## INTRODUCTION

The Canadian Securities Administrators (the **CSA** or **we**) are seeking comment on a revised draft National Instrument 31-103 *Registration Requirements* (the **Rule**) as well as on a revised draft Companion Policy 31-103CP *Registration Requirements* (the **Companion Policy**).

The Rule, which introduces harmonized registration requirements across all CSA jurisdictions, the Companion Policy and related instruments were initially published for comment on February 20, 2007 (the **2007 Proposal**). The Companion Policy provides guidance on how the CSA will interpret or apply the Rule and related securities legislation.

The Rule will constitute the primary instrument for regulating registration requirements. However, other instruments, such as the national registration database (**NRD**) instruments, also apply to registrants, and registrants should refer to securities legislation of their local jurisdiction and to other CSA instruments for additional requirements that may apply to them.

The Rule will be implemented as:

- a rule in each of Alberta, British Columbia, Manitoba, Newfoundland and Labrador, Nova Scotia, New Brunswick, Ontario and Prince Edward Island;
- a regulation in each of Québec, the Northwest Territories, Nunavut and the Yukon Territory;
- a commission regulation in Saskatchewan.

The text of the Rule, Companion Policy and consequential amendments (the **Revised Proposal**) will be available on websites of CSA members, including:

**We are publishing the Rule, the Companion Policy and consequential amendments for comment for 90 days. The comment period will expire on May 29, 2008 and will not be extended by the CSA.**

## CONSULTATIVE PROCESS

### *Industry consultations*

Throughout the development of the Rule, the CSA have sought to keep stakeholders informed about the issues being considered and proposals being developed. The CSA registration reform project has a dedicated website at [www.rrp-info.ca](http://www.rrp-info.ca) on which we published, among other things, proposal papers, which discuss the policy basis for the proposed registration regime. Industry consultations were held in British Columbia, Alberta, Ontario, Québec and New York at various times over the past three years to seek feedback on the issues being considered and proposals being developed.

### *Comment letters*

The CSA received 267 comment letters on the 2007 Proposal. The comments were thorough, detailed and very extensive. Most commenters generally supported the 2007 Proposal. The CSA would like to thank all those who participated in the consultations and those who provided written comments. This participation and these comments have been extremely helpful to us in the development of the Rule and Companion Policy.

The Autorité des marchés financiers (AMF) would particularly like to thank all those who participated in the two consultations in February and September 2007 on the mutual fund sector in Québec.

We believe the Revised Proposal addresses the majority of the concerns raised by commenters, while remaining consistent in substance with the 2007 Proposal. The majority of the amendments to the Rule are in response to the comments we received during the comment period. Other amendments are in response to answers we received to the specific questions posed in the CSA Notice that accompanied the 2007 Proposal. Finally, some amendments are the result of further development by the CSA of the policies underlying the Rule.

*Summary of comments and responses*

A summary of the comments we received and our responses to those comments is available at [www.rrp-info.ca](http://www.rrp-info.ca) as well as on the websites set out above.

**PROPOSED LEGISLATIVE AMENDMENTS**

*Legislative amendments*

As indicated in the February 20, 2007 Notice, most of the CSA jurisdictions are proposing to make the following legislative amendments, in addition to the implementation of the business trigger:

- amendments to detailed registration provisions in the legislation which relate to or are replaced by provisions included in the Rule
- in Québec, amendments to the *Securities Act* and the *Act respecting the Distribution of Financial Products and Services (Distribution Act)* to provide the transfer of mutual fund dealers, scholarship plan dealers and investment contracts firms and their representatives, from the Distribution Act to the *Securities Act*
- new provisions to require registration of investment fund managers and key compliance and supervisory positions in all categories of firm registration, namely the ultimate designated person (**UDP**) and chief compliance officer (**CCO**)
- new, or amendments to existing, rule-making authority to allow implementation of the Rule
- other amendments to facilitate harmonization across the CSA and consistency of securities legislation with the Rule

British Columbia and New Brunswick will replace the current “trade” trigger with a “business” trigger for dealer registration. However, they intend to do so by introducing an exemption from dealer registration in National Instrument 45-106 – *Prospectus and Registration Exemptions* (NI 45-106) for persons who are not in the business of trading in securities, rather than by amending the current dealer registration provision in their respective securities legislation.

British Columbia will also maintain the capital-raising and safe securities exemptions currently set out in NI 45-106 for a person who trades solely under these exemptions in British Columbia. A person trading under these exemptions will not need to be registered in British Columbia as an exempt market dealer unless the person is registered in any other category in British Columbia or is registered in any category in any other Canadian jurisdiction.

Manitoba is not adopting the “business” trigger for dealer registration under its securities legislation. Manitoba will retain all the registration exemptions currently set out in NI 45-106 and a person trading under these exemptions in Manitoba will not need to be registered in Manitoba as an exempt market dealer unless the person is registered in any other category in Manitoba or is registered in any category in any other Canadian jurisdiction.

The requirements in NI 31-103 will apply to everyone who is registered in any jurisdiction in Canada.

**PROPOSED CONSEQUENTIAL AMENDMENTS**

*Consequential amendments to national instruments*

CSA instruments and local rules governing registration and registrants will be repealed or amended as necessary as described below. In addition to the consequential amendments described in this Notice,

- we are publishing and seeking comment, by way of a separate notice being published concurrently with this Notice, accessible at [www.osc.gov.on.ca](http://www.osc.gov.on.ca), on proposed amendments to the instruments relating to NRD, namely National Instrument 31-102 *National Registration Database* (**NI 31-102**) and Companion Policy 31-102CP, and National Instrument 33-109 *Registration Requirements* (**NI 33-109**) and Companion Policy 33-109CP, as well as several forms
- we propose to amend NI 45-106, which is being published under a separate notice (**CSA 45-106 Notice**) concurrently with this Notice, accessible at [www.osc.gov.on.ca](http://www.osc.gov.on.ca), in order to reflect, among other things, the adoption of the business trigger for dealers and the transition from the exemptions regime under NI 45-106 to the exemptions regime under the Rule

In addition we are proposing the revocations of and amendments to National Instruments and National Policies set out in Appendices A-L to SCHEDULE 1. The instruments providing for the revocation or amendment are proposed to be effective upon the coming into force of the Rule.

*Substance and purpose of proposed consequential changes to national instruments*

The amendment instruments provide for changes that mostly reflect new terminology used in, and the relocation of subject matter to, the Rule. The revocation instruments provide for the elimination of instruments and policies on the basis that the subject matter of the instrument or policy is now addressed in the Rule. This summary does not provide a complete list of all changes. The following summarizes the more significant proposed changes.

*Summary of amendments to national instruments*

(i) National Instrument 14-101 – *Definitions*

The new term “investment fund manager registration requirement” is proposed to be added to reflect the adoption of a registration requirement for investment fund managers. The terms “dealer registration requirement” and “underwriter registration requirement” are proposed to be changed to reflect the adoption of a “business trigger” and to clarify the appropriate category in the case of “underwriter registration requirement”

(ii) National Instrument 33-105 – *Underwriting Conflicts* and Companion Policy 33-105CP

The term “registrant” which is proposed to be re-termed “specified firm registrant” has been revised to include persons or companies registered, or required to be registered, as a “registered investment fund manager”.

(iii) National Instrument 81-102 – *Mutual Funds*

The proposed amendments to this instrument preserve the exemption provided in subsection 4.1(5) of NI 81-102.

(iv) National Instrument 81-107 – *Independent Review Committee for Investment Funds*

The amendments to this instrument update section references and reflect the revocation of applicable sections in the Ontario Regulation 1015.

(v) Multilateral Policy 34-202 – *Registrants Acting as Corporate Directors*

Sections 1.3 and 1.4 are revised to refer to agency relationships. The repeal of section 1.6 is also proposed.

*Revocations of national instruments*

The following are proposed to be revoked on the basis that the subject matter is subsumed in the Rule:

- National Instrument 33-102 – *Regulation of Certain Registrant Activities* and Companion Policy 33-102CP
- National Policy 34-201 – *Breach of Requirements of Other Jurisdictions*
- Multilateral Instrument 11-101 – *Principal Regulator System* (MI 11-101) and Companion Policy 11-101CP *Principal Regulator System*<sup>1</sup>

*Consequential amendments to Ontario Securities Commission (OSC) instruments*

Proposed amendments and revocations of OSC instruments are set out in Appendices A-U to SCHEDULE 2. The amendments and revocations are proposed to be effective upon the coming into force of the Rule.

*Substance and purpose of proposed consequential changes to OSC instruments*

The amendment instruments provide for changes that mostly reflect new terminology used in, and the relocation of subject matter to, the Rule. The revocation instruments provide for the elimination of instruments and policies on the basis that the subject matter of the instrument or policy is now addressed in the Rule. The following summarizes the more significant proposed changes.

---

<sup>1</sup> The mobility exemption in MI 11-101 has been replaced by an exemption in the Rule.

*Summary of amendments to OSC instruments*

(i) Ontario Securities Commission Rule 13-502 – *Fees and Companion Policy 13-502CP*

The proposed amendments to OSC Rule 13-502 and Companion Policy 13-502CP contemplate the introduction of the new "investment fund manager registration requirement" for persons and companies that act as investment managers.

The proposed amendments also reflect the new exemptions from the registration requirement available to "international dealers" and "international advisers" for activities which these dealers and advisers currently require registration as "registered international dealers" and "registered international advisers". Under the proposed amendments to OSC Rule 13-502, international dealers and international advisers that rely upon the above-referenced exemptions in the Rule will continue to pay participation fees on the same basis they currently pay as registrants.

Also, firms that currently pay fees as "unregistered investment fund managers" and obtain registration in the new registration category of "investment fund manager" under the Rule, will be obliged to continue paying participation fees. Any investment fund manager that continues to operate on an unregistered basis (in accordance with an exemption from the investment fund manager registration requirement) will be obliged to continue to pay participation fees on the same basis as it currently pays.

The proposed amendments to the Companion Policy 13-502CP reflect the changes to OSC Rule 13-502, update text, delete redundant text, and include certain minor clarifying changes.

(ii) Ontario Securities Commission Rule 91-501 – *Strip Bonds* and Companion Policy 91-501CP

Proposed amendments update the current cross-references to the dealer registration and prospectus exemptions contained in NI 45-106 to reflect the new location of both of these exemptions in the proposed amended and restated NI 45-106 and the restatement of the dealer registration exemption in NI 31-103.

The proposed amendments to the Companion Policy 91-501CP will update text and delete redundant text.

*Summary of revocations to OSC instruments*

The revocation (described in some instruments as a rescission) of the following OSC Rules and Policies, set out in Appendices E-S to SCHEDULE 2, is being proposed on the basis that the subject matter is addressed in the Rule.

- (i) Ontario Securities Commission Rule 31-501 – *Registrant Relationships* and Companion Policy 31-501CP *Registrant Relationships*;
- (ii) Ontario Securities Commission Rule 31-502 – *Proficiency Requirements for Registrants* and Companion Policy 31-502CP;
- (iii) Ontario Securities Commission Rule 31-503 – *Limited Market Dealers*;
- (iv) Ontario Securities Commission Rule 31-504 – *Dealer and Adviser Applications for Registrations*;
- (v) Ontario Securities Commission Rule 31-505 – *Conditions of Registration*;
- (vi) Ontario Securities Commission Rule 31-506 – *SRO Membership – Mutual Fund Dealers*;
- (vii) Ontario Securities Commission Rule 31-507 – *SRO Membership – Securities Dealers and Brokers*;
- (viii) Ontario Securities Commission Rule 33-501 – *Surrender of Registration*;
- (ix) Ontario Securities Commission Rule 33-502 – *Exceptions to Conflict Rules in the Sale of Mutual Fund Securities*;
- (x) Ontario Securities Commission Policy 34-601 – *Registration – Declaration of Personal Bankruptcy*;
- (xi) Ontario Securities Commission Policy 34-602 – *Suspension of Registration-Criminal Charges Pending*;
- (xii) Ontario Securities Commission Rule 35-502 – *Non-Resident Advisers*; and

- (xiii) Ontario Securities Commission Policy 35-601 – *Registration of Non-Resident Salesmen, Partners or Officers of Registered Dealers*.

*Other consequential changes to OSC instruments*

In connection with the Rule, the OSC has proposed amendments to OSC Rule 45-501 – *Prospectus Exempt Distributions* and Companion Policy 45-501CP. Further information regarding the proposed amendments is set out in the Ontario notice appended to the CSA 45-106 Notice.

