

To Canadian Securities Commission, John Stevenson, Honorable Iris Evans,

I received an information flier from Olympia Trust regarding the proposed changes - ie the requirement of detailed financial information being required before I can make investments - that I may not be "allowed to make the investment at all" - but there was no explanation about what might be the indications which would disallow one - can more details be provided?

I don't know whether I need to be alarmed or not. I don't like the idea of having to disclose everything to anyone - but let me understand how this information would be used, and then I can comment.
