Securities Commission is the principal regulator for this application;
- (b) the Filer has provided notice that subsection 4C.5(1) of Multilateral Instrument 11-102 Passport System (MI 11-102) is intended to be relied upon in British Columbia, Saskatchewan, Manitoba, Québec, New Brunswick, Prince Edward Island, Nova Scotia and Newfoundland and Labrador; and

Interpretation

Terms defined in National Instrument 14-101 *Definitions*, NI 51-102 *Continuous Disclosure Obligations* or MI 11-102 have the same meaning if used in this order, unless otherwise defined.

Representations

This order is based on the following facts represented by the Filer:

- 1. The Filer's head office is located in Plano, Texas. The Filer identifies the Alberta Securities Commission as its principal regulator because it has the most significant connection to Alberta, as a result of its legal counsel being located in Alberta.
- 2. The Filer is a reporting issuer in all of the provinces of Canada. The Filer historically relied on National Instrument 71-102 Continuous Disclosure and other Exemptions relating to Foreign Issuers.

- 3. On November 2, 2023, pursuant to a merger agreement and a plan of merger, ExxonMobil Corporation (ExxonMobil) acquired (the Acquisition) all of the issued and outstanding common shares of the Filer (the Denbury Shares) and the Filer became a wholly-owned subsidiary of ExxonMobil.
- 4. The Denbury Shares were delisted from the New York Stock Exchange prior to the opening of the market on November 2, 2023.
- 5. The Filer is not an "OTC reporting issuer" under Multilateral Instrument 51-105 *Issuers Quoted in the U.S. Over-the-Counter Markets.*
- 6. The outstanding securities of the Filer, including debt securities, are beneficially owned, directly or indirectly, by fewer than 15 securityholders in each of the jurisdictions of Canada and fewer than 51 securityholders in total worldwide.
- 7. No securities of the Filer, including debt securities, are traded in Canada or another country on a marketplace as defined in National Instrument 21-101 *Marketplace Operation* or any other facility for bringing together buyers and sellers of securities where trading data is publicly reported.
- 8. The Filer is not in default of securities legislation in any jurisdiction, except as follows:
 - (a) in respect of its filings for the interim period ended September 30, 2023, filing such documents approximately seven days late;
 - (b) in respect of its materials related to its October 31, 2023 meeting of its security holders to consider, among other things, the Acquisition, certain non-substantive defects as to the form of such materials, and filing them approximately 62 days late;
 - (c) in respect of the notice of termination of registration filed with the SEC, filing such document approximately eight days late.

Order

Each of the Decision Makers is satisfied that the order meets the test set out in the Legislation for the Decision Maker to make the order.

The decision of the Decision Makers under the Legislation is that the Order Sought is granted.

IN THE MATTER OF THE SECURITIES LEGISLATION OF ONTARIO (the Jurisdiction)

AND

IN THE MATTER OF THE PROCESS FOR EXEMPTIVE RELIEF APPLICATIONS IN MULTIPLE JURISDICTIONS

AND

IN THE MATTER OF BMO INVESTMENTS INC. (the Filer)

DECISION

Background

The principal regulator in the Jurisdiction has received an application (the **Application**) from the Filer and any affiliate acting as manager for existing and future investment funds that are or will be managed by the Filer or an affiliate of the Filer (each a **Fund** or collectively, the **Funds**) for a decision under the securities legislation of the Jurisdiction (the **Legislation**) for an exemption from the restriction in subsection 2.15(3) of National Instrument 81-102 *Investment Funds* (**NI 81-102**), that prohibits a manager of an investment fund from appointing an agent (the **Agent**) that is not a custodian or a sub-custodian of the investment fund to act on behalf of the investment fund to administer securities lending, repurchase and reverse repurchase transactions (the **Transactions**) entered into by the investment fund, in order to allow the Filer or any affiliate of the Filer to appoint Securities Finance Trust Company (**eSecLending**) to administer some or all of the Transactions entered into by some or all of the Funds (the **Exemption Sought**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

- (a) the Ontario Securities Commission is the principal regulator for the Application; and
- (b) the Filer has provided notice that subsection 4.7(1) of Multilateral Instrument 11-102 Passport System (MI 11-102) is intended to be relied upon in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Nova Scotia, Prince Edward Island, Quebec, Saskatchewan, Northwest Territories, Nunavut and Yukon (together with Ontario, the Jurisdictions).

Interpretation

Terms defined in National Instrument 14-101 *Definitions*, MI 11-102 and NI 81-102 have the same meaning if used in this decision, unless otherwise defined.