*Proposed amendments and repeals of Ontario regulations*

The OSC proposes repealing the following provisions of Ontario Regulation 1015 on the basis that they will be replaced by provisions in the Rule:

- sections 95, 96, 98, 99, 104, 107, 109, 111, 112, 118, 119, 121, 122, 139, 140, 141, 144, 204, 225, 232
- subsections 100(1) – (2), 101(1), 108(1) to (6), 113(1) – (6), 115(1), (4) – (7), 116(1) – (2), 117(1) – (3), 120(1) – (3), 123(1), (2), (4) and (6), 130(2), 131(1) – (2), 145(1) – (2), 147(2), 208 (1) – (5), 217(1) – (2), 223(1) – (4), 226(1) – (2), 227(1), (3), 228(1) – (3), 230 (1) – (3)
- clauses 227(2)(a), 227(2)(b), 227(2)(b.1), 227(2)(c)
- Forms 3, 5, 6, 9

The OSC proposes repealing the following provisions of Ontario Regulation 1015 on the basis that, upon the implementation of the Rule, they will no longer be applicable:

- sections 102, 103, 106, 142, 210, 211, 212, 214, 215, 216, 218, 219
- subsections 101(2) – (4), 115(2) – (3), 123(3), (5), 127(1),(2), 130(1), 130(2.1), 130(3), 132, 133, 209(1)-(9), 213(1) – (2), 217(3) – (4), 230(4)

The OSC proposes amending the following provisions of Ontario Regulation 1015:

- section 110 by replacing “security issuer” with “exempt market dealer”
- section 209(10) to update cross-references

**BUSINESS TRIGGER FOR REGISTRATION**

*Revised proposal – Business trigger factors*

We have made two technical changes to the discussion of the business trigger factors in the Companion Policy. Neither represents a material change to the substance of the business trigger, which remains as it was in the 2007 Proposal.

- The business trigger for dealing activities is now described by way of a reference to “trading in securities”, instead of “dealing in securities”. This change was made in response to comments received which suggested that referencing the business trigger to “dealing in securities” could create some degree of uncertainty about the breadth of activity intended to be captured by the trigger. The change has been made to clarify the breadth of the trigger and ensure consistency with securities legislation. It does not reflect any change in policy.
- We have added the concepts of acting in an intermediary capacity or as a market-maker to the discussion in the Companion Policy of the factors to be considered when assessing whether an activity is conducted as a business. These factors were not included in the 2007 Proposal. However, they were discussed in the February 2006 *Proposal for Registration Reform* paper, accessible at [www.rfp-info.ca](http://www.rfp-info.ca).

*Applying the business trigger*

The Companion Policy includes expanded guidance on the application of the business trigger, particularly in respect of security issuers, mortgage investment companies, venture capital financing, principal trading activities and activities not commonly in the business of trading or advising in securities.

We have also included in the Companion Policy further discussion of “incidental activity”, namely an activity which is incidental to the primary business of a firm and which may suggest that there is no business purpose in the activity itself. Registration and, consequently, registration exemptions, would therefore not be required in such situations.

## **SUMMARY OF KEY CHANGES MADE TO THE RULE**

### **Part 1: Definitions**

#### *MFD SRO*

We have deleted the definition of MFD SRO, which was intended to cover both the Mutual Fund Dealers Association of Canada (**MFDA**) and in Québec, a self-regulatory organization (**SRO**) recognized for the purpose of regulating mutual fund dealers. This change has been made following the consultation process in Québec on the regulatory framework for mutual fund dealers<sup>2</sup>.

#### *Permitted clients*

In responses to the comments received, we have introduced a new category of investor: the “permitted client”. Permitted clients form a subset of “accredited investor” (as that term is defined in NI 45-106) consisting primarily of institutional, corporate and very high net worth individuals. Prospectus exemptions under NI 45-106 are not affected by the introduction of the permitted client concept in the Rule.

We believe that, at the upper end of the accredited investor spectrum, there are investors who are sufficiently sophisticated, or have sufficient resources to obtain expert advice, that they may neither need nor wish for the same level of protection as that which the registration regime extends to other investors. For example, the suitability obligation does not apply to exempt market dealers when dealing with permitted clients.<sup>3</sup>

Permitted clients of advisers and dealers, other than exempt market dealers, will have the ability to waive the requirement for the adviser or dealer to make investment suitability determinations for them. Accordingly, registrants will have a reduced suitability review obligation when dealing with permitted clients, which will result in reduced regulatory burden.

#### *Prescribed functions*

We have deleted the reference in the Rule to prescribed functions relating to the ultimate designated person and chief compliance officer under Alberta securities laws. This will form part of local Alberta rule and the reference is therefore no longer required in the Rule.

### **Part 2: Categories of registration and permitted activities**

#### *Registration categories for firms and certain exemptions*

We have not changed the categories of registration for firms. However, we have:

- clarified that only investment dealers and exempt market dealers are permitted to act as an underwriter
- clarified in the Companion Policy that investment fund managers are required to register only in the jurisdiction where the person or company that directs the management of the fund is located, which in most cases will be where their head office is located. This includes investment fund managers that are located in a foreign jurisdiction. Regardless of where the investment fund manager of an investment fund is located, the distribution of units of the investment fund in a jurisdiction is subject to the prospectus requirements; and trades in, or advising on the buying or selling of, units in the investment fund are subject to the dealer and adviser registration requirements of that jurisdiction
- indicated that in certain jurisdictions (excluding Québec), mutual fund dealers are permitted to trade in securities of investment funds that are labour sponsored investment fund corporations or labour sponsored venture capital corporations and, in British Columbia, securities of scholarship plans, educational plans or educational trust.

We have clarified the exemption from dealer registration for advisers trading in securities of their pooled funds, and the exemption from adviser registration for dealers without discretionary authority, both set out in Part 2 of the Rule. A notice requirement for advisers who use the exemption has been added.

---

<sup>2</sup> See **QUÉBEC REGULATORY FRAMEWORK FOR MUTUAL FUND DEALERS** in this Notice.

<sup>3</sup> The entire regulatory framework proposed for exempt market dealers in response to comments is discussed in greater detail in Part 2.

*Exempt market dealer category*

In response to the comments we received, we have made important changes to the regulatory framework which will apply to exempt market dealers.<sup>4</sup> Certain fit and proper and conduct requirements will not apply to exempt market dealers that do not handle, hold or have access to client cash or assets, including cheques and other similar instruments, and when dealing with permitted clients. The Companion Policy provides guidance and examples of situations in which a registered dealer would be considered to handle, hold, or have access to client cash or assets, including cheques and other similar instruments. The full regime of the Rule will apply to those exempt market dealers who handle, hold, or have access to client cash or assets, including cheques and other similar instruments.

*Exempt market dealers that do not handle, hold or have access:* The Revised Proposal provides that the following requirements will not apply to exempt market dealers that do not handle, hold or have access to client cash or assets, including cheques and other similar instruments, whether or not they deal with permitted clients:

- capital requirements
- insurance requirements
- the delivery of annual audited financial statements. However, exempt market dealers that do not handle, hold or have access to client cash or assets, including cheques and other similar instruments will be required to deliver certified quarterly unaudited financial statements

*Exempt market dealers when dealing with permitted clients:* When dealing with permitted clients, the following requirements will not apply to exempt market dealers, whether or not they handle, hold or have access to client cash or assets, including cheques and other similar instruments:

- the know-your-client rule, except for basic information gathering to establish the identity of the client
- the suitability obligation
- account opening information requirements
- complaint handling requirements

*Dealing representatives for exempt market dealers:* We have eliminated the requirement to pass either the Partners, Directors and Senior Officers exam or the Conduct and Practices Handbook exam for the exempt market dealer representative.

*Registration categories for individuals*

We have not changed the categories of registration for individuals, although we have:

- added a notice requirement when the adviser designates an advising representative<sup>5</sup> to approve the advice of an associate advising representative
- clarified that the UDP may also be the registered firm's sole proprietor, a position equivalent to that of the chief executive officer of the firm
- clarified in the Company Policy the responsibilities of the CCO

*Multiple registration categories*

The Companion Policy includes expanded guidance concerning multiple registration categories. While we have not eliminated multiple categories we have made every effort to reduce duplicative requirements for registrants who hold multiple registrations.

---

<sup>4</sup> British Columbia and Manitoba will, however, maintain the capital-raising and safe securities exemptions currently set out in NI 45-106 for persons who trade solely in prospectus-exempt securities in British Columbia or Manitoba, and who are not otherwise registered in any Canadian jurisdiction in any category. Such persons will not need to register locally in British Columbia or in Manitoba as an exempt market dealer.

<sup>5</sup> As stated in the 2007 proposal, the associate advising representative category, which currently exists in some CSA jurisdictions, is proposed for all jurisdictions. This category is primarily an apprentice category for individuals who are seeking full adviser registration but do not meet the experience or education requirements. It will also accommodate individuals who work for a portfolio manager and are in charge of client relationships but who do not perform portfolio management for clients.

For example:

- if a firm is registered in multiple categories, it must meet the highest capital requirement of its various categories of registration
- a firm that is registered in multiple categories is only required to have one CCO. In this case, the CCO must meet the most stringent of the proficiency requirements of the firm's various categories of registration

### **Part 3: SRO Membership**

We have expanded the list of the Rule requirements which will not apply to members of SROs on the basis that the requirements for these areas will be prescribed by the applicable SRO. This exemption is available for registrants registered as investment dealers and, subject to conditions in Québec, mutual fund dealers. It applies to mutual fund dealers in Québec and their representatives, on the condition that they comply with the applicable regulations on mutual fund dealers in Québec.

For example, SRO members will be exempt from the following requirements in the Rule:

- solvency requirements
- relationship disclosure information
- in the case of investment dealers, proficiency requirements
- disclosure when recommending the use of borrowed money to purchase securities

#### *Harmonization of SRO rules*

The CSA intend to ensure harmonization between the Rule and the SRO requirements on an on-going basis through the existing SRO rule approval process.

### **Part 4: Fit and Proper Requirements**

#### *Proficiency requirements*

We have not changed the substantive proficiency requirements from the 2007 Proposal, except that we have:

- added a general proficiency principle in the Rule, requiring education and experience reasonably necessary to perform the activity of the registered individual
- included the proficiency requirements which will apply to all mutual fund dealer representatives<sup>6</sup>
- eliminated the requirement that exempt market dealer representatives must pass either the Partners, Directors and Senior Officers exam or the Conduct and Practices Handbook exam
- amended the proficiency requirement applicable to the associate advising representative

#### *Solvency requirements*

We have made the following changes to the capital requirement set out in the 2007 Proposal:

- added guidance on line 12 *Unresolved differences* in the instructions pertaining to Form 31-103F1 *Calculation of excess working capital (Form F1)*
- added a Schedule 1 to Form F1, in support of calculating market risk as provided in line 9 of the form
- added, as Appendix B to the Rule, a harmonized form of subordination agreement for long-term related party debt

---

<sup>6</sup> The Rule prescribes proficiency requirements for all mutual fund dealer representatives, whether or not the firm is a member of the MFDA, since the registration of those individuals will continue to be done by the securities regulatory authority or regulator, as applicable, in each jurisdiction

- eliminated the capital requirement for those exempt market dealers that do not handle, hold or have access to client cash or assets, including cheques, and other similar instruments

In addition to changes specific to the exempt market dealer category, we have made the following changes to the insurance requirement set out in the 2007 Proposal:

- we no longer refer only to a “financial institution bond”, but rather “bonding or insurance”
- we have added that the terms of the bonding or insurance must be acceptable to the regulator
- we have included guidance in the Companion Policy on the concepts of double aggregate limit or a provision for full reinstatement of coverage
- we have added a provision allowing for registered firms to hold a global financial institution bond that benefits or names another person as insured subject to conditions

## **Part 5: Conduct Rules**

### *Relationship with clients*

We have maintained the provisions of the Rule relating to account opening and requiring that the registered firm<sup>7</sup> maintain account opening documentation for each client.

With respect to the know-your-client (KYC) requirement, we have added a provision requiring the registered firm to establish the identity of any individual who is the beneficial owner, directly or indirectly, of more than 10% of the shares of a corporate client.

We have replaced the requirement to provide a relationship disclosure document to clients, with a principle based provision requiring registrants to provide information that a reasonable client would consider important respecting the client’s relationship with the registrant. The Rule provides a basic list of information items which will be required to be given to clients by registrants (except exempt market dealers that do not handle, hold or have access to client cash or assets, including cheques and other similar instruments).

As indicated in the Companion Policy, this requirement may be met by providing clients with separate documents which, together, give them the prescribed information. We anticipate that, in many cases, registrants will be able to satisfy this requirement using existing documents.

We received comments to the effect that relationship disclosure to clients should be considered together with the ongoing point of sale initiative by the Joint Forum, and the broader objective of a principle-based approach to the client relationship. We will continue to work within the Joint Forum on the development of the point of sale initiative, which is a separate project and does not form part of the registration reform project.

We have not changed the suitability obligation, except to provide that it does not apply to permitted clients as follows:

- to registrants where the permitted client has waived the obligation in writing
- to exempt market dealers when dealing with permitted clients.

### *Compliance*

We have clarified that a registrant must establish, maintain and apply a system of controls and supervision. This system must be designed to provide reasonable assurance that the firm and each individual acting on its behalf complies with securities legislation, thereby emphasizing that compliance is a firm-wide responsibility. We have expanded the discussion of compliance systems generally in the Companion Policy.

