1.1.2 CSA Staff Notice 52-328 – Disclosures About Accounting Policies in the Year of Changeover to International Financial Reporting Standards

CSA STAFF NOTICE 52-328

**DISCLOSURES ABOUT ACCOUNTING POLICIES
IN THE YEAR OF CHANGEOVER TO INTERNATIONAL FINANCIAL REPORTING STANDARDS**

Purpose

This notice responds to specific questions CSA staff have received on disclosure about accounting policies in an issuer's interim and annual Management's Discussion and Analysis (MD&A) in the year of changeover to International Financial Reporting Standards (IFRS).

Background

For many issuers, the adoption of IFRS will result in one or more significant changes in an issuer's accounting policies.

CSA Staff Notice 52-320 *Disclosure of Expected Changes in Accounting Policies Relating to Changeover to International Financial Reporting Standards* (SN 52-320), issued in 2008, provides guidance to an issuer on disclosure of expected changes in accounting policies relating to an issuer's changeover to IFRS. It discusses Item 1.13(a) of Form 51-102F1 *Management's Discussion and Analysis* (51-102F1) and disclosure about expected changes in an issuer's accounting policies. While SN 52-320 addresses disclosure in MD&A for periods prior to changeover to IFRS, this notice addresses disclosure in the year of changeover.

MD&A disclosure about accounting policies in the year of changeover to IFRS

Item 1.13(b) of 51-102F1 addresses MD&A disclosures about accounting policies initially adopted during the most recently completed financial year. The instruction to Item 1.13 indicates that MD&A does not need to include the discussion under Item 1.13(b) for the initial adoption of accounting policies resulting from the adoption of new accounting standards. We have received questions about how the instruction relates to IFRS changeover.

Item 1.13(b) does not apply to accounting policies initially adopted as a result of changeover to IFRS. However, in its year of adopting IFRS, if an issuer voluntarily changes an accounting policy subsequent to filing its first interim financial report (other than due to the early adoption of a new or revised IFRS standard), Item 1.13(b) applies to the change in accounting policy. In this case, an issuer should provide the disclosure specified in Item 1.13(b) to the extent it is not provided in the financial statements.

An issuer's interim financial reports and annual financial statements in its year of changeover to IFRS will include information about the transition to IFRS and the issuer's accounting policies. In the accompanying MD&A, management has the opportunity to supplement this information by highlighting significant entity-specific features of the issuer's transition to IFRS. Although Item 1.13(b) does not apply to accounting policies initially adopted on changeover to IFRS, management may conclude that investors would benefit from further information.

For example, management may discuss an issuer's choices among alternative acceptable accounting policies under IFRS, including the reasons for a particular choice. MD&A disclosure should not simply replicate disclosure in the financial statements but instead should complement the information provided in the financial statements.

Interim MD&A updates an issuer's annual MD&A. As discussed in SN 52-320, an issuer may have provided comprehensive information about accounting policy choices in its annual MD&A prior to changeover to IFRS. MD&A disclosures about IFRS transition in the year of IFRS adoption need not repeat information included in the annual MD&A. However, an issuer should consider discussing significant differences between MD&A disclosure made prior to the changeover to IFRS and information reported in the current period about accounting policy choices.

To avoid confusion, issuers should consider presenting information pertaining to an issuer's transition to IFRS and its accounting policies:

- in one section of the MD&A, and
- separately from the discussion of financial performance and financial condition.

In an issuer's year of changeover to IFRS, investors will need information about the issuer's accounting policies. Management should consider how the combination of the information in the financial statements and the MD&A responds to investors' needs.

Terms defined in NI 81-105, National Instrument 81-02 – *Mutual Funds* (**NI 81-102**), National Instrument 14-101 *Definitions* and MI 11-102 have the same meaning in this decision unless otherwise defined in this decision.

Representations

This decision is based on the following facts represented by the Filer:

1. The Filer is a corporation formed under the laws of the Province of Ontario having its head office in Oakville, Ontario. The Filer is registered with the Ontario Securities Commission in the categories of Portfolio Manager and Exempt Market Dealer and has submitted an application for registration as an Investment Fund Manager.
2. The Filer is the manager of the mutual funds, seven at present, which make up the Pro Financial Fund Family. The Filer may from time to time establish and become the manager for additional mutual funds (such existing funds and any future funds managed by the Filer are herein referred to collectively as the **Funds**). Accordingly, the Filer is a “member of the organization” of the Funds within the meaning of 81-105. Neither the Filer nor any of the existing Funds is in default of the securities legislation of any Jurisdiction (as defined below).
3. The Funds are qualified for sale in each of the provinces of Canada (the **Jurisdictions**) pursuant to a simplified prospectus and annual information form dated November 8, 2009. The Funds are distributed through dealers in the Jurisdictions, and such dealers are “participating dealers” of the Funds within the meaning of National Policy 81-102 – *Mutual Funds* and NI 81-105.
4. The Filer intends to effect one or more private placements (the **Private Placements**) of its Class B Non-Voting Common Shares. At the time of completion of the first Private Placement, the Filer will have authorized share capital consisting of two classes of shares, namely Class A Voting Common Shares (the **Class A Shares**) and Class B Non-Voting Common Shares (the **Class B Shares**). The Class B Shares are economically equivalent to the Class A Shares, except that the holders thereof are not ordinarily entitled to notice of or to vote at meetings of shareholders. The Class B Shares automatically convert to Class A Shares on a one-to-one basis upon the occurrence of certain events, including the sale of majority control of the Filer to a third party or the Filer becoming a public entity. Accordingly, the Class A Shares and the Class B Shares together make up the “equity interest” in the Filer within the meaning of NI 81-105.
5. At the time of completion of the first Private Placement, the Filer will have issued and outstanding 1,000,000 Class A Voting Common Shares, all of which will be owned by the management of the Filer. Certain members of management will hold options to acquire an additional 70,000 Class A Voting Common Shares.
6. The aggregate number of Class B Shares to be issued under the Private Placements will represent no more than 20% of the Filer’s issued and outstanding equity securities.
7. The Filer intends to offer the Class B Shares to qualified purchasers, including certain individual dealing and sales representatives of various participating dealers who distribute the Funds. In this application, individual dealing and sales representatives who become holders of the Class B Shares are referred to as **Participating Advisors** and a Participating Advisor’s sponsoring firm is referred to as a **Participating Dealer**.
8. Purchases by any one Participating Advisor will be limited by the Filer so that at no time will any Participating Advisor own more than 1% of the Filer’s issued and outstanding equity securities.

9. The Filer anticipates that following the completion of the Private Placements, notwithstanding that Participating Advisors may have purchased Class B Shares:
 - a. each such Participating Dealer and each Participating Advisor will be free to choose which mutual funds to recommend to their clients and will consider recommending the Funds to their clients in the same manner as they consider recommending mutual funds that are not managed by the Filer; and
 - b. each such Participating Dealer and each Participating Advisor will comply with its respective obligations at law to recommend to their clients the mutual funds that such Participating Dealer and Participating Advisor believe would be suitable for such clients and in accordance with the investment objectives of such clients.
10. Following the completion of the Private Placements:
 - a. the Filer will provide to the Participating Dealers the compensation described in the prospectus of the Funds in the same manner as the Filer provides compensation for any other participating dealer selling securities of the Funds whose sales representative has not purchased Class B Shares; and
 - b. neither the Filer nor any other member of the organization of the Funds will provide any incentive (whether express or implied) to any Participating Advisor or to a Participating Dealer to encourage those Participating Advisors or the Participating Dealer to recommend to their clients the Funds rather than competing mutual funds managed by persons other than the Filer, except as permitted by NI 81-105.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the exemptions from the application of subsections 8.2 (1) and (2) and subsections 8.2 (3) and (4) of NI 81-105 (the **Exemptions Sought**) are granted provided that:

1. In substitution of the disclosure requirements of subsections 8.2(1) and (2) of NI 81-105 that apply to the simplified prospectuses of the Funds, the Funds will include the following disclosure in their simplified prospectuses that describes, as of a date that is within 30 days of the date of the simplified prospectus:
 - a) that up to a maximum of 20 percent of the outstanding equity interests of the Filer may be held by Participating Dealers and Participating Advisors;
 - b) the names of any Participating Dealer who has Participating Advisors holding equity interests in the Filer, the aggregate amount held by those Participating Advisors and the fact that up-to-date information can be obtained from the Filer's website, which will be updated on a monthly basis, as Class B shares of the Filer are issued;
 - c) that no Participating Advisor, together with his or her associates, will hold more than 1 percent of the outstanding equity interests of the Filer;
 - d) that as a shareholder of the Filer, a Participating Advisor may stand to benefit from the inflow of client money to the Funds;
 - e) that if an investor's sales representative is a Participating Advisor, then that investor will receive a disclosure statement describing the equity interest held by that Participating Advisor before he or she invests in the Funds and that he or she must consent to the trade of units of the Funds; and
 - f) that if the branch manager or other supervisor of the investor's sales representative is a Participating Advisor, the investor will also receive a disclosure statement describing the equity interest that the branch manager or supervisor holds before he or she invests in the Funds and that he or she must consent to the trade of units of the Funds.
2. The Filer updates its website to provide the aggregate percentage of equity interests held by Participating Advisors and the names of the applicable Participating Dealers will be updated if new Participating Advisors or additional Participating Dealers acquire an equity interest in the Filer, or if there is a change in the aggregate percentages previously disclosed.

3. In substitution of the point of sale disclosure and consent requirements of subsections 8.2(3), 8.2(4) and (5) of NI 81-105 that would otherwise apply to Participating Dealers and Participating Advisors, any participating dealer who has a Participating Advisor will:
 - a) deliver to a client of a Participating Advisor, prior to completing a trade in a security of a Fund, a disclosure document which states
 - i) that all Participating Advisors of the Participating Dealer and their associates hold, in the aggregate, no more than a maximum of stated percentage of the equity interests of the Filer;
 - ii) that the Participating Advisor acting on the trade and the associates of such Participating Advisor hold, in the aggregate, a maximum of one percent of the equity interests of the Filer; and
 - iii) that the client may go to the Filer's website or call a specified toll-free number, which will be disclosed in such disclosure document, to obtain additional information about the holdings of the Participating Dealer and its Participating Advisors in the Filer;
 - b) the stated percentage that must be disclosed pursuant to (a)(i) above, will be that number determined by the Participating Dealer that reasonably and accurately represents the maximum amount that it expects its Participating Advisors will from time to time hold in the Filer;
 - c) the Participating Dealer will, following the delivery of the disclosure document described above, comply with the requirements of section 8.2(4) of NI 81-105 unless section 8.2(5) of NI 81-105 applies in respect of that trade; and
 - d) in the event a Participating Advisor assumes a position of authority or supervision over other sales representatives of the Participating Dealer, before completing a trade in a unit of a Portfolio that is acted on by one of those other sales representatives, the Participating Dealer and the other sales representatives will comply with the requirements of 2(a), (b) and (c) above, to disclose the amount held by the specific Participating Advisor in that position of authority.
4. The Participating Dealer will not be required to comply with the requirements described in condition 3 if the Participating Dealer has already delivered the disclosure document and obtained the purchaser's consent on a previous trade and the Participating Dealer is satisfied that the equity interests held by its Participating Advisors at the time of the trade have not increased above the amounts disclosed in the previously delivered disclosure document.
5. Prior to a Participating Dealer relying on this Decision, the Filer will provide such Participating Dealer with a copy of this Decision together with an explanation to the Participating Dealer of the operation of the Decision and the actions required on the part of the Participating Dealer.
6. Any Participating Dealer wishing to rely on this Decision will:
 - a) send a written consent to the Filer agreeing to comply with the conditions of this decision as they relate to the Participating Dealer and any Participating Advisor (the Written Consent);
 - b) have in place written policies and procedures to ensure that there is compliance with the conditions of this Decision.
7. The Filer will:
 - a) keep records of the Participating Dealers from which it has received a Written Consent;
 - b) forward an updated list of all Participating Dealers from which it has received a Written Consent to the principal regulator on a quarterly basis within 10 business days of the end of each calendar quarter; and
 - c) include in either the simplified prospectus or the annual information form of the Funds a list of the Participating Dealers from which it has received a Written Consent as of a date that is within 30 days of the date of the simplified prospectus or annual information form.

8. This Decision will expire on the date on which the requirements in section 8.2 of NI 81-105 are amended, revoked or replaced.

9. The Filer has no current intention to seek public financing by way of an offering of securities.
10. The Filer did not surrender its status as a reporting issuer in British Columbia pursuant to BC Instrument 11-502 *Voluntary Surrender of a Reporting Issuer Status* (the **BC Instrument**) in order to avoid the 10-day waiting period under the BC Instrument.

DECISION

Background

The securities regulatory authority or regulator in each of the Jurisdictions (Decision Maker) has received an application from the Filer for a decision under the securities legislation of the Jurisdictions (the Legislation) that the Filer is not a reporting issuer (the Exemptive Relief Sought).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a coordinated review application):

- (a) the Autorité des marchés financiers is the principal regulator for this application, and

- (b) the decision is the decision of the principal regulator and evidences the decision of each other Decision Maker.

Interpretation

Terms defined in *Regulation 14-101 respecting Definitions* (elsewhere in Canada, National Instrument 14-101 *Definitions*) have the same meaning if used in this decision, unless otherwise defined.

Representations

This decision is based on the following facts represented by the Filer:

1. The Filer is a corporation incorporated under the laws of Québec whose head office is located at Montréal, Québec.
2. The Filer was formed to access Canadian and foreign capital markets to raise funds, which it lends to Daimler AG subsidiaries in Canada. The Filer obtains financing through the issuance in Canada and elsewhere of term debt, including medium-term notes and commercial paper.
3. The Filer has minimal assets, operations, revenues and cash flows other than those related to the issuance, administration and repayment of securities that it distributes.
4. The authorized capital of the Filer consists of 1,000 common shares without par value. On March 29, 2011, the Filer has 100 common shares issued and outstanding.
5. All of the common shares of the Filer are beneficially owned by Daimler North America Corporation, a wholly-owned subsidiary of Daimler AG.
6. Daimler AG is a stock corporation organized under the Federal laws of Germany and is subject to the reporting requirements of the laws of the Federal Republic of Germany.
7. Daimler AG's ordinary shares are listed on the Frankfurt Stock Exchange (the FWB) and, as such, Daimler AG is subject to the rules and reporting requirements of the FWB.
8. The Filer is a reporting issuer in each of the Jurisdictions.
9. The Filer became a reporting issuer in each of the Jurisdictions by virtue of filing a short form prospectus dated March 14, 2000 (the Initial Prospectus) under the Legislation, in respect of a distribution of medium-term notes (MT Notes) using the shelf procedures, and obtaining a mutual reliance review system decision document dated March 14, 2000 for the Initial Prospectus,

which decision document evidenced the final receipt of the regulators in each of the Jurisdictions. The Initial Prospectus was renewed from time to time and lapsed on July 9, 2008 (the Prospectus).

10. All of the MT Notes issued by the Filer under the Prospectus have matured and were repaid by the Filer and all of the commercial paper issued by the Filer has matured and was repaid by the Filer.
11. On March 29, 2011, the Filer has GBP 300,000,000 principal amount of bearer medium term notes (the GBP MT Notes) outstanding, which mature on August 10, 2011.
12. All of the GBP MT Notes were issued pursuant to the prospectus dated October 21, 2005 and supplemental prospectuses dated November 7, 2005, March 6, 2006, April 27, 2006 and July 27, 2006, approved by the *Commission de Surveillance du Secteur Financier* of the Grand Duchy of Luxembourg (the Euro Prospectus), under the Euro Medium Term Note Programme of Daimler AG, the Filer and certain other subsidiaries of Daimler AG, and are unconditionally and irrevocably guaranteed by Daimler AG. There are no other series of medium term notes issued by the Filer under the Euro Prospectus.
13. The GBP MT Notes were only offered and sold to institutional investors by the Filer under the Euro Prospectus and none of the GBP MT Notes were offered or sold to retail investors or to any residents of Canada.
14. The GBP MT Notes were sold by the Filer on August 9, 2006 to 39 institutional investors geographically located in Europe, the Netherlands and Asia as to 98% or GBP 294,000,000 principal amount of the GBP MT Notes.
15. The GBP MT Notes were issued in bearer form and the global certificate representing the GBP MT Notes contains a legend restricting the offering and sale of the GBP MT Notes, directly or indirectly, in Canada, or to, or for the benefit of, any resident of Canada, in contravention of the Legislation.
16. The GBP MT Notes were offered and sold by through Barclays Bank PLC and BNP Paribas, as lead managers (the Lead Managers), pursuant to the terms of a dealer agreement that contained restrictions on the sale of GBP MT Notes, including an acknowledgement and agreement from each dealer that it did not offer or sell, and that it would not offer or sell, any GBP MT Notes, directly or indirectly, in Canada, or to, or for the benefit of, any resident thereof in contravention of the Legislation. The final terms of the GBP MT Notes contained a restriction against the GBP MT

Notes being sold to retail investors by way of a public offering within the meaning of the Prospectus Directive 2003/71/EC of the European Parliament and of the Council of November 4, 2003.

17. As the GBP MT Notes were only issued a European International Securities Identification Number (ISIN), holders of the GBP MT Notes can only hold interests in the GBP MT Notes either directly through participants in the European clearing system, Euroclear Bank S.A./N.A (Euroclear), if they are participants in such system or indirectly through participants in such system and cannot hold interests in the GBP Notes directly or indirectly through participants in CDS Clearing and Depository Services Inc. (CDS) since the GBP Notes have not been issued a Canadian ISIN and are not eligible for entry in CDS.
18. No securities of the Filer are traded on a marketplace as defined in *Regulation 21-101 respecting Marketplace Operation* (elsewhere in Canada, *National Instrument 21-101 Marketplace Operation*), other than the GBP MT Notes which are listed on the Luxembourg Stock Exchange (the LSE).
19. The GBP MT Notes were listed on the LSE for purposes of facilitating the "eligibility for investment" requirements of certain institutional investors. The GBP MT Notes have never traded on the LSE.
20. By virtue of the Filer being a subsidiary of Daimler AG and Daimler AG providing a full and unconditional guarantee of the payments to be made by the Filer under the GBP MT Notes, it is the financial position and financial condition of Daimler AG that is most relevant to the holders of the GBP MT Notes.
21. Neither the Filer nor any other person maintains a register of holders of the GBP MT Notes.
22. By virtue of the nature of a bearer security, it is only possible to make limited enquiries in order to obtain information regarding the beneficial ownership of the GBP MT Notes held by residents in Canada.
23. In order to obtain information regarding the beneficial ownership of the GBP MT Notes for purposes of determining if the GBP MT Notes are held by residents in Canada, the Filer has made enquiries of (a) the Lead Managers regarding the persons to whom the GBP MT Notes were offered and sold and the jurisdictions within which the GBP MT Notes were sold, (b) the paying agent for the GBP MT Notes regarding the jurisdictions within which interest on the GBP MT Notes was paid, (c) the LSE regarding the trading of the GBP MT Notes on the LSE, and (d) investment dealers

in Canada with whom Daimler AG has historically had a relationship, being certain of the major investment dealers in Canada, regarding the holding of GBP MT Notes through their accounts with Euroclear on behalf of any of their clients.

24. As a result of the GBP MT Notes having been issued in bearer form, the Filer is unable to determine conclusively determine the beneficial ownership of the GBP MT Notes by residents of Canada.
25. Based on the enquiries described above and the information obtained, and having regard for the bearer form of the debt securities outstanding, to the best of the knowledge and belief of the Filer, the outstanding securities of the Filer, including debt securities, are beneficially owned, directly or indirectly, by fewer than 15 securityholders in each of the Jurisdictions and fewer than 51 securityholders in total in Canada.
26. The Filer has no current intention to seek financing by way of a public offering of its securities in Canada.
27. The Filer is applying for a decision that it is not a reporting issuer in all of the jurisdictions in Canada in which it is currently a reporting issuer.
28. The Filer is not in default of any requirement applicable to a reporting issuer under Legislation, except for the Filer's failure to file: (a) interim financial statements and interim MD&A (as such terms are defined in *Regulation 51-102 respecting Continuous Disclosure Obligations* (elsewhere in Canada, *National Instrument 51-102 Continuous Disclosure Obligations* (Regulation 51-102)) for the interim period ended September 30, 2010; and (b) interim certificates (as such term is defined in *Regulation 52-109 respecting Certification of Disclosure in Issuers' Annual and Interim Filings*, and elsewhere in Canada, *National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings*), for the interim period ended September 30, 2010. Alternatively, the Filer has filed the quarterly financial report of Daimler AG, including interim consolidated financial statements of Daimler AG (its credit supporter), for the quarter ended September 30, 2010, in satisfaction of the requirements of Regulation 51-102 for the interim period ended September 30, 2010.
29. The Filer did not voluntarily surrender its status as a reporting issuer in British Columbia under British Columbia Instrument 11-502 *Voluntary Surrender of Reporting Issuer Status* (the BC Instrument) in order to avoid the minimum 10-day waiting period under the BC Instrument.
30. The Filer is not eligible to use the simplified procedure under CSA Staff Notice 12-307 *Applications for a Decision that an Issuer is not a*

Reporting Issuer because it is a reporting issuer in British Columbia and is in default of the Legislation as described in paragraph 28 above.

31. Upon the Decision Makers granting the Exemptive Relief Sought, the Filer will no longer be a reporting issuer in any of the Jurisdictions.

Decision

Each of the Decision Makers is satisfied that the decision meets the test set out in the Legislation for the Decision Maker to make the decision.

The decision of the Decision Makers under the Legislation is that the Exemptive Relief Sought is granted.

DECISION

Background

The securities regulatory authority or regulator in each of the Jurisdictions (the **Decision Maker**) has received an application from the Filer for a decision under the securities legislation of the Jurisdictions (the **Legislation**) exempting the Filer from the requirement under subsection 4.1(b) of National Instrument 44-101 *Short Form Prospectus Distributions* (**NI 44-101**) for the Filer to deliver a Personal Information Form and Authorization to Collect, Use and Disclose Personal Information (in the form attached as Appendix A to National Instrument 41-101 *General Prospectus Requirements*) for each director and executive officer of the Filer at the time of filing a preliminary short form prospectus, for whom Penn West Energy Trust (the **Trust**) had previously delivered any of the documents described in clauses 4.1(b)(i)(E) through (G) of NI 44-101 at the time of filing such preliminary short form prospectus (the **Exemption Sought**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a dual application):

- (a) the Alberta Securities Commission is the principal regulator for this Application;
- (b) the Filer has provided notice that subsection 4.7(1) of Multilateral Instrument 11-102 *Passport System* (**MI 11-102**) is intended to be relied upon in British Columbia, Saskatchewan, Manitoba, Québec, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland and Labrador; and
- (c) this decision is the decision of the principal regulator and evidences the decision of the securities regulatory authority or regulator in Ontario.

Interpretation

Terms defined in National Instrument 14-101 *Definitions* or MI 11-102 have the same meaning if used in this decision, unless otherwise defined herein.

Representations

This decision is based on the following facts represented by the Filer:

The Trust and the Arrangement

1. The Trust was a trust established under the laws of Alberta pursuant to a trust indenture, as amended and restated as of June 30, 2006, as subsequently amended on November 29, 2007, and as further amended on December 31, 2010 in connection with a Plan of Arrangement under section 193 of the *Business Corporations Act* (Alberta), which resulted in the reorganization of the Trust (an income trust) into the Filer, a new publicly traded exploration and development corporation (the **Arrangement**).
2. Pursuant to the Arrangement, the Trust was dissolved and, through a series of steps, the Filer acquired all of the assets of the Trust and the Filer assumed all of the liabilities of the Trust, including the Trust's convertible debentures, which are now convertible debentures of the Filer.
3. The Arrangement did not involve the acquisition of any additional operating assets or the disposition of any existing operating assets.
4. The Trust was a reporting issuer or the equivalent under the securities legislation of each of the provinces of Canada. The Trust was dissolved in connection with the Arrangement and has therefore ceased to be a reporting issuer in each of the provinces of Canada.
5. The trust units and the convertible debentures of the Trust were listed on the Toronto Stock Exchange (the **TSX**) and were delisted from the TSX at the close of business on January 7, 2011. The trust units of the Trust were listed on the New York Stock Exchange (the **NYSE**) and were delisted from the NYSE at the close of business on December 31, 2010.
6. Prior to completion of the Arrangement, to the knowledge of the Filer, the Trust was not in default of applicable securities legislation in each of the provinces of Canada.

The Filer

7. The Filer is a corporation amalgamated under the laws of Alberta. The principal office of the Filer is located in Calgary, Alberta.
8. The Filer is a reporting issuer or the equivalent under the securities legislation of each of the provinces of Canada and to its knowledge is not in default of applicable securities legislation in each of the provinces of Canada.
9. The common shares and the convertible debentures of the Filer are listed and posted for trading on the TSX. The common shares of the Filer are listed and posted for trading on the NYSE.
10. The Trust has previously delivered the documents described in clauses 4.1(b)(i)(E) through (G) of NI 44-101 (the **Trust PIFs**) for each individual acting in the capacity of director or executive officer of Penn West Petroleum Ltd. (a predecessor of the Filer and the administrator of the Trust) on January 30, 2009, being the time of the last filing of a preliminary prospectus by the Trust.

Decision

Each of the Decision Makers is satisfied that the decision meets the test set out in the Legislation for the Decision Maker to make the decision.

The decision of the Decision Makers under the Legislation is that the Exemption Sought is granted, provided that:

- (a) each individual:
 - (i) for whom the Trust has previously delivered a Trust PIF; and
 - (ii) who is a director or executive officer of the Filer at the time of a prospectus filing by the Filer;

DECISION

Background

1 The securities regulatory authority or regulator in each of the Jurisdictions (Decision Makers) has received an application (the Application) from the Filers for a decision under the securities legislation of the Jurisdictions (the Legislation) that:

- (a) the following disclosure requirements under the Legislation (the Prospectus Disclosure Requirements) do not fully apply to Lomiko in connection with the Distribution (as defined below):
 - (i) the statement in the Prospectus Supplement (as defined below) respecting statutory rights of withdrawal and rescission required by item 20 of Form 44-101F1 of National Instrument 44-101 – *Short Form Prospectus Distributions* (NI 44-101); and
 - (ii) the statements required by Subsections 5.5(2) and (3) of National Instrument 44-102 – *Shelf Distributions* (NI 44-102);
- (b) the prohibition from acting as a dealer unless the person is registered as such (the Dealer Registration Requirement) does not apply to Dutchess and the Manager in connection with the Distribution; and
- (c) the requirement that a dealer send a copy of the Prospectus (as defined below) to a subscriber or purchaser in the context of a distribution (the Prospectus Delivery Requirement) does not apply to Dutchess and the Manager or the dealer(s) through whom Dutchess distributes the Shares (as defined below) and, as a result, rights of withdrawal or rights of rescission, price revision, or damages for non-delivery of the Prospectus do not apply in connection with the Distribution;

(collectively, the Exemptive Relief Sought).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a dual application):

- (a) the British Columbia Securities Commission is the principal regulator for this application,
- (b) the Filers will provide notice that section 4.7(1) of Multilateral Instrument 11-102 *Passport System* (MI 11-102) is intended to be relied upon in all of the provinces and territories of Canada except for Quebec (collectively with British Columbia and Ontario, the Provinces), and
- (c) the decision is the decision of the principal regulator and evidences the decision of the securities regulatory authority or regulator in Ontario.

Interpretation

2 Terms defined in National Instrument 14-101 *Definitions* and MI 11-102 have the same meaning if used in this decision, unless otherwise defined in this decision.