Representations

This decision is based on the following facts represented by the Filer:

The Filer

- 1. The Filer is a corporation amalgamated under the laws of Canada. The Filer is an indirect, wholly-owned subsidiary of Bank of Montreal. The head office of the Filer is located in Toronto, Ontario.
- 2. The Filer is registered as an investment fund manager in Ontario, Quebec, and Newfoundland and Labrador, and as a mutual fund dealer in each of the Jurisdictions.
- 3. The Filer or an affiliate of the Filer is, or will be, the investment fund manager of the Funds.
- 4. BMO Asset Management Inc. (BMOAM) is the portfolio manager of one or more of the Funds.
- 5. BMOAM is registered as a portfolio manager and an exempt market dealer in each of the Jurisdictions, as an investment fund manager in Ontario, Quebec and Newfoundland and Labrador, as a commodity trading manager in Ontario, and as a derivatives portfolio manager in Quebec.
- 6. The Filer is not in default of securities legislation in any of the Jurisdictions.

The Funds

- 7. Each Fund is, or will be, an investment fund organized and governed by the laws of Canada or a Jurisdiction.
- 8. Each Fund is, or will be, governed by the applicable provisions of NI 81-102, subject to any exemptions therefrom that have been, or will in the future be, granted by securities regulatory authorities.
- 9. Each Fund is, or will be, a reporting issuer in one or more Jurisdictions.
- 10. Each existing Fund is not in default of applicable securities legislation in any Jurisdiction.
- 11. The Funds engage, or may engage, in the Transactions as permitted under sections 2.12, 2.13 and 2.14 of NI 81-102.
- 12. In compliance with subsection 2.15(3) of NI 81-102, the current Agent of the Funds is also a custodian or a sub-custodian of the Funds.

The Proposed Agent

- 13. The Filer or an affiliate of the Filer, on behalf of the Funds, proposes to appoint eSecLending as an Agent for some or all of the Funds to administer some or all of the Transactions pursuant to a securities lending agency agreement (the **Agreement**).
- 14. eSecLending is a securities lending agent and non-depository trust company organized under the laws of the State of Vermont in the United States of America. It is regulated as an independent trust company by the Banking Division of the Department of Financial Regulation of the State of Vermont. eSecLending is independent from the Filer and its affiliates.
- 15. eSecLending was founded in 2000 and is one of the largest independent global securities lending agents serving asset management firms, pension plans and other institutional investors in the U.S., Europe and Asia Pacific. As at September 30, 2023, eSecLending services client assets under management of over USD \$6.5 trillion.
- 16. eSecLending maintains offices in Burlington, Vermont, Boston, Massachusetts, and London, England. eSecLending has over 100 employees dedicated solely to securities lending activities and engages in 37 approved lending markets. eSecLending's core business is managing securities lending programs.
- 17. eSecLending satisfies the requirements set out in subsection 6.3(2) of NI 81-102 to qualify as a sub-custodian, other than in paragraph (c), which requires it to have equity, as reported in its most recent audited financial statements, of not less than the equivalent of \$100,000,000.

Necessity for the Exemption Sought

- 18. Under subsection 2.15(3) of NI 81-102, the Filer must appoint a custodian or a sub-custodian of the Funds to act as Agent on behalf of the Funds in administering the Transactions.
- 19. eSecLending was formed as an alternative to the traditional custody model and does not currently offer custodial services. As a result, it cannot be appointed as a custodian or a sub-custodian of the Funds.
- 20. Therefore, absent the Exemption Sought, the Filer or any affiliate of the Filer would be prohibited by subsection 2.15(3) of NI 81-102 from appointing eSecLending as Agent on behalf of the Funds in administering the Transactions.

