## Preamble

---

### Background

The [OSC Service Commitment](#) was established to provide investors, registrants, and market participants with transparency on the standards and timelines they can expect when interacting with the OSC. As part of our ongoing commitment to accountability and transparency, this quarterly report has been created to provide timely updates to stakeholders on our performance against these targets. This report covers the period from July 1, 2024, to September 30, 2024.

### Performance Measurement

Each service standard has a corresponding **performance target**; this represents our commitment to the service level that stakeholders can expect when interacting with the OSC. The performance target generally applies for routine matters and assumes that applications and filings are received in an acceptable form. For more information on what this means, refer to the full [OSC Service Commitment](#) document on the OSC website.

**Performance results** against each standard are collected and presented on a quarterly basis for greater transparency.

### Important Note

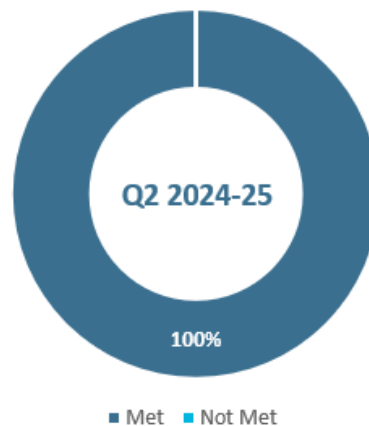

This report outlines the service standard results, including the timelines and targets applicable for the **Q2 2024-2025 reporting period**. The standards shown below are inclusive of the OSC's [2024 annual service commitment review](#) which took effect starting April 1, 2024. As part of this review, it was determined that certain registration timelines would remain extended to accommodate an increased volume and complexity of registration filings. These standards have been flagged within the report.

Five fiscal quarters of performance results are shown within this report. In instances where service standards have been updated within the last five quarters, the most current standard as of Q2 2024-2025 is listed along with the effective date.

Past results reflect our performance against the service standards applicable at the time. To see previous service standards or commentary for any standards not met, please refer to the applicable [OSC Service Standards Reporting](#) posted quarterly to the OSC website.

Of note, the OSC conducted an additional [mid-year review](#) of its service standards. The changes from this review are effective starting October 1, 2024, and will be reflected in the Q3 2024-2025 results.

## Summary of Results

In Q2 2024-2025, the OSC provided a high level of service to our stakeholders. There were 37 service standards applicable for measurement this quarter, representing services requested. Where a service is not requested (e.g., no applications), the measurement is N/A and not included in the total number of service standards met/not met. Overall, for services requested, the OSC met or exceeded all (37 of 37) of its quarterly performance targets in Q2 2024-2025.
