

To: John Stevenson, Ontario Securities Commission.  
Honorable Iris Evans, Minister of Finance, Alberta.

This is written to register my concern with respect to the Proposed Regulatory Changes Regarding Investments, through the Proposed NI 31-103

It is my understanding that the new Proposal would require that I reveal a vast majority of my personal financial information, to other than my personal financial adviser. Doing so, would severely increase the risk and opportunity for misuse of this information.

The existing Risk Acknowledgment Form 45-104F4 Appendix "A" together with The current Declaration of Investor Appendix "B", is perfectly adequate, to insure that I as an investor, am well aware of the Risks of the Investment, and am financial able to tolerate that risk.

Please, make every effort, to ensure that the Proposed NI 31-103, does not go forward and force me to make my personal financial information available, to other than those I have personally contracted to advise and help me in the management of my assets.

Thank You for your attention to this matter.

Peter C. Ingle