Generally

- 21. The Filer has a fiduciary duty to the Funds to obtain the best possible service providers for the Funds, and in the opinion of the Filer, eSecLending is currently the best qualified service provider to act as Agent for the Funds in the Transactions.
- 22. eSecLending is qualified to act as the Funds' Agent for the Transactions and has extensive experience in managing securities lending programs.
- 23. The Filer's research suggests that if the Funds were permitted to engage eSecLending as Agent for the Transactions, and if BMOAM provided its securities lending expertise to assist eSecLending, the Funds' returns from securities lending arrangements would increase, as the Filer believes that significant revenues would be generated, which would benefit the securityholders of the Funds.
- 24. The Filer expects that by appointing eSecLending as Agent, the Funds will be able to improve their revenue generated from securities lending activities for the following reasons:
 - (a) eSecLending creates bespoke securities lending programs that are designed to enhance returns for investment funds based solely on the characteristics of the relevant investment fund and its lendable securities, whereas custodial lending programs typically pool securities across investment funds which often leads to lower utilization and lending returns.
 - (b) eSecLending also provides market and transaction level detail in its reporting to allow investment funds to better evaluate and optimize lending activities, whereas the Funds' existing custodial Agent does not provide similar information to evaluate program performance.
- 25. The use of Agents that are not a custodian or a sub-custodian of an investment fund is a well established practice in the U.S. and Europe.
- 26. From an operations and record-keeping perspective there is no increased risk for the Funds if eSecLending is appointed as Agent. If eSecLending were appointed, the Transactions would continue to be processed through accounts held in the Funds' name at the Funds' custodian, and eSecLending as the Agent would be provided with authority over the Funds' accounts to instruct the custodian with respect to the movement of the Funds' assets, and the custodian would continue to maintain records of all activity. The custodian would retain possession of the Funds assets, including any collateral delivered from borrowers, in the same manner as if it were acting as Agent.
- 27. The Funds' current custodian has experience working with eSecLending, and would continue to act as the custodian of the Funds' assets if the Exemption Sought is granted.
- 28. The Filer will update each existing Fund's prospectus at the next renewal to include disclosure regarding the appointment of eSecLending as the Funds' Agent to engage in the Transactions.
- 29. The Agreement will require eSecLending to comply with NI 81-102 in respect of its securities lending activities on behalf of the Funds, including the requirement to comply with the standard of care set out in subsection 2.15(5) of NI 81-102.
- 30. The indemnity to be provided by eSecLending to the Funds in the Agreement will be substantively the same as the indemnity provided by the current Agent to the Funds.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the Exemption Sought is granted.

AND

IN THE MATTER OF THE PROCESS FOR EXEMPTIVE RELIEF APPLICATIONS IN MULTIPLE JURISDICTIONS

AND

IN THE MATTER OF BMO ASSET MANAGEMENT INC. (the Filer)

AND

BMO GOLD BULLION ETF (the Fund)

DECISION

Background

The principal regulator in the Jurisdiction has received an application (the **Application**) from the Filer on behalf of the Fund for a decision under the securities legislation of the Jurisdiction (the **Legislation**) that exempts the Fund from:

- (a) subsection 6.1(1) of NI 81-102 to permit the Bank of Montreal (**BMO**) to act as custodian to hold the Fund's physical gold bullion (**Bullion**), and
- (b) subsection 9.4(2) of National Instrument 81-102 *Investment Funds* (**NI 81-102**), to permit the Fund to accept a combination of cash and Bullion as subscription proceeds for units of the Fund (**Units**)

(collectively, the **Exemption Sought**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

- (a) the Ontario Securities Commission is the principal regulator for the Application; and
- (b) the Filer has provided notice that subsection 4.7(1) of Multilateral Instrument 11-102 Passport System (MI 11-102) is intended to be relied upon in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Northwest Territories, Nova Scotia, Nunavut, Québec, Prince Edward Island, Saskatchewan and Yukon (together with Ontario, the Jurisdictions).

Interpretation

Terms defined in National Instrument 14-101 *Definitions*, MI 11-102 and NI 81-102 have the same meaning if used in this decision, unless otherwise defined. In addition, the following terms have the following meanings:

(a) **Basket** means Bullion in such amount as determined by the Filer in its discretion from time to time.

- (b) **Dealer** means a dealer (that may or may not be a Designated Broker) that enters into a continuous distribution agreement with the Filer, or an affiliate of the Filer, on behalf of the Fund, pursuant to which the Dealer may subscribe for and purchase Units from the Fund.
- (c) **Designated Broker** means a dealer that enters into an agreement with the Filer, or an affiliate of the Filer, on behalf of the Fund to perform certain duties in relation to the Fund.
- (d) **Prescribed Number of Units** means the number of Units determined from time to time for the purpose of subscription orders, exchanges, redemptions or for other purposes.

Unless otherwise specified, all references to money amounts are to the lawful currency of Canada.

Representations

This decision is based on the following facts represented by the Filer:

The Filer

- 1. The Filer is a corporation incorporated under the laws of the Province of Ontario. The Filer is an indirect, wholly-owned subsidiary of BMO. The head office of the Filer is located in Toronto, Ontario.
- 2. The Filer is registered as a portfolio manager and exempt market dealer in each of the Jurisdictions, as an investment fund manager in Ontario, Quebec and Newfoundland and Labrador, as a commodity trading manager in Ontario, and as a derivatives portfolio manager in Quebec.
- 3. The Filer is not in default of securities legislation in any of the Jurisdictions.
- 4. The Filer will be the investment fund manager and portfolio manager of the Fund.

