

John Stevens and Honorable Iris Evans,

I have received a letter from Olympia Trust Company regarding proposed changes to the securities policies and regulations, and am quite taken aback by it. Is there no end to the invasion of privacy that the government wishes to engage in? I am dead set against the mentioned changes and will absolutely pull all monies out of these vehicles rather than provide all of the indicated information. Stupidity like this breeds contempt and all but forces people into less than honest means of investing money. I don't see the purpose of it and I will NOT provide that info.

Kevin J. Ripa