Representations

3 This decision is based on the following facts represented by the Filers:

Lomiko

1. Lomiko is incorporated pursuant to the Business Corporations Act (British Columbia) and has its head office and registered office located at #439, 7231 – 120th Street, Delta BC V4C 6P5;
2. Lomiko is a junior mining and exploration corporation engaged in the acquisition, exploration and development of resource properties;
3. Lomiko is currently a reporting issuer under the securities legislation of each of the provinces of Alberta and British Columbia and is not in default of any requirements under the securities legislation in any jurisdiction in Canada;
4. Lomiko's authorized share capital consists of an unlimited number common shares (Shares), of which 46,768,445 Shares were outstanding as at March 23, 2011;

5. the Shares are listed for trading on the TSX Venture Exchange (the Exchange) under the symbol "LMR"; based on the closing price of \$0.10 of the Shares on the Exchange on March 23, 2011, the current market capitalization of Lomiko is approximately \$4,676,855;
6. upon the filing of an annual information form for the year ended July 31, 2010, Lomiko will be qualified to file a short form prospectus under section 2.2 of NI 44-101 and therefore will be qualified to file a base shelf prospectus under NI 44-102;
7. Lomiko intends to file with the securities regulators in all of the Provinces a base shelf prospectus (such base shelf prospectus and any amendments thereto is referred to as the Base Shelf Prospectus);
8. the statements in subsection 5.5(2) and (3) of NI 44-102 included in the Base Shelf Prospectus will be qualified by adding the following " , except in cases where an exemption from such delivery requirements has been obtained.";

Dutchess and the Manager

9. Dutchess is an investment fund established as a Cayman Islands exempt limited partnership and its head office is located at Codan Trust Company (Cayman) Limited, Cricket Square, Hutchins Drive P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands;
10. Dutchess is managed by the Manager, a limited liability corporation incorporated under the laws of Delaware, having its head office at 50 Commonwealth Ave, Suite 2, Boston, Massachusetts, USA; the Manager is an affiliate of Dutchess under applicable securities laws;
11. Dutchess is one of a number of investment funds managed by the Manager; the Manager is the investment manager for funds which have made direct investments in growth-stage and mature public companies which span a wide array of sectors using various investment structures such as equity line facilities, equity-linked notes and direct placements;
12. neither Dutchess nor the Manager is a reporting issuer or registered as a registered firm as defined in National Instrument 31-103 *Registration Requirements and Exemptions* in any jurisdiction of Canada;
13. Dutchess and the Manager are not in default of securities legislation in any jurisdiction of Canada;

Proposed Distribution Arrangement

14. Lomiko and Dutchess propose to enter into an equity line facility agreement (the Distribution Agreement), pursuant to which Dutchess will agree to subscribe for, and Lomiko will have the right but not the obligation to issue and sell, up to C\$5 million of Shares (the Aggregate Commitment Amount) over a period of 36 months in a series of draw downs; Lomiko will be entitled to request, in respect of each drawdown, a maximum amount equal to the greater of: (i) \$500,000; or (ii) 200% of the average daily volume of the Shares as traded on the Exchange, multiplied by the average of the three daily closing prices immediately preceding the date of such put, subject to the Aggregate Commitment Amount;
15. the Distribution Agreement will provide Lomiko with the ability to raise capital as needed from time to time; Dutchess regularly engages in such transactions; Dutchess will, in most cases, finance its commitment to subscribe for Shares on a drawdown through short-sales or resales out of existing holdings of Lomiko's securities;
16. Lomiko will have the sole ability to determine the timing and the amount of each drawdown, subject to certain conditions, including a maximum investment amount per drawdown and the Aggregate Commitment Amount;
17. the subscription price per Share and therefore the number of Shares to be issued to Dutchess for each drawdown will be calculated based on a predetermined percentage discount from the lowest daily volume-weighted average price per Share on the Exchange over a period of five consecutive trading days following a drawdown notice sent by Lomiko (the Drawdown Pricing Period); specifically, the Shares will be issued at a subscription price equal to the lowest daily volume-weighted average price per Share on the Exchange during the Drawdown Pricing Period multiplied by 95%; Lomiko may fix in such drawdown notice a minimum subscription price below which it will not issue any Shares; Lomiko and Dutchess can mutually agree in writing to amend the minimum price set forth in a drawdown notice during the applicable Drawdown Pricing Period; notwithstanding the foregoing, the subscription price per Share may not be lower than the volume-weighted average price per Share on the Exchange over a period of five consecutive trading days immediately

- preceding the applicable drawdown notice, less the permitted discount under the private placement rules contained in the Exchange Company Manual (the Floor Price);
18. subject to earlier settlement in certain circumstances, on the 7th trading day following the date of each drawdown notice (each, a Settlement Date), the amount of the drawdown will be paid by Dutchess in consideration for the relevant number of newly issued Shares;
 19. the Distribution Agreement will provide that, at the time of each drawdown notice and at each Settlement Date, Lomiko will make a representation to Dutchess that the Base Shelf Prospectus, as supplemented (the Prospectus), contains full, true and plain disclosure of all material facts relating to Lomiko and the Shares being distributed; Lomiko would therefore be unable to issue, or decide to issue, Shares when it is in possession of undisclosed information that would constitute a material fact or a material change;
 20. on or after each Settlement Date, Dutchess may seek to sell all or a portion of the Shares subscribed for under the drawdown;
 21. during the term of the Distribution Agreement, Dutchess and its affiliates, associates or insiders, as a group, will not own at any time, directly or indirectly, Shares representing more than 9.9% of the issued and outstanding Shares;
 22. Dutchess and its affiliates, associates or insiders, will not hold a "net short position" in Shares during the term of the Distribution Agreement; however, Dutchess may, after the receipt of a drawdown notice, seek to short-sell Shares to be subscribed for under the drawdown, or engage in hedging strategies, in order to reduce the economic risk associated with its commitment to subscribe for Shares, provided that:
 - (a) Dutchess complies with applicable rules of the Exchange and applicable securities regulations;
 - (b) Dutchess and its affiliates, associates or insiders, will not during the period between a drawdown notice and the corresponding Settlement Date, directly or indirectly, sell Shares or grant any right to purchase or acquire any right to dispose of, nor otherwise dispose for value of, any Shares or any securities convertible into or exchangeable for Shares, in an amount exceeding the number of Shares to be subscribed by Dutchess under the applicable drawdown; and
 - (c) notwithstanding the foregoing, Dutchess and its affiliates, associates or insiders, will not, directly or indirectly, sell Shares or grant any right to purchase or acquire any right to dispose of, nor otherwise dispose for value of, any Shares or any securities convertible into or exchangeable for Shares, between the time of delivery of a drawdown notice and the filing of the press release announcing the drawdown;
 23. disclosure of the activities of Dutchess and its affiliates, associates or insiders, as well as the restrictions thereon, the whole as described in paragraph 22 above, will be included in the Base Shelf Prospectus. In addition, Lomiko will include in the Base Shelf Prospectus a risk factor that explains that Dutchess may engage in short-sales, resales or other hedging strategies to reduce or eliminate investment risks associated with a drawdown and that such risk factor will disclose the possibility that such transactions may result in significant dilution to existing shareholders and could have a significant effect on the price of the Shares;
 24. no extraordinary commission or consideration will be paid by Dutchess or the Manager to a person or company in respect of the disposition of Shares by Dutchess to purchasers who purchase them from Dutchess through the dealer(s) engaged by Dutchess through the Exchange (the "Exchange Purchasers");
 25. Dutchess and the Manager will also agree, in effecting any disposition of Shares, not to engage in any sales, marketing or solicitation activities of the type undertaken by dealers in the context of a public offering; more specifically, each of Dutchess and the Manager will not (a) advertise or otherwise hold itself out as a dealer, (b) purchase or sell securities as principal from or to customers, (c) carry a dealer inventory in securities, (d) quote a market in securities, (e) extend, or arrange for the extension of credit, in connection with transactions of securities of Lomiko, (f) run a book of repurchase and reverse repurchase agreements, (g) use a carrying broker for securities transactions, (h) lend securities for customers, (i) guarantee contract performance or indemnify Lomiko for any loss or liability from the failure of the transaction to be successfully consummated, (j) participate in a selling group; (k) effect any disposition of Shares which would not be in compliance with Canadian or United States securities legislation, (l) provide investment advice or (m) issue or originate securities;

26. Dutchess and the Manager will not solicit offers to purchase Shares in any jurisdiction of Canada and will sell the Shares to Exchange Purchasers through one or more dealer(s) unaffiliated with Dutchess, the Manager and Lomiko;

The Prospectus Supplements

27. Lomiko intends to file with the securities regulator in all of the Provinces a prospectus supplement to the Base Shelf Prospectus (each, a Prospectus Supplement) within two business days after the Settlement Date for each drawdown under the Distribution Agreement;
28. the Prospectus Supplement will include (i) the number of Shares issued to Dutchess, (ii) the price per Share paid by Dutchess, (iii) the information required by NI 44-102, including the disclosure required by subsection 9.1(3) of NI 44-102, and (iv) the following statement:

Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment are not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. However, such rights and remedies will not be available to purchasers of common shares distributed under this prospectus because the prospectus will not be delivered to purchasers, as permitted under a decision document issued by the British Columbia Securities Commission on _____, 2011.

The securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contain a misrepresentation, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. Such remedies remain unaffected by the non-delivery of the prospectus, as permitted under the decision document referred to above.

The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

(the Amended Statement of Rights);

29. the Base Shelf Prospectus, as supplemented by each Prospectus Supplement, will (a) qualify the distribution of Shares to Dutchess on the Settlement Date of the drawdown disclosed in the relevant Prospectus Supplement, and (b) qualify the distribution of Shares to Exchange Purchasers during the period that commences on the date of issuance of a drawdown notice to Dutchess and ends on the earlier of (i) the date on which the distribution of such Shares has ended or (ii) the 40th day following the Settlement Date (collectively, a Distribution);
30. the Prospectus Delivery Requirement is not workable in the context of the Distribution because the Exchange Purchasers will not be readily identifiable as the dealer(s) acting on behalf of Dutchess may combine the sell orders made under the Prospectus with other sell orders and the dealer(s) acting on behalf of the Exchange Purchasers may combine a number of purchase orders;
31. the Prospectus Supplement will contain an underwriter's certificate in the form set out in section 2.2 of Appendix B to NI 44-102, signed by Dutchess;
32. at least three business days prior to the filing of the first Prospectus Supplement filed in connection with a distribution pursuant to the equity line facility under the Distribution Agreement, Lomiko will provide for comment to the Decision Makers a draft of such Prospectus Supplement;

Press Releases / Continuous Disclosure

33. following the execution of the Distribution Agreement, Lomiko will:
- (a) promptly issue and file a press release on SEDAR disclosing the material terms of the Distribution Agreement, including the Aggregate Commitment Amount; and
 - (b) within ten days after said execution:

- (i) file a copy of the Distribution Agreement on SEDAR; and
 - (ii) file a material change report on SEDAR disclosing at a minimum the information required in subparagraph (i) above.
- 34. Lomiko will promptly issue and file a press release on SEDAR upon the issuance of each drawdown notice, regardless of the size of the drawdown, disclosing the aggregate amount of the drawdown, the maximum number of Shares to be issued, the minimum price per Share, if any, the Floor Price as well as the fact that the Base Shelf Prospectus is available on SEDAR and specifying how a copy of this document can be obtained;
- 35. Lomiko will promptly issue and file a press release on SEDAR upon amending the minimum price set forth in a drawdown notice disclosing the amended minimum price per Share and the maximum number of Shares to be issued;
- 36. Lomiko will:
 - (a) issue and file a press release on SEDAR on, or as soon as practicable after, the last day of the Drawdown Pricing Period, disclosing:
 - (i) the number of Shares issued to, and the price per Share paid by, Dutchess;
 - (ii) that the Base Shelf Prospectus and the relevant Prospectus Supplement will be available on SEDAR and specifying how a copy of these documents can be obtained; and
 - (iii) the Amended Statement of Rights; and
 - (b) file a material change report on SEDAR within ten days of the Settlement Date, if the relevant Distribution constitutes a material change under applicable securities legislation, disclosing at a minimum the information required in subparagraph (i) above;
- 37. Lomiko will also disclose in its financial statements and management's discussion and analysis filed on SEDAR under National Instrument 51-102 *Continuous Disclosure Obligations*, for each financial period, the number and price of Shares issued to Dutchess pursuant to the Distribution Agreement;

Deliveries upon Request

- 38. Lomiko will deliver to the Decision Makers and to the Exchange, upon request, a copy of each drawdown notice delivered by Lomiko to Dutchess under the Distribution Agreement;
- 39. Dutchess and the Manager will provide to the Decision Makers, upon request, full particulars of trading and hedging activities by Dutchess or the Manager (and, if required, trading and hedging activities by their respective affiliates, associates or insiders) in relation to securities of Lomiko during the term of the Distribution Agreement.

Decision

- 4 Each of the Decision Makers is satisfied that the decision meets the test set out in the Legislation for the Decision Maker to make the decision.

The decision of the Decision Makers under the Legislation is that the Exemptive Relief Sought is granted provided that:

- (a) as it relates to the Prospectus Disclosure Requirement:
 - (i) Lomiko comply with the representations in paragraphs 8, 23, 28, 29, 33, 34, 35, 36 and 38; and
 - (ii) the number of Shares distributed by Lomiko under the Distribution Agreement does not exceed, in any 12 month period, 19.9% of the aggregate number of Shares outstanding calculated at the beginning of such period;

- (b) as it relates to the Prospectus Delivery Requirement and the Dealer Registration Requirement, Dutchess and/or the Manager, as the case may be, comply with the representations in paragraph 22, 24, 25, 26, 31 and 39; and
- (c) this decision will terminate 25 months after the date of the Base Shelf Prospectus.

DECISION

Background

The principal regulator in the Jurisdiction has received an application from the Filer on behalf of the Initial Intactive Top Funds and other Invesco Intactive mutual fund share classes of Invesco Corporate Class Inc. to be established by the Filer (together with the Initial Intactive Top Funds the “**Intactive Top Funds**”) for a decision under the securities legislation of the Jurisdiction of the principal regulator (the “**Legislation**”) exempting the Intactive Top Funds from the

restriction contained in section 2.5(2)(b) of National Instrument 81-102 – *Mutual Funds* (“**NI 81-102**”) that a fund not invest in another fund if the other fund holds more than 10% of the market value of its net assets in securities of other mutual funds (the “**Exemption Sought**”).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions:

- a. the Ontario Securities Commission is the principal regulator for this application, and
- b. the Filer has provided notice that section 4.7(1) of Multilateral Instrument 11-102 – *Passport System* (“**MI 11-102**”) is intended to be relied upon in British Columbia, Alberta, Saskatchewan, Manitoba, Quebec, New Brunswick, Nova Scotia, Newfoundland and Labrador, Prince Edward Island, Northwest Territories, Nunavut and Yukon (the “**Other Jurisdictions**”).

Interpretation

Defined terms contained in National Instrument 14-101 – *Definitions* and MI 11-102 have the same meaning if used in this decision unless they are defined in this decision.

3. Each Intactive Top Fund will be a class of shares of Invesco Corporate Class Inc. An investment by Intactive Bottom Fund in securities of:</p> <p>(a) money market funds will be made in accordance with the provisions of section 2.5 of NI 81-102;</p> <p>(b) Index ETFs will be made in accordance with the provisions of section 2.5 of NI 81-102, except for the requirement in section 2.5(2)(e) from which the Filer has received exemptive relief on May 8, 2008 to pay arm's length third party brokers brokerage commissions for executing trades in securities of Index ETFs (the "May 8, 2008 Relief");</p> <p>(c) Gold/Silver ETFs will be made in accordance with the provisions of the Gold/Silver Relief; and</p> <p>(d) Underlying Funds will be made in accordance with the provisions of section 2.5 of NI 81-102, except for the requirement in section 2.5(2)(b).</p> <p>Accordingly, there will be no duplication of fees between each tier of the multi-tier fund structure except as permitted under the May 8, 2008 Relief.</p> |

13. The multi-tier fund structure that will result from an Intactive Top Fund's investment in securities of an Intactive Bottom Fund will be akin to, and no more complex than, the multi-tier fund structure currently permitted under sections 2.5(4)(a) and 2.5(4)(b)(ii) of NI 81-102.
14. The simplified prospectuses of each Intactive Top Fund will disclose that it invests directly in securities of an Intactive Bottom Fund and that the Intactive Bottom Fund mainly invests directly in a combination of Underlying Funds, Index ETFs, Gold/Silver ETFs, Gold, Silver and/or Cash. It will therefore be clear to investors that accountability for portfolio management is at the level of the Intactive Bottom Fund. In addition, the Filer will comply with the requirements under National Instrument 81-106 *Investment Fund Continuous Disclosure* relating to top 25 positions disclosure in the Management Report of Fund Performance as if the applicable Intactive Top Fund were invested directly in the Underlying Funds and Gold/Silver ETFs. This will provide transparency to investors relating to the investment portfolio.
15. An investment by an Intactive Bottom Fund in the Underlying Funds, Index ETFs, Gold/Silver ETFs, Gold, Silver and/or Cash represents the business judgment of responsible persons uninfluenced by considerations other than the best interests of the Intactive Bottom Fund.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make a decision.

The decision of the principal regulator under the Legislation is that the Exemption Sought is granted to allow the Intactive Top Funds to invest in securities of Intactive Bottom Funds subject to compliance with all other requirements of section 2.5, except to the extent that discretionary relief has been granted from any such requirements.

AND WHEREAS on April 4, 2011, Staff and Howorth attended before the Commission to make submissions and no other Respondents attended;

AND WHEREAS Staff advised the Panel that it had contacted the appropriate authorities in the Bahamas to determine the current status of Ameron and had served notice of the hearing on the registered agent for Ameron as listed on the corporate documents provided by the authorities in the Bahamas;

AND WHEREAS the Commission is satisfied that Staff has taken reasonable efforts to serve the Respondents with notice of the hearing;

AND WHEREAS Howorth brought a motion to oppose the extension of the Temporary Order;

AND WHEREAS the motion raises the question of the obligations of a director of a company;

AND WHEREAS Staff submitted that the public interest requires a director to, at least, monitor the activities of a company, and this is so even if there is no evidence that the director authorized, permitted or acquiesced in an act of non-compliance with Ontario securities law under section 129.2 of the Act;

AND WHEREAS Howorth submitted that he did not authorize, permit or acquiesce in an act of non-compliance with Ontario securities law and should not be the subject of the Temporary Order, but did not provide any evidence regarding this;

13.2.1 Application for Recognition of Alpha Trading Systems Limited Partnership and Alpha Exchange Inc. as an Exchange – Notice and Request for Comment

APPLICATION FOR RECOGNITION OF ALPHA TRADING SYSTEMS LIMITED PARTNERSHIP AND ALPHA EXCHANGE INC. AS AN EXCHANGE

NOTICE AND REQUEST FOR COMMENT

I. INTRODUCTION

Since November 2008, Alpha ATS L.P. (Alpha ATS) has been operating an alternative trading system in Ontario under National Instrument 21-101 *Marketplace Operation*. Alpha ATS facilitates the trading of equity securities listed on the Toronto Stock Exchange (TSX) and TSX Venture Exchange (TSX-V) through a transparent, continuous matching platform.

Alpha Trading Systems Limited Partnership (Alpha LP) and Alpha Exchange Inc. (Alpha Exchange) (together, Alpha Group) have applied to the Commission for recognition of Alpha LP and Alpha Exchange as an exchange pursuant to section 21 of the *Securities Act* (Ontario). The general partner of Alpha LP, Alpha Trading Systems Inc. (Alpha GP), has agreed to also be subject to terms and conditions of any recognition of Alpha Group as an exchange. It is proposed that Alpha Exchange will be responsible for carrying out the exchange business and that Alpha LP, the parent of Alpha Exchange, will have direct influence over the strategic direction of Alpha Exchange.

Alpha Group proposes to operate an electronic, automated exchange to trade securities of qualified issuers listed on Alpha Exchange as well as those listed on other recognized exchanges.

In connection with the application from Alpha Group for recognition as an exchange (the application), OSC staff (Staff or we) are publishing for a 45-day public comment period:

- The following documents prepared by Alpha Group:
 - application letter (Appendix A),
 - proposed Listing Handbook and related Forms (Appendix B),
 - proposed Trading Policies (Appendix C), and
 - proposed member agreement (Appendix D); and
- Draft terms and conditions of recognition, as prepared by Staff (Appendix E).

Based upon comments received and further Staff review, all terms and conditions, and in particular those relating to corporate governance and the regulation of listed issuers, may be modified or new ones may be added.

The comment period will end on May 30, 2011. Please refer to Part V of this notice for information on the means for providing feedback.

II. APPLICATION

In its application letter (Appendix A), Alpha Group has made representations to the Commission regarding how it will meet each of the exchange recognition criteria related to: governance, fees, access, regulation of members and listed issuers, due process, systems and technology and information technology risk management procedures, financial viability and reporting, clearing and settlement, transparency, outsourcing, information sharing and regulatory cooperation. The specific criteria can be found in Schedule 2 of Appendix E.

Staff are seeking comment on all aspects of the application, but invite specific comment on the matters discussed below.

A. Governance Structure

(i) Independent representation on Alpha Exchange board

Because of their regulatory responsibilities, exchanges have a public interest mandate that must be considered in the context of many of the decisions made by the exchange. Independence on the board is a key component in ensuring that adequate consideration is given to the exchange's general public interest mandate. In our view, independent board representation is important to provide objectivity to the board and to exercise effective oversight of management. The separation between ownership and governance through independent representation helps to ensure that another perspective, a non-industry perspective that is reflective of the broader stakeholder group, is considered. It is important to have representation that can speak for and represent other stakeholders, investors and the public interest, and we believe that this is more likely to be achieved when independent representation is at least 50%. We recognize the principles in the Canadian Securities Administrators' (CSA's) SRO Oversight Committee Report published in 2006¹ and the support given to the notion that alternative governance structures with less than 50% representation may be appropriate.² However, in our view, these principles need to be applied with regard to the particular circumstances of an entity.

The circumstances relating to the recognition of Alpha Exchange relate to its ownership structure.

In connection with this, Staff are of the view that requiring at least 50% independent representation on the board of Alpha Exchange would help to address various associated potential conflicts of interest including those:

- between its commercial and regulatory operations, generally;
- between the interests of the dealer members of Alpha Exchange that are, or are owned by, the limited partners of Alpha LP (the dealer-owners)³ and the interests of the other dealer members (where those interests might not be aligned);
- between the interests of the dealer-owners and other stakeholders; and
- that might arise by virtue of the fact that Alpha Exchange will have regulatory responsibilities vis-à-vis its dealer-owners.

Alpha Group has proposed a level of independent representation on the board of Alpha Exchange that will be less than 50%. Specifically, Alpha Group proposes that Alpha Exchange will have a board of eight directors comprised of four non-independent "industry" directors (i.e., directors that are representatives of dealer members), three independent directors and a chief executive officer. At this point, Alpha Group proposes that the four industry directors would be dealer-owner representatives.

Alpha Group's rationale for its proposal is set out in its application letter found in Appendix A. Staff's concerns are set out below.

Board composition – We understand that it is likely that all four of the non-independent "industry" directors will be representatives from the larger dealer-owners of Alpha LP. Staff question whether *de facto* control by the dealer-owners is achieved considering that the CEO is considered to be neither independent nor non-independent.

Effect of proposed Regulatory Oversight Committee (ROC) – We acknowledge that the ROC proposed by Alpha Group will have certain decision-making powers in relation to the application of Alpha Exchange's code of conduct and conflict policies and on appeals of decisions taken under the proposed Trading Policies or proposed Listing Handbook. In addition, we believe that the ROC will help to ensure that there is adequate oversight of and attention paid to the regulation functions to be performed by Alpha Exchange. However, in relation to other activities that are important from a regulatory perspective, such as: rule-making; the setting of a regulation budget; and changes to the regulation and compliance programs of Alpha Exchange, the ROC's role is advisory in nature. This raises questions as to the degree of the authority of the ROC to actually influence the decision-

¹ CSA Notice 24-303 - CSA SRO Oversight Project - Review of Oversight of Self-Regulatory Organizations and Market Infrastructure Entities – Report of the CSA SRO Oversight Project Committee, published on December 8, 2006 at (2006) 29 OSCB 9462.

² The recommendation in the report being referred to here states that: "An entity may have an alternative governance structure that does not comply with recommendations (a) [at least 50% independent representation on the board] and (b) [establish a ROC for any market infrastructure entity, such as an exchange]; however, it should assess the appropriateness of having 50% independent directors or a ROC, and explain how its alternative governance structure would ensure effective and independent oversight of the entity and management of any conflicts of interest without such tools."

³ Eight out of the nine current limited partners of Alpha LP are investment dealers or wholly own an investment dealer. When we refer to the "dealer-owners", we are referring to these eight limited partners.

making of the Alpha Exchange board in relation to these activities. We therefore question whether the ROC as proposed is an appropriate substitute for 50% independent representation on the board.

Effect of competitive pressures – We acknowledge Alpha Group's argument that competitive pressures can aid in addressing the potential conflicts of interest. However, in our view, this is not a substitute for independent representation. We also note that competition has the potential to create results that are detrimental to the public interest – for example, to the extent that competition could create incentives to lower listing standards.

Existing literature and international experience – We acknowledge that existing literature and international experience indicates that there might not be a one-size-fits-all governance structure for exchanges. However, the current precedent in Canada for equities exchanges is a requirement for at least 50% independent representation. Further, we note that a standard has evolved in the U.S. for 50% independent representation on the board of an equities exchange. While we accept that there may be circumstances that would justify a departure from this standard, in the circumstances of this application, and in particular the proposed ownership structure and potential conflicts of interest, we question whether there is sufficient justification to deviate from the standard.

Role played by securities regulators – While we recognize the important role played by securities regulators in ensuring that an exchange operates in a manner that is consistent with the public interest, we note that an exchange is also responsible for regulatory functions and therefore has responsibility to ensure its regulatory functions are being carried out in a manner that is consistent with its public interest mandate and in compliance with the terms and conditions of its recognition order.

Question 1: Is Alpha Group's proposed governance structure, including its proposed role for a ROC, appropriate in the context of Alpha Group's ownership structure and regulatory responsibilities? Does it adequately address the potential conflicts of interest? Alternatively, is requiring 50% independent representation on the Alpha Exchange board of directors appropriate? If so, would a ROC still be appropriate or necessary, and with what level of authority over regulatory matters?

(ii) *Meaning of "independence"*

Together with considering the appropriate level of independent representation on the board of Alpha Exchange, Staff have been considering what should constitute "independence", in the context and the nature of the structure of Alpha Exchange.

We note that Alpha is proposing that a materiality threshold be applied for representatives of owners. This threshold would have the effect of applying only to representatives of owners that are not members of Alpha Exchange. More specifically, Alpha proposes that owners that are not members but own less than 10% should be able to act as independent directors.⁴

Question 2: Is the definition of independence proposed by Alpha Group to be applied to Alpha Exchange's board directors appropriate in the context and nature of their proposed structure? Are there any other exclusions that would be warranted?

(iii) *Conflicts of interest*

Staff have proposed specific terms and conditions of recognition regarding conflicts of interest to ensure that Alpha Group establishes appropriate mechanisms to address potential conflicts of interest. These would require Alpha Group to establish, maintain and ensure compliance with policies and procedures that:

- identify and manage any conflicts of interest arising from the operation of the exchange or the services it provides, including those that may arise from the involvement of any partner, director, officer or employee of a limited partner of Alpha LP in the management or oversight of the exchange operations or regulation functions of Alpha Exchange and the services it provides; and
- require that information regarding exchange operations, regulation functions or a member or issuer that is obtained by a partner, director, officer or employee of a limited partner of Alpha LP through their involvement in the management or oversight of exchange operations or regulation functions be kept separate and confidential from the business or other operations of the limited partner of Alpha LP and not be used to provide an advantage to the limited partner of Alpha LP.

⁴ We note that, based on the current ownership structure, seven of the nine limited partners of Alpha LP are investment dealers that would likely be members of Alpha Exchange, and therefore representatives from these members (or from any member) would already be precluded from independence based on the proposed terms and conditions of recognition. Of the two limited partners that are not investment dealers, representatives from only one might be precluded from independence under Alpha's proposed materiality threshold.

We are of the view that due to the nature of the ownership of the Alpha Group, more specificity is required as to the potential conflicts of interest that should be addressed by the policies and procedures. We note that the term and condition requiring certain information to be kept separate and confidential provides an exception where disclosure of information regarding exchange operations is necessary to carry out the individual's responsibilities for the management or oversight of exchange operations and the individual can and does exercise due care in its disclosure of the information.

Question 3: Are the proposed terms and conditions of recognition that deal with conflicts of interest and confidentiality appropriate in light of the potential conflicts of interest associated with Alpha Exchange's ownership structure? If not, why not? Would other or additional terms and conditions be more appropriate?

(iv) *Prior Commission approval for any changes in ownership*

To ensure that there is an opportunity to consider the continued adequacy of the ownership and governance structure of Alpha Group in the context of any recognition of Alpha Exchange, Staff have proposed terms and conditions of recognition (draft terms and conditions of recognition are in Schedule A of Appendix E) that would require prior approval from the Commission before any person or company could effectively own or control more than a certain percentage of Alpha LP, Alpha GP or Alpha Exchange (the ownership threshold). Staff believe that for Alpha Group, which is intended to be privately-held with nine beneficial owners, a reasonable ownership threshold for significant influence would be at the point of acquiring a 20% or more interest. Staff note that for a widely-held publicly-traded exchange, a lower threshold is more appropriate.

As at the date of the application, each limited partner of Alpha LP held less than a 20% interest in each of Alpha LP and Alpha GP.⁵ The term and condition we have proposed would be intended to apply to any owner, current or future, before it surpasses the ownership threshold post-recognition.

Question 4: Is it appropriate to impose a term and condition of recognition requiring Commission approval before a person or company obtains a certain percentage interest in Alpha Group, in order to consider the continued appropriateness of its ownership and governance structure? If so, what percentage of ownership is appropriate in the context of a privately-held exchange?

B. Issuer Regulation

(i) *Level of listed issuer regulation*

Alpha Exchange's proposed Listing Handbook, a copy of which is attached as Appendix B, sets out the requirements for issuers listed on Alpha Exchange. These include requirements relating to listing standards, suspensions, disclosure, corporate finance and capital structure changes, corporate governance and security holder approval.

We understand that Alpha Exchange's listing model is based on certain assumptions, including the following:

- The Canadian regulatory structure allows for competing listing standards.
- Every issuer can apply to any exchange for a listing, provided it meets the listing standards of that exchange.
- Listing requirements have traditionally been based on commercial and branding considerations.
- The exchanges' regulatory functions focus on issuer "regulation" to the extent of their requirements, but exchanges do not have any mandated minimum level for their requirements (provided the exchange's listing requirements are not inconsistent with the securities regulators' requirements).

Staff agree that the Canadian regulatory structure allows for competing listing standards. However, to date, these competing listing standards have varied by exchange to suit the type of issuer listing on the particular exchange.

Question 5: Should issuers of the same size and quality be subject to an equivalent level of listed issuer regulation by competing exchanges? Are some elements of listed issuer regulation merely "branding" and if so, what are those areas?

(ii) *Venture and non-venture issuer status*

The CSA have adopted proportionate regulation for listed issuers, which impose appropriate levels of regulation for issuers of different sizes. The CSA determine whether an issuer is junior or senior based on what exchange the issuer is listed. For

⁵ Alpha LP owns 100% of Alpha Exchange.

example, issuers listed on the TSX are senior, or “non-venture issuers” while issuers listed on the TSX-V and CNSX are junior, or “venture issuers”.

As set out in its application, Alpha Exchange seeks to establish a mid tier exchange which would target issuers at the upper tiers of the venture issuers as well as more senior issuers. Alpha Exchange proposes classifying its listed issuers into two tiers. It proposes that the securities regulators classify tier 1 issuers as “non-venture” issuers and tier 2 issuers as “venture” issuers for the purposes of securities regulation.

