

Dear Sirs,

Under the proposed plan and under the suggestion of Mr. Rick Skauge – President of Olympia Trust Company, we do not feel that having to divulge and provide a vast majority of our financial information in the future before we are allowed to invest in the types of investments that we are accustomed to invest in is neither appropriate nor right. Everyone has a right to their privacy, and we would prefer leaving it the way it is at the moment.

Sincerely,

*Gabrielle & Kurt Schlichter*
