Subject: New Companion Policy 43-101 CP

Hello Robert,

I was just working through the new Companion Policy under General Guidance, (6) Industry Best Practice Guidelines. Four best practice documents are mentioned. The best practice for rock hosted diamonds was always meant to be part of the Estimation of Mineral Resources and Mineral Reserves Best Practice document. It has taken more than a year to try to get the CIM website sorted out, but I think we're getting there. I suggest that you just eliminate item (d) from your list.

Regards,

Neil