The Rule now prescribes that the functions of the UDP are the supervision of the firm’s compliance directed activities, and promoting compliance.

---

<sup>7</sup> Except for exempt market dealers who do not handle, hold or have access to client cash or assets, including cheques and other similar instruments.

The functions of the CCO are described as follows in the Rule:

- establish policies and procedures for assessing compliance by the firm
- monitor and assess compliance
- report to the UDP as soon as practicable in the event of substantial non-compliance
- submit an annual report to the board of directors or partnership for the purpose of assessing compliance

#### *Complaint handling*

We have not made substantial changes to the basic requirements of the 2007 Proposal other than to exempt investment fund managers and exempt market dealers from the requirements.

We expect registrants to handle complaints promptly. In most cases, a registered firm should have provided a substantive response to a complaint within three months of the date it was received, as discussed in the Companion Policy.

#### **Part 6: Conflicts of interest**

We have maintained the three mechanisms for responding to conflicts of interest situations: avoidance, control and disclosure. We have made a number of changes to the conflicts proposal following the comments received, and have include new and revised guidance in the Companion Policy<sup>8</sup>.

The main changes from the 2007 Proposal are as follows:

- we have added an exemption for an investment fund manager in respect of an investment fund that is subject to National Instrument 81-107 – *Independent Review Committee for Investment Funds*
- while the registrant has the obligation to make reasonable efforts to identify conflicts, only conflicts which a client, acting reasonably, would expect to be informed of must be disclosed to the client
- the scope of the prohibition on certain managed account transactions, in the case of associates, has been narrowed to include only those associates who have access or participate in formulating an investment decision
- we have added a provision in the Rule prohibiting a registered firm from acting as an adviser in respect of its own securities, or the securities of a related issuer and, in the course of a distribution, a connected issuer of the firm
- the issuer disclosure statement regime has been simplified to take into account the situations which the commenters have brought to our attention, particularly with respect to keeping the statement constantly updated for connected issuers, during the course of distribution
- a disclosure obligation of an adviser's financial or other interest when making a recommendation has been included in the Rule

#### **Part 7: Suspension and revocation of registration**

We propose in the amendments to NI 33-109 being published under a separate notice a new form (Form 33-109F7) for individuals transferring between firms. We believe the form will be helpful in connection with the transfer procedure in the Rule.

#### **Former Part 8: Information sharing**

We have removed Part 8 of the Rule following the comments we received and, in Québec, a particular concern about the impact of privacy legislation. Instead of the information sharing provision as originally proposed, we have amended NI 33-109 to provide:

---

<sup>8</sup> In particular, we have clarified and given examples of the regulation of conflicts between clients in the Companion Policy.

- an obligation on the part of the registered firm to provide the representative with a copy of the Form 33-109F1
- an obligation on the part of a registered firm that is considering becoming the sponsoring firm of a registered individual to obtain from such individual a copy of the Form 33-109F1 completed by his or her most recent sponsoring firm

### **New Part 8: Exemptions from registration**

In response to comments we have added a few exemptions and made amendments to others. For example, we have:

- added an exemption from the dealer registration requirement for issuers who are considered to be in the business and therefore subject to registration. The exemption will apply to issuers trading in securities of their own issue and solely for their own account, provided they do so solely through a registered dealer
- added Alberta to the list of jurisdictions in which the mortgages exemption is not available for trades in syndicated mortgages
- added an exemption for trading in government guaranteed debt
- added an exemption for trading in self-directed registered educational savings plans
- expanded the list of permitted clients for international dealers and advisers
- removed the prohibition on international advisers from soliciting new business

#### *Federally regulated financial institutions*

The application of securities legislation to federally regulated financial institutions is not set out in the same way in all jurisdictions. In Ontario, the Hockin-Kwinter Accord sets out the understanding on the respective responsibilities of the federal and provincial governments concerning the securities-related activities of federally regulated financial institutions.

The exemption regime that currently exists for federally regulated financial institutions in Ontario will continue under the proposed regime.

The other jurisdictions will continue to follow their existing practices concerning the securities-related activities of federally regulated financial institutions.

#### *Relationship between exemptions under NI 45-106 and exemptions under NI 31-103*

As mentioned in the CSA Notice to the 2007 Proposal, many of the exemptions that currently exist in securities legislation are not needed with a business trigger for dealers. We propose to transition from the exemptions under NI 45-106 to the exemptions under the Rule, when implemented, in the following way:

- NI 45-106 is being published concurrently with the Rule for the purpose of seeking comment on amendments to the substantive provisions as well as provisions needed for the transition from the exemptions under NI 45-106 to the exemptions under the Rule
- the registration and prospectus exemptions have been separated and a provision added which will render the registration exemptions inoperative in certain jurisdictions following a transition period after the coming into force of the Rule
- after the coming into force of the Rule, the registration exemptions will be in the Rule and NI 45-106 will become primarily a prospectus exemption rule except for registration exemptions that will continue in British Columbia, Manitoba and New Brunswick<sup>9</sup>

### **Part 9: Exemption**

We have added a standard exemption provision to the Rule providing for the granting of exemptions from provisions of the Rule.

---

<sup>9</sup> Some jurisdictions will continue with more exemptions than other jurisdictions. For more detail please see the CSA Notice for NI 45-106 and the amendments to NI 45-106 being published concurrently with this Notice.

## Part 10 : Transition

The general transition regime is as follows:

### For firms

- registered firms will be deemed to be registered in their new category<sup>10</sup>
- a person or company that is acting as an investment fund manager must apply for registration as an investment fund manager within six months of the effective date of the Rule
- investment fund managers will have a one year transition period to comply with capital and insurance requirements
- exempt market dealers<sup>11</sup> must apply for registration within six months of the effective date of the Rule
- a six month transition starting on the effective date of the Rule is provided to all registrants for the delivery of relationship disclosure to clients
- except in Québec, a six month transition starting on the effective date of the Rule is provided to all registrants in respect of complaint handling obligations
- a six month transition starting on the effective date of the Rule is provided to all registrants in respect of referral arrangements

### For individuals

- registered individuals will be deemed to be registered in their new category<sup>12</sup>
- dealing representatives for scholarship plan dealers must comply with the proficiency requirements 12 months after the effective date of the Rule
- dealing representatives for exempt market dealers must apply for registration within six months of the effective date of the Rule
- individuals designated as UDP or CCO must apply for registration within one month of the effective date of the Rule<sup>13</sup>

During the transition period registrants will need to comply with existing requirements until such time as they are in compliance with the new requirements.

## QUÉBEC REGULATORY FRAMEWORK FOR MUTUAL FUND DEALERS

The AMF has carried on extensive public consultations in February and September 2007 to discuss with mutual fund dealers and other interested parties in Québec, the question of the recognition of an SRO in Québec for mutual fund dealers and the most efficient way to achieve regulatory harmonization.

As a result of these consultations, the AMF has formulated the following recommendations:

- Québec mutual fund dealers, scholarship plan dealers and investment contract dealers and their representatives, which are currently subject to the Distribution Act, will upon the coming into force of the Rule, be subject to the Securities Act and the Rule
- mutual fund dealers registered in Québec will not be required to be members of the MFDA, and will remain under the direct supervision of the AMF
- they will be required to maintain professional liability insurance, as is the case currently

---

<sup>10</sup> See Appendix C to the Rule.

<sup>11</sup> In Ontario and Newfoundland and Labrador, a person or company registered as a limited market dealer will have to apply to be registered as an exempt market dealer.

<sup>12</sup> See Appendix D to the Rule.

<sup>13</sup> CCOs and UDPs currently registered will be grandfathered.

- mutual fund representatives, scholarship plan representatives and investment contract representatives will continue to be required to be members of the *Chambre de la sécurité financière*
- no change will be made to the obligation to contribute to the *Fonds d'indemnisation des services financiers*<sup>14</sup>

### **ONTARIO LEGISLATIVE AMENDMENTS**

Changes to the *Securities Act* (Ontario) would be required to implement the proposed Rule. At this time the Government of Ontario has not completed its consideration of possible legislative amendments. Any statutory amendments will only become law if they are passed by the Legislative Assembly of Ontario. If the government publishes a consultative draft of the legislative proposals for public review, the OSC has suggested that it would be helpful to stakeholders for the review to occur within the timeframe for comment on the Rule.

If and when a consultation draft of the legislation is published, the OSC would prepare a cross-reference, to assist public consideration, relating the provisions in the legislation to the comparable provisions in the Rule and identifying any modifications to the Rule which might be required in Ontario to complement and maintain consistency with any proposed legislative amendments. This could result in the OSC having to publish a modified rule proposal in Ontario in conjunction with the proposed legislative amendments.

### **HEADS OF AUTHORITY**

In Ontario, the OSC is seeking amendments to the *Securities Act* (Ontario) to provide it with the requisite authority to make certain provisions in the Rule. The remaining provisions are made under the authority of the following paragraphs of subsection 143(1) of the *Securities Act* (Ontario): 1, 2, 3, 4, 5, 7, 8, 10, 13, 18, 25, 31, 33, 34, 35, 39, 39.1, 45, 47, 50 and 56.

### **ANTICIPATED COSTS AND BENEFITS**

We believe that the overall benefits of the proposed registration regime will substantially outweigh the costs. Given that the securities regulatory regimes of the jurisdictions are not harmonized today, the specific costs and benefits will vary from jurisdiction to jurisdiction. Nonetheless, the common benefits of the proposed harmonized registration regime across all CSA jurisdictions include:

- harmonization of individual and firm registration categories, fit and proper requirements, conduct requirements and exemptions, which creates efficiencies for regulators, for NRD and for industry
- reduction in regulatory burden through adoption of a permanent registration regime and streamlined transfer procedures
- the introduction of a business trigger which is intended to require registration of those who present regulatory risk because they are engaging in business in the securities industry. It will not require registration of those who may be doing a trade (by definition) but who do not present regulatory risk. This reduces the number of statutory registration exemptions required and consequently reduces the exemptive relief applications that have been needed in the past for transactions or trades that do not present regulatory risk but do not fall within the wording of the statutory exemptions
- increased investor protection through the introduction of:
  - relationship disclosure requirements
  - referral arrangement restrictions
  - complaint handling procedures
  - enhanced conflicts and compliance requirements
- reduction of regulatory burden for registered firms dealing with permitted clients through reduced requirements in certain areas
- new exemptions which will reduce regulatory burden for international registrants

---

<sup>14</sup> The compensation fund which provides financial compensation to investors who are victims of fraudulent tactics or embezzlement committed by firms or representatives in the mutual fund, scholarship plan and investment contract sectors in Québec.

## Request for Comments

---

Some of the costs associated with the proposed registration regime, depending on the jurisdiction, include:

- obtaining and maintaining registration for exempt market dealers and investment fund managers
- increased capital and insurance requirements for some registrants

Amendments to Companion Policy 13-502CP Fees

1. **Companion Policy 13-502CP Fees is amended by this Instrument.**

2. **Part 2 is amended**

a. **by repealing section 2.2 and substituting the following:**

2.2 Participation Fees

- (1) Reporting issuers, registrant firms and unregistered capital markets participants are required to pay participation fees. For the purposes of the Rule, “unregistered capital markets participants” are defined to mean “unregistered investment fund managers” and “unregistered exempt international firms”. The Rule defines an “unregistered investment fund manager” to mean an “investment fund manager” that is not registered under the Act. (The term “investment fund manager” is defined in subsection 1(1) of the Act to mean “a person or company that directs the business, operations or affairs of an investment fund”.)

The Rule defines “unregistered exempt international firms” to mean a person or company that is not registered under the Act and is:

- (a) an “international dealer”, as defined in subsection 8.15(1) [*International dealer*] of NI 31-103, that acts as a dealer, underwriter or adviser, under the exemption from the registration requirement contained in subsection 8.15(2) [*International dealer*] of NI 31-103; or
- (b) an “international adviser”, as defined in subsection 8.16(1) [*International adviser*] of NI 31-103, that acts as a dealer, underwriter or adviser, under the exemption from the registration requirement contained in subsection 8.16(2) [*International adviser*] of NI 31-103.

The term “dealer” is, in turn, defined for the purposes of the Rule to mean “a person or company engaging in or holding himself, herself or itself out as engaging in the business of trading in securities”.

Participation fees are designed to cover the Commission’s costs of providing services that are not easily attributable to specific market participants. In the case of a reporting issuer, the participation fee is based on the issuer’s market capitalization, which is used to approximate its proportionate participation in the Ontario capital markets. In the case of a registrant firm or unregistered capital markets participant, the participation fee is based on the firm’s revenues attributable to its capital markets activity.