The Fund

- 5. The Fund will be an investment fund that is an exchange-traded fund organized and governed by the laws of Ontario.
- 6. The Fund will be governed by the applicable provisions of NI 81-102, subject to any exemptions therefrom that have been, or may in the future be, granted by the securities regulatory authorities.
- 7. The Fund will be a reporting issuer under the laws of all of the Jurisdictions.
- 8. The Fund will file a preliminary prospectus and a final prospectus pursuant to National Instrument 41-101 *General Prospectus Requirements* with the securities regulatory authorities in each of the Jurisdictions to qualify the distribution of its Units in each of the Jurisdictions on a continuous basis.
- 9. The Fund's Units will be listed for trading initially on the Toronto Stock Exchange.
- 10. The Fund's investment objective will be to seek to provide unitholders, to the extent possible, exposure to the price of gold by holding substantially all of its assets in Bullion.
- 11. To achieve its investment objective, the Fund will invest in and hold substantially all of its assets in long term holdings of Bullion. The Fund will primarily invest in and hold pure, refined, and unencumbered Bullion in London Good Delivery Bars.

Necessity for the Exemption Sought

Relief from subsection 6.1(1) of NI 81-102

- 12. State Street Trust Company Canada (**State Street**) will act as custodian of the Fund's assets, other than Bullion, pursuant to the terms of a custodian agreement between the Filer, as trustee and manager of the Fund, and State Street dated June 1, 2018, as amended from time to time, which complies with all of the requirements in Part 6 of NI 81-102.
- 13. State Street has advised that it is unable to store the Fund's Bullion as it does not own a vault facility which could accommodate the Fund's Bullion.
- 14. It can be operationally challenging for a custodian to appoint additional custodians not forming part of a custodian's existing custodial network as sub-custodians.
- 15. The Fund wishes to appoint BMO as the custodian of the Fund's Bullion.

16. Subsection 6.1(1) of NI 81-102 provides that all portfolio assets of an investment fund must be held under the custodianship of one custodian that satisfies the requirements of section 6.2 of NI 81-102. The Exemption Sought is therefore required to permit the Fund to appoint BMO as a custodian in addition to State Street.

Relief from Subsection 9.4(2) of NI 81-102

- 17. Similar to other exchange-traded funds, the Fund will enter into a designated broker agreement with a Designated Broker the terms of which provide that, for each Prescribed Number of Units issued, a Designated Broker or Dealer must deliver payment consisting of, in the Filer's discretion: (i) one Basket and cash in an amount sufficient so that the value of the Bullion and the cash received is equal to the Net Asset Value (**NAV**) of the Units next determined following the receipt of the subscription order; or (ii) cash in an amount equal to the NAV of the Units next determined following the receipt of the subscription order in an amount sufficient so that the value of the Bullion and/or cash received is equal to the NAV of the Units next determined following the receipt of the Units next determined following the receipt of the Subscription order in an amount sufficient so that the value of the Bullion and/or cash received is equal to the NAV of the Units next determined following the receipt of the Subscription order in an amount sufficient so that the value of the Bullion and/or cash received is equal to the NAV of the Units next determined following the receipt of the subscription order. Accordingly, but for the Exemption Sought, the Fund would be prohibited from accepting Bullion or a combination of Bullion and cash as payment for its Units as Bullion is not a "security" as defined in the Securities Act (Ontario).
- 18. Subsection 9.4(2) of NI 81-102 provides that a mutual fund may accept as subscription proceeds for its securities either cash or securities. The Exemption Sought is therefore needed to permit the Fund to accept Bullion or a combination of Bullion and cash as payment for its Units because Bullion is not a "security" as defined in the Securities Act (Ontario).