Staff and the Commission have not determined how issuers listed on Alpha Exchange should be classified for the purposes of issuer regulation under Ontario securities legislation. Depending on the decision made by the Commission, changes may be required to Alpha Exchange's listing handbook to ensure consistency with Ontario securities legislation.

Question 6: Given the listing requirements proposed by Alpha Exchange, is it appropriate to classify tier 1 issuers as “non-venture” issuers and tier 2 issuers as “venture” issuers under applicable securities legislation? Should the CSA reconsider its current issuer “venture”/“non-venture” classification in light of the application by Alpha Exchange?

(iii) *Exercise of discretion by exchange*

In our view, the most significant difference in how Alpha Exchange proposes to regulate its listed issuers and how the TSX and TSX-V regulate their listed issuers is the exchanges' use of discretion. For example, under the TSX listed issuer rules, the TSX may exercise its discretion in reviewing certain listed issuer transactions. In exercising its discretion, the TSX may impose conditions on transactions, including the requirement to obtain shareholder approval.

Alpha Exchange does not propose to exercise discretion in reviewing listed issuer transactions. Rather, it proposes to rely upon the objective standards set out in their Listing Handbook, together with both shareholder approval and the mandated involvement of independent directors to address transactions by listed issuers which could have a material impact on dilution or involve insiders/related parties. While Alpha Exchange will review transactions, the focus of the review will not be to “approve/disapprove” the transaction, but rather to determine whether the issuer is in compliance with disclosure and shareholder requirements.

Question 7: Is an exchange's ability to exercise discretion necessary for regulating its listed issuers? Or can shareholder approval and the role of independent directors be a substitute to ensure the maintenance of a quality marketplace?

(iv) *Securityholder approval requirements for investment fund acquisitions*

Alpha Exchange proposes to require securityholder approval of an acquisition of a listed issuer that is an investment fund unless certain conditions are met.

It is our view that the securityholder approval requirements for acquisitions of listed issuers that are non-redeemable investment funds should be substantially similar to the requirements in NI 81-102 for mutual funds, including the requirement that the investment funds participating in the acquisition bear none of the costs and expenses associated with the transaction. We understand this approach is followed by other exchanges that have listed issuers that are investment funds. Alpha Exchange is proposing to allow the costs and expenses associated with the transaction to be borne by the investment fund if the fund's independent review committee has determined that the payment is in the best interest of the investment fund. Staff's view is that since the investment fund manager arguably benefits from an acquisition at least as much as the securityholders of the investment funds, the costs and expenses of an acquisition are, in Staff's view, more properly borne by the manager as opposed to the security holders. We are further concerned that not having a consistent approach to investment fund acquisitions will create opportunities for regulatory arbitrage.

Question 8: Should a listed issuer that is an investment fund be subject to the same securityholder approval requirements for acquisitions as mutual funds? In particular, should the investment fund manager bear the costs and expenses associated with an acquisition of a listed issuer that is an investment fund?

(v) *Inter-listed investment funds and structured products*

Alpha Exchange proposes to permit foreign issuers listed on a recognized foreign exchange to apply for listing. This will include listed issuers that are investment funds and other comparable listed structured products such as exchange-traded notes. To minimize opportunities for regulatory arbitrage, it is our view that there should be a process or protocol established to inform Staff of applications by such foreign listed issuers prior to listing, which should be included in the Listing Handbook. The purpose of this protocol would be to allow Staff to assess whether we have in the past recommended or would recommend a receipt for a similar investment fund product offered by prospectus in Canada. While Alpha Group has agreed to inform us when they receive

such applications and provide for this in their policies and procedures, they have not agreed to include Staff's assessment as one of the criteria to be considered in determining to inter-list a foreign investment fund or structured product.

Question 9: Should Alpha Exchange's Listing Handbook contain specific criteria relating to listing applications from foreign special purpose issuers, such as investment funds or exchange-traded notes? Should this criteria require Alpha Exchange to consider Staff's assessment that it would be in the public interest to approve such a listing application?

C. Member Regulation

(i) Cancellation and amendment of orders and trades

Section 5.8 of Alpha Exchange's proposed Trading Policies provides Alpha Exchange with the broad discretion to "change and/or cancel any order or trade that has not yet been submitted by Alpha [Exchange] to the clearing agency clearance and settlement process for the purposes of mitigating errors made in order execution and maintaining market quality." Staff have concerns with the broad nature of the discretion provided, and the lack of clarity around what would constitute an "error in order execution", or the circumstances that would necessitate a change or cancellation to "maintain market quality". We are also concerned with how Alpha Exchange proposes that it might exercise this discretion without prior the involvement of the Market Regulator or the affected parties.

On April 8, 2011, the CSA published for comment proposed National Instrument 23-103 *Electronic Trading and Direct Electronic Access to Marketplaces* that include provisions setting out the conditions under which a marketplace would be able to cancel, vary or correct a trade. Should the proposed National Instrument be implemented with these provisions as proposed, Alpha Exchange may need to make revisions to its policies on the amendment and cancellation of trades to ensure consistency with these provisions.

D. Other Outstanding Issues

While Staff have reviewed Alpha Group's application, we have not yet received all information necessary to make a recommendation to the Commission regarding recognition. Similarly, to the extent that there are any outstanding issues with, or any inconsistencies or errors remaining in or between, Alpha Exchange's proposed Trading Policies, Member Agreement, Listing Handbook and related forms, these will have to be addressed.

III. DRAFT TERMS AND CONDITIONS OF RECOGNITION

The draft terms and conditions of recognition are also being published at this time for comment. Based upon comments received and further Staff review, all terms and conditions, and in particular those relating to corporate governance and the regulation of listed issuers, may be modified or new ones may be added.

We note that the draft terms and conditions of recognition include a requirement that Alpha Exchange adhere to a rule review process, as amended from time to time, that will set out the procedure to be followed in connection with the Commission's approval of changes to Alpha Exchange's rules. In connection with amendments made to NI 21-101⁶, Staff are developing a rule review process and form filing process that will be applicable to all recognized exchanges and alternative trading systems. The process will be developed with input from the marketplaces. The process would outline timelines for proposed changes to rules and forms and the circumstances requiring publication for comment of a proposed change. It is anticipated that material changes to Alpha Exchange's rules will be published for public comment and will be subject to Commission approval.

OSC staff's existing process for reviewing initial filings and changes to certain of the operations of exchanges is described in OSC staff Notice 21-703 *Transparency of the Operations of Stock Exchanges and Alternative Trading Systems (Revised – Previously Published October 9, 2009)*.⁷ To the extent that commentary in Alpha Exchange's proposed rules includes information that should be considered to be part of or akin to a rule, Staff would require that it be treated as a rule change under these rule review processes.

IV. EVOLUTION OF THE EXCHANGE ENVIRONMENT

A. The Alpha Group Application and the Global Exchange Environment

We are considering the Alpha Group application during a time of change in the environment for exchanges. In response to increased competition from alternative trading venues, exchanges globally are merging and consolidating. Regulators are examining the issues associated with these consolidations to determine the impact on their markets and whether the resulting

structures are in the public interest. In Canada, the proposed transaction between the TMX Group and London Stock Exchange Group may impact the structure of our market. The issues associated with that transaction will be examined separately from those related to this notice. However, we must examine the issues associated with Alpha Group in the context of the changing Canadian market.

Question 10: Does the changing environment impact the Alpha Group application? If so, how?

APPENDIX A

April 4, 2011

Ontario Securities Commission
20 Queen Street West, Suite 1903
Toronto, Ontario
M5H 3S8

Attention: Susan Greenglass, Director of Market Regulation

Dear Ms. Greenglass

Re: Application for Recognition of Alpha Exchange Inc. ("Alpha Exchange")

This letter sets out the application (the "**Application**") of Alpha Exchange to the Ontario Securities Commission (the "**Commission**") for recognition as a stock exchange in accordance with section 21(2) of the *Securities Act* (Ontario), R.S.O. 1990, c. S-5 (the "**Act**").

I. Application for Recognition

Alpha Trading Systems Limited Partnership ("**Alpha LP**") with its General Partner, Alpha Trading Systems Inc., owns all of the shares of Alpha Exchange. Alpha LP¹ is applying for recognition as an exchange for the specific purpose of complying with the following conditions²:

- Alpha LP will commit to allocate sufficient resources to Alpha Exchange to ensure that it can carry out its functions in a manner that is consistent with the public interest and will notify the Commission if it is unable to do so.
- Alpha LP will provide to the Commission quarterly and annual consolidated financial statements.
- Alpha LP, as permitted by its legal authority, will cause Alpha Exchange to carry out its activities as a recognized stock exchange.
- Alpha LP will provide to the Commission access to any information that is required for the assessment by the Commission of the performance by Alpha Exchange of its regulatory obligations.
- Alpha LP will establish, maintain and ensure compliance with policies and procedures that identify and manage any conflicts of interest and maintains confidentiality of information arising from Alpha LP's interest in Alpha Exchange. Alpha LP believes that these requirements should be set by the board of Alpha LP (the

¹ Alpha Trading Systems Inc., the general partner of Alpha LP, has agreed to be a party to the recognition order for the terms and conditions specific to it.

² While in other jurisdictions the parents of exchanges are asked to assume similar obligations without recognition, the Ontario precedent has required the parent to have a recognition to support these obligations.

“Board”), subject to review and approval by the regulator, and published on its web site. Alpha LP does not believe it is appropriate to include the content of these policies in the recognition order because it undermines the authority of the Board and is inefficient because any changes proposed by the Board would require an amendment to the recognition order.

- Alpha LP will ensure that each person or company which has more than a 10% partnership interest in Alpha LP and each officer or director of the general partner of Alpha LP is fit and proper so that there are reasonable grounds to believe that the business of Alpha LP will be conducted with integrity.
- Alpha LP will ensure that no person or company together with any associated and affiliated entities will own or control 20% or more of any class or series of voting shares of Alpha Exchange without having prior Commission approval.

Alpha Exchange is applying for recognition as an operating exchange subject to all of the criteria that are applicable to such operating entities in accordance with s. 21 of the *Securities Act* (Ontario).

At this time, the following issues have been identified for specific comment by the Ontario Securities Commission:

- What is an appropriate governance structure for a privately owned exchange?
- Whether listing standards which include additional governance standards and greater specificity are an acceptable alternative to the use of discretion by the exchange in regards to issuer transactions.
- Whether the use of two tiers for issuers achieves Alpha's objective of differentiating itself from other exchanges and providing alternatives to issuers.
- Whether a special review process is required when the issuer is a foreign issuer or is offering a structured product.
- Whether exchanges should be allowed to retain discretion to take action against issuers or members in the case of unanticipated events in order to protect the market quality or other participants' rights, provided such exercise of discretion is subject to commercial and regulatory remedies, as well as regulatory oversight.

II. Background and Introduction to Alpha Exchange Application

A. Current Operations

Currently, Alpha ATS LP operates an alternative trading system (“**Alpha ATS**”) created to facilitate trading of TSX and TSXV listed equities in the Canadian capital markets. Alpha ATS features a transparent, continuous matching platform where trading occurs through a Central Limit Order Book (CLOB) and other special order books, such as an odd lot facility.

Alpha ATS began operating in November, 2008. It currently has 92 subscribers and active trading of over 1,700 securities. The following tables³ set out the trading volume for TSX and TSXV securities from December 2010 through February 2011:

Upon recognition of Alpha Exchange and the reorganization of the Alpha Group entities in connection with such recognition, Alpha ATS will be dissolved. Existing agreements with the current Alpha Group entities will be assigned to Alpha Exchange or Alpha LP (or a new legal entity), unless there are changes requiring the parties to execute another agreement. Notice will be provided in accordance with the current agreements. At this time, we expect that only dealers will have to execute a new agreement, i.e. an Alpha Exchange Member Agreement in replacement of the current Alpha ATS Subscriber Agreement, and that all other agreements will be assigned since there will be no material changes to them.

B. Participants / Membership

Alpha Exchange will operate an electronic automated marketplace for participating investment dealers who are members of the Investment Industry Regulatory Organization of Canada ("**IIROC**") ("**Members**" of Alpha Exchange) to trade securities of qualified listed issuers on substantially the same basis as Alpha ATS has been operating. It is expected that current Alpha ATS Subscribers will execute the proposed Alpha Exchange Member Agreement, which is available on the Alpha web site in the section related to the Exchange Application. As part of the proposed Alpha Exchange Member Agreement, Alpha Exchange Members will agree to be bound by Alpha Exchange's policies, as more fully described further on in this Application.

The proposed Alpha Exchange Member Agreement is based on the Subscriber Agreement that is currently in use by Alpha ATS. The key differences between the two agreements are as follows:

- A schedule has been added for those parties who want to become Market Makers.
- Some sections were moved to the Trading Policies at the request of the regulators, who believed that this would provide for better transparency to users.

A copy of the proposed Alpha Exchange Member Agreement is published with this Application and a black-lined version of the proposed Agreement, in comparison to the current Alpha ATS Subscriber Agreement, is available on Alpha's website.

We encourage parties to review the proposed Alpha Exchange Member Agreement as quickly as possible so that they can execute it as soon as recognition has been granted to Alpha Exchange.

C. Trading Policies

Alpha ATS has always been a proponent of providing public information on how its marketplace operates to encourage and facilitate informed choices regarding trading. Alpha ATS' Trading Policies have been published and placed on its website since it began operations. Alpha Exchange will adopt the Trading Policies of Alpha ATS as revised to reflect any changes in relation to this Application, and will follow the same principles of transparency.

The key differences between the proposed Alpha Exchange Trading Policies and the current Alpha ATS Trading Policies can be summarized as follows:

- Some sections of the current Alpha ATS Subscriber Agreement have been moved into the proposed Alpha Exchange Trading Policies.
- A section on Market Makers has been added.
- Policies regarding Members' suspension, termination and rights of appeal have been clarified.

A copy of the proposed Alpha Exchange Trading Policies is published with this Application and a version is available on Alpha's website.

D. Listing and Listing Handbook

Alpha Exchange is entering the listings business in order to increase competition for listings in the Canadian capital markets and thereby decrease associated costs, minimize inefficiencies, provide choice and promote a more vibrant Canadian capital market that will benefit all stakeholders. This is in keeping with Alpha's overall business objective, which is to eliminate inefficiencies, reduce costs to market participants and promote the Canadian capital markets; while being at the same time a profitable and commercially successful market operator that allows the industry to benefit from true competition.

Alpha Exchange will trade securities that are listed on Alpha Exchange ("**Alpha Listed Securities**") as well as those listed on other recognized exchanges ("**Other Traded Securities**" or "**OTS**"). Issuers that meet the criteria set out in Alpha Exchange's Listing Handbook can apply to Alpha Exchange to qualify their securities for listing ("**Listed Issuers**").

See Part III D of this Application for a more detailed description of the Alpha Exchange listing standards and current issues for discussion.

The proposed Alpha Exchange Listing Handbook and Forms will be available on the Alpha website, and Alpha will follow the same transparency practices with respect to these documents as it does for the Alpha Exchange Trading Policies.

III. Recognition Criteria for Alpha Exchange

A. Governance⁴

Ownership of Alpha Exchange

Alpha Exchange was incorporated under the *Canada Business Corporations Act* (the “CBCA”) on March 24, 2010.

Alpha Exchange is a separate legal entity. It is a private company and a wholly-owned subsidiary of Alpha LP. Alpha LP is a limited partnership formed under the laws of Manitoba. Alpha LP has nine limited partners and one general partner, Alpha Trading Systems Inc. (“**Alpha GP**”), which altogether hold 100% of the interests in Alpha Exchange. Alpha GP is a corporation incorporated under the CBCA and its common shares are held by the limited partners of Alpha LP.

As the general partner of Alpha LP, Alpha GP oversees all businesses of the Alpha Group, including Alpha Exchange, in accordance with legal, financial and regulatory requirements.

The limited partners of Alpha LP (the “**Partners**”) are BMO Nesbitt Burns Inc., CIBC World Markets Inc., National Bank Financial Inc., RBC Dominion Securities Inc., TD Securities Inc., CPP Investment Board Private Holdings Inc., Scotia Capital Inc., Canaccord Financial Inc. and Desjardins Securities Inc. The Partners are federally regulated financial institutions, provincially regulated dealers and a public pension fund, and represent a diversified group of interests based on their size and the nature and geographic location of their businesses.

Each of the Partners is a highly regulated entity and has strong incentives to provide a market that has high standards of market integrity. Unlike exchanges such as TMX Group and CNSX, Alpha Exchange will not have any individual shareholders.

Objectives of the proposed Alpha Exchange Governance Structure

The governance structure of Alpha Exchange is designed to ensure:

- Effective oversight of Alpha Exchange.
- That Alpha Exchange’s business and regulatory decisions are in keeping with its public interest mandate.
- Fair, meaningful and diverse representation on the board of directors of Alpha Exchange (the “**Exchange Board**”) and any committees of the Exchange Board, including a reasonable proportion of independent directors.
- Proper consideration and representation of the interests of the different persons or companies accessing the facilities and/or services of Alpha Exchange.
- That Alpha Exchange has policies and procedures to appropriately identify and manage conflicts of interest.
- That each director and officer of Alpha Exchange and each person or company that owns or controls, directly or indirectly, more than 10 percent of Alpha Exchange, is a fit and proper person.
- That there are appropriate qualifications, remuneration, limitation of liability and indemnity provisions for directors and officers.

Alpha Exchange believes that its corporate governance structure should be designed to enable it to effectively meet the needs of its business model, while at the same time meeting its regulatory obligations. Alpha Exchange’s business model is a hybrid model that aims to balance a for-profit approach with an approach based on providing value to its users (which includes, but is not limited to, its owners). In other words, Alpha Exchange’s objective is to eliminate inefficiencies and reduce costs to market participants, while being at the same time a profitable and commercially successful market operator that enables the industry to benefit from true competition. For this reason, Alpha Exchange believes that strong user-owner representation on its new board of directors is vital to sustaining its user-focused business model and to ensuring that Alpha Exchange continues to support more efficient – and therefore more successful – Canadian securities markets.

⁴ Alpha would like to acknowledge the contributions of both John Carson of Compliax Consulting and William Braithwaite of Stikeman Elliott LLP in respect of governance matters.

The central objective of a sound corporate governance structure is to ensure effective governance of an organization with a view to supporting the achievement of its mission and objectives. Special considerations apply to a securities exchange, which is a licensed and regulated institution. The governance structure of an exchange should also be designed to ensure that it meets its statutory and regulatory objectives, and its conditions of license, on an ongoing basis. These objectives are often summarized as an obligation to maintain a fair, efficient and orderly market.

In international markets, a wide range of ownership and governance structures for securities exchanges may be observed. These range from public, listed companies with wide share ownership by public investors, to government-owned institutions. Within the range, a large number of mutual exchanges and private commercial exchanges operate. There is no standard model of corporate governance that has proven to be the most successful or effective, or that represents a "best practice" approach.⁵

Regulators apply corporate governance principles flexibly, especially in jurisdictions such as the US and the UK where the regulatory structure must accommodate many different types of exchanges, alternative marketplaces (e.g. ATs and ECNs) and other market institutions, such as SROs and clearing agencies. The application of the principles to the governance of exchanges must also reflect local conditions, including political considerations, specific regulatory concerns, legal systems and business traditions.

Proposed Alpha Exchange Governance Structure

Alpha Exchange proposes a board comprised of 8 directors (4 non-independent "industry" directors, 3 independent directors and the chief executive officer of Alpha Exchange (the "CEO")), a Regulatory Oversight Committee (the "ROC") (3 independent and 2 non-independent directors), a Nominating Committee (2 independent and 2 non-independent directors) and a Finance and Audit Committee (2 independent and 2 non-independent directors). The chairman of the Exchange Board will be an independent director.

As stated earlier in this Application, there is no standard model of corporate governance that has proven to be the most successful or effective. In the CSA Report on SRO Oversight⁶ (the "CSA Report"), the CSA recognizes that a fifty percent independent director standard is not needed in all circumstances. Alpha Exchange believes that its proposed board and governance structure meets the principles enunciated in the CSA Report, as well as international best practices. The outline of principles that follows is based on the "Canadian Approach" that the OSC defined and describes how the proposed Alpha Exchange governance structure meets these principles.

Principles 1 and 2

Ensure an effective governance structure that supports achieving the corporation's objectives and regulatory obligations.

Ensure a reasonable balance between the interests of different stakeholders.

Since Alpha believes that the design of Alpha Exchange's governance structure achieves these two principles in a balanced manner, they are discussed together.

The central objective of the governance structure for any type of organization is to ensure that the structure will be effective in supporting the successful pursuit of the organization's objectives. For a recognized body such as an exchange, those objectives encompass obligations imposed by law and regulation. Therefore, Alpha has strived to design a structure that will be effective both in supporting its business model and objectives, and in responding to its regulatory and public interest obligations.

Two other important objectives of an exchange's corporate governance system are:

- Ensuring that various stakeholders in the market are represented.
- Addressing conflicts of interest.

Alpha Exchange's proposed board and governance structure meet these principles, for the following reasons:

- Fair and appropriate representation of stakeholders is assured by the presence of four user representatives, three independents and one management representative on the Exchange Board.

⁵ Our observations on this point find support in Ruben Lee's book *The Governance of Market Infrastructure*, 2010, available at www.oxfordfinancegroup.com. See page viii. Lee also asserts "No one governance model is globally optimal for all market infrastructure institutions." (Proposition 9, page xvi)

⁶ CSA Notice 24-303 - CSA SRO Oversight Project - Review of Oversight of Self-Regulatory Organizations and Market Infrastructure Entities – Report of the CSA SRO Oversight Project Committee, December 2006.

- Although Alpha Exchange will be a wholly owned subsidiary, it is the Exchange Board that will supervise the business and affairs of Alpha Exchange and that board will have significant independent representation.
- The collective professional qualifications and experience of those individuals elected to the Exchange Board will ensure that Alpha Exchange has an effective board.
- Consideration of the public interest will be a significant obligation not only of independent directors, but also of directors nominated by the shareholders.
- Alpha Exchange will have independent oversight of its regulatory functions through its ROC, which will be comprised of a majority of independent directors, with an independent chair.
- Alpha Exchange will ensure independent, neutral and professional delivery of most regulation functions under a regulation services agreement with IIROC.

Alpha recognizes the value of the presence of independent directors in the governance of Alpha Exchange, especially given its regulated status. We acknowledge the precedents that exist in Canadian exchanges' board structures. Our proposed structure, and specifically the inclusion of the ROC, will give independent directors a predominant position with respect to the regulatory role of Alpha Exchange and an influential role with respect to all other matters, while ensuring that no one group controls the Exchange Board. We believe that this will be the most effective governance structure for Alpha Exchange at this time, and strikes a reasonable balance between all objectives, while also ensuring that independent persons represent other stakeholders' interests on the board.

The proposed Alpha Exchange governance structure has been designed taking into account the current user ownership of Alpha Exchange as well as its particular business model. If either changes, Alpha recognizes that the proposed Alpha Exchange governance structure may need to be adjusted.

Principle 3: Appropriate representation of independent directors on board committees.

Principle 3 is really an extension of Principle 2, and aims to ensure representation of other stakeholders through independent directors and extends to the functions delegated by the board to its committees. The OSC has generally included this principle in the terms and conditions imposed through recognition orders.

This principle is recognized in Alpha Exchange's proposed governance structure. Alpha Exchange will have three board committees: a ROC, a Finance and Audit Committee and a Nominating Committee.

The ROC will oversee Alpha Exchange's regulatory responsibilities and activities. It will play an important role in ensuring that regulation functions are carried out effectively by making final decisions, if requested, regarding any action taken by Alpha against Members or Issuers and in applying the Code of Conduct and Conflict Policies. For this reason, and to ensure potential conflicts of interest in the regulation of Members and Listed Issuers are managed appropriately, the ROC will have a majority of independent directors and an independent chair.

Independent directors will comprise half of each of the Finance and Audit Committee and the Nominating Committee. A quorum for meetings of the Nominating Committee shall be a majority of the members, provided that at least one independent member is present. If there is only one independent member (and two non-independent members) present at a meeting, the independent member that is present may request an adjournment of the meeting until such time as the other independent member is available to attend and, if so requested, the meeting shall be so adjourned. In addition, for any matters involving the nomination of directors to the Exchange Board or the application of Alpha Exchange's independence standards, both independent members of the Nominating Committee must be present for quorum to be attained. A quorum for meetings of the Finance and Audit Committee will be a majority of the members, provided that at least one independent member is present. If there is only one independent member (and two non-independent members) present at a meeting, the independent member that is present may request an adjournment of the meeting until such time as the other independent member is available to attend and, if so requested, the meeting shall be so adjourned.

Principle 4: Fair representation of users in the governance system.

Although IOSCO has adopted few standards on governance of exchanges, its criteria for assessing implementation of the IOSCO principles does state, as a condition of authorization (licensing), that "where applicable, a SRO should assure fair

representation of members in selection of its directors and administration of its affairs."⁷ IOSCO does not comment on representation of other stakeholders. The importance of user representation on exchange boards has long been recognized, and is specifically covered in the principles set out in US law. The role of users in the governance of some exchanges has been diminished by demutualization, especially at exchanges that are public, listed companies. As such, the SEC and other regulators apply the need for fair user representation in governance in a flexible manner.

Since user directors will comprise fifty percent of the Exchange Board, this principle is well reflected in the proposed governance structure. As discussed earlier, we believe that user representation is particularly important given Alpha's different business model. In addition, Alpha LP currently obtains input from users and other market participants through four advisory committees comprised of representatives of market participants that are Subscribers of Alpha ATS. These committees will be continued as Alpha Exchange advisory committees expanding the membership beyond Members to also include Listed Issuers. The committees and their mandates are:

- The Policies Advisory Committee – provides ideas and expertise from senior representatives of dealer user firms for direct input to Alpha management on policies and other requirements relating to the operation of Alpha's trading business.
- The User Committee – provides ideas and expertise on Alpha's business and future business initiatives. Representatives from 15 dealer user firms are on the Committee. It also assists Alpha management in understanding the issues faced by participants, including the impact of regulatory initiatives and important capital markets trends.
- The Technology Advisory Committee – provides input to Alpha management from IT managers at dealer user firms on issues relating to the implementation of products or other services that could have an impact on in-house and/or third party technology solutions that they use.
- The Vendor Advisory Committee – provides input to Alpha management from technology vendors on issues relating to the implementation of products or other services that could have an impact on the technology solutions that they provide to dealer user firms.

Principle 5: The governance structure supports the effective management of conflicts of interest.

We noted above that an important objective of an exchange's corporate governance structure is to address potential conflicts of interest. For the purpose of this discussion, we will discuss this matter separately for the two areas where potential conflicts of interest could appear:

- Regulatory related potential conflicts of interest.
- User related potential conflicts of interest.

Regulatory related potential conflicts of interest

Two forms of regulatory related potential conflicts of interest may arise: the conflict between the exchange's commercial and regulatory mandates, and the conflict inherent in regulating an exchange's participant, who may be a major customer and/or shareholder.

Managing conflicts between the exchange's commercial and regulatory mandates is the most significant governance issue to arise with the advent of for-profit exchanges. It is now an established best practice for large exchanges with important SRO functions to separate business operations from SRO operations. The structural arrangements vary. Many exchanges that retain in-house regulation departments have established special governance arrangements for SRO operations. For example, exchanges may set up a dedicated board committee, usually called the ROC, to oversee SRO operations. This enables management and the board to focus mainly on business and market matters. Because of the potential conflicts of interest inherent in the regulatory role, special governance arrangements for SRO functions typically involve a majority of independent directors.

Exchanges employ a number of mechanisms in addition to their governance structure to manage potential conflicts of interest. Contracting out of regulatory functions is one of the most significant and effective – it minimizes the potential conflicts of interest by effectively transferring the performance of regulatory activities to another organization such as an independent SRO (for

⁷ IOSCO, *Methodology for Assessing Implementation of the IOSCO Objectives and Principles of Securities Regulation*, February 2008, page 34

example, IIROC or FINRA in the US). In some markets certain regulation functions of exchanges have been permanently transferred to statutory regulators, partly to address the potential conflicts of interest issue. This has occurred in much of Europe (including the UK) and in some Asian markets (including Hong Kong), and in Australia.

Alpha Exchange will employ both contracting out and the establishment of a ROC to address the regulatory potential conflicts of interest issue, in addition to having independent director representation on the Exchange Board. The Alpha Exchange regulation model minimizes potential conflicts of interest issues between its SRO obligations and investors' interests by contracting out the great majority of SRO functions to IIROC. Most regulation functions will be performed by IIROC under a regulation services agreement, meaning they will be carried out independently, in a neutral manner and using the same standards that apply to the regulation of other marketplaces. Alpha is in discussions with IIROC on the regulation services agreement, and aims to outsource as many functions to IIROC as possible, including full market regulation services.

The Alpha Exchange governance structure is designed to minimize any remaining potential conflicts of interest by creating a ROC to oversee the SRO functions on behalf of the Exchange Board. The mandate of the ROC will encompass the relationship with IIROC. The ROC will have a majority of independent directors and an independent Chair to address any potential conflicts of interest issues with respect to the regulation of Members and Listed Issuers as well as applying the Code of Conduct and Conflict Policies.

User potential conflicts of interest

A second significant source of potential conflicts of interest for an exchange relates to the interaction between an exchange's commercial interests and the interests of its users. The fees applied for services are the classic example. This potential conflict of interest issue is partly addressed by ensuring that users are represented on the exchange's board. See Principle 4 above. Competition also plays an important role in addressing this type of potential conflict of interest. Competition among exchanges mitigates potential conflicts of interest between an exchange and its users by giving users – including both dealers and issuers – alternatives for trading and listing services.