- (2) The fees set out in the Rule are intended to reflect the Commission’s cost of regulation over a three-year period, beginning April 1, 2006. The current Rule came into force on April 1, 2006 and replaced the previous Ontario Securities Commission Rule 13-502 *Fees* (which came into force on March 31, 2003). In the current Rule, the Commission established reduced participation fees on the basis of its forecast General Operating Surplus, as at March 31, 2006. The Appendix to this Companion Policy shows how the Commission applied the surplus to each participation fee level.,

b. **in section 2.3 by striking out the heading “2.3 Participation Fees Payable in Advance” and substituting “2.3 Application of Participation Fees”,**

c. **by repealing section 2.5 and substituting the following:**

- 2.5 Activity Fees – Activity fees are designed to represent the direct cost of Commission resources expended in undertaking the activities listed in Appendix C of the Rule (e.g., reviewing prospectuses, registration applications, and applications for discretionary relief). Activity fees are based on the average cost to the Commission of providing the service, with the exception of applications for an exemption from a requirement in Division 1 [*Proficiency requirements*] of Part 4 of NI 31-103. No fees

are charged in the latter case so as not to discourage registrants from proposing alternate proficiencies to reflect evolving market products and practices.,

**d. by repealing section 2.6 and substituting the following:**

2.6 Registrants under the Securities Act and the Commodity Futures Act

- (1) The Rule imposes an obligation to pay a participation fee on registrant firms, defined in the Rule as a person or company registered under the Act as a dealer, adviser or investment fund manager. An entity so registered may also be registered as a dealer or adviser under the Commodity Futures Act. Given the definition of “capital markets activities” under the Rule, the revenue of such an entity from its *Commodity Futures Act* activities must be included in its calculation of revenues when determining its fee under the Rule. Section 2.8 of Rule 13-503 (*Commodity Futures Act*) Fees exempts such an entity from paying a participation fee under that rule if it has paid its participation fees under the *Securities Act* Rule.
- (2) Note that dealers and advisers registered under the *Commodity Futures Act* are subject to activity fees under Rule 13-503 (*Commodity Futures Act*) Fees even if they are not required to pay participation fees under that rule.,

**e. in subsection 2.7(1)**

- (i) **by striking out** “speaking”, **and**
- (ii) **by striking out** “unregistered investment fund manager that loses that status later in the fiscal year for which the fee was paid.” **and substituting** “unregistered capital markets participant that loses that status later in the fiscal year in respect of which the fee was paid.”.

**3. Part 4 is amended**

**a. by repealing section 4.1 and substituting the following:**

- 4.1 Filing Forms under Section 3.5 – If the estimated participation fee paid under subsection 3.5(1) by a registrant firm or unregistered exempt international firm does not differ from the firm’s true participation fee determined under subsection 3.5(2), the firm is not required to file either a Form 13-502F4 or a Form 13-502F5 under subsection 3.5(3).,

**b. by repealing section 4.2 and substituting the following:**

- 4.2 Late Fees – Section 3.6 of the Rule prescribes an additional fee if a participation fee is paid late. The Commission and the Director will, in appropriate circumstances, consider tardiness in the payment of fees as a matter going to the fitness for registration of a registrant firm. The Commission may also consider measures in the case of late payment of fees by an unregistered capital markets participant, such as: in the case of an unregistered investment fund manager, prohibiting the manager from continuing to manage any investment fund or cease trading the investment funds managed by the manager; or, in the case of an unregistered exempt international firm, making an order pursuant to section 127 of the Act, that the corresponding exemptions from registration requirements under which the firm acts do not apply to the firm (either permanently or for such other period as specified in the order).,

**c. by repealing section 4.3 and substituting the following:**

- 4.3 Form of Payment of Fees – Registrant firms pay through the National Registration Database. Unregistered capital market participants make filings and pay fees under Part 3 of the Rule by paper copy. The filings and payment for unregistered investment fund managers should be addressed to the Ontario Securities Commission (Attention: Manager, Investment Funds). The filings and payments for unregistered exempt international firms should be addressed to the Ontario Securities Commission (Attention: Manager, Registrant Regulation).,

- d. ***in section 4.4***

REGISTRATION REQUIREMENTS**

**PART 1 – DEFINITIONS AND INTERPRETATION**

**1.1 Introduction**

This Companion Policy sets out how the Canadian Securities Administrators (the CSA or we) interpret or apply the provisions of National Instrument 31-103 *Registration Requirements* (NI 31-103) and related securities legislation.

Registrants should refer to securities legislation of their local jurisdiction and to other CSA instruments for additional requirements that may apply to them. Registrants must also comply with applicable self-regulatory organization (SRO) requirements.

**1.2 Definitions**

Unless defined in NI 31-103, terms used in NI 31-103 and this Companion Policy have the meaning given to them in local securities legislation or in National Instrument 14-101 *Definitions*. In NI 31-103, “day” has its ordinary meaning, except where business days are specified. All references in this Companion Policy to sections, Parts and Divisions are to NI 31-103, unless otherwise noted.

**1.3 Business trigger for registration<sup>1</sup>**

As a starting principle, anyone who is in the business of trading<sup>2</sup> or advising in securities should be subject to the registration requirement, regardless of the type of security, the name used to describe the business or how the business is organized.

The following section describes the factors that are relevant in determining whether a person or company is trading or advising in securities for a business purpose. For the most part, they are taken from case law and regulatory decisions that have interpreted the business purpose test in the context of securities matters.

We look at the type of activity and whether it is conducted as a business when determining whether the registration requirement applies to the person or company conducting the activity.

The first step is to assess whether the activity is:

- trading in securities
- advising in securities, or
- acting as an investment fund manager

We will always consider a person or company that is acting as an investment fund manager to be conducting that activity as a business. Registration will therefore be required unless an exemption has been provided.

If the activity is trading or advising in securities, further analysis is required to assess whether the activity is conducted as a business. We consider the factors set out below, among others.

In general, any person or company that performs the activities discussed in paragraphs (a) or (b) is in the business of trading or advising in securities. No one of the activities in paragraphs (c), (d) and (e) will necessarily determine whether a person or company is in the business of trading or advising in securities.

**(a) *Directly or indirectly holding oneself out as being in the business of the activity***

Merely holding oneself out as being willing to engage in trading or advising in securities is sufficient to be engaged in the business for the purposes of securities legislation. This is because holding out induces the client to rely on the dealer or adviser.

---

<sup>1</sup> The discussion in this section does not apply in Manitoba, where the trade trigger for dealer registration will continue to apply without change.

<sup>2</sup> In Québec, “trading in securities” also refers to distributing a security or any act, advertisement, solicitation, conduct or negotiation directly or indirectly in furtherance of any of those activities.

Engaging in practices similar to those used by registrants also reflects a business purpose. Examples include promoting securities and making disclaimers or stating by any other means that the person or company will buy or sell securities. Carrying on any of these activities at the start-up stage may be considered carrying on a business.

**(b) *Acting in an intermediary capacity or as a market maker***

Acting in an intermediary capacity between a seller and a buyer of securities or making a market in securities constitutes trading for a business purpose.

**(c) *Directly or indirectly carrying on the activity with repetition, regularity or continuity***

Frequent transactions are a common indicator that a person is engaged in a business. We consider a person who regularly trades or advises in any manner that could produce profits to be engaged in a business. The activity does not have to be the person's sole or even primary endeavour for that person to be in the business. However, whether a person has other sources of income and how much time the person spends on the activity are also relevant factors.

**(d) *Being, or expecting to be, remunerated or otherwise compensated for the activity***

Receiving, or expecting to receive, compensation for carrying on the activity, whether transaction or value based, reflects a business purpose. It does not matter if the person actually receives compensation or what form the compensation takes. Having the capacity or the ability to carry on the activity to produce profit is also a relevant factor.

However, carrying on an activity with no expectation of compensation may suggest that it is not for a business purpose.

**(e) *Directly or indirectly soliciting others in connection with the activity***

Contacting others to solicit securities transactions or to offer advice reflects a business purpose. Solicitation includes contacting others by any means, including advertising that proposes buying or selling securities or participating in a securities transaction, or that offers services or advice for these purposes.

We do not consider an entity setting up a website for third parties to post information on investment opportunities, such as a bulletin board, to be in the business of advising or trading in securities if that entity has no other role in any trades that may take place between parties who use the bulletin board.

**1.4 Applying the business trigger factors**

This section explains how the business trigger factors might apply to some common situations.

**1.4.1 Securities issuers**

In general, securities issuers with an active non-securities business are not also in the business of trading in securities, even when distributing their own securities directly to investors. This is because, even when taking raising capital into account, most issuers:

- trade in securities infrequently
- are not remunerated, or do not expect to be remunerated, for trading in securities
- do not act in an intermediary capacity
- do not produce, or intend to produce, distinct profit from trading in securities
- do not hold themselves out as being in the business of trading in securities

However, securities issuers may be in the business of trading securities if they:

- regularly trade in securities
- hold themselves out as being in the business of trading in securities
- employ or otherwise contract with persons to perform activities on their behalf that are similar to those performed by a registrant (other than underwriting in the normal course of a distribution or trading for their own account)

Section 8.3 provides securities issuers whose activities fall within the business trigger with an exemption from the dealer registration requirement if they distribute their securities:

- solely for their own account
- solely through a registered dealer that is registered in the appropriate category

Securities issuers are in most cases subject to the prospectus requirements in securities legislation. Regulators have the discretionary authority to require an underwriter for a prospectus distribution.

#### **1.4.2 Mortgage investment companies**

Mortgage investment companies (MICs) are securities issuers. In many cases, they are in the business of trading in securities and are therefore required to register in an appropriate dealer category.

While MICs can have various business models, they typically:

- solicit investors actively
- trade in securities frequently
- do not expect to be remunerated for issuing their own securities to investors, but may act as intermediaries to the extent that their business model is based on obtaining a return on the further investment of their investors' funds in securities (the mortgages)
- select mortgage investments, rather than develop the underlying real estate
- only allow investors to withdraw their capital by exercising redemption rights through the MIC

#### **1.4.3 Venture capital**

A wide range of potentially registerable activities can be described as "venture capital" investing. While we cannot give specific guidance for every possible situation, we have found that considering the expectations and reliance of investors can be particularly relevant when applying the business trigger factors to venture capital.

For example, whether the general partner (GP) of a limited partnership (LP) that acquires securities would have to register as an adviser depends on:

- the application of the business trigger factors to the business purpose of the LP
- the types of services the GP provides to the LP
- the expectations of the limited partners

If the purpose of the LP is to invest in a trading portfolio of securities and the limited partners are relying on the GP's expertise in selecting the securities and deciding when to buy and sell them, we would require the GP to register as an adviser.

If the limited partners are relying on the GP for expertise other than providing advice on selecting investments in securities, we may not require the GP to register as an adviser. This would be the case where a GP's role is to select small private companies that the GP will actively manage and develop. We would view the purchase and eventual sale of the securities as incidental to the GP's activities on behalf of the LP.

#### **1.4.4 Principal trading activities**

##### ***Trading for own account***

In most instances, we would not consider persons or companies to be in the business of trading in securities if their main or sole trading activity is trading for their own account. For example, individuals, day traders and pension funds that regularly buy or sell securities for their own account, through a registered dealer or otherwise, would not need to register.

Applying the business trigger factors discussed in section 1.3 of this Companion Policy, these persons or companies would not be in the business of trading securities because they:

- are not remunerated for undertaking the activity
- do not solicit others in connection with the activity
- do not act as an intermediary, or
- do not hold themselves out as being in the business of trading in securities

***Trading for a registered firm***

Principal trading carried on by a registered firm is inherently different from that carried on by a business that is not otherwise required to register. Registered firms and those who trade on their behalf have a unique position in, and direct access to, the markets. They also have obligations to clients. There is often the potential for conflicts of interest in these circumstances.

In addition, principal trading can have a significant impact on a firm's financial viability, which introduces systemic risks. It is therefore appropriate that individuals who conduct principal trading for a registered firm be subject to the registration requirement, even if they do not trade for clients.

**1.4.5 Activities not commonly in the business of trading or advising in securities**

***One-time activities***

In general, we do not require registration for trading activities:

- by an individual or other person that is acting as a trustee, executor, administrator, personal or other legal representative
- relating to selling goods or supplying services between affiliated companies
- relating to the sale of a business

In some cases, these are one-time activities that do not reflect a business purpose. In other cases, the overall activities may be of a business nature, but trading or advising in securities is incidental to the primary purpose of the business.

***Incidental activities***

Activity that is incidental to the primary business of a firm may suggest that there is no business purpose in the activity in itself.

For example, merger and acquisition specialists advising the parties to a transaction between corporations are not normally required to register as advisers in connection with that activity, even though the transaction may result in trades in securities. The business purpose in this example is to effect the transaction. Any advice with respect to trades in the securities is incidental to that purpose and is limited to the parties to the transaction.

In general, professionals such as lawyers, accountants, engineers, geologists and teachers, who provide advice in the normal course of their professional operations, are not in the business of advising in securities. For the most part, any advice they may give will be incidental to their professional activities. However, in each case it is important to consider the advising activity with reference to the business trigger factors.

Normally, these professionals are not in the business of advising securities because they do not:

- repeatedly advise in securities
- receive separate remuneration for their advising services
- solicit clients on the basis of their advising services
- hold themselves out as being in the business of advising in securities

However, we would consider a professional to be in the business of advising in securities if securities advice is a primary reason for the client's relationship with the professional. This is the case if the professional regularly provides advice on securities and solicits clients based on these advising services.