Appointment of BMO as the Fund's Custodian for Bullion

- 19. BMO is a bank listed in Schedule I of the *Bank Act* (Canada), and therefore, is qualified to act as custodian in compliance with section 6.2 of NI 81-102. BMO is regulated and supervised by the Office of the Superintendent of Financial Institutions. BMO provides custodial services to a number of public investment funds in Canada.
- 20. The head office of the BMO is located in Toronto, Ontario.
- 21. BMO is not in default of securities legislation is any of the Jurisdictions.
- 22. The safekeeping of Bullion is a specialized business in respect of which BMO has particular specialized knowledge, expertise and experience.
- 23. BMO's vault can accommodate a certain amount of Bullion. However, due to physical storage capacity constraints and having regard to the amount of Bullion that the Fund may acquire, BMO has separately obtained exemptive relief dated September 26, 2023, in order to appoint each of the Royal Canadian Mint, Brink's Global Services International Inc. and Loomis International Corporate AG, which are not entities described in section 6.2 or 6.3 of NI 81-102, to act as subcustodians to BMO in order to store the Bullion held by the Fund subject to the terms and conditions set out in that order.
- 24. The Filer will negotiate the specific terms and conditions of a precious metals storage and custody agreement (the **Metals Custodian Agreement**) relating to Bullion with BMO, which provides for the storage of Bullion generally and will not place any limitations on the Fund's ability to buy or sell Bullion. The Metals Custodian Agreement, including the arrangements between BMO and the Fund in connection with Bullion, will comply with the requirements of Part 6 of NI 81-102.
- 25. Under the Metals Custodian Agreement, upon the initial notice being delivered, BMO, as custodian of the Fund's Bullion, will receive Bullion based on a list provided by the Filer in such written notice that specifies the amount, weight, type, assay characteristics and value, and serial number of the London Good Delivery bars. After verification, BMO will issue a "receipt of deposit" that confirms the bar count and total weight in troy ounces of the Bullion. Pursuant to the Metals Custodian Agreement, BMO will reserve the right to refuse delivery in the event of storage capacity limitations at its own vault facilities. In the event of a discrepancy arising during the verification process, BMO will promptly notify the Filer. BMO will keep the Fund's Bullion fully allocated and specifically identify the Fund's Bullion as the Fund's property and will keep it physically segregated at all times. BMO will provide a monthly inventory statement, which the Filer will reconcile with the Fund's Bullion to audit procedures at the vault facilities at BMO upon request on any business day during BMO's regular business hours, provided that such physical count or audit procedures do not interrupt the routine operation of the facility and the requisite security procedures have been observed.
- 26. Upon BMO's receipt and taking into possession and control of any of the Fund's Bullion, whether through physical delivery or a transfer of Bullion from a different customer's account at BMO, BMO's liability will commence with respect to such Bullion. BMO will bear all risk of physical loss of, or damage to, the Bullion owned by the Fund in BMO's custody (regardless of the location at which BMO decides to store the Bullion), except in the case of circumstances or causes beyond BMO's reasonable control, including, without limitation, acts or omissions or the failure to cooperate of the Filer and/or of third parties, fire or other casualty, act of God, strike, lockout or other labour dispute, riot, war or other violence, or any law, order or requirement of any governmental agency or authority, and has contractually agreed to replace or

pay for lost, damaged or destroyed Bullion in the Fund's account while in BMO's care, custody and control. Under the Metals Custodian Agreement, BMO's liability will terminate with respect to any Bullion upon termination of the Metals Custodian Agreement, whether or not the Fund's Bullion remains in BMO's possession and control, upon transfer of such Bullion to a different customer's account at BMO or at the time such Bullion is remitted to the armoured transportation service carrier pursuant to delivery instructions provided by the Filer on behalf of a redeeming unitholder.

