

Mr. Stevenson & Ms. Evans,

Concerning the above mentioned NI 31-103 both my husband and myself feel no person should have the power to tell us how we should invest. There are a few of us left that do not need someone, especially a salesman to advise us on our investments. We realize that any risks we take are just that risks, if you can't afford to lose it don't invest it!

Stay out of our business, and let us make our own decisions, you can't legislate brains!!

Ron & Callie Jensen
