John Stevenson Ontario Securities Commission, Ontario
Honorable Iris Evans, Minister of Finance, Alberta

**Re: Proposed regulatory Changes Regarding Investments
Exempt Market Securities**

I am a Canadian citizen and I object to the highest degree to have to divulge my personal financial information to anybody including all sales people and investment companies.

- **If I have the money to invest and decide to invest it is my right to do so.**
- **This is my Freedom of Choice.**
- **This is my Freedom of Rights.**
- **My personal information is my private information and I demand it to be private and be protected by my rights under the Privacy Laws.**

The Securities Commissions have no right to interfere with the individuals; Human Rights, Freedom of Choice, or Rights of Privacy.

I would take this to the highest court to defend my rights.

The Securities Commissions should simply keep the Investment companies honest, ethical, moral, and accountable in all their activities, so investors can believe in what is presented in the details of the investments.

Please respond to this email in writing.

Thank you,

**Sincerely,
Robert Murray Toner**