- 27. In the event of physical loss, damage or destruction of the Fund's Bullion in BMO's custody, care and control, the Filer must give written notice to BMO within one business day after the discovery of any such loss, damage or destruction, but, in the case of loss or destruction of the Fund's Bullion, in any event no more than thirty days after the delivery by BMO to the Fund of an inventory statement in which the discrepancy first appears. BMO will, at its discretion or at the discretion of any applicable sub-custodian, either (i) replace, or restore to its original state in the event of partial damage, as the case may be, the Fund's Bullion that was lost, destroyed or damaged as soon as practicable after BMO becomes aware of said loss or destruction, based on the advised weight and assay characteristics provided in the initial notice or (ii) compensate the Fund, through the Filer, for the monetary value of the Fund's Bullion that was lost or destroyed, within five business days from the date BMO becomes aware of said loss or destruction, based on the advised weight and assay characteristics provided in the initial notice and the market value of such Bullion that was lost or destroyed, using the first available market price of the Bullion from the date BMO becomes aware of said loss or destruction. If such notice is not given in accordance with the terms of the Metals Custodian Agreement, all claims against BMO will be deemed to have been waived. In addition, no action, suit or other proceeding to recover any loss, damage or destruction may be brought against BMO unless notice of such loss, damage or destruction has been given in accordance with the terms of the Metals Custodian Agreement and unless such action, suit or proceeding shall have been commenced within twelve months from the time such notice is sent to BMO. BMO will not be responsible for any special, incidental, consequential, indirect or punitive losses or damages (including lost profits or lost savings), whether or not BMO had knowledge that such losses or damages might be incurred.
- 28. Pursuant to the Metals Custodian Agreement, BMO will be required to exercise the same degree of care, diligence and skill in safeguarding the Fund's property that a reasonably prudent person acting as custodian of the Bullion would exercise in the circumstance. BMO will not be entitled to an indemnity from the Fund in the event BMO breaches its standard of care.
- 29. BMO reserves the right to reject Bullion delivered to it if Bullion contains a hazardous substance or if such Bullion is or becomes unsuitable or undesirable for metallurgical, environmental or other reasons.
- 30. The Filer will be permitted to terminate the custodial relationship with BMO by giving written notice to BMO of its intent to terminate the Metals Custodian Agreement if: (i) BMO has committed a material breach of its obligations under the Metals Custodian Agreement that is not cured within thirty days following the Filer giving written notice to BMO of such material breach; (ii) BMO is dissolved or adjudged bankrupt, or a trustee, receiver or conservator of BMO or of its property is appointed, or an application for any of the foregoing is filed; or (iii) BMO is in breach of any representation or warranty contained in the Metals Custodian Agreement. The obligations of BMO include, but are not limited to, maintaining an inventory of the Fund's Bullion stored with BMO, providing a monthly inventory to the Fund, maintaining the Fund's Bullion physically segregated and specifically identified as the Fund's property, and taking good care, custody and control of the Fund's Bullion. The Filer believes that all of these obligations are material and anticipates that it would terminate the Metals Custodian Agreement if BMO breaches any such obligation and does not cure such breach within thirty days of the Filer giving written notice to BMO of such breach. Prior to terminating the custodial relationship with BMO, the Filer will appoint a replacement custodian for Bullion that complies with the requirements under NI 81-102.
- 31. BMO carries such insurance as it deems appropriate for its businesses and its position as custodian of the Fund's Bullion and will provide the Fund with at least thirty days' notice of any cancellation or termination of such coverage. The Fund's ability to recover from BMO is not contingent upon BMO's ability to claim on its own insurance. Based on information provided by BMO, the Filer believes that the insurance carried by BMO provides the Fund with such protection in the event of loss or theft of the Fund's Bullion stored at BMO, that is consistent with the protection afforded under insurance carried by other custodians that store gold commercially.
- 32. The Filer will ensure that the Bullion will be subject to a physical count by a representative of the Filer periodically on a spot-inspection basis as well as subject to audit procedures by the Fund's external auditors on at least an annual basis.
- 33. The Filer will ensure that no director or officer of the Filer, or representative of the Filer will be authorized to enter into the Bullion storage vaults without being accompanied by at least one representative of BMO.
- 34. The Filer will ensure that no part of the Fund's stored Bullion may be delivered out of safekeeping by BMO without receipt of an instruction from the Filer in the form specified by BMO indicating the purpose of the delivery and giving direction with respect to the specific amount.
- 35. The Filer and the Fund believe that the custodial arrangements with BMO in connection with the Fund's Bullion are consistent with industry practice.

- 36. The Filer will not be responsible for any losses or damages to the Fund arising out of any action or inaction by the Fund's custodians or any sub-custodian(s) holding the assets of the Fund, including its sub-custodians holding the assets of the Fund other than Bullion, and BMO holding Bullion owned by the Fund.
- 37. The Filer will have the authority to change the custodial arrangements described above including, but not limited to, the appointment of a replacement custodian or sub-custodian and/or additional custodians or sub-custodians subject to the requirements under NI 81-102.
- 38. State Street will only be responsible for the non-Bullion assets of the Fund that are held directly by it, its affiliates or appointed sub-custodians.

Bullion as Payment for Units

39. The Fund will only accept a combination of cash and Bullion as payment for a Prescribed Number of Units from Dealers and/or Designated Brokers.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision. The decision of the principal regulator under the Legislation is that the Exemption Sought is granted provided that:

- (a) a single entity reconciles all the portfolio assets of the Fund and provides the Fund with valuation services and will complete daily reconciliations amongst the custodians before striking a daily net asset value for the Fund;
- (b) the Filer maintains such operational systems and processes, as between State Street and BMO and the single entity referred to in condition (a) above, in order to keep a proper reconciliation of all the portfolio assets that will move amongst the custodians, as appropriate;
- (c) Each custodian will act as custodian only for the portion of portfolio assets of the Fund transferred to it; and
- (d) with respect to the relief granted from subsection 9.4(2) of NI 81-102, the acceptance of any Bullion as payment for the issue price of Units is made in accordance with the conditions set out in paragraph 9.4(2)(b) of NI 81-102.

National Policy 11-203 Process for Exemptive Relief Applications in Multiple Jurisdictions – Relief granted under subsection 62(5) of the Securities Act to permit the extension of a prospectus lapse date by 40 days to facilitate the consolidation of the fund's prospectus with the prospectus of other funds under common management – No conditions.

Applicable Legislative Provisions

Securities Act, R.S.O. 1990, c. S.5, as am., s. 62(5).