## PART 2 – CATEGORIES OF REGISTRATION

### 2.1 General

Securities legislation distinguishes among investment fund managers and categories of dealers and advisers.

The categories of registration for firms serve two main purposes:

- to specify the type of business that the firm may conduct and, therefore, the types of business that the firm is not registered to conduct and may not carry on
- to provide a framework for the requirements the registrant must meet

Individual categories set out the qualifications necessary for an individual to perform particular roles on behalf of a registered firm.

This Part explains categories of registration that were introduced in NI 31-103.

### 2.2 Exempt market dealer

Section 2.1 restricts an exempt market dealer to trading in:

- securities distributed under an exemption from the prospectus requirement
- securities distributed under a prospectus despite the fact that a prospectus exemption was available
- securities that, if the trade were a distribution, may have been distributed under an exemption from the prospectus requirement, or
- any security, if the trade is (i) on behalf of a client of the exempt market dealer, (ii) the security was acquired by the client in a circumstance for which there would be a prospectus exemption if the trade formed part of a distribution, and (iii) the trade is with a registered dealer

For example, an exempt market dealer may trade in prospectus-qualified securities with accredited investors. Also an exempt market dealer can, under subsection 2.1(1)(d)(i)C), trade in a security if such trade does not constitute a distribution within the meaning of NI 45-106 provided that, if it were a distribution, it could have been made under an exemption from the prospectus requirement.

### 2.3 Restricted dealer

This category permits specialized dealers that would not necessarily qualify for unrestricted dealer registration to carry on business under terms and conditions imposed by the local regulator. We will only register restricted dealers if there is a compelling case for permitting the proposed trading to take place outside of one of the other registration categories.

For example, an issuer might use this category if it must register because it is in the business of trading in securities but cannot rely on the exemption in section 8.3. In this case, the regulator would restrict the issuer's registration to trading in securities of its own issue and exclusively for its own account.

Terms and conditions for restricted dealers will be coordinated among the CSA jurisdictions.

### 2.4 Trading in securities – exemption for advisers

Firms that are registered advisers routinely create pooled funds as a way to efficiently invest money deposited to their clients' accounts. In doing so, they enter into the business of trading in securities because this trading activity is more than incidental to their business as advisers. However, requiring an adviser that has bona fide fully-managed accounts to also register as a dealer would not achieve any material benefits from a regulatory point of view.

The exemption in section 2.2 relieves a registered adviser that is actively managing its clients' accounts with discretionary authority from having to register as a dealer to distribute units of its pooled funds into the clients' accounts. The exemption is available both to registered advisers and those who qualify for the international portfolio manager exemption under section 8.15.

There is an anti-avoidance provision in subsection 2.2(2). The exemption is not intended to apply to an adviser that operates an investment fund as a core or principal business activity. This may be the case if an adviser:

- has only a small number of funds into which most of its client accounts are invested
- dedicates more time to managing its funds than managing client accounts
- focuses on designing and managing its funds, rather than on understanding the investment needs of its clients and tailoring the fully-managed portfolios to their needs

In this situation, advisers should consider whether the prospectus requirement and the requirement to register as an investment fund manager apply.

## **2.5 Advising in securities**

Those who provide specific advice are required to register as an adviser. Specific advice is tailored to the needs and circumstances of the client and concerns one or more specific securities. The most obvious example of specific advice is discretionary account management.

Section 8.14 contains an exemption from registering as an adviser for those who provide generic advice. Generic advice is not tailored to the needs and circumstances of the person or company receiving the advice, although it may refer to specific securities.

Generic advice about specific securities may be delivered through investment newsletters and articles in general circulation newspapers and magazines or through websites, e-mail, internet chat rooms and bulletin boards, as long as it does not claim to be tailored to the needs and circumstances of any recipient.

Generic advice can also be given at conferences. However, if a purpose of the conference is to solicit specific securities transactions, we may consider the advice to be specific or may consider the individual giving it to be engaged in trading activity in that the real purpose of the advice is to generate trades by members of the audience.

## **2.6 Restricted portfolio manager**

The advising activities of a restricted portfolio manager are limited by terms and conditions that the regulator imposes on its registration. This category is intended to permit persons or companies to advise in specific securities, classes of securities or the securities of a class of issuers.

For example, an individual who has extensive expertise in oil and gas issuers, but does not have the prescribed proficiency of a portfolio manager advising representative might be registered as an advising representative of a restricted portfolio manager whose terms and conditions on registration permit it to advise solely in securities of oil and gas issuers.

Terms and conditions for restricted portfolio managers will be coordinated among the CSA jurisdictions.

## **2.7 Associate advising representative**

An individual who does not meet the education and experience requirements for registration as an advising representative may be registered as an associate advising representative. This category is primarily intended to be an apprentice category for individuals who intend to become full advising representatives but who do not meet the education or experience requirements.

This category allows an individual to work at a registered adviser while completing the proficiency requirements for an advising representative. For example, it would allow a former advising representative to work in an advising capacity while acquiring the relevant working experience that is required for an advising representative under section 4.11.

However, there is no requirement for an associate advising representative to subsequently register as a full advising representative. This category accommodates, for example, an individual who has a client relationship role that includes specific advice, but who is not managing clients' portfolios without supervision.

As required by section 2.8, advice provided by an associate advising representative must be approved by an advising representative. The appropriate processes for approving the advice of an associate advising representative will depend on the circumstances, including the individual's level of experience. The registered firm must:

- document its policies and procedures for meeting these obligations and maintain specific records where advice is approved, as provided in sections 5.15 and 5.23
- notify the regulator of the designation of an advising representative for approving the advice of an associate no later than the 5th business day following the date of the designation

## **2.8 Investment fund manager**

Investment fund manager is defined in section 2.6 as “a person or company that is permitted to direct the business, operations and affairs of an investment fund”. An investment fund manager generally organizes the fund and contractually accepts responsibility for its management and administration. It does not act as a portfolio manager for the fund.

Administering an investment fund may include information gathering, performance reporting and handling client assets. The fund, trust or company broadly delegates these responsibilities to the investment fund manager under a management agreement. Most agreements allow the fund manager to sub-delegate these responsibilities to other service providers. An investment fund manager remains fully liable for any sub-delegated responsibilities.

We do not expect an investment fund manager to register in every jurisdiction where a fund is distributed. Investment fund managers are required to register only in the jurisdiction where the person or company that directs the management of the fund is located, which in most cases will be where their head office is located. However, if an investment fund manager directs the management of funds from locations in more than one jurisdiction, it must register in each of them. If an investment fund manager is located outside Canada, there is no requirement for it to be registered in Canada, unless it is directing the management of a fund from inside Canada.

### **2.8.1 Marketing and wholesaling activities of investment fund managers**

In general, investment fund managers will have to register as a dealer if they carry on marketing and wholesaling activities, such as:

- advertising the fund to the general public
- promoting the fund to registered dealers
- distributing the fund to registered dealers which then sell securities of the fund to investors

Investment fund managers do not have to register as a dealer if their marketing and wholesaling activities are incidental to their activities as an investment fund manager. In this case:

- the marketing and wholesaling activities must relate to investment funds managed by the investment fund manager, not a third party, and
- the funds must be distributed to investors through a dealer, not directly by the investment fund manager

## **2.9 Chief compliance officer and ultimate designated person**

Sections 2.9 and 2.10 require registered firms to designate a chief compliance officer (CCO) and ultimate designated person (UDP). The CCO and UDP must be registered and perform the compliance functions prescribed in sections 5.24 and 5.25.

While the CCO and UDP have specific compliance functions, they are not solely responsible for compliance – it is the responsibility of the firm as a whole. A good compliance system will include provisions for alternates designated to act in the absence of the UDP or CCO.

### **2.9.1 UDP**

The UDP is the chief executive officer or sole proprietor of the registered firm, or the senior officer responsible for the division in the firm that carries on the activity that requires registration. The role of the UDP is to lead the compliance efforts of the firm. This involves promoting a culture of compliance and overseeing the effectiveness of the firm's compliance system. The UDP is not necessarily required to be involved in the day-to-day management of the compliance group. There is no proficiency requirement for the UDP.

### **2.9.2 CCO**

The CCO is an operating officer whose role is to lead the monitoring component of the registered firm's compliance system. This includes establishing or keeping up-to-date policies and procedures for the firm's compliance system, and managing the firm's compliance monitoring activities and compliance reporting according to those policies and procedures. The CCO may, in the firm's discretion, also have authority to take supervisory action to resolve compliance issues.

The CCO must meet the applicable proficiency requirements set out in Part 4. There is no requirement for any other compliance staff to be designated or registered unless they are also advising or trading. The CCO may determine what knowledge and skills are necessary or desirable for individuals who report to the CCO.

A firm that is registered in multiple categories is only required to have one CCO. In this case, the CCO must meet the most stringent of the proficiency requirements of the firm's various categories of registration.

In especially large firms, the scale and kind of activities undertaken by different operating divisions may warrant the designation of more than one CCO. We will consider applications, on a case-by-case basis, for situations where the CCO of one registered firm may act as the CCO of another registered firm.

### **2.9.3 The same person as UDP and CCO**

The appropriate size and structure of a registered firm's compliance group will depend on the size and scope of the firm's operations. The UDP and the CCO may be the same person, if that person meets the requirements for both registration categories. In our view, separating the functions is the best practice, but we recognize that this might not be practical for some registered firms.

### **2.9.4 UDP or CCO as adviser or dealer**

The UDP and CCO may also be registered in trading or advising categories. For example, a small registered firm might conclude that one individual can adequately function as UDP and CCO, while also conducting advising and trading activities. A large registered firm with diverse operations may require a large team of compliance professionals with several divisional heads of compliance reporting to a CCO dedicated entirely to a compliance role.

## **2.10 Multiple registrations**

### **2.10.1 Multiple firm categories**

A firm may carry on trading activities in several types of securities. In this case, it must register in all applicable dealer categories as set out in section 2.1. For example, a mutual fund dealer may only trade in prospectus-exempt securities if it also registers as an exempt market dealer. Similarly, a portfolio manager that manages an investment fund may have to register as a portfolio manager and an investment fund manager.

### **2.10.2 Multiple individual categories**

An individual who performs more than one activity requiring registration on behalf of a registered firm must register in all applicable categories. For example, an advising representative of a portfolio manager who is also the firm's CCO must register in the categories of advising representative and CCO. This individual must meet the proficiency requirements of both registration categories.

### **2.10.3 Individual registered in a firm category**

In some cases, an individual may be registered in both a firm and individual category. For example, a sole proprietor who is registered in the firm category of portfolio manager will also be registered in the individual category of advising representative.

### **2.10.4 Multiple registration categories: solvency requirements**

The solvency requirements for firms, as set out in Part 4, Division 2, are not cumulative. If a firm is registered in multiple categories, it must meet the highest capital requirement of its various categories of registration.

### **2.10.5 Multiple registration categories: conduct requirements**

When a firm or individual registered in multiple categories carries on a registerable activity, it must comply with the conduct requirements that apply to that activity. For example, in most circumstances, a registrant in the categories of exempt market dealer and mutual fund dealer must comply with the relationship disclosure requirements in section 5.4 before recommending a mutual fund trade to a permitted client. However, when the registrant is trading an exempt security to a permitted client, the registrant does not have to comply with the relationship disclosure requirement.

## PART 3 – SRO MEMBERSHIP

### 3.1 Requirement for SRO membership

A person or company applying for registration as an investment dealer must be a member of the Investment Dealers Association of Canada (IDA). An individual applying for registration as a representative of a registered investment dealer must be an approved person of the IDA.

Except in Québec, a person or company applying for registration as a mutual fund dealer must be a member of the Mutual Fund Dealers Association of Canada (MFDA) and an individual applying for registration as a representative of a mutual fund dealer must be an approved person of the MFDA.

Mutual fund dealers (except those registered in Québec only), investment dealers and their registered individuals will be automatically suspended under sections 7.3 or 7.4 if they do not maintain their status as members or approved persons in good standing with the applicable SRO.

## PART 4 – FIT AND PROPER REQUIREMENTS

### 4.1 General

The regulator will not register an applicant if the applicant does not appear to be fit and proper, or “suitable”, for registration. Every registrant has an ongoing requirement to maintain suitability for registration. The regulator may review a registrant’s suitability at any time.

Securities legislation gives the regulator discretionary authority to impose terms and conditions on a registration. The regulator will impose terms and conditions if it determines that an applicant or registrant is suitable only for restricted registration. The regulator may suspend or revoke the registration if it determines that a registrant has become unsuitable for registration.

There are three fundamental criteria for assessing a person or company’s suitability for registration:

#### (a) *Integrity*

The applicant or registrant must display integrity and be of honest character.

#### (b) *Proficiency*

Applicants must meet the applicable education and experience requirements prescribed by securities legislation and demonstrate knowledge of securities legislation. Registrants must also ensure that they develop and maintain a level of knowledge and ethics training that keeps pace with new products and services that they may offer.

