Subject: Direct Purchase Plans

Mr. Stevenson,

No doubt you have received numerous messages regarding this subject, and this one would also like to be added.

The availability of Direct Purchase Plans in Ontario would prove to be beneficial not only to myself, but thousands of others who are striving to build their retirement nesteggs. The ease of use and low dollar increments needed, allow many to participate. At present if one wishes to purchase any stock, he/she must also pay a fee for that service, which at times butts this wealth builder out of reach.

Thank you for your time.

Mr. Glenn Corbett