In Alpha Exchange's case, both of the factors cited above will significantly mitigate user related potential conflicts of interest. Firstly, users are well represented on the board under Alpha Exchange's proposed governance structure. Other users' interests are represented through the presence of independent directors.

Secondly, healthy competition has developed among Canadian marketplaces, which gives both dealers and issuers alternatives for trading and listing services. Competition also restricts the ability of Alpha LP's Partners to direct Alpha Exchange to act in their interests over the interests of other users. Moreover, Alpha LP's Partners see their interests as being aligned with the interests of other market users. Alpha ATS has demonstrated this through its current operations and governance structure.

But above all, Alpha Exchange's business model is the critical means of addressing potential conflicts with users. Alpha Exchange's user-based business model aims to ensure that the interests of Alpha Exchange and its users are aligned, which structurally minimizes conflicts between the exchange and its users, as well as between the interests of Alpha LP Partners and other users. The corporate governance structure Alpha is proposing for Alpha Exchange is based on its belief that strong representation of user/partners on the Exchange Board is a vital ingredient in maintaining a successful market under a user-based business model.

Principle 6: Directors possess appropriate qualifications to oversee the operations of a recognized exchange.

Regulators require that officers and directors of licensed entities meet "fit and proper" standards, similar to those applicable to individual registrants with any registered firm. Regulators' approach to setting these specific standards, and the procedures used to ensure they are met, varies.

The OSC has generally imposed a condition in the recognition orders of recognized bodies substantially as follows: "Each officer or director must be a fit and proper person and the past conduct of each officer or director must provide reasonable grounds for belief that such person will perform his or her duties with integrity."

Alpha Exchange proposes to meet this principle in the same way as other recognized exchanges. Given the regulated status of Alpha LP's Partners and the incentives to maintain their strong corporate reputations, Alpha Exchange intends to impose the same high standards of integrity and qualifications for appointment to the Exchange Board that are imposed by Alpha LP today.

Principle 7: The regulators maintain regulatory control and oversight over an exchange's operations.

IOSCO Principle 26 requires "ongoing regulatory supervision of exchanges and trading systems, which should aim to ensure that the integrity of trading is maintained through fair and equitable rules that strike an appropriate balance between the

demands of different market participants.”⁸ Regulators must supervise an exchange’s operations and remain satisfied that it continues to meet the conditions of recognition or license, including its obligations in law and regulation. The OSC has an ongoing oversight program in place to supervise the operations of recognized bodies, which includes the operation of the corporate governance structure, handling of regulatory responsibilities, handling of potential conflicts of interest and a number of other criteria.

Alpha recognizes the requirement for ongoing regulatory oversight of Alpha Exchange’s operations and has designed its corporate structure to ensure that all regulated operations of the exchange will be carried out by Alpha Exchange. Where an exchange is a subsidiary of a holding company (the model that Alpha proposes to adopt), IOSCO has noted that it is normally an important principle that “an exchange should exist and operate in its own right.”⁹ This principle is reflected in Alpha Exchange’s proposed governance system: exchange operations will be governed at the exchange level by the Exchange Board. The proposed mandates of the boards of Alpha GP and Alpha Exchange will ensure that the Exchange Board will govern its business plans, budgets, rules, SRO functions and operations. This includes management of all Alpha Exchange staff. The role of Alpha GP is primarily to establish Alpha Group’s corporate strategy and financial plans, including high-level objectives of the operating subsidiaries.

Alpha Exchange will be subject to ongoing oversight and control of the OSC as provided for in the Act, as well as pursuant to the terms of Alpha Exchange’s recognition order. The Act gives the OSC a number of specific powers over a recognized exchange. Oversight includes regular reporting to the regulators, approval of exchange rules and periodic oversight examinations of the exchange.

Proposed Alpha Exchange Board of Directors

The constituting documents of Alpha Exchange provide that the Exchange Board will have a minimum of eight and a maximum of 15 directors. Alpha Exchange seeks for the Exchange Board a diverse and well-rounded group of individuals with a combination of experience, management and financial skills, judgment and good character.

The objective of the board structure of any exchange should be to balance its public interest mandate as an exchange with its business model. Permitting different exchange business models promotes competition and the interests of all marketplace participants (issuers, dealers, and investors).

As stated above, Alpha Exchange proposes a board comprised of 8 directors (4 non-independent “industry” directors, 3 independent directors and the CEO), a ROC (3 independent and 2 non-independent directors), a Nominating Committee (2 independent and 2 non-independent directors) and a Finance and Audit Committee (2 independent and 2 non-independent directors). The chairman of the Exchange Board will be an independent director. See discussion above, under “Proposed Alpha Exchange Governance Structure” for a detailed discussion as to why Alpha believes that this proposed structure meets “best practice” governance principles.

In summary, the Alpha Exchange regulation model minimizes potential conflicts of interest issues between its SRO obligations and investors’ interests by contracting out the great majority of SRO functions to IIROC. Most regulation functions will be performed by IIROC under a regulation services agreement, meaning they will be carried out independently, in a neutral manner and using the same standards that apply to the regulation of other marketplaces. The governance system is further designed to minimize any remaining potential conflicts of interest. Alpha Exchange will create a ROC to oversee SRO functions on behalf of the Exchange Board. Its mandate will encompass the relationship with IIROC. The ROC will have a majority of independent directors and an independent Chair to address potential conflicts of interest issues with respect to the regulation of Members and Listed Issuers. The Exchange Board and its overall corporate governance structure have been designed to meet the principles of sound corporate governance for an exchange as enunciated by the CSA and as in practice across international markets.

See Section on Board Committees for additional details.

Proposed Alpha Exchange Independence Standards

An independent director is one who does not have a material relationship with Alpha Exchange. We have incorporated the same standards (the “**Independence Standards**”) as those used by most public companies, including other exchanges in Canada.

⁸ IOSCO, *Objectives and Principles of Securities Regulation*, February 2008.

⁹ IOSCO Technical Committee, *Regulatory Issues Arising from Exchange Evolution -- Final Report*, November 2006, page 13

We have proposed that the following individuals should be considered to have a material relationship with Alpha Exchange:

- ***A partner, director, executive officer or employee of a Member, or an associate of a partner, director, executive officer or employee of a Member.***
- ***A partner, director, executive officer or employee of an affiliated entity of a Member, who is responsible for or actively engaged in the Member's day-to-day operations or activities.***
- ***An executive officer or employee of Alpha Exchange or any affiliated entity, or a partner or director of any affiliated entity, presently or within the last three years.***
- ***A person who is, or has been within the last three years, an associate of a partner, director, officer or employee of Alpha Exchange or any affiliated entity.***
- ***A partner, director, officer or employee of a person or company that owns or controls, directly or indirectly, a partnership interest or voting shares representing greater than 10% of a limited partner of Alpha LP or of Alpha Trading Systems Inc., respectively.***
- ***A person that received, or a partner, director, executive officer of a company that received, more than \$75,000 in direct compensation from Alpha Exchange or any of its affiliated entities during any twelve month period within the last three years (other than director or board committee fees and retirement plan payments or other deferred compensation for prior service, provided the compensation is not contingent in any way on continued service).***

Alpha has proposed that there be a materiality requirement (greater than 10% ownership or control) for any partner, director, executive officer or employee of a person or company that owns or controls, directly or indirectly, a partnership interest or voting shares of a limited partner of Alpha LP or of Alpha Trading Systems Inc., respectively. This is consistent with current independence standards at one exchange in Canada and goes further than the other two. Alpha believes that a person should not be disqualified because of an immaterial ownership or partnership interest, and that the same standard should apply to all exchanges.

The Nominating Committee of Alpha Exchange may in special circumstances determine that an individual who is considered to have a material relationship with Alpha Exchange pursuant to the Independence Standards is nonetheless independent, if the Nominating Committee is satisfied that the material relationship will not, in its view, reasonably interfere with the exercise of the individuals' independent judgment. In such cases, prior notice of such determination will be provided to the OSC. Any proposed changes to the Independence Standards are subject to review and approval of the OSC.

The Independence Standards as such will be substantially similar to the independence standards used by other exchanges in Canada. The objective of these standards is to remove anyone who has a material relationship from qualifying as an independent director.

Alpha Exchange believes that these Independence Standards should be set by the Exchange Board subject to review and approval by the regulator and published on its website. Alpha Exchange does not believe it is appropriate to include the content of these policies in the recognition order because it undermines the authority of the Exchange Board and creates inefficiencies by requiring amendments to the recognition order in case of change.

Proposed Alpha Exchange Board Committees

The Alpha Exchange Board will have three committees: the ROC, the Nominating Committee and the Finance and Audit Committee. This structure addresses any concerns that could arise from a potential conflict of interest between the performance of Alpha Exchange's regulatory functions and any commercial interests.¹⁰

¹⁰ We note that Alpha Exchange has outsourced most of its regulatory functions.

Regulatory Oversight Committee

The Exchange Board has a ROC, comprised of three independent directors and two non-independent directors. The role of the ROC is to provide oversight over the regulatory matters involving Alpha Exchange, and to address any potential conflicts of interest matters.

The ROC's mandate is to oversee the performance of Alpha Exchange's regulatory responsibilities and operations, including the following:

- Receive and review a report, at least annually, from the Chief Compliance Officer on Alpha Exchange's regulatory program, covering, at a minimum:
 - The performance of regulation services agreements for surveillance and other regulatory services.
 - Material regulatory or compliance issues.
 - Material regulatory actions brought against Members and Listed Issuers.
 - Staffing and resources of the regulation and compliance functions.
 - The results of any OSC or other inspections.
- Review and assess the performance and operation of regulation and compliance programs, at least annually, including the performance of obligations under all regulation services agreements.
- Recommend to the Exchange Board any changes to the regulation and compliance programs that the ROC believes are appropriate.
- Recommend a regulation budget to the Exchange Board annually, including key priorities and initiatives for the regulation and compliance functions.
- Review and recommend to the Exchange Board any annual reporting to the regulators.
- Review and approve Alpha Exchange's response to any material findings of regulatory inspections carried out by the OSC or other bodies.
- Review and make recommendations to the Exchange Board on proposed "regulation rules" (rules that set regulatory requirements or standards, and require OSC approval).
- Review and decide on the resolution of any potential conflicts of interest issues that arise between carrying out Alpha Exchange's regulation responsibilities and its business (including listing matters).
- Review and decide on the resolution of any issues raised by a Member or Issuer as a result of Alpha Exchange's staff's decision regarding that Member or Issuer, if such review is requested by a Member or Issuer.
- The ROC shall have the authority to seek Exchange Board approval to obtain advice and seek assistance from internal or external legal, accounting or other advisors. After receiving approval from the Exchange Board, the ROC shall have the authority to retain and terminate any external consulting firms.
- Review and decide on the resolution of any issue regarding any decision of Alpha Exchange's staff regarding a violation of Alpha Exchange Trading Policies or Listing Handbook.

Thus the ROC will have a significant role in establishing policies, budgets and oversight of Alpha Exchange's regulatory functions and code of conduct and conflict policies. In addition it will have decision making authority in the application of the code of conduct and compliance policies, and with respect to appeals regarding to any matter relating to the Trading Policies and Listing Standards.

A quorum of the ROC consists of a majority of the members, at least two of whom shall be independent directors. In addition, in situations where the ROC is hearing an appeal by a Member or Listed Issuer with respect to a decision of Alpha Exchange, a majority of independent directors of the ROC must be present.

Alpha has proposed a ROC, with a majority of independent directors, retaining final decision making authority over any matter of a regulatory nature because it believes this structure is the best way to address any potential conflicts of interest issues and to ensure that the highest standards are being maintained regarding these matters. We believe this approach is better than the 50% independence requirement for boards of exchanges for the following reasons:

- ***Within the ROC there is a majority of independent directors handling the public interest matters.***
- ***The Exchange board has more non-independents to focus on the more commercial and strategic decisions.***

Nominating Committee

Alpha Exchange will establish a Nominating Committee, which will consist of two independent and two non-independent members of the Exchange Board. Since it is often the role of the Chair to identify qualities or expertise of directors that would benefit the board, the Chair of the Exchange Board will be one of the two non-independent members. The role of the Nominating Committee will be to identify and put forward for nomination qualified directors to act on the Exchange Board. A quorum for meetings of the Nominating Committee will be at least two members, provided that at least one independent member is present. If there is only one independent member (and two non-independent members) present at a meeting, the independent member that is present may request an adjournment of the meeting until such time as the other independent member is available to attend and, if so requested, the meeting shall be so adjourned. In addition, for any matters involving the nomination of directors to the Exchange Board or the application of the Independence Standards, both independent members of the Nominating Committee must be present for quorum to be attained.

Finance and Audit Committee

The Exchange Board will have a Finance and Audit Committee (the “FAC”), comprised of two independent directors and two non-independent directors. The FAC will perform all of the typical roles of an audit committee, including reviewing and recommending approval of Alpha Exchange’s financial statements and overseeing and confirming the integrity of internal controls and audit processes, as well as recommending the appointment of the external auditors. A quorum of the FAC consists of a majority of the members, provided that at least one independent member is present. If there is only one independent member (and two non-independent members) present at a meeting, the independent member that is present may request an adjournment of the meeting until such time as the other independent member is available to attend and, if so requested, the meeting shall be so adjourned.

Alpha Exchange Fitness Requirements

Alpha Exchange will ensure that each major shareholder (any shareholder who holds more than a 10% interest in Alpha Exchange) is a fit and proper person who can provide reasonable grounds for the belief that the business of Alpha Exchange will be conducted with integrity and in the public interest. In addition, any new shareholder that seeks to acquire greater than 20% interest in Alpha Exchange will be subject to receiving consent from the OSC.

Alpha Exchange has determined that its current shareholder (Alpha LP) satisfies the fit and proper requirements because each of the limited partners of Alpha LP is a public company subject to disclosure and regulation by a Securities Commission and/or an entity regulated by a government or quasi-government authority with oversight responsibility (financial institution, dealer or pension fund).

Eight of Alpha GP’s nine shareholders are federally regulated financial institutions or provincially regulated dealers, and are subject to regulatory requirements and oversight. These regulatory standards include managing potential conflicts of interests, and heightened responsibilities to its customers.

The ninth shareholder is the largest pension fund in Canada and is subject to regulatory oversight, high standards of fiduciary duty and public scrutiny.

Managing potential conflicts of interest

Alpha Exchange will have appropriate procedures for ensuring that its directors, officers and employees comply with its potential conflicts of interest and confidentiality policies.

It is Alpha's practice to have procedures which, wherever possible, rely on objective criteria to determine what action to take. These policies and this approach avoid conflicts generally and more specifically when dealing with participants from the Alpha LP shareholder group¹¹. Alpha ATS currently has in place policies which deal with potential conflicts of interest and require all employees to avoid any action, make any decisions or participate in the making of any decisions in which they know or reasonably ought to know that there is an opportunity to cause a conflict of interest. If the employee is unsure if a conflict of interest exists, they are required to bring the matter to the attention of their direct supervisor, or a member of the senior management.

Alpha Exchange will adopt a conflicts of interest policy which will set out the obligations and expectations imposed upon directors, officers and employees in dealing with conflicts of interest and matters of confidentiality. This policy will, among other things, provide that every director of Alpha Exchange shall, in acting in such capacity, act honestly and in good faith with a view to the best interests of Alpha Exchange, and shall exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. In addition, the policy will provide that directors must ensure that their personal interests and their duty to Alpha Exchange are not brought into conflict, and that they do not receive or obtain, directly or indirectly, a personal profit, gain or benefit (other than any fees paid as a result of acting as a director) as a result of their relationship with Alpha Exchange. The conflicts of interest policy will also contain provisions requiring a director to disclose the nature and extent of any interest that he or she has in a material contract or material transaction with Alpha Exchange.

Finally, and as stated above, the ROC will provide oversight over all regulatory matters involving Alpha Exchange, and specifically will address any conflict of interest matters. The structure of the ROC, which will be comprised of a majority of independent directors and will have an independent Chair, is in line with the suggestions made in the recent Canadian Foundation for Advancement of Investor Rights (FAIR Canada) Report – "Managing Conflicts of Interest in TSX Listed Company Regulation"¹² (the "FAIR Report"). One of the approaches suggested by FAIR for managing the potential conflicts of interest at the TSX involved setting up a separate listings regulatory department, which would ostensibly safeguard against conflicts due to the "clear link between business and regulation activities and staff".¹³ Alpha believes that the creation of an independent ROC to fully oversee the listings and other regulatory functions of Alpha Exchange will provide this type of safeguard.

B. Fees

All fees imposed by Alpha Exchange will be equitably allocated and will not have the effect of creating unreasonable barriers to access. Alpha Exchange's process for setting fees will be fair, appropriate and fully transparent. In addition, with respect to the execution of an order, Alpha Exchange will not impose terms that have the effect of discriminating between orders that are routed to Alpha Exchange and orders that are entered on Alpha Exchange.

Alpha Exchange's policies and procedures provide that it considers at least the following factors when determining trading fees: value of the security, amount of fee relative to value, and the amount of fees charged on other marketplaces.

Trading Fees

The trading fees are set out as schedule 2 to the Alpha ATS Subscriber Agreement, which is posted on the Alpha website. Currently, Alpha ATS charges a fee of \$3,000 for an initial application to become a subscriber, and a monthly access fee of \$1,250. In addition, Alpha ATS charges trading fees that are based on the type and amount of the trade. Alpha Exchange will adopt the trading fees of Alpha ATS at the time of recognition, and the fee schedule will be Schedule 2 to the Alpha Exchange Member Agreement.

Alpha has always taken the position that trading fees in Canada are excessive, and is continuously looking for ways to reduce costs for the industry. This links back to the core principles of Alpha, including the fact that Alpha's business model contemplates value optimization rather than value maximization (as discussed above). Acknowledging that good progress has been achieved, with for example the Alpha fee reduction for securities below \$1 that was rapidly replicated by Alpha's competition, Alpha is nevertheless of the opinion that trading costs in Canada are still too high. By developing a specific and lower fee structure for securities between \$1 and \$5, Alpha introduced an innovative approach to trading fees that recognizes that fees must be much more aligned with the value of the securities traded. This allows for the avoidance of a disproportionate surplus cost that makes the lower value securities less attractive for trading and is detrimental to their liquidity, and hence best interests of investors and issuers. Furthermore, effective January 1, 2011, Alpha introduced a new fee structure for Exchange Traded Funds (ETFs). For those ETFs with a value greater than or equal to \$5, active fees were reduced from 35 mils per share to 25 mils per share and passive fee rebates were reduced from 31 mils per share to 21 mils per share. This fee reduction positions Alpha as the market with the lowest active fees for trading ETFs – a segment that represents a substantial component of the overall volume traded in Canada across all Canadian marketplaces. This is also a segment where Alpha established itself

¹¹ The status of a participant as a shareholder or employee of a shareholder is never used as a criteria to make a decision.

¹² John Carson, Compliax Consulting Inc., July 23, 2010

¹³ Ibid, Carson page 55.

as the dominant marketplace by regularly demonstrating a market share in excess of 50%. For a dealer facing a majority of 'taker' trades, this new fee schedule represents close to 30% savings on these trades. Finally, on March 1st, Alpha again reduced active fees for securities with a value below \$1 to 3 mils per share, aligning these fees with those of the TMX while maintaining its higher rebates at 2 mils per share; the net revenue generated by Alpha from its trading activity in these securities is now by far the lowest in Canada and comparable to U.S. standards; this is enabled by its uniquely efficient operating model.

All these fee initiatives come on top of a series of other cost-and market-friendly features at Alpha: free opening trades, full rebates on iceberg orders, an HFT management mechanism, the highest average trade size and the lowest active/passive ratio for dealers posting their resting orders on Alpha. It confirms that Alpha is the trading venue that stands for liquidity at the lowest cost. Alpha Exchange will continue with these types of initiatives in its continued effort to reduce costs, increase efficiencies, increase liquidity and improve quality of execution in the Canadian markets.

Data Fees

Currently, Subscribers of Alpha ATS, as well as other third parties, may purchase any of a variety of data products for internal consumption or redistribution by entering into either a Data Distribution Agreement or a Data Use Agreement. The counterparty for these agreements is Alpha LP. Alpha ATS is a party to a data sales agreement with Alpha LP whereby Alpha ATS assigns all Alpha market data to Alpha LP for distribution to third parties (the "**Data Sales Agreement**"). Alpha ATS will assign the Data Sales Agreement to Alpha Exchange, and Alpha LP or a newly created legal entity will continue to provide the data sales services to Alpha Exchange. The Data Use Agreements and Data Distribution Agreements that are currently in place with various data users will continue after the recognition of Alpha Exchange, but may be assigned by Alpha LP to a new legal entity. The fees charged for data vary depending on the type of data feed subscribed for and the intended use of such feed. All such fees are set out in schedule 1 to each of the Data Use Agreement and the Data Distribution Agreement, which are posted on the Alpha website.

Alpha is of the opinion that market data fees in Canada are excessive and will continue to work on identifying means to reduce them, including for example providing competitive alternatives where feasible and recommending regulation of fees where anti-competitive behaviour is demonstrated.

Listing Fees

Alpha Exchange will charge initial and ongoing listing fees as set out in the Schedule to the Alpha Exchange Listing Agreement. These fees have not yet been set. It is Alpha Exchange's intent to pursue a fee approach which is consistent with its strategy for trading and data fees: competitive fees that provide choice to issuers.

C. Access – Membership

Alpha Exchange has established appropriate written standards for access to its trading and related services, including requirements that Members are appropriately registered under securities laws and are dealer members of IIROC. The access standards and the process for obtaining, limiting and denying access are fair, transparent and applied reasonably.

Specifically, a dealer is eligible to become a Member on Alpha Exchange if it is a dealer member in good standing of IIROC and a participant of CDS Clearing and Depository Services Inc. ("**CDS**") (or it has entered into an arrangement for clearing and settling of trades with a CDS participant). Alpha Exchange may refuse to approve an applicant based on past or present misconduct by the applicant or any related person, or if the applicant refuses to comply with Alpha Exchange requirements or is not qualified by reason of integrity, solvency, training or experience, or it is not otherwise in the public interest to accept such dealer. Any dealer who is refused approval will have a right of appeal to Alpha Exchange's ROC.

Once approved, a Member must comply with all Alpha Exchange requirements as set out in the Alpha Exchange Member Agreement and Trading Policies.

Alpha ATS currently has 92 Subscribers. Each of these Subscribers will become Members of Alpha Exchange after executing the Alpha Exchange Member Agreement. Dealers who are members of IIROC are eligible to become an Alpha Exchange Member by applying for membership and signing the Alpha Exchange Member Agreement.

D. Regulation of Members and Listed Issuers on Alpha Exchange

Alpha Exchange has the authority, capacity, systems and processes to undertake directly or indirectly through a regulatory services provider, its regulation functions by:

- Setting requirements governing the conduct of its Members and Listed Issuers.
- Monitoring their conduct.
- Appropriately disciplining them for violations of Alpha Exchange requirements.

Trading

Subscribers of Alpha ATS have been obligated to comply both with Alpha ATS Trading Policies as well as the UMIRs. Alpha ATS was a dealer and market member of IIROC. ***Alpha Exchange will enter into a new regulatory services agreement with IIROC, which will be acting as a regulatory services provider, to outsource to IIROC the setting of market requirements in addition to Alpha Exchange's Trading Policies. The UMIRs will be incorporated into the Trading Policies.***

Section 5.8 of Alpha Exchange's proposed Trading Policies provides Alpha Exchange with the discretion to change and/or cancel any order or trade that has not yet been submitted by Alpha Exchange for settlement in order to mitigate errors in order execution and maintaining market quality.

OSC Staff have expressed concerns with the broad nature of the discretion provided, and the lack of clarity around what would constitute an "error in order execution", or the circumstances that would necessitate a change and/or cancellation to "maintain market quality". OSC Staff have also indicated concerns that Alpha Exchange might exercise this discretion without prior involvement of IIROC or the affected parties.

The reasons for changing and/or cancelling an order or trade include the violation of regulatory rules (in this case UMIRs or securities legislation such as National Policy 51-201), errors, the malfunctioning of routing or other systems, or incorrect market data dissemination.

Alpha believes that IIROC should intervene where there is a violation of a rule or a market integrity issue, but that a marketplace (particularly an exchange that does have regulatory authority) has the legal right to intervene; moreover it is responsible and should be accountable for its own market quality¹⁴. Any issues relating to market quality such as errors or malfunctions should be handled either initially by the marketplace or only by the marketplace. The implementation by marketplaces of error trading policies is an example of how marketplaces have identified when they will exercise their legal authority to act without the prior involvement of an overseeing regulator. This example of marketplaces exercising their discretion and authority and has been accepted, if not encouraged, in most other jurisdictions¹⁵.

Another example where a marketplace would intervene is when a technology defect, preventing the functionality of a marketplace to work as intended, causes a bad fill.

The circumstances in which Alpha Exchange would intervene are very limited, and such intervention should be allowed without seeking IIROC's prior consent but subject to an after-the-fact review by IIROC. In addition, any decision taken by Alpha staff to change and/or cancel any order or trade is subject to review by the ROC and the appeal policies.

Alpha ATS has always had this discretion, and has only in rare circumstances exercised such discretion without contacting IIROC and/or its Subscribers prior to intervention.

Alpha Exchange should be able to intervene i.e. change and/or cancel any order or trade for the purposes of mitigating errors made in order execution and maintaining market quality, without IIROC's prior consent when the following conditions are fulfilled:

- ***The circumstances in which the action can be taken are clear and transparent to Members and regulators (set out in the Trading Policies or rules of the marketplace).***
- ***The actions taken are documented and available for review by Members, the ROC and the regulators.***
- ***IIROC is informed immediately after the action***¹⁶.

¹⁴ This is consistent with the provisions in multiple marketplaces' agreements and policies across most jurisdictions, which provide them with the legal authority to take any action regarding an order or trade in their markets.

¹⁵ IOSCO SC 2 issued a paper stating that Exchanges should have policies in place to deal with errors.

¹⁶ When possible, Alpha Exchange will always attempt to contact IIROC prior to intervention.

Listing¹⁷

Issuers that meet the criteria set out in Alpha Exchange's Listing Handbook can apply to Alpha Exchange to qualify their securities for listing and therefore become Alpha Exchange Listed Issuers.

Alpha Exchange's approach to listing is based on the following principles:

- **Clear, objective standards that provide consistent and efficient decision making.**
- **Listing standards that are equal to or better than current listing standards that exist on different exchanges in Canada.**
- **Rejection of multiple listing categories in favour of two basic categories: Special Purpose Issuers and Other Corporates.**
- **Rejection of the exercise of discretion by the Exchange in the review of transactions. This approach was taken because it was reported that experience has shown that discretion is just as likely to be abused as exercised appropriately, and that the review by the exchange only added time and not necessarily value¹⁸. Instead, Alpha Exchange has introduced requirements regarding increased governance requirements generally and shareholder approval where an activity could have a material impact on dilution of the value of securities.**

Alpha Exchange listing standards target later-stage research and development companies through to companies with an operating history, i.e. the target range overlaps the high end of junior companies through to the most senior companies. A chart comparing the Alpha listing standards to the standards at other exchanges in North America is being published with this application.

Alpha acknowledges that tiered regulation for issuers has been adopted in Canada to reflect the fact that one size does not fit all and to remove some of the barriers to smaller companies raising capital in the public markets. While Alpha acknowledges that approach, it notes that determining requirements based on reference to specific exchanges may no longer be appropriate in a market where there are competing exchanges. In fact, it makes it more difficult for exchanges to differentiate their services.¹⁹

Securities regulation currently categorizes issuers as either "venture issuers" or "non-venture issuers" (dependent upon the exchange on which the issuer is listed or not listed). Alpha's initially proposed model contained elements of both because our listing strategy intends to cover companies from the upper tiers of the venture issuers through to companies with operating histories. As a result of discussions with the regulators, Alpha is now suggesting a two tiered approach.

We have proposed that Tier 1 Issuers would be regulated as "non-venture issuers" and Tier 2 Issuers would be regulated as "venture issuers" under securities legislation. The two tiers would have different listing standards similar to the way that many other exchanges have different groupings of issuers²⁰. There will be clearly differentiated listing and continuing listing requirements and we will have a specific character or characters added to the symbol names so that anyone can easily identify to which Tier the issuer belongs.

The basic requirements of Tier 1 Issuers other than Special Purpose Issuers are shareholder equity of \$4,000,000, pre-tax cash flow of at least \$700,000 in its last fiscal year, minimum public float of 1,000,000 shares together with a minimum of 400 public board lot holders, and adequate working capital²¹.

The basic requirements for a Tier 1 Special Purpose Issuer that is an investment fund are: net tangible assets of at least \$10,000,000, unless it is an investment fund with net tangible assets of at least \$1,000,000 and is part of a group of companies that are under the same manager, all of which are listed or are to be listed on Alpha or another exchange, and the group has net tangible assets of at least \$20,000,000; there must be at least 100,000 units outstanding prior to the commencement of trading

¹⁷ Alpha would like to acknowledge the contributions made by Timothy Baikie in respect of Listings matters.

¹⁸ It should be noted that the exchanges outside of Canada, particularly in the U.S., do not incorporate discretion as a general rule in the review of transactions.

¹⁹ We hope that going forward the securities regulatory authorities will take an approach like that in NI 51-102 which sets out objective criteria for determining which issuers fit into which category of regulation. However, we also recognize that making those changes may not be feasible in the short run.

²⁰ An example would be Tier 1 on TSXV and the NEX tier. Those securities part of NEX grouping have a "H" attached to the symbol.

²¹ See the Listing Handbook for details including requirements for Tier 1 Special Purpose Issuers: Other.

of a series of units on Alpha; units must be redeemable, directly or indirectly from the investment company for securities and/or cash; and a listed Special Purpose Issuer must provide Alpha with a representation that the NAV or index value will be calculated each business day and will be made available to all Members at the same time.