#### (c) *Solvency*

The regulator will assess the overall financial situation of the applicant or registrant. Depending on the circumstances, the regulator may consider the registrant’s or applicant’s contingent liabilities. An applicant that is insolvent will be considered unsuitable for registration. An applicant that has a history of bankruptcy usually will not be suitable for registration. If a registrant becomes bankrupt or insolvent, the regulator may take that into account when assessing the registrant’s continuing suitability, as further discussed in section 4.6 of this Companion Policy.

The regulator will also consider whether an individual’s ability to discharge the responsibilities of a registrant might be affected by:

- other employment or partnerships
- service as a member of a board of directors
- potential conflicts of interest

### 4.2 IDA proficiency requirements

Part 4 does not prescribe proficiency requirements for investment dealer representatives who are approved by the IDA. The IDA prescribes the minimum entry and ongoing proficiency requirements for dealing representatives of its members. Accordingly, subsection 3.1(2) requires that a dealing representative of an investment dealer must be approved by the IDA. However, satisfying IDA proficiency requirements is a key factor for the regulator in determining suitability of these individuals.

### 4.3 Examination-based proficiency requirements

Part 4 prescribes examination-based, rather than course-based, education requirements, where possible. For example, an applicant is not required to complete the Canadian Securities Course but must pass the Canadian Securities Examination. It is up to the individual to determine what courses or other preparation, if any, is appropriate for him or her.

### 4.4 Relevant experience

The regulator will consider granting an exemption from any of the prescribed proficiency requirements in Part 4, Division 1 if it is satisfied that an individual has qualifications or relevant experience that are equivalent to, or more appropriate in the circumstances, than the prescribed proficiency requirements.

The 12 and 24 months of relevant experience referred to in subsection 4.4(2) and sections 4.11 and 4.12 respectively does not have to be consecutive. It can be a cumulative total during the 36-month period before the date the individual applied for registration.

Relevant experience under subsection 4.4(2) may include experience from working in:

- a registered dealer or registered adviser
- an investment fund manager firm
- related investment fields, such as investment banking, securities trading on behalf of a financial institution, securities research, portfolio management, investment advisory services or supervision of those activities
- legal, accounting and consulting practices related to securities legislation
- providing other professional services to the securities industry
- a securities-related business in a foreign jurisdiction

Relevant investment management experience under section 4.11 may include employment:

- as a registered dealing representative with a registered dealer firm
- under the supervision of:
  - an unregistered investment manager of a Canadian financial institution
  - an adviser that is registered in another jurisdiction of Canada or a foreign jurisdiction, or
  - an adviser that is not required to be registered under the laws of the jurisdiction in Canada or foreign jurisdiction where the adviser carries on business

### 4.5 Restricted dealer and restricted adviser – proficiency for representatives

The regulator will decide on a case-by-case basis what education and experience are required for registration as:

- a dealing representative or CCO of a restricted dealer
- an advising representative or CCO of a restricted adviser

The regulator will determine these requirements when it assesses the individual's suitability for registration.

### 4.6 Bankruptcy or insolvency after registration

The regulator will review the circumstances of a registrant's bankruptcy or insolvency on a case-by-case basis. If the regulator finds evidence that activities, such as unethical conduct or gross error in business judgment, led to the bankruptcy, it may suspend or terminate the registrant's registration. In other situations, the regulator may impose terms and conditions on the registrant's registration, such as close supervision of the individual and delivering progress reports to the regulator.

#### 4.7 Capital and insurance requirements

Initial and ongoing capital requirements are intended to ensure a registered firm can meet the demands of its counterparties and, if necessary, wind down its business in an orderly fashion without loss to its clients. Registrants must calculate their excess working capital using Form 31-103F1 *Calculation of excess working capital*. Excess working capital must never be less than zero.

Registrants are also required to maintain bonding or insurance that provides for a “double aggregate limit” or a “full reinstatement of coverage”.

A double aggregate limit provision covers the registrant for twice the amount of the single loss limit for any number of losses in the year. The coverage for any one loss may not exceed the single loss limit. For example, if an adviser maintains a financial institution bond of \$50,000 with a double aggregate limit, the adviser’s coverage is \$50,000 for any one claim and \$100,000 for all claims during the year.

A full reinstatement of coverage provision means that the policy has no total loss limit. However, the total claimed for any one loss cannot exceed the amount of the policy’s single loss limit. For example, if an adviser maintains a financial institution bond of \$50,000 with a full reinstatement of coverage provision, the adviser’s maximum coverage is \$50,000 for any one claim and there is no limit to the total amount that can be claimed under the bond.

##### 4.7.1 Capital, insurance, and client assets

The capital and insurance requirements applicable to an exempt market dealer, and the insurance requirements applicable to an adviser, depend in part on whether the dealer or adviser handles, holds or has access to client assets, including cheques or similar instruments. This is the case when the dealer or adviser:

- holds clients’ securities certificates or cash for any period of time
- has the authority (e.g. power of attorney) to withdraw funds or securities from clients’ accounts
- accepts funds from clients (e.g. a cheque made payable to the registrant)
- handles client cheques in transit (e.g. a cheque made payable to a third-party issuer)
- accepts clients’ funds from a custodian (e.g. clients’ funds are deposited in the registrant’s bank accounts prior to issuing a cheque to the clients)
- acts in the capacity of a trustee for clients
- has, in any capacity, legal ownership of, or access to, the client funds or securities
- has authority to debit client accounts to pay bills other than investment management fees

#### 4.8 Financial records

Subsection 4.32(1) requires registered firms to prepare financial statements in accordance with generally accepted accounting principles, except that the statements are to be prepared on an unconsolidated basis.

Section 5600 of the CICA Handbook provides guidance for auditors signing an audit report concerning financial statements prepared in accordance with regulatory or legislative requirements.

#### 4.9 Criminal charges

If a registrant is charged with a crime, in particular fraud or theft, the regulator may take action to suspend the registration without waiting for the results of the criminal proceedings. The regulator will normally consider the facts giving rise to criminal charges in a hearing that is closed to the public. In these cases, the registrant’s right to a fair trial before the criminal courts outweighs the desirability of adhering to the principle that all hearings be open to the public.

#### 4.10 Foreign head office

When determining whether a firm whose head office is in a foreign jurisdiction is, and remains, suitable for registration, we will consider:

- whether the firm maintains registration or regulatory organization membership that is appropriate for the securities business being carried out in the foreign jurisdiction
- whether the firm continues to engage in the securities business for which the registration or membership is required in the foreign jurisdiction

The registered firm must notify the regulator in accordance with National Instrument 33-109 *Registration Information* (NI 31-109) of any change in this information.

## **PART 5 – CONDUCT RULES**

### **5.1 Account opening and recordkeeping**

Each record required under subsection 5.2(1) and section 5.15 should clearly indicate the person or company and the account to which the record refers. Information in a record can cover only the accounts of the same accountholder or group. For example, registrants should obtain separate information for an individual's personal accounts and for accounts of a legal entity that the individual wholly owns or jointly holds with another party. Registrants should also obtain all required proxy documents.

Where applicable, the financial details should note whether the information is for an individual client or a family. This includes spousal income and net worth. The financial details for legal entity accounts should note whether the information refers to the entity or the owner(s) of the entity.

Investment knowledge or experience for multi-party or legal entity accounts should note whose investment knowledge or experience is being described.

If a client is opening more than one account, the investment objectives and risk tolerance should indicate whether they apply to a particular account or to the client's whole portfolio across accounts.

All information relating to suitability should be in a form that makes it usable in the registered firm's supervision systems.

If the registered firm permits clients to complete new account forms themselves, the forms should use language that is clear and avoids terminology that may be unfamiliar to unsophisticated clients.

### **5.2 Know-your-client**

The know-your-client (KYC) obligation in section 5.3 is an exercise in due diligence that protects the client, the registrant and the integrity of the capital markets. KYC forms the basis for investment suitability determinations and identifying, among other things, violations of trading rules and persons or companies that may want to trade illegally.

Registrants should collect the following information about clients that are not individuals:

- the nature of the client's business or other purposes of the entity
- control structure
- beneficial ownership

If it is unduly difficult for a registrant to determine beneficial ownership, as part of determining identity as required by subsection 5.3(1), the registrant should consider carefully why this might be so and whether it would be appropriate to closely scrutinize account activity until the beneficial owners are identified or to decline to accept the client.

To determine suitability, registrants should, at a minimum, collect the following information about each client:

- investment objectives
- investment knowledge and experience
- risk tolerance
- investment time horizon
- current investment holdings

- employment status
- income level
- net worth

Under subsection 5.3(4), registrants are required to make reasonable efforts to keep the KYC information of their clients current. Registrants should at all times have a reasonable basis for believing that they are acting on current KYC information.

We would interpret "current" in the context of the obligation to have sufficiently up-to-date information to support a suitability determination. This means, for example, that a portfolio manager with discretionary authority should update its client's KYC information frequently, but a dealer who only occasionally recommends trades to a client would only be expected to ensure that client's KYC information is up-to-date at the time of a recommendation.

### **5.3 Relationship disclosure information**

#### **5.3.1 Content of relationship disclosure information**

The relationship disclosure information required under section 5.4 is not required to take the form of a separate document specially prepared for this purpose. The requirement may be met by providing a client with separate documents which, together, give the client the prescribed information. A registered firm should also provide its clients with any other information that the registered firm determines is necessary to clearly set out essential relationship information.

#### **5.3.2 Promoting client understanding**

Registered firms should promote their clients' understanding of the relationship and encourage their clients to:

- provide full and accurate information to the firm and the registered individuals acting on behalf of the firm
- promptly inform the firm of a change to any information that could reasonably result in a change to the types of investments appropriate for the client, such as a change to the client's income, investment objectives, risk tolerance, time horizon or net worth
- carefully review all account documentation, sales literature and other documents provided by the firm
- understand the potential risks and returns on investments
- ask questions and request information from the firm to resolve questions about the account, transactions, investments or the relationship with the firm or a registered individual acting on behalf of the firm
- pay for securities purchases by the settlement date
- regularly review portfolio holdings and performance
- consult professionals, such as a lawyer or an accountant, for legal or tax advice, where appropriate

A client's ability to meet some of these expectations will depend to some extent on the quality of the information provided by the firm.

### **5.4 Suitability of investments**

To meet the obligation in section 5.5 to determine suitability of an investment for a client, registered individuals must understand all products that they are trading for, or recommending to, the client. This includes the structure, features and full costs of each product and any eligibility requirements (for example, whether the product is restricted to accredited investors).

Under subsections 5.5(3) and 5.5(4), there is no obligation to make a suitability determination for certain clients who are deemed not to need or want the protections that a suitability determination provides. Permitted clients are treated differently depending on the type of registrant who is trading or advising. For example, exempt market dealers are not required to determine suitability for permitted clients because of the nature of the business relationship. However, nothing precludes an exempt market dealer from providing a suitability determination if a permitted client asks for one.

Under subsection 5.5(5), permitted clients of other registrants may waive suitability determinations. Registrants should ensure that these clients are fully informed of the consequences of waiving suitability before they do so. Registrants should properly document and retain the waiver in their record-keeping system.

Section 3.3 also provides exemptions from the investment suitability obligation for SRO members. These exemptions generally apply to discount broker activity or to certain institutional clients.

## **5.5 Recordkeeping – general**

In most circumstances, registered firms should maintain the following records to satisfy subsection 5.15(1)(a):

- material contracts
- reconciliations of bank statements and securities positions
- notes of oral communications with a client
- all e-mail, regular mail, fax and other written communications with clients

## **5.6 Activity and relationship records**

### **5.6.1 Activity records**

Activity records record information about buy or sell transactions, referrals, margin transactions and any other activities relating to a client's account.

They include records of all actions leading to trade execution, settlement and clearance, such as trades on exchanges, alternative trading systems, over-the-counter markets, debt markets, and distributions and trades in the prospectus-exempt market.

Examples of activity records are:

- trade confirmation statements
- summary information about account activity
- communications between a registrant and its client about particular transactions
- records of transactions resulting from securities a client holds, such as dividends or interest paid, or dividend reinvestment program activity

In determining whether a record is an activity record, firms should also consider the recordkeeping requirements in National Instrument 23-101 *Trading Rules*.

A trade should be reported in the currency in which it was executed. Where foreign currency is executed through a Canadian account, the exchange rate should be reported to the client.

A sub-adviser to an adviser or a dealer executing trades directed by an adviser or another dealer should consider the other registrant to be its client for purposes of providing activity records.

### **5.6.2 Relationship records**

Relationship records record information about a registered firm's relationship with its client and relationships that any representatives have with that client.

Relationship records include:

- communication between the firm and its clients, such as:
  - disclosure provided to clients
  - agreements between the registrant and its clients

- account opening information
- change of status information provided by the client
- disclosure and other relationship information provided by the firm
- margin account agreements
- communications that do not relate to a particular transaction
- conflicts records

#### **5.7 Third party access to records**

Registered firms should have proper safeguards in place to ensure that there is no unauthorized access to information, particularly confidential client information. Registered firms should be particularly vigilant if they maintain books and records in a location that employees of a third party can access.