January 9, 2024

IN THE MATTER OF THE SECURITIES LEGISLATION OF ONTARIO (the Jurisdiction)

AND

IN THE MATTER OF THE PROCESS FOR EXEMPTIVE RELIEF APPLICATIONS IN MULTIPLE JURISDICTIONS

AND

IN THE MATTER OF FIDELITY INVESTMENTS CANADA ULC (the Filer)

AND

FIDELITY GLOBAL GROWTH PRIVATE POOL (the Fund)

DECISION

Background

The principal regulator in the Jurisdiction has received an application from the Filer on behalf of the Fund for a decision under the securities legislation of the Jurisdiction (the **Legislation**) that the time limits for the renewal of the Current Simplified Prospectus (defined below) of the Fund be extended to those time limits that would apply if the lapse date was April 25, 2024 (the **Exemption Sought**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

- (a) the Ontario Securities Commission is the principal regulator for this application; and
- (b) the Filer has provided notice that section 4.7(1) of Multilateral Instrument 11-102 Passport System (MI 11-102) is intended to be relied upon in each of the other provinces and territories of Canada (together with Ontario, the Canadian Jurisdictions).

Interpretation

Terms defined in National Instrument 14-101 *Definitions* and MI 11-102 have the same meaning if used in this decision, unless otherwise defined.

Representations

This decision is based on the following facts represented by the Filer:

- 1. The Filer is a corporation amalgamated under the laws of Alberta and has its head office in Toronto, Ontario.
- 2. The Filer is registered as follows: (i) as a portfolio manager, mutual fund dealer and exempt market dealer in each of the Canadian Jurisdictions; (ii) as an investment fund manager in Ontario, Quebec, and Newfoundland and Labrador; and (iii) as a commodity trading manager in Ontario under the *Commodity Futures Act* (Ontario).

- 3. The Filer is the investment fund manager of the Fund.
- 4. The Fund is a class of shares of the Fidelity Capital Structure Corp. (the "**Corporation**") which is a mutual fund corporation incorporated under the laws of the Province of Alberta. The Fund is a reporting issuer under the securities legislation of each of the Canadian Jurisdictions.
- 5. Neither the Filer nor the Fund is in default of securities legislation in any of the Canadian Jurisdictions.
- 6. The Fund currently distributes securities in the Canadian Jurisdictions under a simplified prospectus dated March 16, 2023 (the **Current Simplified Prospectus**).
- 7. Pursuant to subsection 62(1) of the Securities Act (Ontario) (the Act), the lapse date of the Current Simplified Prospectus is March 16, 2024 (the Current Lapse Date). Accordingly, under subsection 62(2) of the Act, the distribution of securities of the Fund would have to cease on its Current Lapse Date unless: (i) the Fund files a pro forma simplified prospectus at least 30 days prior to its Current Lapse Date; (ii) the final simplified prospectus is filed no later than 10 days after its Current Lapse Date; and (iii) a receipt for the final simplified prospectus is obtained within 20 days after its Current Lapse Date.
- 8. The Filer is the investment fund manager of certain other class funds (the **FCSC Funds**), that currently distribute their securities under a simplified prospectus with a lapse date of April 25, 2024 (the **FCSC Prospectus**).
- 9. The Fund shares many common operational and administrative features with the FCSC Funds. To allow investors to compare the features of the Fund and the FCSC Funds more easily, and also to reduce prospectus renewal, printing and related costs, the Filer proposes to distribute the securities of the Fund and the FCSC Funds under a common simplified prospectus. To facilitate the combination of the Fund and FCSC Funds in a single offering document, the Filer requests that the Current Lapse Date of the Current Simplified Prospectus be extended by 40 days until April 25, 2024, to coincide with the lapse date of the FCSC Prospectus. If the Exemption Sought is granted, the Filer will file a combined *pro forma* simplified prospectus for the Fund and FCSC Funds in accordance with the time limits that would apply if the lapse date of both the Current Simplified Prospectus and FCSC Prospectus were April 25, 2024.
- 10. It would be impractical to alter and modify all the dedicated systems, procedures and resources required to prepare the renewal simplified prospectus and fund facts for the FCSC Funds (the **FCSC Renewal Prospectus Documents**), and unreasonable to incur the costs and expenses associated therewith, so that the FCSC Renewal Prospectus Documents can be filed earlier with the renewal simplified prospectus and fund facts document(s) of the Fund (the **Renewal Prospectus Documents**).
- 11. If the Exemption Sought is not granted, it will be necessary to renew the Current Simplified Prospectus twice within a short period of time in order to consolidate the Current Simplified Prospectus with the FCSC Prospectus.
- 12. The Filer may make minor changes to the features of the FCSC Funds as part of the FCSC Renewal Prospectus Documents. The ability to file the Renewal Prospectus Documents with the FCSC Renewal Prospectus Documents will ensure that the Filer can make the operational and administrative features of the Fund and the FCSC Funds consistent with each other.
- 13. There have been no material changes in the affairs of the Fund since the filing of the Current Simplified Prospectus. Accordingly, the Current Simplified Prospectus and current fund facts document(s) of the Fund represent current information regarding the Fund.
- 14. Given the disclosure obligations of the Fund, should a material change in the affairs of the Fund occur, the Current Simplified Prospectus and current fund facts document(s) of the Fund will be amended as required under the Legislation.
- 15. New investors of the Fund will receive delivery of the most recently filed fund facts document(s) of the Fund. The Current Simplified Prospectus will still be available upon request.
- 16. The Exemption Sought will not affect the accuracy of the information contained in the Current Simplified Prospectus or the current fund facts document(s) of the Fund and therefore will not be prejudicial to the public interest.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the Exemption Sought is granted.