The basic requirements of Tier 2 Issuers are shareholder equity of \$2,000,000, pre-tax cash flow of at least \$200,000 in its last fiscal year, minimum public float of 1,000,000 shares together with a minimum of 250 public board lot holders, and adequate working capital. An alternative test for Technology and R&D companies is at least \$5,000,000 in treasury, bona fide expenses of at least \$250,000 in each of the previous two fiscal years, evidence that products are at an advanced stage of development, evidence of management expertise, and minimum public float of 1,000,000 shares together with 200 public board lot holders.

Alpha believes that competition is enhanced by allowing parties to differentiate their services, provided there is compliance with securities regulation. We are of the opinion that the current identification of companies as venture or non-venture rely on the business models of the incumbent exchanges and restrict the ability of new entrants to provide competitive services.

Alpha Exchange's listing standards allow for the listing of investment products and other securities that are also listed on an exchange outside of Canada. It is expected that such issuers will have to comply with Canadian securities regulation and therefore there will not be any regulatory arbitrage. In addition, Alpha Exchange has provided for the listing of structured products such as exchange-traded notes. These products will also have to comply with Canadian securities regulation including the filing of disclosure documents and other requirements. Alpha Exchange has agreed to provide notice to the relevant securities regulators when it receives a listing application from these types of issuers. Alpha Exchange has also been asked by the securities regulators to include in its Listing Handbook the requirements and procedures for review to determine whether the product being offered is similar to or different from previously qualified publicly offered products. Alpha Exchange believes that this determination is best done by the securities regulators who are likely to look at this issue when they receive notice from Alpha. Alpha Exchange believes that any review by it is likely to duplicate the review by the securities regulator and cause unnecessary delay.

E. Outsourcing Regulatory Functions

As stated above, Alpha Exchange will contract with IIROC to provide, as agent for Alpha Exchange, market regulation services, as well as some issuer listing services approved by the Commission. As stated on the IIROC website, "IIROC sets high quality regulatory and investment industry standards, protects investors and strengthens market integrity while maintaining efficient and competitive capital markets. IIROC carries out its regulatory responsibilities through setting and enforcing rules regarding the proficiency, business and financial conduct of dealer firms and their registered employees and through setting and enforcing market integrity rules regarding trading activity on Canadian equity marketplaces."²²

Alpha Exchange will perform all listing functions except for those arising out of material disclosure which will be performed by IIROC. Alpha Exchange will have sufficient authority over Alpha Exchange Listed Issuers and will have appropriate review procedures in place to monitor and enforce Alpha Exchange Listed Issuer compliance.

The ROC will annually review the performance of IIROC and Alpha Exchange with respect to their regulation functions and report to the Board, together with any recommendations for improvement.

F. Rulemaking

Alpha Exchange will establish rules, policies and other similar instruments ("**Alpha Exchange Requirements**") designed to govern the operations and activities of Alpha Exchange Members and Listed Issuers and designed to:

- Ensure compliance with securities legislation.
- Prevent fraudulent and manipulative acts and practices.
- Promote just and equitable principles of trade.
- Provide for appropriate sanctions for violations of Alpha Exchange Requirements.
- Provide a framework for disciplinary and enforcement actions.
- Ensure a fair and orderly market.

²² IIROC website, <http://www.iiroc.ca/English/About/OurRole/Pages/default.aspx>

Alpha ATS has voluntarily established a practice of transparency and consultation when implementing changes to the operations of its trading system and distribution of its data. All changes have been announced and posted on its web site for anyone to see and make comments. In addition, Alpha ATS has various committees comprised of its marketplace participants to provide input on functionality, technology and vendor needs. Alpha Exchange will continue that tradition of transparency of consultation within the regulatory requirements imposed on an exchange. The following summarizes the proposed publication and review process²³:

- In accordance with Section 5.3 NI 21-101 and the recognition criteria applicable to exchanges, rules adopted by a recognized exchange shall not be contrary to the public interest and shall be designed to: ensure compliance with securities legislation, prevent fraudulent and manipulative acts, promote just and equitable principles of trade and foster co-operation with persons or companies engaged in regulating clearing, settling processing information and facilitating securities transactions. A recognized exchange shall neither permit unreasonable discrimination among clients, issuers and members or among clients, issuers and users nor impose any burden on competition that is not reasonably necessary or appropriate.
- The objective of the rule review process is to ensure appropriate transparency, opportunity for consideration by the public and users of the system, and review by the regulators where necessary. OSC Staff Notice 21-703 states that transparency contributes to the fairness and efficiency of the capital markets.
- ***The level and nature of the process should be balanced against the need of all marketplaces to be able to respond to changes in the capital markets as efficiently and quickly as appropriate. In order to achieve this, a tiered system of treatment of marketplace changes should be implemented. Rules and instruments regarding listing, market making and enforcement should be filed and subject to Commission approval. Rules and instruments regarding new trading functionality including order types, requirements relating to access, and amendments to current listing categories market making activity should be subject to filing and transparency requirements but not Commission approval. Information regarding corporate organization, system operations, company listing updates and marketplace participant updates should be filed on a quarterly basis and reviewed as part of the ordinary oversight process.***

G. Due Process

Alpha Exchange's requirements relating to access, listing, exemptions and discipline will be fair and reasonable. For all decisions made by Alpha Exchange that affect an Alpha Exchange Member or Listed Issuer, including those related to Alpha Exchange requirements, parties will be given an opportunity to be heard by members of the ROC or make representations, and Alpha Exchange will keep a record of its reasons for and provide for appeals or reviews of its decisions. In addition, if the affected party wishes to appeal the decision of the ROC, it has the right to pursue either arbitration (if applicable) or its other rights under securities law, including requesting review of the decision by the OSC.

H. Systems and Technology and Information Technology Risk Management Procedures

Each of Alpha Exchange's critical systems (i.e. those that support order entry, order routing, execution, trade reporting, trade comparison, data feeds, market surveillance and trade clearing) has appropriate internal controls to ensure completeness, accuracy, integrity and security of information, and, in addition, has sufficient capacity and business continuity plans to enable Alpha Exchange to properly carry on its business.

Alpha Exchange will comply with the requirements set forth in Part 12 of NI 21-101 with respect to each of its critical systems. An annual independent review will be done in accordance with established audit procedures and standards.

Alpha Exchange will promptly notify the Commission of material systems failures and changes.

The Alpha Exchange systems have been developed to provide the highest possible availability, security and efficiency. Alpha Exchange has appropriate risk management procedures in place, including those that handle change management, capacity planning and stress testing.

Overview of Technology Platform

Alpha monitors its system capacity and latency on a continuous basis, which has in fact led to certain initiatives, including the technology infrastructure upgrade which Alpha implemented in 2010, leveraging some of the latest technologies available and putting Alpha at the forefront of trading technology provided in Canada. Alpha is now in the process of upgrading its trading software itself, which Alpha anticipates will bring it to the level of the best performing trading platforms globally.

²³ While Alpha Exchange has set out this proposal as part of its application, it believes it could be applied to all recognized exchanges.

Business Continuity

As an integral part of the company's overall risk management strategy, Alpha has established a Business Continuity Plan (BCP) to ensure that the essential functions and advanced technology underpinning the delivery of those functions continue to provide services to clients and the industry under any unwanted or adverse circumstances. Alpha has completed a Business Impact Analysis (BIA) and has identified the potential impacts a disruption could have on its institution and the critical services Alpha delivers to the industry. The BIA document details the critical services. The BCP and arrangements contained in this document are designed to ensure critical service delivery is maintained. The BCP is complementary to a Disaster Recovery Plan (DRP), a plan that covers all aspects of recovering the business applications, underlying infrastructure, data, data centre facilities, as well as primary business functions within an expected period of time. Also included in the scope of the BCP and DRP are the third parties involved in the provision of the Alpha services.

The BCP is tested on a regular basis and was invoked during the G8/20 Summit and Alpha ATS was able to operate without any disruptions during this time period.

Requirements and Capacity Testing

Each release of the Alpha system is tested to ensure that functional and non-functional requirements are met. System capacity is planned based on documented projections; it is tested, monitored and revisited on a regular basis, at least annually, to determine any changes needed to continue to meet Alpha Exchange's requirements.

Development and Testing

Alpha reviews and keeps current the development and testing environments of the system on a regular basis, and at least annually. As part of its on-going testing, test cases are created or updated to ensure the functionality and performance of the system meets the requirements. All test artefacts are reviewed and kept with each release.

Financial Viability and Reporting

Alpha Exchange is a for-profit corporation. While Alpha Exchange is a new entity in a corporate legal sense, it will in fact simply be continuing the current business and operations of Alpha ATS, a regulated entity which has met and will continue to meet all regulatory capital requirements set out under the IIROC rules until it becomes an exchange.

Alpha Exchange will maintain sufficient financial resources for the proper performance of its functions and to meet its responsibilities. On a quarterly basis, Alpha Exchange will provide the OSC with financial reports and a calculation of certain liquidity, debt coverage and financial leverage measures as set out in the recognition order. Alpha Exchange will also assess the appropriateness of the calculations and whether any alternative calculations should be considered and report the results of that assessment to the OSC.

Alpha Exchange will file with the OSC annual audited financial statements within 90 days after the end of each financial year.

I. Clearing and Settlement

Alpha Exchange has appropriate arrangements for enabling the clearing and settlement of transactions, and all trades are cleared and settled through a recognized clearing agency.

J. Transparency

Alpha Exchange will be a data contributor to the TMX Datalinx Information Processor. In addition, it has multiple arrangements for satisfying its pre-trade and post-trade information transparency obligations under Part 7 of NI 21-101, and this information will be provided to all Alpha Exchange Members on an equitable basis.²⁴

K. Outsourcing

Where Alpha Exchange outsources any of its key functions, it will have appropriate and formal arrangements and processes in place that permit it to meet its obligations and that are in accordance with industry best practices for outsourcing. Alpha's business model is based on the concept of "smart-sourcing":

- It leverages third-party service and product providers in areas where building in-house capabilities cannot outperform such third-party providers.

²⁴ Additional details have been set out in the discussion on data distribution.

- It maintains and develops in-house expertise in those areas that are unique to its business e.g. market structure, business and technology operations, etc. or required to manage third-party providers.

L. Information Sharing and Regulatory Cooperation

Alpha Exchange has mechanisms in place to ensure that it is able to cooperate, by sharing information or otherwise, with the OSC and its staff, self-regulatory organizations, other exchanges, investor protection funds and other appropriate regulatory bodies.

M. Conclusion

Alpha Exchange respectfully submits that it meets the criteria for recognition so that recognition will not be contrary to the public interest.

Sincerely,

s/ "Jos Schmitt"

V. Requirements for Continued Listing (Suspension/Delisting)						
A. General	<p>All markets have the discretion to delist or suspend a company that has made an assignment in bankruptcy, is no longer operating or that has a going concern note in their financials. Although CNSX doesn't have a specific requirement, it has general discretionary power to suspend or delist in the public interest. All markets can suspend or delist for failure to comply with listing requirements generally or to pay applicable fees.</p> <p>The delisting process is generally a two-stage process. In all but egregious cases, the issuer will be suspended for non-compliance and given a period of time (usually one year) to meet the original listing requirements. Generally speaking, the Canadian exchanges do not have extensive procedural provisions other than to ensure that an issuer has an opportunity to be heard prior to a delisting decision. American exchanges have quite extensive procedural requirements.</p>

- (2) Alpha considers a number of factors in exercising its discretion to list securities, and may refuse to list an issuer that otherwise meets the minimum standards set out below. These factors include:
- (a) *Track record:* The issuer has a history of profitable operations or, if not, significant revenues.
 - (b) *Quality of management:* The issuer's directors, officers and controlling shareholders do not have a regulatory history or reputation that give rise to concerns that the business of the issuer will not be conducted with integrity or due regard to the interests of shareholders.
 - (c) *Distribution:* The issuer has a sufficient number of freely-tradeable securities outstanding to foster a liquid market in the listed securities.
 - (d) *Acceptable capital structure:* In determining whether a capital structure is acceptable, Alpha will consider such factors as (i) the price of shares, units or notional amount issued prior to an initial public offering, or the value of the goods or services provided in consideration for the shares, units or notional amounts compared to the price in the initial public offering, (ii) whether shares, units or notional amounts issued prior to the initial public offering were issued primarily to non-arm's length parties, and (iii) the number of shares, units or the notional amount issued prior to the initial public offering compared to the number to be issued in the initial public offering.
- (3) Alpha may request any other documentation or information as part of the original and ongoing listing requirements so that it may confirm that the Issuer is meeting Alpha Requirements.

2.02 Minimum Listing Standards for Tier 1 Issuers other than Special Purpose Issuers

- (1) *Equity* – Shareholder equity of at least \$4,000,000 for issuers.
- (2) *Income* – Pre-tax cash flow from continuing operations of at least \$700,000 in its last fiscal year.

Commentary:

If an issuer has experienced material net income losses in any of the last three fiscal years, Alpha will review the pre-tax cash flow for an additional two years to consider if compliance with the income requirement is sufficient or listing should be denied.

- (3) **Distribution** – Minimum Public Float of 500,000 shares, together with a minimum of 800 public Board Lot holders or minimum Public Float of 1,000,000 shares together with a minimum of 400 public Board Lot holders.
- (4) **Minimum Public Float Value** – \$3,000,000.
- (5) **Working Capital** – Adequate working capital to carry on business and an appropriate capital structure.

Commentary:

The requirements of subsections (1), (4) and (5) apply to companies that qualify under this subsection.

Minimum Listing Standards for Special Purpose Tier 1 Issuers: Investment Funds

- (1) A Special Purpose Issuer that is an investment fund must have net tangible assets of at least \$10,000,000 unless it is a Special Purpose Issuer that is an investment fund with net tangible assets of at least \$1,000,000 and is part of a group

of companies that are under the same manager, all of which are listed or are to be listed on Alpha or another exchange, and the group has net tangible assets of at least \$20,000,000.

- (2) *Distribution* – For each series of units of an investment fund there must be at least 100,000 units outstanding prior to the commencement of trading of a series of units on Alpha.
- (3) *Redeemable Units* – Units must be redeemable, directly or indirectly from the investment company for securities and/or cash.
- (4) *Calculation of Net Asset Value or Index Value* – A listed Special Purpose Issuer must provide Alpha with a representation that the NAV or Index value will be calculated each business day and will be made available to all Members at the same time.

2.0 Minimum Listing Standards for Special Purpose Tier 1 Issuers: Other

- (1) This section contains the minimum listing standards for securities other than equity and preference shares, warrants of a Listed Issuer to purchase listed securities of its own issue and units of investment funds.
- (2) A Special Purpose Issuer other than an investment fund must be a Listed Issuer or Other Issuer with a market capitalization of at least \$150 million.
- (3) *Liquidity of Underlying Asset* – There must be evidence of the liquidity of the underlying asset.
- (4) The securities to be listed must have been issued pursuant to a prospectus qualified by a securities regulatory authority.
- (5) An application for listing under this section must be accompanied by a market maker application acceptable to Alpha.

2.05 Minimum Listing Standards for Tier 2 Issuers

- (1) *Equity* – Shareholder equity of at least \$2,000,000 for issuers;
- (2) *Income* – Pre-tax cash flow from continuing operations of at least \$200,000 in its last fiscal year.

Commentary:

If an issuer has experienced material net income losses in any of the last three fiscal years, Alpha will review the pre-tax cash flow for an additional two years to consider if compliance with the income requirement is sufficient or listing should be denied.

- (3) *Distribution* – Minimum Public Float of 1,000,000 shares, together with a minimum of 250 public Board Lot holders.
- (4) *Minimum Public Float Value* – \$1,000,000.
- (5) *Working Capital* – Adequate working capital to carry on business and an appropriate capital structure.
- (6) *Alternative Test for Technology and Research and Development Companies* – A technology or research and development issuer that does not meet the criteria in subsection (2) qualifies if it has
 - (a) at least \$5,000,000 in the treasury;
 - (b) *bona fide* research and development expenses of at least \$250,000 in each of the previous two fiscal years;
 - (c) evidence that the company's products or services are at an advanced stage of development and that there is market demand for the product or service;
 - (d) evidence that the company's management has the expertise required to develop the business to a point of profitability; and
 - (e) minimum Public Float of 1,000,000 shares, together with a minimum of 200 public Board Lot holders.

Commentary:

The requirements of subsections (4) and (5) apply to companies that qualify under this subsection.

2.06 Management

- (1) Alpha considers the quality of management of its Listed Issuers to be an important component of a fair and orderly market for investors. Therefore, Alpha may review the conduct of any Related Person of the Issuer. Alpha must be satisfied that the business of the Listed Issuer will be conducted with integrity and in the best interests of shareholders, unit holder and debt holders, and that the Listed Issuer will comply with Alpha Requirements and applicable securities law.

Commentary:

In particular, an issuer will not be approved for listing if any related person has been convicted of fraud, breach of fiduciary duty, violations of securities legislation (other than minor violations that do not give rise to investor protection or market integrity concerns) unless the issuer severs relations with such person to the satisfaction of the Exchange.

An issuer may not be approved for listing if any related person has entered into a settlement agreement with a securities regulatory authority or is associated with any person who would disqualify an issuer for listing.

- (2) Management must have knowledge and expertise relevant to the business of the issuer.

2.07 Inter-listed Issuers

- (1) A foreign-incorporated issuer that is listed and in good standing on a recognized foreign exchange may be listed by filing the documents in section 2.06. Upon acceptance, the issuer is not subject to the provisions of this Handbook, but must contemporaneously post all documents filed with the foreign exchange on Alpha [or on its home web site], translated into either English or French if necessary.
- (2) The Listed Issuer will be automatically suspended from trading if it is suspended or delisted from the foreign exchange.
- (3) Alpha will consider granting an exemption from some or all of the provisions of this Handbook for an issuer that is listed on a recognized foreign stock exchange.

Commentary:

An exemption may be granted where Alpha is satisfied that the issuer is subject to substantially similar regulatory and exchange listing regime as in Canada as well as similar requirements as those contained in this Handbook. Alpha considers exchanges located in countries represented on the IOSCO Technical Committee to have substantially similar requirements, and will make determinations for exchanges located in other countries on a case-by-case basis.

Foreign Listed Issuers are subject to all applicable Canadian securities laws unless exemptions are obtained from the relevant securities commission(s).

2.08 Designation of Restricted Securities

- (1) This section is to be read in conjunction with OSC Rule 56-501 *Restricted Shares*.
- (2) Non-voting Shares, Restricted Voting Shares and Subordinate Voting Shares must be identified as such in the Listed Issuer's constating documents and will be identified by Alpha as such in market data displays prepared for the financial press.
- (3) A class of shares may not be designated as `common` unless the shares are Common Shares.
- (4) A class of shares may not be designated as `preference` or `preferred` securities unless the shares are Preference Shares.
- (5) An issuer's constating documents must give Restricted Shareholders the same right to receive notice of, attend and speak at all shareholder meetings as Common Shareholders and to receive all disclosure documents and other information sent to Common Shareholders.
- (6) A Listed Issuer with outstanding listed Restricted Shares or intending to list Restricted Shares must include in its Listing Statement the disclosure required by Part 2 of OSC Rule 56-501.

Commentary:

Issuances of Restricted Shares and superior voting shares post-listing are subject to section 6.17 of this Handbook.

2.09 Coattail Provisions

- (1) Alpha will not list Restricted Shares unless the issuer's constating documents provide that if a take-over bid is made to Common Shareholders, whether or not the Common Shares are listed, the Restricted Shares will automatically convert to Common Shares unless an identical offer (in terms of price per share, percentage of shares to be taken up exclusive of shares already owned by the offeror and its associates and all other material conditions) is concurrently made to Restricted Shareholders.

2.10 Escrow

- (1) An issuer applying for listing in conjunction with an initial public offering must have an escrow agreement with its principals that complies fully with the requirements of National Policy 46-201 *Escrow for Initial Public Offerings* respecting established issuers.

2.11 Listing Application – Procedure

- (1) The application for listing must include the following:
- (a) a completed Listing Application (Form 1) together with the supporting documentation set out in Appendix A to the Listing Application;
 - (b) a draft Listing Statement (Form 2 or 2A) (including financial statements approved by the Issuer's Board of Directors and its Audit Committee);
 - (c) a duly executed Personal Information Form (Form 3) from each Related Person of the Issuer; if any of these persons is not an individual, a PIF from each director, senior officer and each person who beneficially, directly or indirectly owns, controls or exercises direction over 20% or more of the voting rights of such non-individual;
 - (d) current insider reports from each person required to file a PIF, as filed with the Commission;
 - (e) for technology applicants, projected sources and uses of funds statement, including related assumptions, for a period of 12 months, presented on a quarterly basis, prepared by management and signed by the Chief Financial Officer;
 - (f) for research and development applicants, projected sources and uses of funds statement, including related assumptions, for a period of 24 months, presented on a quarterly basis, prepared by management and signed by the Chief Financial Officer;
 - (g) such other documentation as Alpha may require to assess the issuer's qualification for listing or to support the disclosures made in the Listing Statement and other documentation filed in connection with the listing application; and

Commentary:

Alpha will not normally require an issuer to file technical reports required to be filed with securities commissions under National Instruments 43-101 and 51-101, but may require the issuer to provide a summary.

- (h) the application fee plus applicable taxes.;
- (2) Alpha will use its best efforts to review the application in a timely manner with due regard to any schedule for filing a prospectus.
- (3) Following its review, Alpha may conditionally approve the issuer, or defer or decline the application.
- (4) If an issuer is conditionally approved, it has 90 days in which to file the final documentation set out in section 2.07. If an application is deferred, the issuer has 90 days in which to address the specific issues that caused deferral. If the issues are not addressed during that period to the satisfaction of Alpha, the application will be declined.

- (5) Subject to a right of appeal, a declined issuer may not submit a new application until six months have elapsed from the date on which it was given notice of that the application was declined.
- (6) Ontario securities law prohibits a person with the intention of effecting a trade in a security from making any representation that a security will be listed on a stock exchange unless the exchange has granted conditional approval to the listing or otherwise approves. An issuer that has been conditionally approved for listing may use the following language in its final prospectus or offering document, but only in its entirety:

“Alpha Exchange has conditionally approved the listing of these securities. Listing is subject to the Issuer fulfilling all of Alpha Exchange’s requirements on or before (date stipulated by Alpha Exchange), including distribution of these securities to a minimum number of shareholders.”

Commentary:

Alpha will also advise the relevant securities commission(s) of the conditional approval.

2.12 Final Documentation

- (1) The issuer must submit the following documentation for final listing approval and posting of its securities for trading on Alpha and must post the documents on the Alpha website forthwith following final approval:
 - (a) One originally executed copy of the Listing Statement (Form 2 or 2A) dated within three business days of the date they are submitted, together with any additions or amendments to the supporting documentation previously provided as required by Appendix A to the Listing Application ;
 - (b) two duly executed Listing Agreements (Form 4);
 - (c) an opinion of counsel that the Issuer:
 - (i) is in good standing under and not in default of applicable corporate law;
 - (ii) is not in default of any requirement of any jurisdiction in which it is a reporting issuer or equivalent;
 - (iii) has the corporate power and capacity to own its properties and assets, to carry on its business as it is currently being conducted, and to enter into the Listing Agreement and to perform its obligations thereunder;
 - (iv) has taken all necessary corporate action to authorize the execution, delivery and performance of the Listing Agreement and that the Listing Agreement has been duly executed and delivered by the Issuer and constitutes a legal, valid and binding obligation of the Issuer, enforceable against the Issuer in accordance with its terms;
 - (d) an opinion of counsel that all shares previously issued of the class of securities to be listed or that may be issued upon conversion, exercise or exchange of other previously-issued securities are or will be duly issued and are or will be outstanding as fully paid and non-assessable shares;
 - (e) a certificate of the applicable government authority that the Issuer is in good standing under and not in default of applicable corporate law;
 - (f) a copy of the written notice from the Clearing corporation confirming the CUSIP number assigned to the listed securities;
 - (g) if the issuer is to be listed upon conclusion of a public offering, a copy of the receipt(s) for the (final) prospectus;
 - (h) a letter from the transfer agent stating the total number of shares issued and confirmation of the number of shareholders holding at least one Board Lot of the issuer’s securities; and
 - (i) such other documentation as Alpha may require; and
 - (j) the balance of the listing fee plus applicable taxes.

Ongoing Requirements

3.01 Directors and Officers

- (1) Every new Related Person of a Listed Issuer must complete a Personal Information Form (Form 3) upon their becoming a Related Person of an Issuer.
- (2) Alpha may collect such personal information about the Related Person of an Issuer as it sees fit.
- (3) A Listed Issuer must immediately remove, or cause the resignation of, any director or officer who Alpha determines is not suitable to act as a director or officer of a Listed Issuer. For other unsuitable Related Persons of the Listed Issuer, the Listed Issuer must immediately sever relations with such Person to the satisfaction of Alpha, or, in the case of a control person, satisfy Alpha that the control person does not and will not have any role in the governance of the Listed Issuer.

3.02. Transfer and Registration of Securities

- (1) Every Listed Issuer must maintain in good standing transfer and registration facilities in the City of Toronto, where its Listed Securities must be directly transferable.
- (2) The transfer and registration facilities must be operated by a transfer agent recognized by the clearing corporation.

3.03 Dematerialized Securities

Issuers must make arrangements acceptable to the Clearing Corporation so that all trades in listed securities are cleared and settled on a book-entry only basis.

3.04 Posting Officer

- (1) A Listed Issuer must designate at least one individual to act as its posting officer and at least one backup. The posting officers are responsible for making all of the postings required under Alpha Requirements.
- (2) A Listed Issuer may post documents through the facilities of a third party service provider approved by Alpha.

3.05 Postings

- (1) A Listed Issuer must post electronic copies of all documents required to be posted with Alpha on the Alpha website.
- (2) In lieu of posting, a Listed Issuer may file the following documents with Alpha no later than the deadline for posting
 - (i) documents listed in section 2.07(c); and
 - (ii) any opinion of counsel.
- (3) A filing made under subsection (2) must indicate that it is made in lieu of posting the document.

Part IV. Timely Disclosure

A. Obligation to Disclose Material Information

4.01 Introduction

- (1) This Handbook is not an exhaustive statement of the timely and continuous disclosure requirements applicable to Listed Issuers. Listed Issuers must comply with all applicable requirements of securities legislation. In particular, mining issuers must comply with the additional disclosure requirements of National Policy 43-101 – *Standards of Disclosure for Mineral Projects*. Oil and gas issuers must comply with the additional disclosure requirements of (Proposed) National Instrument 51-101 – *Standards of Disclosure for Oil and Gas Activities*. All Listed Issuers must comply with National Policy 51-201 – *Disclosure Standards* and, if applicable section 11.2 of NI 81-106 *Investment Fund Continuous Disclosure*.

- (2) Each Listed Issuer must determine what information is material in the context of its own affairs. The materiality of information varies from one issuer to another, and will be influenced by factors such as the issuer's profitability, assets, capitalization, and the nature of its operations.

Commentary:

"Material information" is any information relating to the business and affairs of an issuer that results in or would reasonably be expected to result in a significant change to the market price or value of any of the issuer's listed securities. It is broader than the concept of "material change" in Ontario securities law. An event that is "significant" or "major" in the context of a smaller company's business and affairs may not be material to a larger one. Given the element of judgment involved, listed companies are encouraged to consult with the Market Regulator on a confidential basis at an early stage to determine whether a particular event gives rise to material information.

4.02 Disclosable Events

- (1) Listed Issuers are required to make immediate public disclosure of all material information. They are not required to interpret the impact of external political, economic and social developments on their affairs, but if the external development will have or has had a direct effect on their business and affairs that is both material and uncharacteristic of the effect generally experienced as a result of such development by other companies engaged in the same business or industry, Listed Issuers are urged, where practical, to explain the particular impact on them. For example, a change in government policy that affects most companies in a particular industry does not require an announcement, but if it affects only one or a few companies in a material way, an announcement should be made.
- (2) A reasonable investor's investment decision may be affected by factors relating directly to the securities themselves as well as by information concerning the Listed Issuer's business and affairs. For example, changes in a Listed Issuer's issued capital, stock splits, redemptions and dividend decisions may all have an impact upon the reasonable investor's investment decision.
- (3) Actual or proposed developments that require immediate disclosure include, but are not limited to, the following:
- (a) changes in share ownership that may affect control of the issuer;
 - (b) changes in corporate structure, such as reorganizations, amalgamations, etc.;
 - (c) take-over bids or issuer bids;
 - (d) major corporate acquisitions or dispositions;
 - (e) changes in capital structure;
 - (f) borrowing of a significant amount of funds;
 - (g) public or private sale of additional securities;
 - (h) development of new products and developments affecting the issuer's resources, technology, products or market;
 - (i) significant discoveries or exploration results, both positive and negative, by resource companies;
 - (j) entering into or loss of significant contracts;
 - (k) firm evidence of significant increases or decreases in near-term earnings prospects;
 - (l) changes in capital investment plans or corporate objectives;
 - (m) significant changes in management;
 - (n) significant litigation;
 - (o) major labour disputes or disputes with major contractors or suppliers;
 - (p) events of default under financing or other agreements; or

- (q) any other developments relating to the business and affairs of the issuer that might reasonably be expected to influence or change an investment decision of a reasonable investor.

Commentary:

Disclosure is only required where a development is material. Announcements of an intention to proceed with a transaction or activity should be made when a decision has been made to proceed with it by the company's board of directors or by senior management with the expectation of concurrence from the board of directors. However, a corporate development in respect of which no firm decision has yet been made but that is reflected in the market price may require prompt disclosure.

Forecasts of earnings and other financial forecasts need not be disclosed, but where a significant increase or decrease in earnings is indicated in the near future, such as in the next fiscal quarter, this fact must be disclosed. Forecasts should not be provided on a selective basis to investors or others not involved in the management of the affairs of the issuer. If disclosed, they should be generally disclosed.

