

Dear Mr. Stevenson, Ontario Securities commission, and Ms Iris Evans, Minister of Finance, Alberta.

Please Kill the Bill, I do not want this kind of regulatory stranglehold on my finances. God knows there are already too many bills, laws, restrictions, and regulations and regulatory bodies, etc. that are in place currently to add more and keep piling more of them on will only add to the nightmare. We already have so many regulatory monsters operating in finance, that we are very snowed under.

PLEASE, PLEASE,---NO MORE! kill this proposed legislation immediately - we the people are being regulated right out of our underwear. It seems to me that government has too much time on its hands, what are you going to regulate next - I dare ask. Please, stop trying to dream up more regulations to plague us with - PLEASE -JUST LET US LIVE IN PEACE- and thank you.  
Vikki Roach - an investor.