#### **5.8 Complying with recordkeeping requirements**

Registered firms should consider conducting regular internal tests to determine whether their records comply with applicable securities legislation.

The regulator or the securities regulatory authority is authorized under securities legislation to access, examine and take copies of a registered firm's records. The regulator or the securities regulatory authority may conduct regular and spot compliance reviews of registered firms.

#### **5.9 Compliance system**

##### **5.9.1 Purpose of compliance system**

The purpose of the compliance system mandated under section 5.23 is to protect both clients and registrants, which contributes to greater investor confidence and participation in our capital markets. An effective compliance system provides reasonable assurance that the registered firm is meeting, and will continue to meet, all requirements of applicable securities laws and SRO rules.

A registered firm's compliance system should:

- ensure that everyone in the firm, including the board of directors or partners, management, employees and agents (whether or not they are registered) understands the standards of conduct for their role
- be reasonably likely to identify non-compliance at an early stage
- provide effective mechanisms for correcting non-compliant conduct in a timely manner

Compliance is a firm-wide responsibility. The existence of the UDP and CCO, and in larger registered firms, a dedicated compliance monitoring group and individuals inside or outside that group with specific compliance and/or supervisory responsibilities, does not relieve others in the firm of the obligation to report and act on compliance issues.

##### **5.9.2 Elements of an effective compliance system**

Registered firms must operate an effective compliance system in order to remain suitable for registration. An effective compliance system has two inter-related elements: day-to-day supervision and systemic monitoring.

Day-to-day supervision includes:

- identifying specific cases of non-compliance
- taking action to remedy them
- minimizing the risk of non-compliant behaviour in key areas of the registered firm's operations

Minimizing risk usually involves activities such as approving new account documents, monitoring and in some cases, approving transactions, approving marketing material and preventing inappropriate use or disclosure of non-public information.

Systemic monitoring involves assessing, advising on and reporting on the effectiveness of the registered firm's compliance system. This includes ensuring that day-to-day supervision at the firm is reasonably effective in identifying compliance deficiencies and promptly remedying them. It also includes ensuring that policies and procedures are kept up to date and that everyone at the firm generally understands and complies with them.

More specific components of an effective compliance system include:

- the visible commitment of senior management and the board of directors or partners
- sufficient resources to operate effectively
- detailed written policies and procedures that:
  - set out the firm's standards of conduct for regulatory compliance
  - set out the systems for monitoring and enforcing compliance with those standards
  - clearly outline who is expected to do what, when and how
  - are readily accessible by everyone who is expected to know and follow them
  - are kept up to date with changes in regulatory requirements and the firm's business practices
- the designation of individuals to monitor the firm's compliance, identify any incidents of non-compliance and take supervisory action to correct them, including those assigned to fill those positions temporarily during absences (all of these individuals must have the qualifications and authority to carry out the responsibilities assigned to them)
- training to ensure that everyone at the firm understands the standards of conduct and his or her role in the compliance system, including ongoing communication and training on changes in regulatory requirements or the firm's policies and procedures
- records of activities conducted to identify and correct compliance deficiencies
- where compliance deficiencies have been identified, records of the action taken to remedy them

### **5.9.3 Setting up a compliance system**

It is up to each registered firm to determine the most appropriate compliance system for its operations. For example, in some firms, the compliance-monitoring group may be authorized to take supervisory action, but in others it may not. Policies and procedures alone do not make an acceptable compliance system.

Registered firms should consider their size, scope of operations, products, types of clients or counterparties, risks and compensating controls, and any other relevant factors. Some of the elements noted in section 5.9.2 of the Companion Policy may be unnecessary or unworkable in smaller registered firms. However, all registered firms must have systems, policies and procedures to ensure they comply with the regulatory requirements under subsection 5.23(2).

We encourage firms to meet or exceed industry best practices to assist them in complying with regulatory requirements. The CSA or its member regulators may from time-to-time publish recommendations for best practices for various categories of registration. The SROs also do this for their members.

### **5.9.4 Supervision**

Managers or others designated by their registered firm with authority to supervise specified registered individuals have a responsibility on behalf of the firm to take all reasonable measures to ensure that each of these individuals:

- acts honestly and in good faith toward clients
- complies with securities legislation and firm policies and procedures
- maintains an appropriate level of proficiency on an on-going basis

The effectiveness of a registered firm in identifying and remedying compliance deficiencies is an important element in assessing its continuing suitability for unrestricted registration.

### **5.10 Outsourcing**

Registrants may only outsource non-core “back office” activities that are not registerable. Outsourcing can be a cost-effective alternative to the registered firm conducting those operations in-house. It can also be a way to access specialized expertise that would otherwise be unavailable. However, registered firms are fully liable and accountable for all functions that they outsource to a service provider. A written, legally binding contract should include the expectations of the parties to an outsourcing arrangement.

Prudent business practice requires registered firms to conduct a due diligence analysis of prospective third-party service providers to assess their reputation, financial stability, relevant internal controls and overall ability to deliver the services. This includes third-party service providers that are affiliates of the firm.

Registered firms should:

- ensure that third-party service providers have adequate safeguards for keeping information confidential and, where appropriate, disaster recovery capabilities
- conduct ongoing reviews of the quality of outsourced services
- develop business continuity plans for the possibility that third-party service providers may not deliver their services in a satisfactory manner, which could lead to disruption of a firm’s business and negative consequences for its clients
- note that other legal requirements, such as privacy laws, may apply when entering into outsourcing arrangements

The regulator, the registered firm and the firm’s auditors should have the same access to the work product of a third-party service provider as they would if the firm performed the activities. We expect firms to ensure that this access is provided and to include a provision for it in their contractual arrangements if necessary.

### **5.11 Responsibility to prevent client confusion**

As part of its duty toward clients, registrants should ensure that their clients understand which legal entity they are dealing with, especially if more than one financial services firm is carrying on business in the same location. Registrants may use various methods, including signage and disclosure, to differentiate themselves. A registrant should carry on all registerable activities in the name of the registrant. Contracts, confirmation and account statements, among other documents, should contain the full legal name of the registrant.

### **5.12 Client complaints**

#### **5.12.1 Firms registered in Québec**

Registered firms in Québec comply with Division 6 if they comply with sections 168.1.1 to 168.1.3 of the Québec *Securities Act*, which has provided a substantially similar regime since 2002.

The following guidance applies to firms registered in any jurisdiction, including Québec.

#### **5.12.2 Definition of complaints**

A complaint may be made orally or in writing. A matter is a complaint if it:

- is a reproach against a registered firm
- identifies a real or potential harm that a person or company has experienced, or may experience, because of the actions of a registered firm or its representatives
- is a request for the registered firm to take remedial action

Registered firms must document and effectively and fairly respond to every complaint, not just those relating to possible violations of securities legislation. An effective complaint system deals with all formal and informal complaints or disputes internally or refers them to the appropriate external person or process in a timely and fair manner.

### 5.12.3 Dispute resolution service

Registered firms must participate in an independent dispute resolution service for complaints relating to any trading or advising activity of the firm or its representatives.

Registrants should be fully aware of all applicable processes for dealing with complaints. They should disclose to all clients all dispute resolution mechanisms available for pursuing different types of complaints. Dispute resolution mechanisms include those prescribed by the applicable SRO.

In Québec, registrants must inform each complainant, in writing and without delay, that if the complainant is dissatisfied with the handling of the complaint or with the outcome, the complainant may request the registrant to forward a copy of the complaint file to the Autorité des marchés financiers. A copy of the complaint file must, upon request by a complainant, be forwarded to the Autorité des marchés financiers which examines the complaint and may, if it considers it appropriate, act as a mediator if the parties agree.

### 5.12.4 Disclosure of complaints

Some registrants are also registered or licensed to do business in other sectors, such as insurance. These registrants should inform their clients of the complaint resolution mechanisms for each sector in which they do business and how to use them.

### 5.12.5 Handling of complaints

Registered firms should acknowledge receipt of the complaint to the complainant within 10 business days.

Sales supervisors or compliance staff should handle the complaint promptly. In most cases, registered firms should provide a substantive response to a complaint within three months of receiving it.

Registered firms should ensure that the CCO and appropriate supervisors are aware of all complaints. They should also ensure that procedures are in place to inform senior management about all complaints of serious misconduct and of all legal actions.

Registered firms should document all complaints made against them and their representatives, and all legal actions or other dispute resolution proceedings relating to these complaints. They should keep a current record of complaints, and retain it for seven years from the date of the complaint.

Complaint records should include the following information:

- date of the complaint
- nature of the complaint
- complainant's name
- name of the person who is the subject of the complaint
- financial product or service that is the subject of the complaint
- date and nature of the decision made about the complaint

## PART 6 – CONFLICTS OF INTEREST

### 6.1 Definition of conflict of interest

#### 6.1.1 General

Conflicts of interest are circumstances where the interests of different parties, such as the interests of clients and those of a registrant, are inconsistent or divergent. This definition of conflicts of interest is not intended to capture inconsequential matters.

The obligations in section 6.1 apply to all conflicts of interest, even when there is a specific section that also applies to the conflict.

## **6.2 Responding to conflicts of interest**

### **6.2.1 Mechanisms**

When responding to any conflict of interest, registrants should consider their standard of care for dealing with clients.

Registrants will generally use three mechanisms to respond to conflicts of interest:

#### **(a) Avoidance**

Registrants should avoid all conflicts of interest that are prohibited by law. If a conflict of interest is not prohibited by law, registrants should avoid it if it is sufficiently contrary to the interests of a client that there can be no other reasonable response.

#### **(b) Control**

If a registered firm does not avoid a conflict of interest, it should consider what internal structures or policies and procedures it should use or have to respond to the conflict of interest reasonably.

#### **(c) Disclosure**

If a registrant does not avoid the conflict of interest, it must consider if it is required to disclose the conflict.

### **6.2.2 Consistency**

Registrants should apply consistent criteria when responding to similar types of conflicts of interest.

### **6.2.3 Conflicts of interest between clients**

If there is a conflict of interest between a registered firm's clients, the firm should be fair to all clients. Firms should have internal systems to evaluate the balance struck between these interests.

For example, there can be a conflict of interest between the interests of investment banking clients, who want the highest price, lowest interest rate or best terms in general for their issuances of securities, and the interests of the retail clients who will buy the product. The firm should consider whether the product meets the needs of retail clients and is competitive with alternatives available in the market.

## **6.3 Avoiding conflicts of interest**

Some conflicts of interest are so contrary to another person's or company's interest that a registrant cannot use controls and/or disclosure to respond to them. In these cases, the registrant should avoid the conflict, stop providing the service or stop dealing with the client. A registered firm's conflicts management policies and procedures should allow the firm and its staff to identify conflicts of interest that should be avoided.

If a registrant allows serious conflicts of interest to continue, there is a high risk of harm to clients or to the market. Registrants should determine the level of risk a conflict of interest raises. If the risk of harming a client or the integrity of the markets is too high, the conflict needs to be avoided.

## **6.4 Controlling conflicts of interest**

### **6.4.1 General**

Depending on the conflict of interest, registered firms may control the conflict using methods such as:

- assigning a different representative to provide the service to the particular client
- creating a group or committee to review, develop or approve responses
- monitoring market activity
- blocking certain internal communication with information barriers

#### **6.4.2 Organizational structures**

Registered firms should ensure that their organizational structures, reporting lines, and physical layout enable them to control conflicts of interest effectively.

For example, the following situations would likely raise a conflict of interest:

- advisory staff reporting to marketing staff
- compliance or internal audit staff reporting to a business unit
- registered representatives and investment banking staff in the same physical location

Robust information barriers may help registered firms control these types of conflicts of interest.

#### **6.4.3 Remuneration**

Registered firms should consider whether any particular benefits, compensation or remuneration practices are inconsistent with their obligations to clients, especially if the firm relies heavily on commission-based remuneration.

#### **6.4.4 Multiple roles for individuals**

Conflicts of interest can arise when representatives serve on a board of directors. Examples include conflicting fiduciary duties owed to the company and to a registered firm or client, possible receipt of inside information and conflicting demands on the representative's time.

Registered firms should consider:

- requiring their representatives to seek permission from the firm to serve on the board of directors of a public issuer or restricted issuer
- having policies for board participation that identify the circumstances where the activity would not be in the best interests of the firm and its clients

#### **6.4.5 Outside business activities**

When individuals are involved in outside business activities, conflicts of interest can arise, for example, from any associated compensation or because of the nature of the relationship between the individual and the outside entity. Before approving any of these activities, registered firms should consider potential conflicts of interest. If the firm cannot properly control a potential conflict of interest, it should not permit the outside activity.

### **6.5 Disclosing conflicts of interest**

#### **6.5.1 General**

Registered firms should make appropriate disclosure of conflicts of interest to their clients. While disclosure alone will often not be enough, it is an integral part of responding to conflicts of interest. Registered firms should ensure that their clients are adequately informed about any conflicts of interest that may affect the services the firm provides to them. Generic disclosure is unlikely to satisfy the registered firm's obligations to respond to conflicts properly.