- (4) If a pending transaction has been announced but has not closed, updates should be provided at least every 30 days, unless the original announcement specifies a specific date on which an update will be given. Any material change to the pending transaction as announced must be disclosed promptly.

4.03 Rumours and Unusual Trading Activity

- (1) Rumours and unusual trading activity may influence or change the investment decision of a reasonable investor and/or the trading price of an issuer's securities. It is impractical to expect management to be aware of, and comment on, all rumours or unusual trading activity. However, when either rumours or unusual trading activity occur, the Market Regulator may request that the Issuer make a clarifying statement. A trading halt may be imposed pending release of a "no corporate developments" statement.
- (2) If a rumour is correct in whole or in part, or if it appears that the unusual trading activity reflects illicit trading on non-disclosed material information, the Market Regulator will require the Listed Issuer to make immediate disclosure of the relevant material information, and a trading halt may be imposed pending release and dissemination of that information.

4.04 Timing of Disclosure and Pre-Notification of the Market Regulator

- (1) A Listed Issuer must disclose material information forthwith upon the information becoming known to management, or in the case of information previously known, forthwith upon it becoming apparent that the information is material. Immediate release of information is necessary to ensure that it is promptly available to all investors and to reduce the risk that persons with access to that information will act upon undisclosed information.
- (2) The policy of immediate disclosure frequently requires that press releases be issued during trading hours, especially when an important corporate development has occurred. When this occurs, the Listed Issuer must notify the Market Regulator *prior* to the issuance of a press release and must not disseminate the press release until instructed by the Market Regulator. The Market Regulator will determine whether trading in the issuer's securities should be temporarily halted. The Market Regulator will also review the proposed wording of the press release to ensure it is complete and balanced.
- (3) Where a release is issued after the close of trading, the Market Regulator should be advised prior to the opening of trading the following day.

4.05 Dissemination of Material Information

- (1) After notifying the Market Regulator, the news release must be transmitted to the media by the quickest possible method, and by a method that provides the widest dissemination possible. To ensure that the entire financial community is aware of the news at the same time, a wire service (or combination of services) must be used which provides national and simultaneous coverage.
- (2) Dissemination of news is essential to ensure that all investors have equal and timely information. Listed Issuers must ensure appropriate dissemination of news releases, and any failure to properly disseminate news shall be deemed to be a breach of this policy and shall be grounds for suspension or delisting of the listed company's securities. In particular, the Exchange will not consider relieving a listed company from its obligation to disseminate news properly because of cost factors.

- (3) Listed Issuers are encouraged to use services such as Dow Jones and Reuters that provide wide dissemination at no cost to the issuer. However, because they may not carry the release or may heavily edit it, they are not acceptable as a sole means of dissemination.

Commentary:

Alpha accepts the use of any news services that meet the following criteria:

1. Dissemination of the full text of the release to the national financial press and to daily newspapers that provide regular coverage of financial news;
2. Dissemination to all members; and
3. Dissemination to all relevant regulatory bodies.

- (4) Similarly, while the Listed Issuer must post all news releases on Alpha's website and may also post them on its own website, this is not an acceptable means of dissemination. Listed Issuers must be careful they do not "front run" their press release by posting it on a website before it has been disseminated by a full-text service.

Commentary:

If a Listed Issuer chooses to post news releases or other documents required to be filed by Alpha or by securities regulatory authorities on its website, it must post all of them. It cannot post only favorable information. Similarly, news releases and other filings must be clearly distinguished from marketing material that may also be on the website so that a viewer will not confuse the two.

4.06 Content of News Releases

- (1) Announcements of material information should be factual and balanced. Unfavorable news must be disclosed just as promptly and completely as favorable news.
- (2) News releases must contain sufficient detail to enable investors to assess the importance of the information to allow them to make informed investment decisions.
- (3) Listed Issuers should communicate clearly and accurately the nature of the information, without including unnecessary details, exaggerated reports or editorial commentary.
- (4) News releases must not be misleading.

Commentary:

For example, a Listed Issuer must not announce an intent to enter into a transaction if it lacks the ability to complete the transaction or if no corporate decision has been made to proceed with the transaction.

- (5) Investors and the media may wish to obtain further information concerning the announcement. All news releases must include the name of an officer or director of the listed Issuer who is responsible for the announcement, together with the Listed Issuer's telephone number. The Listed Issuer is encouraged to also include the name and telephone number of an additional contact person.

4.07 Trading Halts

- (1) Trading may be halted by the Market Regulator during trading hours to allow material information to be disseminated and market participants to decide if they want to change their buy or sell orders. The decision to halt trading is the Market Regulator's, and it will not routinely halt trading for all press releases, even at the request of the listed company. It is not appropriate for a listed company to request a trading halt if it is not prepared to make an announcement forthwith.
- (2) The Market Regulator may also halt trading to obtain a statement from a Listed Issuer clarifying a rumour or unusual trading that is having an effect on the market for the issuer's securities.
- (3) A trading halt does not reflect on the reputation of the issuer or its management. Trading is halted for positive developments as well as negative ones.

- (4) The Market Regulator, upon consultation with the Listed Issuer, if appropriate, will determine the time required to disseminate the news release and consequently the length of any quotation and trading halt. A trading halt will not normally last more than two hours.
- (5) A trading halt will not continue for more than 24 hours unless the Market Regulator determines that re-opening trading will have a significant negative impact on market integrity.
- (6) A Listed Issuer is expected to issue the news release promptly following the initiation of a trading halt. If an announcement is not forthcoming, the Market Regulator will establish an opening time no later than 24 hours from the time of the halt (excluding non-business days). If a news release has not been issued by the time set for resuming trading, the Market Regulator will issue a notice stating that trading was halted for dissemination of news or clarification of abnormal trading and no announcement is forthcoming. In this situation, the Listed Issuer should be prepared to issue a statement prior to the reopening explaining why it requested a halt (if this is the case) and why it is not able to make an announcement.

B. When Confidentiality May Be Maintained

4.08 When Information May be Kept Confidential

- (1) Section 75(3) of the *Securities Act* (Ontario), as supplemented by National Policy 51-201 and National Instrument 81-106, provides that where, in the opinion of the reporting issuer, the public disclosure of a material change would be unduly detrimental to the interests of the reporting issuer, or where the material change consists of a decision to implement a change made by senior management of the Listed Issuer who believe that confirmation of the decision by the board of directors is probable, the Listed Issuer may file a report disclosing a material change on a confidential basis. Non-disclosure of information is also provided for in section 140 (2) of the *Securities Act* (Ontario).
- (2) When a Listed Issuer requests that information be kept confidential, then pursuant to section 75(4) of the *Securities Act*, it must advise the Ontario Securities Commission in writing within 10 days if it wishes that the information continue to be held on a confidential basis, and every 10 days thereafter until the material information is generally disclosed. The Ontario Securities Commission takes the view that it can require the Listed Issuer to disclose confidential information when, in its view, the benefit from public disclosure would outweigh the harm to the issuer resulting from disclosure.
- (3) Listed Issuers should be guided by applicable securities legislation in determining whether material information can be filed on a confidential basis with a Securities Regulatory Authority. Where a decision is made to file a confidential report with the securities regulatory authority, the Market Regulator must be immediately notified of the Listed Issuer's decision to do so. The Market Regulator must be provided with a copy of all submissions to the Securities Regulatory Authority relating to a request to make or to continue confidential disclosure, or to make general disclosure of previously held confidential information. The Market Regulator must be kept fully apprised of the nature of any discussions between the Listed Issuer and the securities regulatory authority relevant thereto, and any decision of the securities regulatory authority with respect to the ability of the Listed Issuer to make or continue confidential disclosure, or requiring the Listed Issuer to make general disclosure.
- (4) Listed Issuers that are reporting issuers in other jurisdictions must ensure that they comply with all applicable rules in addition to this Policy.

4.09 Maintaining Confidentiality

- (1) Where disclosure of material information is delayed, the Listed Issuer must maintain complete confidentiality. In the event that such confidential information, or rumours respecting the confidential information, is divulged in any manner (other than in the necessary course of business), the Listed Issuer is required to make an immediate announcement on the matter. The Market Regulator must be notified of the announcement, in advance, in the usual manner. During the period before material information is disclosed, market activity in the Listed Issuer's securities should be closely monitored by the issuer. Any unusual market activity probably means that news of the matter is being disclosed and that certain persons are taking advantage of it. In such case, the Market Regulator should be advised immediately and a halt in trading will be imposed until the Listed Issuer has made disclosure of the material information.
- (2) At any time when material information is being withheld from the public, the Listed Issuer is under a duty to take precautions to keep such information completely confidential. Such information should not be disclosed to any of the Listed Issuer's officers, employees or advisers, except in the necessary course of business. The directors, officers and employees of a Listed Issuer should be reminded on a regular basis that confidential information obtained in the course of their duties must not be disclosed.

4.10 Insider Trading

- (1) Listed Issuers should make insiders and others who have access to material information about the Listed Issuer before it is generally disclosed aware that trading in securities of the issuer (or securities whose market price or value varies materially with the securities of the reporting issuer) while in possession of undisclosed material information or tipping such information is prohibited under applicable securities legislation, and may give rise to administrative, civil and/or criminal liability.
- (2) In any situation where material information is being kept confidential, management is under a duty to take every possible precaution to ensure that no trading whatsoever takes place by any insiders or persons in a "special relationship" with the Listed Issuer in which use is made of such information before it is generally disclosed to the public.
- (3) In the event that the Market Regulator is of the opinion that insider or improper trading may have occurred before material information has been disclosed and disseminated, the Market Regulator may require that an immediate announcement be made disclosing such material information. The Market Regulator will refer the matter to the appropriate securities commission(s) for enforcement action.

4.11 No Selective Disclosure

- (1) Disclosure of material information must not be made on a selective basis. The disclosure of material information should not occur except by means that ensure that all investors have access to the information on an equal footing. Alpha recognizes that good corporate governance involves actively communicating with investors, brokers, analysts, and other interested parties with respect to the corporation's business and affairs, through private meetings, formal or informal conferences, or by other means. However, when communications of any nature occur other than widely disseminated press releases in accordance with this rule, Listed Issuers may not, under any circumstances, communicate material information to anyone, other than in the necessary course of business, in which case the party receiving the information must be instructed to keep it confidential and not to trade the listed company's securities.
- (2) The board of directors of a Listed Issuer should put in place policies and procedures that will ensure that those responsible for dealing with shareholders, brokers, analysts, and other external parties are aware of their and the Listed Issuer's obligations with respect to the disclosure of material information.
- (3) Should material information be disclosed, whether deliberately or inadvertently, other than through a widely disseminated press release in accordance with the rule, the Listed Issuer must immediately contact the Market Regulator and request a trading halt pending the widespread dissemination of the information.

Part V. Periodic Disclosure**5.01 Documents required to be posted**

- (1) Every Listed Issuer must promptly post the following documents to the [Listed Issuer's website and] Alpha website:
 - (a) every document required by parts 6, 7 and 8 of the Alpha Listing Handbook,
 - (b) every document required to be filed with any securities regulatory authority for a jurisdiction in which it is a reporting issuer or equivalent, to be delivered to security holders of a Listed Issuer or to be filed on SEDAR to be posted concurrently or as soon as practicable following the filing with the securities regulatory authority or SEDAR or the delivery to security holders,
 - (c) an annual financial statement and Management's Discussion and Analysis.
 - (d) an interim financial statement and Management's Discussion and Analysis.
 - (e) a quarterly update (Form 5) current as of the last day of the relevant quarter, to be posted concurrently with a Listed Issuer's interim financial statement;
 - (f) if applicable, an Annual Information Form (AIF) , to be posted concurrently with the Listed Issuer's audited annual financial statements.

Commentary:

Documents that are also required to be filed with securities regulators must be posted on SEDAR before or concurrently with the posting on the Alpha website.

5.02 Dividends

- (1) In addition to any other requirements of this handbook, Listed Issuers must notify Alpha of any dividend or other distribution (whether regular or special) to holders of listed securities at least seven trading days prior to the record date for the distribution. This allows Alpha to establish “ex” trading dates with respect to the distribution.

5.03 Other Notifications

- (1) In addition to any other requirements of this handbook, Listed Issuers notify Alpha of any corporate action that may affect holders of listed securities at least seven trading days prior to the record date for the corporate action to allow the setting of an “ex” trading date, if applicable. These actions include, but are not limited to, changes of transfer agent and registrar and full or partial redemptions or retractions of a listed security.

5.04 Enhanced Disclosure

- (1) A Listed Issuer’s must disclose its corporate governance practices as required by National Instrument 58-101 *Disclosure of Corporate Governance Practices*.

Part VI. Corporate Finance and Capital Structure Changes**6.01 Compliance with Disclosure Obligations**

- (1) Every transaction, except as noted below, governed by this part is deemed to be “material information” that must be disclosed immediately under Alpha’s Timely Disclosure Policy, even if the Market Regulator determines not to halt trading for dissemination. Listed Issuers must ensure they issue a press release prior to posting any documents required by this part.

Commentary:

A grant of an incentive stock option in the normal course is not necessarily material information. Listed companies must make a determination on a case-by-case basis.

- (2) A Listed Issuer must give Alpha prior notice of any issuance or potential issuance of securities of a class of listed securities as provided in this Part.

6.02 Compliance with Shareholder Approval Requirements

- (1) Transactions subject to this Part of the Handbook may also be subject to the prior shareholder approval required in Part X of this Handbook.

A. Distributions of a Class of Listed Securities**6.03 Prospectuses**

- (1) A Listed Issuer that proposes to issue securities pursuant to a prospectus must promptly post:
 - (a) a preliminary notice of the proposed offering (Form 6),
 - (b) a copy of the preliminary prospectus, and
 - (c) any other documents relating to the proposed offering that may be of interest to investors, provided posting those documents does not contravene applicable securities law.
- (2) The pricing rules for private placements in section 6.04 of this Handbook and the shareholder approval requirements for private placements in section 10.08 of this Handbook apply to issuances of Listed Securities by prospectus.
- (3) Upon closing of the offering, the Listed Issuer must post:
 - (a) a final notice of the offering (Form 6), blacklined to the preliminary notice,

- (b) a copy of the final prospectus,
 - (c) a copy of the receipt(s) for the final prospectus, and
 - (d) an opinion of counsel that the securities to be issued pursuant to the offering (and any underlying securities, if applicable) are or will be duly issued and are or will be fully paid and non-assessable.
- (3) The securities will normally be posted for trading upon closing of the offering. At the request of the Listed Issuer, Alpha may establish an “if, as and when issued” market prior to the closing of the offering. No such market will be established prior to the issuance of a receipt for the final prospectus.

6.04 Private Placements

- (1) Alpha considers a “private placement” to be an issuance of securities from treasury for cash or to settle a *bona fide* debt in reliance on an exemption from the prospectus requirements in applicable securities legislation.
- (2) Subject to Section 10.8 of this Handbook, the private placement must not be priced lower than the market price on the day preceding the date on which the Listed Issuer issued a press release announcing the placement, less the applicable discount (the “maximum discount”):

<i>Market Price</i>	<i>Maximum Discount</i>
\$0.50 or less	25%
\$0.51 – \$2.00	20%
Above \$2.00	15%

- (3) The closing market price must be adjusted for any stock splits or consolidations and must not be influenced by the Listed Issuer, any director or officer of the Listed Issuer or any party with knowledge of the private placement.
- (4) If debt is to be exchanged for securities, the issue price is the face value of the debt divided by the number of securities to be issued. If the private placement is of special warrants, the issue price is the total proceeds to the Listed Issuer (before payment of any agent’s or other fees) divided by the maximum number of securities that may be issued, assuming any penalty provisions are triggered. If warrants or other convertible securities are to be issued, the Listed Issuer must also comply with section 6.05.
- (5) A Listed Issuer wishing to do a private placement at the current market price may request price protection by giving Alpha confidential notice in writing. The price protection expires if the transaction has not closed 45 days after the date on which it is given.
- (6) A Listed Issuer that proposes to issue securities pursuant to a prospectus must promptly post a preliminary notice of the proposed placement (Form 7),
- (7) Upon closing of the placement, which must occur at least five business days following the posting of the preliminary notice, the Listed Issuer must post:
- (a) a final notice of the offering (Form 7), blacklined to the preliminary notice,
 - (b) a letter from the listed company confirming receipt of proceeds,
 - (c) if applicable, a certified copy of the minutes of the shareholder meeting approving the placement containing the exact wording of the resolution and confirming that it was adopted by a majority of shareholders other than those excluded from voting by Alpha Requirements or corporate or securities law, and
 - (d) an opinion of counsel that the securities to be issued pursuant to the offering (and any underlying securities, if applicable) are or will be duly issued and are or will be fully paid and non-assessable.

6.05 Securities Issuable on Conversion of an Option, Warrant and Convertible Securities Other Than Incentive Options

- (1) Securities issuable on conversion of an option (other than an incentive option), warrant or other convertible securities must not be issued at less than the market price on the trading day prior to the day on which a press release announcing the placement was issued. The price may be adjusted for any payment for the convertible security.

Commentary:

If the market price was \$0.50 and a warrant sold for \$0.05, the conversion price could be \$0.45. If a convertible share were issued for \$1.00, it could not be convertible into more than 2 common shares.

- (2) Convertible securities may not be issued for no consideration except as "sweeteners" in conjunction with a private placement of listed securities, in which case the number of securities issuable upon conversion cannot exceed the number of listed securities initially placed.
- (3) Except in exceptional circumstances and with the prior consent of Alpha, the conversion price and the characteristics of the security may not change except pursuant to standard anti-dilution provisions. For greater certainty, the fact that a convertible security will expire out of the money is not an exceptional circumstance. The documentation to be filed is the same as that to be filed for a private placement pursuant to section 6.04.

Commentary:

This section applies to securities of a Listed Issuer convertible into its own securities. Requirements for listed warrants of Other Issuers are contained in section 6.16 of this Handbook.

6.06 Acquisitions

- (1) Securities may be issued as full or partial consideration at not less than the maximum discount permitted by section 6.04. Management of the Listed Issuer is responsible for ensuring that the consideration received is reasonable and must retain copies of evidence of value including confirmation of out-of-pocket costs or replacement costs, fairness opinions, geological reports, financial statements or valuations. This documentation must be made available to Alpha upon request.
- (2) A Listed Issuer that proposes to issue securities in consideration for an acquisition must promptly post a preliminary notice of the proposed acquisition (Form 8),
- (3) Upon closing of the acquisition, which must occur at least five business days following the posting of the preliminary notice, the Listed Issuer must post:
- (a) a final notice of the offering (Form 8), blacklined to the preliminary notice,
 - (b) a letter from the listed company confirming closing of the transaction and receipt of the assets, transfer of title of the assets or other evidence of receipt of consideration for the issuance of the securities,
 - (c) if applicable, a certified copy of the minutes of the shareholder meeting approving the acquisition containing the exact wording of the resolution and confirming that it was adopted by a majority of shareholders other than those excluded from voting by Alpha requirements or corporate or securities law; and
 - (d) an opinion of counsel that the securities to be issued pursuant to the offering (and any underlying securities, if applicable) are or will be duly issued and are or will be fully paid and non-assessable.

6.07 Incentive and Compensation Options

- (1) This section governs issuance of stock options, other than overallotment options to an underwriter in a prospectus offering or options to increase the size of the distribution prior to closing, that are used as incentives or compensation mechanisms for employees, directors, officers, consultants and other persons who provide services for Listed Issuers.
- (2) Stock options may not have an exercise price lower than the greater of the closing market prices of the underlying securities on (a) the trading day prior to the date of grant of the stock options; and (b) the date of grant of the stock options.
- (3) Listed Issuers should not price an option where the market price does not reflect undisclosed material information, unless the issuance of the option is granted to an arm's length party in connection with a material transaction that is not

required to be disclosed at that time (e.g. an option to an employee of a company to be acquired issued as an incentive for them to remain).

- (4) A Listed Issuer that has instituted an stock option plan must file with Alpha the following prior to or concurrent with the first grant under the plan:
- (a) a copy of the stock option plan, and
 - (b) if applicable, a certified copy of the minutes of the shareholder meeting approving the plan containing the exact wording of the resolution and confirming that it was adopted by a majority of shareholders other than those excluded from voting by NI 45-106.
- (5) Immediately following each option grant, the Listed Issuer must file with Alpha:
- (a) a notice of stock option grant (Form 9); and
 - (b) if the option is granted outside of the plan, an opinion of counsel that the securities to be issued pursuant to the plan will be duly issued and will be fully paid and non-assessable.
- (6) A Listed Issuer that has amended an option or compensation plan must file with Alpha the following forthwith after the amendment:
- (a) a copy of the compensation plan,
 - (b) if applicable, a certified copy of the minutes of the board of directors' meeting or shareholder meeting approving the amendment containing the exact wording of the resolution and confirming that it was adopted by a majority of directors or shareholders other than those excluded from voting by Alpha Requirements, and
 - (c) an opinion of counsel that any additional securities to be issued pursuant to the compensation plan will be duly issued and will be fully paid and non-assessable.

Commentary:

Amendments to stock option and other compensation plans may be subject to board and shareholder approval as provided in section 10.10 of this Handbook.

6.08 Rights Offerings

- (1) A Listed Issuer intending to do a rights offering must inform Alpha immediately. Notice may be on a confidential basis if the terms have not been finalized.
- (2) The rights offering must be unconditional; rights must be transferable and will be posted for trading on Alpha. Rights may not be issued to purchase shares of an unlisted issuer unless the unlisted issuer is listed on another Canadian or foreign exchange. Shareholders must receive at least one right for each share held.
- (3) A Listed Issuer must finalize the terms of the rights offering and obtain clearance from all applicable securities commissions *at least five settlement days* prior to the record date for a rights offering. "Ex" trading will begin 2 settlement days prior to the record date, meaning purchasers on and after that date will not be entitled to obtain rights certificates. Trading in the rights will begin on the first day of "ex" trading in the listed securities. If insufficient notice is given, Alpha will require the Listed Issuer to delay the record date.
- (4) At least five settlement days prior to the record date the Listed Issuer must post the following:
- (a) a copy of the final rights circular or prospectus as approved by the applicable securities regulatory authority,
 - (b) a written statement as the date on which the offering circular and rights certificates will be mailed to shareholders (which must be as soon as practicable following the record date),
 - (c) an opinion of counsel that the securities to be issued on exercise of the rights will be duly issued and will be fully paid and non-assessable.
- (5) The Listed Issuer must also provide Alpha with a specimen copy of the rights certificate at least five settlement days prior to the record date.

- (6) The rights offering must be open for a minimum of 21 days following the record date. Once the rights offering has commenced, there may be no amendments to its terms except as permitted by Alpha in extremely exceptional circumstances, such as an unanticipated postal strike that makes timely delivery of the circular and certificates impossible.
- (7) If the offering provides a rounding mechanism whereby rights holders holding less rights than are needed to buy one share can have their entitlement adjusted, arrangements must be made to ensure beneficial holders registered in the name of the Clearing Corporation or an intermediary will be treated as if they were registered holders.

6.09 Issuer Bids

- (1) A Listed Issuer undertaking a formal issuer bid for a class of listed securities must post the following documentation as soon as practicable following announcement of the bid:
 - (a) a notice of the issuer bid (Form 10), and
 - (b) a copy of the issuer bid circular required by applicable securities legislation.
- (2) Normal course issuer bids are governed by sections 6.18 – 6.20 of this Handbook.

- (1) A Listed Issuer undertaking a take-over bid must post the following documentation at least as soon as practicable following announcement of the bid:
 - (a) a notice of the take-over bid (Form 11),
 - (b) a copy of the take-over bid circular, and
 - (c) an opinion of counsel that any securities to be issued (and any underlying securities, if applicable) are or will be duly issued and are or will be fully paid and non-assessable.
- (2) If the Listed Issuer is offering a new class of securities as payment under the bid and wishes to list those securities, the provisions of section 6.16 (supplemental listings) and 6.17 (restricted securities) apply.

6.11 Additional Listings

- (1) A Listed Issuer that wishes to issue shares of a class of listed securities for any other purpose (for example, a stock dividend) must post the following documentation at least 24 hours prior to issuing the stock:
 - (a) a notice of the offering (Form 12),
 - (b) copies of all relevant agreements, and
 - (c) an opinion of counsel that the securities to be issued (and any underlying securities, if applicable) are or will be duly issued and are or will be fully paid and non-assessable.

B. Substitutional Listings**6.12 Name Change**

- (1) A Listed Issuer that changes its name must post the following in order to be listed under the new name:
 - (a) a notarial or certified copy of the Certificate of Amendment or equivalent giving effect to the name change,
 - (b) confirmation from the registrar and transfer agent that it can effect transfer in the new issue on a book-only basis;
 - (c) confirmation of the new CUSIP number or that the number is unchanged;
 - (d) confirmation that the issuer has notified commissions in all jurisdictions in which it is a reporting issuer of the name change.

- (2) Alpha may assign a new stock symbol. The Listed Issuer should submit any requests in this regard in advance of the name change becoming effective.

 - (a) a notice of the security split (Form 13),

 - (d) if the security split is part of a reclassification, confirmation of the new CUSIP number.
- (2) The securities will begin trading on a split basis two settlement days prior to the record date.

6.14 Security Consolidations

- (1) A new CUSIP number must be obtained for the consolidated securities.
- (2) A Listed Issuer may not consolidate its securities if the total securities outstanding and number of Board Lot holders following the consolidation would be less than the minimums for continued listing set out in Section 9.03.
- (3) To give effect to a security consolidation, the Listed Issuer must post the following:
 - (a) a notice of the security consolidation (Form 14),
 - (b) a certified copy of the minutes of the security holder meeting approving the consolidation,
 - (c) a certified copy of the Certificate of Amendment giving effect to the consolidation, or equivalent document;
 - (d) an opinion of counsel that all necessary steps have been taken to effect the consolidation; and
 - (e) confirmation of the new CUSIP number.
- (4) The securities will normally begin trading on a consolidated basis two or three trading days after all documents are filed.
- (5) Alpha will assign a new stock symbol when the securities begin trading on a consolidated basis. The Listed Issuer should submit any requests in this regard in advance of the consolidation becoming effective.

6.15 Security Reclassifications with No Security Split

- (1) A Listed Issuer wishing to effect a security reclassification not involving a security split, a reclassification into more than one class of securities or other change to its capital structure must consult Alpha. The requirements to give effect to the reclassification will be tailored to the Listed Issuer's particular situation.
- (2) To give effect to a security restructuring, the Listed Issuer must file with Alpha the following:
 - (a) a notice of the security restructuring (Form 15),
 - (b) a certified copy of the minutes of the security holder meeting approving the restructuring,
 - (c) a copy of the Certificate of Amendment giving effect to the restructuring, or equivalent document,
 - (d) an opinion of counsel that all necessary steps have been taken to effect the reclassification, and that the new securities are or will be duly authorized and are or will be fully-paid and non-assessable, and

- (e) confirmation of the new CUSIP number(s).
- (3) The new securities will normally begin trading two or three trading days after all documents are filed.
- (4) Alpha may assign a new stock symbol to the new securities. The Listed Issuer should submit any requests in this regard in advance of the restructuring becoming effective.

C. Supplemental Listings

6.16 Supplemental Listings

- (1) A Listed Issuer or an Other Issuer may apply to have a new class of securities listed and posted for trading.
- (2) The distribution requirements for securities other than those specified in section 6.14(3) and (4) are the same as for an original listing.
- (3) *Warrants* – Warrants issued by a Listed Issuer to purchase listed securities of its own issue must have at least 100,000 warrants outstanding held by at least 100 warrant holders, each holding at least 100 warrants, and the warrant indenture must provide that the terms of the warrants cannot be amended except pursuant to standard anti-dilution provisions.. Any other warrants must meet the requirements for Special Purpose Issuers set out in section 2.04 of this Handbook.
- (4) *Preference Shares* – Each class of listed Preference Shares must have at least 100,000 shares outstanding held by at least 100 shareholders, each holding at least 100 shares.
- (5) The application for listing must include the following:
 - (a) a completed Listing Application (Form 1) together with the supporting documentation set out in Appendix A to the Listing Application; and
 - (b) a draft Listing Statement (Form 2 or 2A) .
- (6) Alpha will use its best efforts to review the application in a timely manner with due regard to any schedule for filing a prospectus. Alpha may require the Listed Issuer to file additional documentation in order to properly conduct its review.
- (7) The Listed Issuer or Other Issuer must submit the following documentation for final listing approval and posting of its securities for trading on Alpha:

 - (c) a letter from the transfer agent stating the number of securities outstanding and confirmation of the number of securityholders holding at least one Board Lot of the securities,
 - (d) a definitive specimen of the share certificate, and
 - (e) applicable fee.

6.17 Restricted Shares

- (1) A Listed Issuer proposing a supplemental listing of a new class of Restricted Shares must comply with sections 2.06 and 2.07 of this Handbook.
- (2) A Listed Issuer with listed Restricted Shares may not distribute any securities that have greater voting rights than any class of listed Restricted Shares unless the distribution is to all of the Issuer's Equity Shareholders on a *pro rata* basis.

D. Issuer Bids Through Alpha's Facilities

6.18 Normal Course Issuer Bids – Procedure

- (1) Sections 6.18 through 6.20 apply
- (a) to all normal course issuer bids by Listed Issuers and
 - (b) to all purchases of listed securities by a trustee or other agent for a pension, stock purchase, stock option, dividend reinvestment or other plan in which employees or securities holders of a Listed Issuer may participate if
 - (i) the trustee or agent is an employee, director, associate or affiliate of the Listed Issuer; or
 - (ii) the Listed Issuer directly or indirectly controls the time, price, amount or manner of purchases or directly or indirectly influences the choice of the broker through which purchases are made.

Commentary:

The sections do not apply if the purchases are made on the specific instruction of the employee or security holder who will be the beneficial owner of the securities purchased.

