

Proposed NI 31-103

Who authorized you to decide how I spend my money!!!!!!

My financial position is none of your business – I file my income tax on time, pay my property tax each year and further to that you have no business in my personal live.

When you start paying my income tax and property tax (which is far to high) then maybe you could start asking personal questions.

Perhaps Iris Evans could let the public know her financial position!!!! And John Stevenson could do the same.

Start looking at your own investments NOT MINE !!!!

You might instead spend your time thinking of people who can't afford to invest – like seniors, Handicapped, Homeless, Health Care, and the Environment!  
Isn't that why you were elected?

Homeowner, Taxpayer, and Investor