B.11.1.1 Canadian Investment Regulatory Organization (CIRO) – Proposed Amendments to UMIR Respecting the Reasonable Expectation to Settle a Short Sale – Request for Comment

REQUEST FOR COMMENT

CANADIAN INVESTMENT REGULATORY ORGANIZATION (CIRO)

PROPOSED AMENDMENTS TO UMIR RESPECTING THE REASONABLE EXPECTATION TO SETTLE A SHORT SALE

CIRO is publishing for comment proposed amendments (**Proposed Amendments**) to support and clarify the short selling framework under the Universal Market Integrity Rules (**UMIR**). The main objectives of the Proposed Amendments are to:

- Add a new positive requirement to have, prior to order entry, a reasonable expectation to settle on settlement date any order that upon execution would be a short sale;
- Add supervisory and gatekeeper requirements pertaining to the proposed requirement; and
- Consolidate other current provisions related to short selling into one common section in UMIR that is focused on short selling.

On December 8, 2022, the Canadian Securities Administrators (**CSA**) and the Investment Industry Regulatory Organization of Canada (**IIROC**, a predecessor organization to CIRO) published Joint CSA/IIROC Staff Notice 23-329 *Short Selling in Canada* to provide an overview of the existing regulatory landscape surrounding short selling, give an update on current related initiatives, and request public feedback on areas for regulatory consideration. The CSA and CIRO received 23 comment letters from a wide range of stakeholders, including industry associations, exchanges, dealers, issuers and individuals. On November 16, 2023, the CSA and CIRO published Joint CSA/CIRO Staff Notice 23-332 *Summary of Comments and Responses to CSA/IIROC Staff Notice 23-329 Short Selling in Canada* (**Joint CSA/CIRO Staff Notice 23-332**) that provided a summary of the comments received and the regulators' responses to those comments.

In Joint CSA/CIRO Staff Notice 23-332, CIRO indicated that it is working on ways to support the current short selling framework, in part by reinforcing the obligation to have a reasonable expectation to settle a short sale on settlement date. The Proposed Amendments are finalizing that work.

To provide further clarity and a more complete view of the resulting regulatory framework, CIRO simultaneously is publishing proposed guidance for comment that clarifies various current requirements related to short sales and failed trades.

The text of the Proposed Amendments is included in the CIRO Bulletin, a copy of which is also available on our website at <u>www.osc.ca</u>. The comment period ends on April 12, 2024.

B.11.1.2 Canadian Investment Regulatory Organization (CIRO) – Rule Consolidation Project – Phase 2 – Request for Comment

REQUEST FOR COMMENT

CANADIAN INVESTMENT REGULATORY ORGANIZATION (CIRO)

RULE CONSOLIDATION PROJECT – PHASE 2

CIRO is publishing for comment Phase 2 of its Rule Consolidation Project. The Rule Consolidation Project will bring together the two member regulation rule sets currently applicable to investment dealers (the IDPC Rules) and to mutual fund dealers (the MFD Rules) into one set of member regulation rules applicable to both categories of CIRO Dealer Members. The consolidated member regulation rules will be known as the CIRO Dealer and Consolidated Rules (DC Rules).

The objective of Phase 2 of the Rule Consolidation Project (Phase 2 Proposed DC Rules) is to adopt rules to be retained that are unique to the IDPC or MFD Rules and have been assessed as not having a material impact on stakeholders.

The Phase 2 Proposed DC Rules involve the adoption of rules relating to:

- margin,
- debt markets and Inter-Dealer Bond Brokers, and
- trading.

A copy of the CIRO Bulletin, including the text of the Phase 2 Proposed DC Rules, is also available on our website at www.osc.ca. The comment period ends on March 11, 2024.