- (2) A Listed Issuer must not announce a normal course issuer bid or post any documentation in connection with a normal course issuer bid if it does not have a present intention to purchase securities.
- (3) The maximum number of securities to be purchased under a normal course issuer bid cannot be a number that would make that class of securities ineligible for continued listing on Alpha assuming all the shares are purchased.
- (4) A Listed Issuer intending to make a normal course issuer bid for a class of listed securities must post the following documentation as soon as practicable after issuing a news release with details of the bid:
- (a) a notice of the normal course issuer bid (Form 16A) which states the maximum number of securities the issuer intends to purchase under the bid.

Commentary:

An issuer may make a bid for less than the maximum number of securities permitted by the definition of normal course issuer bid. If so the Form 16A must contain the number of securities the issuer intends to purchase rather than simply stating the maximum number. Subsection (7) allows a Listed Issuer to increase the maximum number of securities that are the subject of the bid.

The news release announcing the bid must contain a summary of the information in Form 16A, including the maximum number of shares to be purchased, the reason for the bid, any restrictions on purchase and the number of shares purchased in the preceding twelve months.

- (5) A Form 16A notice expires on the earlier of
- (a) one year from the date of filing, and
 - (b) any earlier date specified in the notice.

Commentary:

An issuer wishing to continue a bid for more than one year must file a new Form 16A no later than the expiry date of the current form.

- (6) The maximum number of securities that can be purchased under the bid must be adjusted for stock splits, stock dividends and stock consolidations. The Listed Issuer must post an amended Form 16A reflecting the adjustment at the same time as it posts the documentation required for the subdivision or consolidation.
- (7) If:
- (a) the original Form 16A specified purchases of less than the maximum number permitted under the definition of normal course issuer bid, or

- (b) the number of securities outstanding of the class that is the subject of the normal course issuer bid has increased by more than 25% from the date of posting of the original Form 16A,

a Listed Issuer may post a revised Form 16A permitting the purchase of up to the greater of 10% of the public float or 5% of the outstanding securities as of the date of the posting of the amended Form 16A.

- (8) A Listed Issuer must post a revised Form 16A in the event of any material change in the information in the current Form 16A as soon as practicable following the material change.

Commentary:

A change in the number of shares outstanding is not a material change requiring filing of an amended form unless the issuer is increasing the number of shares it intends to purchase pursuant to subsection (7). A decrease in the number of shares the issuer intends to purchase is a material change.

- (9) A Listed Issuer must issue a news release prior to or concurrently with the filing of any amended Form 16A, containing full details of the amendment,
- (10) An amended Form 16A expires on the same date as the original Form 16A.
- (11) Within 10 days of the end of each calendar month, the Listed Issuer or trustee or agent must post a completed Form 16B indicating the number of shares purchased in the previous month on Alpha and otherwise.

6.19 Normal Course Issuer Bids – Restrictions on Purchases

- (1) A Listed Issuer or trustee or agent may only appoint one Member at any one time to make purchases under the bid. The Listed Issuer must notify the Market Regulator of the name of the Member and the registered representative responsible for the bid.
- (2) Normal course issuer bid purchases may not be made by intentional crosses, prearranged trades or private agreements, except for purchases under the block purchase exemption in subsection 16.20(5).
- (3) If a normal course issuer bid is outstanding at the time a sale from a control block under Part 2 of National instrument 45-102 *Resale of Securities* is underway, the Member making purchases under the bid must ensure that it is not bidding for securities at the same time securities are offered under the sale from control.
- (4) A Listed Issuer must not purchase securities under a normal course issuer bid while a formal issuer bid for the same securities is outstanding. This restriction does not apply to a trustee or agent making purchases for a plan in which employees or security holders participate.
- (5) If a Listed Issuer has a securities exchange take-over bid outstanding at the same time as a normal course issuer bid is outstanding for the offered securities, the Listed Issuer may only make purchases under the normal course issuer bid permitted by OSC Rule 48-501 *Trading During Distributions, Formal Bids and Stock Exchange Transactions*.
- (6) A Listed Issuer, trustee or agent may not make any purchases under a normal course issuer bid while in possession of any material information that has not been disseminated under Part IV of this Handbook.

6.20 Normal Course Issuer Bids – Limits on Price and Volume

- (1) Normal Course Issuer Bid purchases may not begin until two trading days after the later of
- (i) the posting of a Form 16A or amended Form 16A in connection with the bid; and
- (ii) the issuance of a news release containing details of the Form 16A or amended Form 16A.
- (2) Normal course issuer bid purchases must be made at or below the price of the last independent trade of the security at the time of purchase.

Commentary:

The following are not considered independent trades, whether made directly or indirectly:

- trades for the account or an insider of the Listed Issuer or for an account under the direction of an insider;
- trades for the account of the Member making purchases under the bid or under the direction of the Member;

- trades solicited by the Member making purchases under the bid; and
- trades made by the Member making purchases for the bid in order to facilitate a subsequent block purchase by the listed issuer.

Alpha will not consider this section to be violated by an inadvertent uptick caused by a change in the last sale price that occurred immediately prior to the entry of the purchase order.

- (3) Normal course issuer bid purchases may not be made at the opening of trading or during the 10 minutes prior to the scheduled closing of the continuous trading session. Orders may be entered in the closing call notwithstanding the price restriction in subsection (2).
- (4) Except as provided in subsection (5), a listed issuer that is not an investment fund must not make a purchase that, when aggregated with all other purchases during the same trading day, exceeds the greater of
- (a) 25% of the Average Daily Trading Volume of the security, and
 - (b) 1,000 securities.
- (5) Notwithstanding the restriction in subsection (4), a Listed Issuer may make a purchase of a block of securities that
- (a) has a purchase price of at least \$200,000, or
 - (b) is at least 5,000 securities with a purchase price of at least \$50,000, or
 - (c) is at least 20 board lots and is greater than 150% of the Average Daily Trading Volume of the security,
- provided that
- (d) the block is not beneficially owned by, or is not under the control or direction of, a Related Person of the Listed Issuer,
 - (e) the Listed Issuer makes no more than one purchase under this subsection in a calendar week, and
 - (f) after making a block purchase, the Listed Issuer makes no further purchases during that trading day.

Commentary:

The block purchase exemption is only an exemption from the daily purchase restrictions. Listed Issuers cannot make a block purchase that would result in more shares purchased than permitted under the Form 16A filed in connection with the bid.

- (6) A Listed Issuer that is an investment fund must not make a purchase that, when aggregated with all other purchases during the preceding 30 days, exceeds 2% of the securities of that class outstanding as of the date of filing of the Form 16A in connection with the bid.

E. Shareholder Rights Plans

6.21 Shareholder Rights Plans – Procedure

- (1) This section applies to any shareholder rights plan, commonly known as a “poison pill,” adopted by a Listed Issuer, whether or not the rights entitle a shareholder to purchase a listed security.

Commentary:

Alpha does not endorse or prohibit the adoption of poison pills, whether or not in connection with a potential take-over bid. Poison pills are subject to review by the applicable securities commissions under National Policy 62-202 *Take-Over Bids – Defensive Tactics*.

- (2) A Listed Issuer must post the following documentation as soon as practicable after issuing a news release with details of the plan:
- (a) a notice of the shareholder rights plan (Form 17), and
 - (b) a copy of the shareholder rights plan.

- (3) A shareholder rights plan may not exempt particular security holders from the operation of the plan, except for exiting shareholders if there is minority shareholder approval.
- (4) Security holders of the Listed Issuer must ratify the shareholder rights plan no later than six months following the adoption of the plan. If security holder ratification is not obtained within this time period, the plan must be cancelled.
- (5) The Listed Issuer must issue a news release immediately upon the occurrence of an event causing the rights to separate from the listed security.

Part VII. Significant Transactions

7.01 Notification

- (1) A Listed Issuer must give notice of significant transactions that do not involve the issuance of securities. Alpha considers the following to be significant transactions:
 - (a) any transaction or series of transactions with a related person with an aggregate value greater than 10% of the Listed Issuer's market capitalization,
 - (b) any loan to a Listed Issuer other than by a financial institution,
 - (c) any loan by a Listed Issuer unless such loan is in the ordinary course of business, or
 - (d) any payment of a bonus, finder's fee, commission or other similar payment in connection with an issuance of securities.
- (2) In addition, a Listed Issuer must provide additional details of any transaction or development it is obliged to disclose under Alpha's Timely Disclosure Policy.
- (3) A transaction that results in a change of business may be subject to the backdoor listing rules contained in Part VIII of this Handbook. Significant related party transactions may also be subject to Multilateral Instrument 61-101.
- (4) Listed Issuers intending to undertake a transaction for which notice is required must post a notice of significant transaction (Form 17) as soon as practicable following public announcement of the transaction.
- (5) The Listed Issuer must notify Alpha when the transaction has closed.

Part VIII. Backdoor Listings

8.01 Definition

- (1) Alpha considers a significant acquisition by a Listed Issuer accompanied or preceded by a change of control to be a "backdoor listing."

Commentary:

A significant acquisition is any change, whether by asset purchase, take-over bid, amalgamation, arrangement, merger or otherwise that substantially change's the Listed Issuer's business. A business is considered to be substantially changed of more than 50% of the company's assets or 50% of its revenues following the change are from the assets, business or other interest that is the subject of the significant acquisition.

A change of control results when a Listed Issuer issues more than 100% of the number of equity securities in connection with the significant acquisition (including an offering to raise money to be able to make a cash acquisition) or otherwise has a substantial change in management or the board of directors of the Listed Issuer.

- (2) Alpha has discretion to deem any transaction or series of transactions to be a backdoor listing. Listed Issuers are urged to consult with Alpha at an early stage when contemplating any transaction that might be considered a backdoor listing.

8.02 Exception

- (1) Backdoor listings are subject to additional regulation because the business of the Listed Issuer has fundamentally changed such that the issuer's past disclosure is not as relevant to the company resulting from the significant acquisition. A transaction involving two or more Listed Issuers does not give rise to these concerns and will not be considered a backdoor listing except in exceptional cases.

8.03 Procedure

- (1) A Listed Issuer undergoing a backdoor listing must meet the standards for an original listing. In addition, it must obtain security holder approval for the significant acquisition.
- (2) The information circular or management proxy circular must contain prospectus-level disclosure for the resulting issuer, including historical financial statements for the company that is the target of the significant acquisition and pro forma consolidated financial statements for the last full fiscal year and any completed quarter of the current fiscal year. This information must also be included in the listing statement for the resulting company.
- (3) Principals of the resulting company must enter into an escrow agreement with Alpha that complies with the requirements of National Policy 46-201.

Part IX. Suspensions, Delisting and Other Remedial Actions**9.01 General**

- (1) Alpha or the Market Regulator may halt or suspend trading in a Listed Security at any time without notice if such halt or suspension is in the public interest.

9.02 Halts

- (1) Alpha or the Market Regulator may order a halt to trading and order entry in a Listed Security to permit the dissemination of material news concerning the issuer.
- (2) During the period of a trading halt imposed by the Market Regulator, no trading in the securities may take place on other marketplaces or over-the-counter.

9.03 Suspensions

- (1) Without limiting the general power to suspend trading, the Head of Listings or his or her delegate may suspend trading of a Listed Issuer's securities where:
 - (a) the Listed Issuer has become insolvent or bankrupt or has made an assignment to creditors,
 - (b) the Listed Issuer has ceased to carry on business or a significant portion of its business or has announced its intention to cease to carry on business or a significant portion of its business,
 - (c) the Listed Issuer's financial statements state that the company may not be able to continue as a going concern,
 - (d) the Listed Issuer has
 - (i) in the case of Listed issuers other than Special Purpose Issuers, pre-tax cash flow of less than \$350,000; or,
 - (ii) in the case of technology and resource companies without a revenue generating product or resource, the Listed Issuer has not spent at least \$350,000 on research/exploration and development work acceptable to Alpha in the previous fiscal year, or
 - (iii) in the case of a Special Purpose Issuer, a NAV of less than \$5,000,000 (or \$500,000 if the Special Purpose Issuer was listed as part of a group),
 - (e) the Listed Issuer, other than a Special Purpose Issuer, has shareholder equity of less than \$2,000,000.
 - (f) the Listed Issuer, other than a Special Purpose Issuer, has a public distribution of less than 250,000 shares or less than 200 public Board Lot holders or a public float with a value less than \$1,500,000,
 - (g) the Special Purpose Issuer has a distribution of less than 50,000 Units,
 - (h) the Listed Issuer is in violation of its listing agreement or Alpha Requirements,

- (i) the Listed Issuer is not in compliance with applicable securities or corporate law,
 - (j) the Listed Issuer has not paid when due applicable fees to Alpha, or
 - (k) Alpha considers a suspension to be in the public interest or in the interest of a fair and orderly market.
- (2) Unless the public interest or the interest of a fair and orderly market warrant otherwise, Alpha will give the Listed Issuer prior notice of its intention to suspend the issuer and allow the issuer an opportunity to be heard. At the same time the issuer is notified, Alpha will issue a press release indicating it is considering a suspension.

Commentary:

A decision to suspend a Listed Issuer may be appealed as provided in Part XI of this Handbook.

- (3) During a suspension, the issuer remains a Listed Issuer and must comply with all applicable Alpha Requirements.
- (4) In order to have a suspension lifted, the Listed Issuer must meet the requirements for original listing and meet such other requirements as Alpha may establish.

9.04 Declaration of Non-Compliance

- (1) If a Listed Issuer has failed to comply with Alpha Requirements or applicable securities law or has failed to pay applicable fees, the Head of Listings may publicly identify the Listed Issuer as non-compliant if, in his or her opinion, suspension of trading of the Listed Issuer's securities would not be an appropriate remedy for the failure to comply.

9.05 Public Reprimand.

- (1) If a Listed Issuer has failed to comply with Parts IV, V, or X of this Handbook, the Head of Listings may publicly reprimand the Listed Issuer if suspension of trading of the Listed Issuer's securities would not be an appropriate remedy for the failure to comply.

Commentary:

In making a determination to issue a public reprimand, the Head of Listings will consider whether the failure to comply

- (a) was advertent;
 - (b) materially affected shareholders' interests;
 - (c) was rectified by the Listed Issuer;
 - (d) resulted from reliance on the advice of an independent advisor; and
 - (e) was one of a series of similar failures.
- (2) Alpha will give the Listed Issuer prior notice of its intention to issue a reprimand.

Commentary:

A decision to issue a reprimand may be appealed as provided in Part XI of this Handbook. Issuance of the reprimand will be stayed pending the outcome of the appeal.

9.06 Delisting

- (1) If a suspended Listed Issuer fails to meet the original listing requirements within 150 days one year of the date of suspension, it shall be automatically delisted without further notice.
- (2) A Listed Issuer may voluntarily request that all or a class of its Listed Securities be delisted. Such request must be in writing, set out the reasons for the request and be accompanied by a certified copy of a resolution of the Listed Issuer's board of directors (or equivalent) authorizing the request.

Part X. Corporate Governance and Security holder Approval

A. Corporate Governance

10.01 Application

- (1) Sections 10.03, 10.04 and 10.05 do not apply to Listed Issuers that are
 - (a) asset-backed issuers; or
 - (b) other special purpose issuers
- (2) Sections 10.03 and 10.05 do not apply to Listed Issuers that have more than 50% of the voting power for the election of directors held by an individual, group acting in concert or another company.

10.02 Definition of “Independence”

- (1) In this Part, a director is not independent if he or she
 - (a) is not independent as defined in NI 52-110;
 - (b) is a supplier or purchaser of the Listed Issuer's products or services and such relationship is material to the Listed Issuer or the supplier or purchaser and could reasonably be considered to affect the person's independent judgment; or
 - (c) has been a director of the Listed Issuer for 10 years or longer.

10.03 Governance of Listed Issuers

- (1) A Listed Issuer must have a Board of Directors composed of at least three independent directors or one-third independent directors, whichever is greater.
- (2) A Listed Issuer must have a Chief Executive Officer, a Chief Financial Officer who cannot be the CEO, and a secretary.

10.04 Audit Committee

- (1) A listed issuer must have an audit committee that complies with the requirements of NI 52-110.

10.05 Compensation Committee

- (1) A listed issuer must have a compensation committee composed of independent directors that
 - (a) reviews and approves goals and objectives relevant to the Chief Executive Officer's compensation;
 - (b) evaluates the Chief Executive Officer's performance with respect to those goals and objectives;
 - (c) determines the Chief Executive Officer's compensation (both cash-based and equity-based);
 - (d) reviews and approves incentive compensation plans and equity-based plans and determines whether security holder approval should be obtained; and
 - (e) makes recommendations to the board with respect to compensation of other senior officers and directors.
- (2) A Listed Issuer does not have to establish a compensation committee if the matters discussed in section 10.05, other than section 10.05(1)(e), are determined by independent directors constituting a majority of the Board's independent directors in a vote in which only independent directors participate.

B. Security holder Approval

10.06 No Derogation from Corporate or Securities Law

- (1) The provisions of this Part are in addition to any requirement for security holder approval or minority security holder approval in corporate or securities law.

10.07 General Requirements

- (1) Any security holder participating or who is otherwise interested in a transaction that is the subject of a security holder vote may not vote on any resolution to approve that transaction.
- (2) A requirement for security holder approval, other than approval of a backdoor listing, may be satisfied by obtaining a written resolution signed by holders of at least 50% of the holders of the class of securities involved, other than holders excluded from voting by Alpha requirements or corporate or securities law.
- (3) The security holder approval requirements apply to transactions involving the issuance or potential issuance of listed non-voting shares.
- (4) The security holder approval requirements apply on a class-by-class basis.

Commentary:

If a transaction involves the issuance of listed subordinate voting shares, it must be approved by the holders of the subordinate voting shares. A vote by holders of multiple voting shares cannot override their vote, even if the multiple voting shares represent a majority of the votes.

- (5) Materials sent to security holders in connection with the vote for approval must contain information in sufficient detail to allow a security holder to make a fully-informed decision.

10.08 Private Placements

- (1) Security holders must approve a proposed private placement if
 - (a) the number of securities issuable in the private placement is more than 25% of the total number of securities or votes outstanding and the price of the placement is less than the closing price of the security on the day preceding the date on which the Listed Issuer announced the transaction, but not less than the maximum discount;
 - (b) the price is less than the maximum discount, regardless of the number of shares to be issued; or
 - (c) the number of securities issuable to Related Persons in the transaction, when added to the number of securities issued to Related Persons in private placements or acquisitions in the preceding twelve months, is more than 10% of the total number of securities or votes outstanding, regardless of the price of the private placement.

Commentary:

In determining whether the 25% threshold has been crossed, all securities issuable in the private placement are counted, whether or not convertible securities are out of the money, and no other issued convertible securities are counted, whether or not they are in the money.

For example, ABC has 10,000,000 common shares outstanding and has outstanding securities convertible into 5,000,000 common shares at \$10.00. The Market Price of ABC common shares is \$15.00. If ABC were to do a private placement of 1,500,000 common shares at \$14.75 with a sweetener of warrants convertible into a further 1,500,000 common shares at \$20.00, shareholder approval would be required as the maximum number of shares issuable (3,000,000) is more than 25% of the 10,000,000 shares outstanding. The shares convertible at \$10.00 are not counted.

If the placement was done at \$15.00 or higher, there is no requirement for shareholder approval unless the provisions for approval of non-arm's length transactions apply.

In calculating the number of shares issued to Related Persons in the previous twelve months, do not include shares that were issued in a transaction approved by shareholders.

- (2) Security holder approval of a private placement is not required if
- (a) the Listed Issuer is in serious financial difficulty and does not meet the requirements for continued listing in Section 9.03(d);
 - (b) the Listed Issuer has reached an agreement to do a financing;
 - (c) no Related Persons are participating in the financing; and
 - (d) the
 - (i) audit committee, if comprised solely of independent directors; or
 - (ii) independent directors constituting a majority of the Board's independent directors in a vote in which only independent directors participate
- have determined that the financing is in the best interests of the Listed Issuer, is reasonable in the circumstances and that it is not feasible to obtain shareholder approval or make a rights offering to existing shareholders on the same terms.
- (3) A Listed Issuer taking advantage of the exemption in section 10.8(2) must forthwith issue a news release stating it will not hold a shareholder vote and fully explaining how it qualifies for the exemption.

10.09 Acquisitions

- (1) Security holders must approve an acquisition if
- (a) a Related Person or a group of Related Persons has a 10% or greater interest in the assets to be acquired and the total number of securities issuable is more than 5% of the total number of securities or votes outstanding.
 - (b) for Listed Issuers that are not investment funds, the number of securities issuable pursuant to the acquisition agreement is more than 25% of the total number of securities or votes outstanding; or
 - (c) for Listed Issuers that are investment funds, the acquisition is of another investment fund (the "target fund") and
 - (i) the target fund calculates and publishes its NAV at least once a month;
 - (ii) the consideration offered does not exceed the NAV of the target fund;
 - (iii) the investment manager of the Listed Issuer has determined that assets acquired are consistent with the Listed Issuer's investment objectives;
 - (iv) the independent review committee of the Listed Issuer has (i) approved the acquisition, and (ii) if the Listed Issuer is to bear any of the costs and expenses of the transaction, determined that such payment is in the best interests of the Listed Issuer; and
 - (v) the transaction is not a backdoor listing.

10.10 Acquisitions and Reorganizations of Listed Investment Funds

- (1) Fund holders of a Listed Issuer that is an investment fund must approve any
- (a) acquisition of the Listed Issuer, or
 - (b) any reorganization or transfer of the Listed Issuer's assets to another investment fund that results in the Listed Issuer ceasing to exist after the reorganization or transfer of assets and the Listed Issuer's security holders becoming security holders of the other investment fund,

unless:

- (c) the Listed Issuer has a permitted merger clause in its constating documents that permits the acquisition of the Listed Issuer without security holder approval;
- (d) the consideration offered to security holders of the Listed Issuer for the acquisition has a value that is not less than NAV;
- (e) the investment manager of the Listed Issuer being acquired has determined that the investment objectives, valuation procedures and fee structure of the Listed Issuer and the acquiring issuer are substantially the same;
- (f) the independent review committee of the Listed Issuer being acquired has (i) approved the acquisition, and (ii) if the Listed Issuer is to bear any of the costs and expenses of the transaction, determined that such payment is in the best interests of the Listed Issuer; and
- (g) the Listed Issuer is providing its security holders with a redemption right for cash proceeds which are not less than its NAV, together with a minimum of 20 business days' prior notice and description of such redemption right and the acquisition.

Commentary:

Notice may be made by means of a news release describing the transaction and the redemption right.

10.11 Security Based Compensation

- (1) This section governs issuance of stock options, other than overallotment options to an underwriter in a prospectus offering or options to increase the size of the distribution prior to closing, and other plans that involve the issuance or potential issuance of listed securities, that are used as incentives or compensation mechanisms for employees, directors, officers, consultants and other persons who provide services for Listed Issuers ("compensation plans").

Commentary:

Stock purchase plans are included in this section if the issuer provides financial assistance for the purchase of securities.

- (2) Security holders must approve the grant of securities to any person not previously employed by or an insider of the Listed Issuer where
 - (a) such grant is intended to induce the person to enter into a full-time contract of employment as an officer of the Listed Issuer, and
 - (b) the securities issued or issuable under the grant exceed 10% of the securities of that class outstanding as of the date of the grant.
- (3) Listed Issuers must comply with the section 2.25 of National Instrument 45-106 *Prospectus and Registration Exemptions* as if it were an unlisted reporting issuer and obtain shareholder approval for a compensation plan if required under that section.
- (4) The fundamental terms of an option or compensation plan may not be amended without the approval of a majority of the Listed Issuer's Board of Directors, other than directors participating or eligible to participate in the plan. If the Board is unable to approve an amendment because of the restrictions on eligibility to vote, any amendment to the fundamental terms of an option or compensation plan must be approved by security holders, other than security holders participating or eligible to participate in the plan.

Commentary:

Alpha considers changes to the fundamental terms of an option or plan to include reductions in the purchase price and extension of the expiry date.

- (5) Notwithstanding subsection (4), a plan may not be amended to increase the maximum number of securities issuable under the compensation plan unless
 - (a) the new maximum number of securities issuable is not greater than 5% of the outstanding securities of the class as of the date of the amendment,

- (b) the amendment is approved by a majority of the Listed Issuer's Board of Directors, other than directors participating or eligible to participate in the plan, if the new maximum number of securities issuable is greater than 5% but not greater than 10% of the outstanding securities of the class as of the date of the amendment, or
- (c) the amendment is approved by security holders, other than security holders participating or eligible to participate in the plan.

10.12 Shareholder Rights Plans

- (1) Security holders must ratify the adoption of a shareholder rights plan as provided in subsection 6.21(4).

10.13 Related Party Transactions

- (1) A Listed Issuer undertaking any transaction subject to Multilateral Instrument 61-101 *Protection of Minority Holders in Special Transactions* must comply with any requirements for formal valuations and minority security holder approval notwithstanding exemptions contained in sections 4.4(a), 5.5(b) and 5.7(b) of that instrument for issuers not listed on specified markets.

Commentary:

Listed Issuers may take advantage of other exemptions from these requirements if applicable.

Part XI. Appeals

11.01 Appeals of Decision

- (1) A Listed Issuer or any other person adversely affected by a decision may appeal the decision to the Regulatory Oversight Committee, other than
 - (i) a decision of the Market Regulator,
 - (ii) a decision to temporarily halt or suspend trading pursuant to sections 9.01 or 9.02, or
 - (iii) a decision of the Regulatory Oversight Committee.

Commentary:

Decisions of the Market Regulator are subject to the Market Regulator's appeal procedures.

- (2) Appeals will be conducted according to the procedures established by the committee.

LISTING STATEMENT (ISSUERS OTHER THAN SPECIAL PURPOSE ISSUERS)

GENERAL INSTRUCTIONS

- (1) *An issuer doing an initial public offering may file the preliminary and final prospectuses in lieu of this notice.*
- (2) *In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.*
- (3) *The disclosure must be understandable to readers and presented in an easy-to-read format. If technical terms are required, clear and concise explanations should be included.*
- (4) *No reference need be made to inapplicable items and, unless otherwise required in this form, negative answers to items may be omitted.*

 - (b) Halt trading of a security during a trading halt imposed by another marketplace to permit the dissemination of material news; or
 - (c) Halt trading in a security when Alpha determines that extraordinary market activity in the security is occurring, such as the execution of a series of transactions for a significant dollar value at prices substantially unrelated to the current market for the security, as measured by the NBBO; or
 - (d) other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.
- (4) Alpha can initiate two types of trading halts based on certain external events.

Commentary:

Market Regulator time limit. It is the Member's obligation to promptly contact the Market Regulator if it wants to seek a decision from it regarding whether it will permit a cancellation or amendment. Generally the Market Regulator must be contacted within 30 minutes of the time of the trade.

DIVISION 2 — ORDER ENTRY

5.10. Order Types

All or None (AON)	An order that may only be executed in full. The order remains in the CLOB with original time priority until it is able to be filled.
Fill or Kill (FOK)	An order that is to be filled immediately in full or in part, with the unfilled quantity cancelled.
Fill and Kill (FAK)	An order that is to be filled immediately in full, or cancelled.
Good for Day	Order that is valid until it is fully filled or cancelled by the Member or DMA Eligible Client or until the end of the continuous trading session
Good for Extended Day	Order that is valid until it is fully filled or cancelled by the Member or DMA Eligible Client or until the end of the extended trading session

Good till Cancel	Order that remains valid until it is fully filled or is cancelled by the Member or DMA Eligible Client.
Good till Date	Order that is valid until it is fully filled or cancelled by the Member or DMA Eligible Client or until a specified expiry date
Good till Time	Order that is valid until it is fully filled or cancelled by the Member or DMA Eligible Client or until the specified expiry date and time
Inside Match (IM)	Order with a limit price within the NBBO specified by a percentage (between 10% and 90%, in increments of 10%) of the spread that trades with PII orders immediately on entry. Any unfilled balance of an IM order is cancelled. Trades may occur at smaller price increments than the minimum quotation increments contained in UMIR.
Limit on Open (LOO)	A Limit Order that is only available for execution at the opening call.
Limit Order	An order to buy or sell a security at a price equal to, or better than, the specified limit price. An unfilled Limit Order entered during the Pre-Open session will be available for trading in the Continuous Trading session
Market on Close (MOC)	A Market Order participating only in the closing and executing at the CCP. MOC orders do not participate in the continuous trading session. MOC orders can be entered, modified and cancelled any time between 7:00 a.m. and the closing call. Any unfilled part of the order is killed after the Closing Call Note: MOC orders are currently being rejected
Market on Open (MOO)	A Market Order that is only available for execution at the Opening Call. Any unfilled MOO orders will be killed when the Continuous Trading Session begins.
Market Order	An order to buy or sell a security at the best price available, up to a specified volume. An unfilled Market Order entered during the Pre-Open session, is booked as a Limit Order for trading in the Continuous Trading session at the COP.

Odd Lot	An order for less than a Board Lot.
On-Stop	An order that becomes a Market Order or Limit Order if a specified price (the stop price) is reached, or passed.
Passive Only (PO)	The PO order is cancelled at the time of entry if any portion of the order is immediately tradable. PO orders are also cancelled if the order becomes active due to a price change (i.e., a price amendment or short sale price re-pegging).
Price Improvement Iceberg (PII)	An SI with a non-disclosed, discretionary limit price expressed in a number of ticks beyond its limit price. The PII can match with IM orders at the price of the IM order, if the price of the IM order is equal to or better than the PII discretionary price.
Short Sell	An order to sell a security that the seller does not own (either directly, or through an agent or trustee) at the time of the order. Short Sell orders may only be executed at a price equal to, or above the NLSP.
Short Sell "exempt"	A Short Sell order that is exempt from the "last sale" pricing restrictions in UMIR. Members are responsible for identifying these orders.
Special Terms	Orders that are not for standard settlement or that have a minimum execution condition.
Standard Iceberg (SI)	A Limit Order that specifies a total size and a disclosed size. Once the disclosed size is executed in full, the new quantity of the disclosed size is released with time priority corresponding to the release time.

