Regarding Proposed NI31-103

I would like to voice my opinion regarding the proposed changes regarding regulating investments. I am highly opposed to these changes, I don't think it would be with in my rights as a free Canadian citizen to have to put forth my financial information and have it scrutinized before I can make an investment that I have researched and feel comfortable making. It is my understanding that even after I have provided this information I still may not be allowed to make the investment if some bureaucrat decides it isn't suitable. No one, I repeat No one, should have the right to tell me where and when I can spend or invest my money! The proposed changes need to be dropped, there is already to much intrusion into people's private affairs. I can't believe I have to fight for my rights in this the best country in the world in which to live. Please drop this idea.  
Thank You