Disclosure about conflicts of interest should:

- be prominent, specific, clear and meaningful to the client, so that the client can understand the conflict of interest and how it could affect the service the client is being offered
- usually occur before or when the service is provided, so that the client has a reasonable amount of time to assess it

Registered firms should ensure that they do not:

- give partial disclosure that misleads their clients
- obscure conflicts of interest in overly detailed disclosure

### **6.5.2 Timing**

Registered firms should disclose a conflict of interest to their clients before an action, such as a transaction occurs. If it is impossible to do so, the registered firm should disclose the conflict to its clients as soon as possible afterwards.

### **6.5.3 When disclosure is inappropriate**

There are some situations in which disclosing a particular conflict of interest is inappropriate. Examples include conflicts of interest that involve confidential or commercially sensitive information, or that amount to “inside information” under the insider trading provisions.

In these situations, registered firms will need to assess whether they can provide any disclosures and whether there are mechanisms to respond to the conflict of interest adequately. The firm may have to decline to provide the service to avoid the conflict of interest.

Registered firms may disclose material, non-public information only if it is in the necessary course of business. Otherwise, it would be considered “tipping”. Registered firms should have specific procedures for responding to conflicts of interest that involve inside information.

### **6.6 Registrant relationships**

The regulator may exercise his or her discretion to register an individual as a dealing, advising or associate advising representative of a registered firm and as a representative of another affiliated registered firm.

### **6.7 Issuer disclosure statement**

The nature of the relationship between a registered firm and a related issuer and, in the course of a distribution, a connected issuer, can vary. The requirement to describe the nature of those relationships can be satisfied by describing, as applicable:

- an ownership interest
- an overlap of individuals
- a commercial interest
- a family relationship
- any other relevant interest

To satisfy the requirement to describe a connected issuer in the course of a distribution, registered firms may find it useful to provide examples of connected issuers and a description of the nature of the relationship with the firm.

The description of the nature of these relationships in the issuer disclosure statement should not be boilerplate disclosure that could apply to any registrant. The description should be tailored to the particular registered firm, so that the description is meaningful to the firm’s clients.

### **6.8 Allocating investment opportunities fairly**

If the investment process involves allocating investment opportunities, an adviser’s fairness policy should, at a minimum, disclose the method used to allocate:

- price and commission among clients when trades are bunched or blocked
- block trades and initial public offerings among client accounts and among clients that are partially filled, such as pro-rata

The adviser’s fairness policy should also address any other situation where investment opportunities must be allocated.

### **6.9 Acquiring securities or assets of a registered firm**

For purposes of section 6.8, the book of business of a registered firm would be “a substantial part of the assets” of the registered firm.

## **6.10 Relationship pricing**

We are aware that industry participants offer financial incentives or advantages to certain clients. This practice is commonly referred to as “relationship pricing”.

The tied selling provision in section 6.10 is intended to prevent certain abusive sales practices. It is not intended to prohibit relationship pricing or other beneficial selling arrangements similar to relationship pricing.

In our view, section 6.10 would be contravened if, for example, a financial institution refused to make a loan unless the client acquired securities of mutual funds that are sponsored by the financial institution, and the client otherwise met the financial institution’s criteria for making loans.

## **6.11 Referral arrangements**

### **6.11.1 Application**

Section 6.11 defines “referral arrangement” in broad terms. The definition is not limited to referrals for providing financial services or services requiring registration. It also includes receiving a referral fee for providing a client name and contact information to a person or company.

A party to a referral arrangement may need to be registered depending on the activities that party carries out. Registrants cannot use a referral arrangement to assign or contract out of their regulatory obligations.

“Referral fee” is also broadly defined. It includes sharing or splitting any commission resulting from the purchase or sale of a security.

### **6.11.2 Clients**

A client who is referred to a person or company becomes the client of that person or company for the purposes of the trading or advising services provided under the referral arrangement.

The person or company receiving the referral must be registered in an appropriate category or must undertake trading or advising activities under an applicable registration exemption. Section 6.14 requires the registrant making the referral to satisfy itself that this is the case.

The registrant receiving a referral must meet all of its obligations as a registrant toward its referred clients, including know-your-client and suitability determinations.

Registrants involved in referral arrangements should manage any related conflicts of interest in accordance with the applicable provisions of Part 6, Division 1. For example, if the proposed referral fee seems excessive in relation to the service to be provided, the registered firm should assess whether this may create a conflict that could motivate its representatives to act contrary to their duties toward their clients.

### **6.11.3 Written agreement**

The requirement in section 6.12 that parties to a referral arrangement set out its terms in a written agreement is intended to ensure that each party’s roles and responsibilities are made clear.

We expect referral arrangements to include:

- the roles and responsibilities of each party
- limitations on any party to the referral arrangement that is not a registrant to ensure that it is not engaging in any activities requiring registration
- the method of calculating the referral fee and, to the extent possible, the amount of the fee
- the disclosure to be provided to referred clients
- who provides the disclosure to referred clients
- who is responsible for communicating with referred clients

Registered firms are required to be parties to referral agreements entered into by their representatives. This ensures that they are aware of these arrangements so they can adequately supervise their representatives and monitor compliance. This does not preclude the individual registrant from also being a party to the agreement.

#### **6.11.4 Disclosure to clients**

The disclosure of information to clients required under section 6.13 is intended to help clients make an informed decision about the referral arrangement and to assess any conflicts of interest.

In providing the prescribed disclosure, registrants should take reasonable steps to ensure that clients understand:

- which entity they are dealing with
- what they can expect that entity to provide to them
- the registrant's key responsibilities to them
- the limitations of the registrant's registration category and any relevant terms and conditions imposed on its registration
- the extent of the referrer's financial interest in the referral arrangement
- the nature of any potential or actual conflict of interest that arises from the referral arrangement

### **PART 7 – SUSPENSION AND REVOCATION OF REGISTRATION**

#### **7.1 General**

There is no annual or other renewal requirement for registration. Registration remains effective until it is suspended or terminated by a triggering event. Triggering events for terminating registration include:

- an individual ceasing to have a sponsoring firm
- the regulator accepting a request from the registrant to surrender registration
- the regulator suspending or revoking registration

“Suspension” is a restricted state of registration. A suspended registrant must cease the registerable activity but otherwise remains a registrant, subject to the jurisdiction of the securities regulatory authority. “Reinstatement” means that a suspension on a registration has been lifted. “Revocation” means that a registration has been terminated. As a result, the firm or individual must submit a new application to become a registrant again.

Registrants may be entitled to an opportunity to be heard before a decision is made to suspend or revoke registration.

#### **7.2 Termination of a registered individual**

If a registered firm terminates the employment, partnership or agency relationship of a registered individual for any reason (for example, the individual resigns, is dismissed or retires), the firm has five days after the effective date of the individual's termination to file the prescribed notice of termination (Form 33-109F1).

If the notice of termination indicates that the individual resigned or was dismissed for a reason other than retirement or completing a temporary employment contract, the former sponsoring firm has 30 days from the date of termination to file additional prescribed information about the reasons for the termination. This information is necessary for the regulator to determine if there are any concerns about the individual's conduct that may be relevant to his or her ongoing suitability for registration.

#### **7.3 Automatic suspension**

An individual must have a sponsoring firm to be an active registrant. Individuals who voluntarily or involuntarily leave their sponsoring firm are automatically suspended, effective on the day that they cease to have the firm's authority to act on its behalf.

If the registration of a firm is suspended or revoked, the registration of each of its individual dealing or advising representatives is automatically suspended. There is no opportunity to be heard in the case of an automatic suspension.

Certain registration categories require registered firms to be a member of a specified SRO. Individuals acting on behalf of SRO member firms may also be required to be an approved person of the SRO. If an SRO revokes or suspends the membership of a registered firm or approval of an individual, the firm or individual's registration in the category requiring SRO membership or approval will be automatically suspended. This will not apply to mutual fund dealers registered only in Québec.

Where an individual has been suspended by his or her SRO for reasons that do not involve significant regulatory concerns and the SRO has subsequently reinstated his or her approval, we will reinstate the individual's registration as quickly as possible. An example of this would be the routine suspension of IDA approved persons who have missed a deadline to upgrade their proficiency under IDA rules. The IDA reinstates such individuals' approved person status as soon as the required courses have been completed.

If a firm or individual is registered in multiple categories, the regulator will consider on a case-by-case basis whether to suspend the firm's or individual's other registration(s) or to impose terms and conditions, subject to an opportunity to be heard.

### **7.4 Reinstatement**

If an individual joins a new sponsoring firm within 90 days of leaving registered employment and is seeking registration in the same category as previously held, the individual's registration will be automatically reinstated, subject to certain conditions set out in NI 33-109. This process allows a qualified individual who transfers directly from one sponsoring firm to another to start engaging in activities requiring registration from the first day with the new sponsoring firm.

In other circumstances, a suspended individual who has found a new sponsoring firm will have to apply for reinstatement under the process set out in NI 33-109.

Despite automatic reinstatement or any other procedure, maintaining suitability for registration is an ongoing requirement and the regulator has discretionary authority to suspend or revoke an individual's registration or restrict it with terms and conditions at any time. The regulator may do this, for example, if it receives information through the form 33-109F1 Notice of Termination filed by the individual's former sponsoring firm or other sources that causes the regulator to question the individual's continued suitability for registration. In these situations, individuals will be given an opportunity to be heard before a decision is made to suspend or revoke registration or to impose terms and conditions.

### **7.5 Surrender of registration**

If a registrant intends to cease activity requiring registration, it may apply to surrender its registration. A registration is revoked when the regulator gives notice that it has accepted its surrender. The individual or firm remains registered until it receives this notice.

#### **7.5.1 Registered firms**

Before accepting a registered firm's surrender, the regulator will require evidence that the firm's clients have been dealt with appropriately. This is not necessary for a registered individual who applies to surrender registration. In this case, the sponsoring firm will continue to be responsible for meeting obligations to clients who may have been served by the individual.

When considering a registered firm's application to surrender its registration, the regulator may consider whether:

- the firm has ceased carrying on activity requiring registration or proposes an effective date within 6 months of the date of the application to surrender (revocation of registration to take effect on or after that date as notified by the regulator)
- the firm has, at the time of filing the application to surrender, satisfied any previously outstanding fees and filings
- the application to surrender registration:
  - discloses the firm's reasons for ceasing to carry on activity requiring registration
  - provides satisfactory evidence that the firm has given all of its clients reasonable notice of its intention to cease carrying on activity requiring registration, including an explanation of how it will affect them in practical terms
  - includes copies of the firm's most recent unaudited financial statements
  - provides satisfactory evidence that it has given appropriate notice to the SRO, if applicable

- the regulator has received, or waived receipt of, the following from the firm in satisfactory form, supported by an officer's or partner's certificate and auditor's comfort letter:
  - evidence that the firm has resolved all outstanding client complaints (including litigation, judgments and liens) or made reasonable arrangements to deal with and fund any payments relating to them, as well as any subsequent client complaints, settlements or liabilities
  - confirmation that all money or securities owed to clients has been returned or transferred to another registrant, where possible according to client instructions
  - up-to-date audited financial statements
  - evidence that the firm has satisfied the SRO's requirements for withdrawing membership, if applicable

In determining whether it would be prejudicial to the public interest to accept the surrender of registration, the regulator will refer to all information the registered firm has provided and any other regulatory concerns that relate to the firm, including terms and conditions on registration that have not been met and compliance issues, among other things. The regulator also has the authority to act in the public interest by suspending the registration of a registered firm that has applied to surrender it.

### **7.5.2 Registered individuals**

Registered individuals who want to terminate their registration do not have to apply to surrender it. They may simply resign from their sponsoring firm. However, individuals may choose to apply to surrender registration using Form 33-109F2 if, for example, they are registered in multiple jurisdictions and want to have their registration revoked in one jurisdiction only.

## **PART 8 – EXEMPTIONS FROM REGISTRATION**

### **8.1 International dealers and international advisers**

When international dealers or advisers relying on the registration exemptions in subsections 8.15(2) and 8.16(2) stop carrying on business in the jurisdiction, they should give notice by sending an e-mail to the securities regulatory authority in the jurisdiction where they are trading or advising in securities in reliance on the registration exemption as soon as possible after they stop carrying on business in the jurisdiction.

The e-mail addresses of the relevant jurisdictions are listed in Form 31-101F2.

### **8.2 Mobility exemption**

In limited circumstances, the mobility exemption in Part 8, Division 2 allows registrants to continue dealing with clients (and certain of their family members) who move to a different jurisdiction, without registering in that other jurisdiction. The availability of the mobility exemption is triggered when the client moves to another jurisdiction.

The registered firm's compliance system must have appropriate policies and procedures for supervising individual representatives relying on a mobility exemption. Registered firms must also keep appropriate records to demonstrate compliance with the conditions of the mobility exemption.