Commentary:*Price Related Orders*

A "price-related execution condition" means any restrictions that apply to the price at which an order can execute. Alpha supports the following price conditions:

- (a) Market Order: Executed at multiple price levels until the volume of the order is satisfied. The unfilled part of the order is converted to a Limit Order at a price equal to the price of the last fill of the order or the ALSP.

Example:

XYZ Security

Bid		Ask	
500 shares	10.00	10.01	500 shares
300 shares	9.99	10.02	200 shares
200 shares	9.98		

A trader enters a Market Order to buy 3000 shares.

After the trades of 500 shares at \$10.01 and 200 shares at \$10.02, the remaining 2300 shares will be booked at \$10.02.

The book for XYZ would look as follows:

XYZ Security

Bid		Ask	
2300 shares	10.02		
500 shares	10.00		
300 shares	9.99		
200 shares	9.98		

- (b) Limit Order: Executed at the price equal to or better than the specified limit price.
- (c) IM Order: Upon receipt, it will trigger PII orders for an immediate match. Any unfilled part of the IM order is killed. If there are no matching PII orders, the entire IM order is killed.

Example:

XYZ Security

Bid		Ask	
200 shares (1000 reserve)	3.00 (discretionary 3.20)	4.00	200 shares
500 shares	3.00		

NBBO is 3.00 – 4.00

A trader enters a sell Inside Match order for 100 shares with a specified percentage 80%

The engine assigns a limit of \$3.20 to the IM order

The IM is matched against the PII order and 100 shares will trade at 3.20

The book for XYZ would look as follows:

XYZ Security

Bid		Ask	
100 shares (1000 reserve)	3.00 (discretionary 3.20)	4.00	200 shares
500 shares	3.00		

Trade Session Related Orders

Some orders are only valid during specific Trading Sessions: MOO, LOO, and MOC.

Volume- Related Orders

These are volume-related execution conditions: FAK orders, FOK orders, and AON orders.

Note: A Fill or Kill Order is known in other marketplaces as an Immediate or Cancel Order (IOC).

Time Related Orders

These are orders with time-related conditions, which limit the time the unfilled part of the order remains in the order book. (Note that for Good till Cancel Orders, Alpha will automatically cancel the order if it is older than a set number of days determined by Alpha. Currently, Good till Cancel orders are cancelled after 90 days.

On-Stop Orders

An On-Stop order activates once the specified trigger price is equal to or better than the ALSP. A buy On-Stop order triggers a buy order when the ALSP is greater to or equal to the stop price. A sell On-Stop order triggers a sell order when the ALSP is less than or equal to the stop price.

On-Stop orders may execute immediately after triggering but before entry in the CLOB (see example below).

The trading system will reject an On-Stop order with a Limit price that is not equal to the trigger price.

Note:

On-Stop orders processed via the Trade Through Management Service of the Alpha Router will support On-Stop Market Orders and On-Stop Limit Orders with a limit price not equal to the trigger price.

Example:

XYZ Security

Bid		Ask	
500 shares	10.00	10.04	400 shares
200 shares	9.99	10.05	500 shares
300 shares	9.98	10.06	500 shares

ALSP is 10.03.

Trader 1 enters a limit on-stop buy order for 600 shares, with trigger and limit price of 10.05.

A market buy order for 500 shares is entered and executed.

ALSP becomes 10.05 and triggers the on-stop order. The order is immediately executed 400 shares at 10.05 and the remaining 200 shares is booked into the CLOB with a limit price of 10.05

The book for XYZ would look as follows:

XYZ Security

Bid	Ask
200 shares 10.05	10.06 500 shares
500 shares 10.00	
200 shares 9.99	
300 shares 9.98	

Short Sale Orders

A Short Sell order is an order to sell a security that the seller does not own. To facilitate compliance with the short sale rule, the system generally pegs the price of short sell orders to the NLSP. However in the Pre-Open phase, short sale order prices are adjusted to the closing price of the principal market. Members are responsible for the identification of short sell orders.

A Short Sell "exempt" order is a Short Sell order that is exempt from the "last sale" pricing restrictions in UMIR. Members are responsible for identifying these orders.

Iceberg Orders

An SI order is a Limit Order containing a total size and a disclosed size. The CLOB displays the disclosed size. Once the displayed size is completely executed, the CLOB will display another order equal to the originally disclosed size and the undisclosed size, or reserve, will be reduced accordingly.

A PII order is an SI order with a hidden, discretionary limit price expressed as a number of ticks beyond its limit price. The PII can match with IM orders at the price of the IM order, if the price of the IM order is equal to or better than the PII discretionary price.

Special Terms Orders

Special Settlement Terms: Orders with settlement terms that differ from the standard settlement terms.

Mixed and Odd Lot Orders

A Mixed Lot order is a Market Order or Limit Order for a quantity that is larger than a Board Lot but is not a Board Lot.

An Odd Lot order is a Market Order or Limit Order for a quantity that is less than a Board Lot.

5.11. Account Types

- (1) The Alpha Systems support order entry for
 - (a) client accounts;
 - (b) house or principal accounts; and
 - (c) non-client accounts.

5.12. Crosses

- (1) A Member or DMA Eligible Client may report trades made outside the CLOB.
- (2) Crosses other than Specialty Price crosses during the Continuous Trading session must be made at a price that is at or within the ABBO.
- (3) National crosses entered during the continuous trading session must be made at a price that is at or within the NBBO.
- (4) Crosses can be entered at any price during the Extended Trading session.
- (5) Bypass Crosses are only allowed on a regular Alpha cross (no BBO check), and are not allowed on SPC Contingent Cross, Internal Cross, National Cross and SST Cross. A bypass Cross is exempt from cross interference, is short sell and short exempt supported, is only allowed on round lots and mixed lots and does not update NLSP.

Commentary: Crosses entered during the Extended Trading session at the Closing Price can be entered by the Approved Trader through the Alpha Systems. For crosses at any other price during the Extended Trading Session, Alpha must be in receipt of a completed "Extended Trading Cross Request" Form prior to executing the cross in the Extended Session. This form must be received between 4:15 and 4:50 pm on the day the cross is to be entered. The Extended Session cross will be entered by a representative of Alpha in accordance with the submitted request and confirmed to the client by email. Alpha will confirm that the price of the cross is at or within the NBBO at the time Alpha receives the order. If the price is not at or within the NBBO, the cross will be rejected. Alpha staff will also confirm that the price of the cross would not trade outside a better priced order in the Alpha CLOB at 4 pm. If the cross would in fact trade outside a better priced order in the Alpha book, the cross will be rejected. Alpha will not be responsible for a Member's compliance with applicable securities regulation or rules of a Market Regulator. A Bypass Cross entered in the Extended Trading Session is allowed at any price. As a result, the submission of a completed "Extended Trading Cross Request" Form is not required for crosses marked bypass.

5.13. Specialty Price Crosses

- (1) A Specialty Price cross is one of the following:

Basis Cross	A cross of at least 80% of the component share weighting of the basket of securities or index participation unit that is the subject of the basis trade. A Member shall report details of the transaction to Alpha and the Market Regulator in the format and at the time required by Alpha and the Market Regulator and such information shall include complete details relating to the calculation of the price of the basis trade and all relevant supporting documentation
Volume-Weighted Average Price (VWAP) Cross	A VWAP trade price based on all trades during the Continuous Trading session. A VWAP trade price calculated on any other basis must be determined in such a manner that the time period for calculating the volume-weighted average price commences after the receipt of the order by the Member and the types of trades to be excluded from the calculation are determined prior to the commencement of the calculation. A Member shall report details of the transaction to Alpha and the Market Regulator in the format and at the time required by Alpha and the Market Regulator.

- (2) Specialty Price Crosses may be executed during the Continuous Trading session and the Extended Trading session.
- (3) Specialty Price Crosses will not be reflected in the ALSP and will not be used in the calculation of the ACP.
- (4) Specialty Price Crosses must contain the order identifier required by the Market Regulator.

5.14. Bypass Order

- (1) A Bypass Order must be entered as a Limit Order during the Continuous Trading or Extended Trading sessions.
- (2) The Bypass marker is only allowed on Board Lot orders.
- (3) A Bypass Order only executes against disclosed volume.

Commentary:

All Bypass Orders are FOK/ FAK; as a result all CFO or Cancel instructions with the bypass marker are rejected. It can be used through the Trade Through Service and updates the national last sale price (NLSP) which is the most recent trade of at least a Board Lot on any marketplace, other than a Special Terms trade.

Example 1:

The book for XYZ would look as follows:

XYZ Security

Buy Volume	Bid	Offer	Sell Volume	Non-disclosed/Reserved Volume
500 shares	\$2.00	\$2.50	200 shares	800 shares
		\$2.51	500 shares	
		\$2.53	200 shares	1000 shares

A user enters a Bypass Limit Order to buy 1000 @2.54

The order is validated and accepted by the system

The order is checked against the order book

Three trades occur:

200 @2.50

500 @2.51

200 @2.53

The remaining 100 of the Bypass Order is cancelled (Bypass Order is always FOK or FAK).

ALSP updates to 2.53

Post-Trade:

XYZ Order Book

Buy Volume	Bid	Offer	Sell Volume	Non-disclosed/Reserved Volume
500 shares	\$2.00	\$2.50	200 shares	600 shares
		\$2.53	200 shares	800 shares

Note: UMIR Rule 6.2 Designations and Identifiers, clarifies the responsibility of ensuring that each order in any marketplace has specific identifiers and designations upon entry.

Example 2: – Bypass Short Sell order pegged to NLSP

National Last Sale Price is \$1.90

XYZ Security

Non-disclosed/Reserve Volume	Buy Volume	Bid	Offer	Sell Volume
1000 shares	500 shares	\$2.00	\$2.50	500 shares

Order is booked as Short Sell with limit price 1.90. (Pegged to National Last Sale Price)

Alpha executes trade as 500 at 2.00

Outstanding volume of 400 is killed.

Alpha Last Sale Price updates to 2.00

Post-Trade Order Book

XYZ Security

Non-disclosed/ reserve Volume	Buy Volume	Bid	Offer	Sell Volume

	400 shares	\$2.00		

Dealer A sent Short Sell Exempt Bypass Order for 600 at \$2.00.

Order is booked as Short Sell Exempt at \$2.00 (Order is NOT Pegged to National Last Sale Price)

Alpha executes 2 trades; 500 at \$2.20, 100 at \$2.00

Alpha Last Sale Price updates to \$2.00

Post-Trade Order Book

XYZ Security

Non-disclosed/Reserve Volume	Buy Volume	Bid	Offer	Sell Volume
500 shares	500 shares	\$2.20	\$2.50	500 shares
	300 shares	\$2.00		

5.15. Cancel on Disconnect

- (1) Orders may be marked Cancel on Disconnect. The Alpha Systems will cancel all orders that are designated Cancel on Disconnect when the user is logged out from the trading system. When the session for the user in question is either disconnected or logged out, no matter whether it is planned or not, executed by the user or not, then any orders marked as cancel on disconnect managed through this session will be cancelled.

5.16. Self Trade Management

- (1) Alpha Self Trade Management is a designation that suppresses trades from the public feed where orders on both sides of the trade are from the same Member and contain the same "self trade key" set by the Member.
- (2) Self Trade Management applies only to unintentional trading (e.g. does not apply to intentional crosses).
- (3) The designation is only applicable in Continuous Trading.
- (4) Self trades are not disseminated on the public trade messages and do not update the last sale price, daily volume and turnover, or other trading statistics.
- (5) The designation is applicable to board lot orders and board lot portion of mixed lot orders.

Note: The unique trading key provided by the Member for Self Trade Management is intended for use only on buy and sell orders for accounts that may result in trades where there is no change in beneficial or economic ownership.

5.17. Trades on a "When-Issued" Basis

- (1) Alpha may post any security to trade on a when issued basis if such security is conditionally approved for listing as an Alpha Listed Security.

- (2) Alpha may trade any OTS on a when issued basis if it is trading on a when issued basis on the marketplace where it has been conditionally listed.
- (3) Unless otherwise specified, trades on a when issued basis are subject to all applicable Alpha Requirements relating to trading in an Alpha Listed Security or OTS, notwithstanding that the security is not listed.
- (4) All trades on a when issued basis shall be cancelled if Alpha determines that the securities subject to such trades will not be listed.

5.18. Advantage Goes with Securities Sold

- (1) Except as provided in section 5.18(2), in all trades of Alpha Listed Securities or OTSs, all entitlements to receive dividends or any other distribution made or right given to holders of that security shall pass with the security and shall belong to the purchaser, unless otherwise provided by Alpha for Alpha Listed Securities or the listing market of the OTS, as applicable, or the parties to the trade by mutual agreement.
- (2) In all sales of listed bonds and debentures, all accrued interest shall belong to the seller unless otherwise provided by Alpha for Alpha Listed Securities or the listing market of the bonds or debentures, for OTSs, or parties to the trade by mutual agreement.
- (3) Claims for dividends, rights or any other benefits to be distributed to holders of record of listed securities on a certain date shall be made in accordance with the procedures established by the Clearing Corporation.
- (4) If subscription rights attaching to securities are not claimed by the persons entitled to those rights at least twenty-four hours before the expiration of the time within which trading in respect of such rights may take place on Alpha, a Member holding such rights may, in its discretion, sell or exercise all or any part of such rights, and shall account for such sale or exercise to the person or persons entitled to such rights, but in no case shall a Member be liable for any loss arising through failure to sell or exercise any unclaimed rights.

5.19. Foreign Currency Trading

- (1) A report of a cross trade agreed to in a foreign currency shall be converted to Canadian dollars using the mid-market spot rate or 7-day forward exchange rate in effect at the time of the trade, plus or minus 15 basis points.
- (2) If the converted price falls between two ticks, trades shall be done at each of the ticks immediately above and below the converted price for the number of shares, which yields the appropriate average price per share.
- (3) The Member making the cross shall keep a record of the exchange rate used.

5.20. Unattributed Orders

- (1) Members and DMA Eligible Clients may enter orders on an attributed or unattributed basis.

Commentary:

When an order is entered in an Alpha order book, the identity of the Member will be disclosed to the trading community for attributed orders and will not be disclosed for unattributed (anonymous) orders.

- (3) Orders with Special Settlement terms must be attributed.

DIVISION 3 — TRADING AT THE OPENING**5.21. Display of Orders**

- (1) During the pre-opening session, Market Orders and better-priced Limit Orders will be displayed at the COP.

- (2) Between the hours of 7:00 a.m. and the Opening Call, CLOB orders will be displayed and the COP and the imbalance are disseminated. During this time the following orders can be entered, modified or cancelled:

- Market Order
- Limit Order
- Order with time conditions
- Market on Open Order
- Limit on Open Order
- Market on Close Order
- On-Stop Order
- All or None Order
- Short Sell Order
- Standard and Price Improvement Iceberg Order
- Odd Lot Order
- Mixed Lot Order
- Dark Order

5.22. Opening Call

- (1) The Opening Call for each security will occur at a random time between 9:30:00 a.m. and a time specified by Notice.
- (2) Each security will open at the COP.

Commentary:

The COP is calculated to maximize the traded volume. If there are two prices at which the same volume will trade, the COP is the price that will leave the smallest imbalance. If the imbalances are equal, the price will be the one closest to the previous day's closing price. For the purposes of determining the COP, Market Orders are assigned the worst price on the opposite side of the book, or if that price is not available, the best price of its own side.

- (3) Orders will be matched at the COP in the following priority:
- (a) Better-priced Limit and LOO orders trade with offsetting orders entered by the same Member, according to time priority, provided that neither order is an unattributed order; then
 - (b) Better-priced Limit and LOO orders trade with all other offsetting orders according to time priority; then
 - (c) Market and MOO Orders trade with offsetting orders entered by the same Member, according to time priority, provided that neither order is an unattributed order; then
 - (d) Market and MOO Orders trade with all other offsetting orders, according to time priority; then
 - (e) Limit and LOO Orders at the COP trade with offsetting orders entered by the same Member, according to time priority, provided that neither order is an unattributed order; then
 - (f) Remaining orders in the Opening Call trade with offsetting orders, according to time priority.

Commentary:

Limit Orders and LOO Orders have the same priority. Market Orders and MOO Orders have the same priority.

- (4) Market Orders that are not completely filled in the Opening Call will be booked in the CLOB as Limit Orders at the COP.
- (5) Limit Orders that are not completely filled in the Opening Call will be booked in the CLOB at the original limit price.
- (6) The unfilled balance of any LOO and MOO Order will be cancelled immediately after the opening call.

5.23. Delayed Openings

- (1) Alpha may delay the opening of a security for trading on Alpha if:
- (a) The COP differs from the previous day's ACP (adjusted to the Closing price on principal market for OTSs) by an amount greater than the price band parameters set by Alpha, or

- (b) Alpha determines that it is appropriate due to market conditions.

DIVISION 4 — CONTINUOUS TRADING SESSION

5.24. Establishing Price and Time Priority

- (1) An order, other than a Special Terms order, entered in the CLOB at a particular price will be executed in priority to all orders at inferior prices.
- (2) Except as provided in section 5.21, an order at a particular price, other than a Special Terms order, will be executed prior to any orders at the same price entered subsequently in time, and after all orders at the same price entered previously ('time priority').
- (3) An undisclosed portion of an order does not have time priority until it is disclosed.
- (4) An order loses its time priority if its disclosed volume is increased
- (5) Special Terms orders have no priority in the CLOB.

5.25. Allocation of Trades

- (1) Internal Crosses, unattributed Intentional Crosses and Specialty Price crosses may be entered without interference from orders in the CLOB at that price.
- (2) Intentional attributed crosses will be subject to interference only from attributed orders in the CLOB from the same Member according to time priority.
- (3) A tradable order entered in the CLOB will be executed in the following sequence:
 - (a) against offsetting orders entered in the CLOB by the same Member, according to the time of entry of the offsetting order, provided neither order is an unattributed order; then
 - (b) against offsetting orders in the CLOB according to time priority.

DIVISION 5 — CLOSING CALL

5.26. Closing Call

- (1) The Closing Call for each security will occur at a random time between 4:00:00 p.m. and a time specified by Notice.

Commentary:

The Indicative Closing Imbalance is calculated and disseminated publicly through the Alpha broadcast feed starting at 3:40 p.m. and then every second until the Closing Call.

- (2) Orders participating in the closing call will be matched at the CCP.

Commentary:

The CCP is the price at which the most securities will trade. If two prices have an equal volume, the CCP will be the price that minimizes the Closing Imbalance. If the imbalances are equal, the CCP is the price that minimizes the difference from a selected parameter.

If the Calculated Closing Price for a security does not exceed the price band parameters, it is the Alpha Closing Price for the day.

- (3) Orders will be executed in the Closing Call in the following sequence:
 - (a) Better-priced Limit Orders will trade with offsetting orders entered by the same Member, according to time priority, provided that neither order is an unattributed order; then
 - (b) Better-priced Limit Orders will trade with all other offsetting orders according to time priority; then

- (c) MOC orders will trade with offsetting orders entered by the same Member, according to time priority, provided that neither order is an unattributed order; then
- (d) MOC orders will trade with all other offsetting orders, according to time priority; then
- (e) Limit Orders will trade with offsetting orders entered by the same Member, according to time priority, provided that neither order is an unattributed order; then
- (f) Remaining orders in the closing call will trade according to time priority.

Commentary:

Currently, All MOC orders are rejected. Under these circumstances the ACP is the LSP.

- (4) The unfilled balance of any Limit Orders, other than Good For Day Orders, will remain in the CLOB.
- (5) Any unfilled balance of a MOC Order will be cancelled immediately following the Closing Call.

DIVISION 6 — EXTENDED CLOSING SESSION:

5.27. Additional Closing Call

- (1) If the CCP for a security exceeds the price band parameters set by Alpha, an Extended Closing session for the security will follow.
- (2) During the Extended Closing session, Market Orders, Limit Orders and MOC orders may be entered, modified and cancelled.
- (3) During the Extended Closing session a new CCP will be calculated.
- (4) At the end of the Extended Closing session, a Closing call will occur at a random time between 4:10:00 p.m. and 4:10:30 p.m.

Commentary:

If this new Calculated Closing Price does not exceed the price band parameters, it will become the ACP.

- (5) Orders will be executed in the new Closing Call in the priority listed in section 5.23.
- (6) If the new CCP exceeds the price band parameters, Alpha may set a Closing Price within the price band parameters.

5.28. Closing Price Adjustment

- (1) The Alpha Closing Price for all OTSs will be adjusted overnight to reflect the closing on the principal market, which will be the listing marketplace unless otherwise identified by Notice.

The TTM Service routes designated orders, in part or in whole, to all Other Marketplaces to meet Alpha marketplace obligations under the Order Protection Rule (NI 23-101) to not trade through visible, immediately accessible better-priced limit orders on any Canadian marketplace.

An order sent to Alpha that is not designated as TTM will be treated as a DAO.

When the routing is not suspended, the TTM Service will facilitate order entry during Regulatory Halts and Non-Regulatory Halts on Alpha and/or one or more Other Marketplaces, and will continue to route orders in accordance with its standard functionality outlined in this document; however the following matters should be considered:

- (a) The routed order will be processed in accordance with the rules or policies of the Other Marketplace to which it has been routed. This may result in:
 - (i) The generation of a "rejection" notice where trading is halted on the Other Marketplace to which the order is routed where such Marketplace will not accept orders;
 - (ii) The generation of a "time out" event where the order is routed to an Other Marketplace which accepts and queues orders received and does not acknowledge the order within the "time out" duration. Such queued orders cannot be cancelled or amended utilizing the Order Router.

- (b) The entry of cancellations is permitted during both Regulatory Halts and Non-Regulatory Halts and will be routed to the Marketplace where the order is booked, for action in accordance with that Marketplace's standard operational processes.

(4) Exclusion of a Marketplace and Self Help

- (a) Automatic Exclusion of a Marketplace

Alpha will cease routing to an Other Marketplace where (i) the Other Marketplace's continuous trading session is not operating (ii) and/or no data on orders in its CLOB are available.

- (b) Manual Exclusion of a Marketplace and Self Help

A specific Other Marketplace may be excluded based on the following criteria:

- (i) The Other Marketplace is not disseminating order information, is not distributing data in relation to its CLOB in a timely manner or Alpha considers, in its discretion, that such data is not reliable. This covers the case when a system failure or degradation of service occurs at an Other Marketplace during continuous trading at that Other Marketplace.
- (ii) The connectivity to the Other Marketplace is lost.
- (iii) An Other Marketplace is not responding to orders sent by the Order Router (system failures, slowdowns, etc.). This may include circumstances where the response time to orders routed by Alpha from the Other Marketplaces is too long for it to be practically considered reliable.

Alpha may declare self help in the above instances. Alpha will notify the affected Other Marketplace, Members, any information processors and regulators (i.e. IIROC and the OSC) that it has done so and has excluded such Other Marketplace from the TTM Service. After the issue is resolved, Alpha will send out another notification stating self help has been revoked.

- (c) Impact of Exclusions

- (i) Once an Other Marketplace is excluded manually or automatically from the Order Router Services, no further orders will be routed to that Marketplace. Any remaining "in-flight" orders (where an order sent by the Order Router has not received an acknowledgment from the Other Marketplace) will be processed in the same manner as they would have been if the exclusion had not occurred.
- (ii) Once the event precipitating the Other Marketplace exclusion has ended, Alpha may commence routing to the previously excluded Other Marketplace at its discretion.

8.5 TTM Service

- (1) Member's Choice

- (a) A Member relying on Alpha to comply with the OPR will designate each order as a TTM order. Any order that is designated as a TTM order will be eligible for trade-through protection through the TTM Service.
- (b) Any order that is not designated as a TTM order will be treated by Alpha as a Directed Action order (DAO) to immediately execute or book on Alpha without checking for better-priced orders on Other Marketplaces. For DAO orders, any requirements regarding order protection under NI 23-101 will be the responsibility of the Member.

- (2) TTM Routing Strategy

The TTM Service simultaneously routes portions of the order to all Other Marketplaces with better priced orders, up to the original order's limit price. Any residual is sent to Alpha.

The TTM Service will:

- (a) Receive the depth of book (to 10 price levels) made available by each marketplace, then

- (b) Create a Consolidated Market Feed of the aggregate bid or ask order volume for each price level, then
- (c) Identify the marketplace which has the best priced order(s) for a particular security and will route the order based on the following criteria: (1) price and (2) volume of shares available. If the same price is available on Alpha and another marketplace, priority is given to Alpha, then
- (d) Send orders to Other Marketplaces as Fill or Kill (FOK) Bypass Limit orders and will be treated as DAO:
 - (i) If the order is tradable upon receipt by the Other Marketplace, it is immediately executed and any unfilled portion will be killed at the Other Marketplace and sent to Alpha.
 - (ii) If the order is not tradable upon receipt by the Other Marketplace, the whole order will be killed at the Other Marketplace and sent to Alpha.

8.6 Executions

- (1) If an order is routed to an Other Marketplace, Alpha may receive an execution response from the Other Marketplace. In the case of an execution (full or partial), an execution message will be sent back by Alpha to the originator of the order.
- (2) An incoming order may result in two different types of executions; those at Alpha and those at Other Marketplaces:
 - (a) The executions at Alpha will be sent to the appropriate clearing agency from Alpha and they will reflect the clearing identifier of the Member for the applicable order.
 - (b) The executions at the Other Marketplaces will be sent to the clearing agency from the Other Marketplace on which the execution occurred and they will reflect the clearing identifier of the originator of the order or its designated clearing agent.
- (3) In both cases, it is assumed that the Member originating the order is able to clear its trades (either directly or through an agent) and the reconciliation is done directly between the Member and the appropriate clearing agency.

PART IX. Application of UMIR

9.1 Application

- (1) The provisions of UMIR as amended from time to time apply to trading on the Alpha Systems and form part of Alpha Requirements.
- (2) Any investigations and enforcement actions concerning a violation of a provision of UMIR will be conducted by the Market Regulator following the procedures set out in UMIR.

PART X. Appeals

10.1 Appeals of Decision

- (1) A Member or any other person adversely affected by a Decision, other than a Decision of the Market Regulator, may appeal such Decision to Alpha's Regulatory Oversight Committee.

Commentary: Appeals shall be conducted according to the procedures established by the Regulatory Oversight Committee.

- (2) A Member or other person who has appealed a decision pursuant to Subsection (1) may appeal the decision of the Regulatory Oversight Committee by following the arbitration procedures set out in the Member Agreement and/or by appeal to the securities regulatory authority. A Member may not appeal the same issue by both arbitration and appeal to the securities regulatory authority; however, a Member may appeal different issues separately by arbitration and to the securities regulatory authority. Once an issue has been decided upon, whether by arbitration or by the securities regulatory authority, that same issue cannot be pursued to the alternative forum so that the same issue is being reviewed by both arbitration and appeal to the regulatory authority.
- (3) A Member or any other person adversely affected by a Decision of the Market Regulator may appeal such Decision pursuant to the provisions of UMIR.

PART XI. Administration

11.1 Method of Notifications

- (1) Unless otherwise specifically provided in any Alpha Requirement, Notice shall be sufficiently given and be reasonably expected to come to the attention of such person if:
 - (a) delivered to the person to whom it is to be given;
 - (b) delivered to the last address of such Person as recorded by Alpha or any recognized self-regulatory organization; or
 - (c) mailed or sent electronically, including e-mail, to such person.
- (2) Alpha may change the address of any person on the records of Alpha in accordance with any information believed by Alpha to be reliable.
- (3) A Notice delivered in accordance with this policy shall be deemed to have been given when it is sent.
- (4) Alpha will provide Notice of updates to this Trading Policies within 30 days prior to the change and provide the link to the updated or newly added section.

11.2 Computation of Time

- (1) In computing the time when a Notice must be given for the doing of anything or taking any proceeding under any provision of an Alpha Requirement, the date of giving of the Notice or of such event shall be excluded and the date of the meeting, hearing, doing of the act or taking of the proceedings shall be included.
- (2) Where the time limited for a proceeding or the doing of anything under any provision of an Alpha policy or requirement expires, the time so limited extends to and the thing may be done on the next day following.

11.3 Waiver of Notice

- (1) Any Person referred to in Section 11.1 may waive any Notice required to be given to such person and such waiver, whether given before or after the meeting, hearing or other event of which Notice is required to be given, shall cure any default in giving such Notice.

11.4 Omission or Errors in Giving Notice

- (1) The accidental omission to give any Notice to any person or the non-receipt of any Notice by any person or any error in any Notice not affecting the substance thereof shall not invalidate any action or proceeding founded thereon or taken at any hearing held pursuant thereto.

11.5 Withdrawal of Approval and Changes in Alpha Requirements

- (1) Any Alpha Approval and any Alpha Requirement may at any time be changed, suspended, withdrawn or revoked by Alpha, with 30 days' Notice unless otherwise provided in these Trading Policies, agreements or as required by circumstance.
- (2) Each Member and each Approved Trader will comply with such change, suspension, withdrawal or revocation and any Decisions made by Alpha.

- (d) Appropriate Resources and Settlement Capacity. The single or partial exercise of a right, power, or remedy will not prevent its subsequent exercise or the exercise of any other right, power or remedy. - (b) Authorized Use. The Member shall implement security systems and policies to prevent unauthorized use or misuse of the System and data available by use of the System by persons accessing the System. The Member shall take reasonable steps to ensure each

authorized employee is fully aware of the Member's obligations under this Agreement and ensure that all employees comply with such obligations and all Alpha Requirements. The Member shall be responsible for all instructions entered, transmitted or received under an authorized trader identification, and for the trading and other consequences thereof.
