PART 8 BUSINESS ACQUISITION REPORT

8.1 Interpretation and Application

- (1) In this Part,

“acquisition” includes an acquisition of an interest in a business that is consolidated for accounting purposes or accounted for by another method, such as the equity method;

“acquisition of related businesses” means the acquisition of two or more businesses if

- (a) the businesses were under common control or management before the acquisitions were completed;
- (b) each acquisition was conditional upon the completion of each other acquisition; or
- (c) the acquisitions were contingent upon a single common event;

“business” includes an interest in an oil and gas property to which reserves, as defined in National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities*, have been specifically attributed; and

“specified profit or loss” means profit or loss from continuing operations attributable to owners of the parent, adjusted to exclude income taxes.

- (2) This Part does not apply to a transaction that is a reverse takeover.

8.2 Obligation to File a Business Acquisition Report and Filing Deadline

- (1) If a reporting issuer completes a significant acquisition, as determined under section 8.3, it must file a business acquisition report within 75 days after the acquisition date.
- (2) Despite subsection (1), if the most recently completed financial year of the acquired business ended 45 days or less before the acquisition date, a reporting issuer must file a business acquisition report
 - (a) within 90 days after the acquisition date, in the case of an issuer other than a venture issuer, or
 - (b) within 120 days after the acquisition date, in the case of a venture issuer.

8.3 Determination of Significance

- (1) **Significant Acquisitions** – Subject to subsection (3) and subsections 8.10(1) and 8.10(2), an acquisition of a business or related businesses is a significant acquisition,
 - (a) for a reporting issuer that is not a venture issuer, if the acquisition satisfies any of the three significance tests set out in subsection (2); and
 - (b) for a venture issuer, if the acquisition satisfies either of the significance tests set out in paragraphs (2)(a) or (b) if “20 percent” is read as “40 percent”.
- (2) **Required Significance Tests** – For the purposes of subsection (1) and subject to subsections (4.1) and (4.2), the significance tests are:
 - (a) **The Asset Test.** The reporting issuer’s proportionate share of the consolidated assets of the business or related businesses exceeds 20 percent of the consolidated assets of the reporting issuer calculated using the audited annual financial statements of each of the reporting issuer and the business or the related businesses for the most recently completed financial year of each that ended before the acquisition date.
 - (b) **The Investment Test.** The reporting issuer’s consolidated investments in and advances to the business or related businesses as at the acquisition date exceeds 20 percent of the consolidated assets of the reporting issuer as at the last day of the most recently completed financial year of the reporting issuer ended before the acquisition date,

excluding any investments in or advances to the business or related businesses as at that date.

- (c) **The Profit or Loss Test.** The reporting issuer's proportionate share of the consolidated specified profit or loss of the business or related businesses exceeds 20 percent of the consolidated specified profit or loss of the reporting issuer calculated using the audited annual financial statements of each of the reporting issuer and the business or related businesses for the most recently completed financial year of each ended before the acquisition date.
- (3) **Optional Significance Tests** – Despite subsection (1) and subject to subsections 8.10(1) and 8.10(2), if an acquisition of a business or related businesses is significant based on the significance tests in subsection (2),

 - (a) a reporting issuer that is not a venture issuer may re-calculate the significance using the optional significance tests in subsection (4); and
 - (b) a venture issuer may re-calculate the significance using the optional significance tests in paragraphs (4)(a) or (b) if “20 percent” is read as “40 percent”.
- (4) For the purposes of subsection (3) and subject to subsections (4.1) and (4.2), the optional significance tests are:

 - (a) **The Asset Test.** The reporting issuer's proportionate share of the consolidated assets of the business or related businesses exceeds 20 percent of the consolidated assets of the reporting issuer, calculated using the financial statements of each of the reporting issuer and the business or the related businesses for the most recently completed interim period or financial year of each, without giving effect to the acquisition.
 - (b) **The Investment Test.** The reporting issuer's consolidated investments in and advances to the business or related businesses as at the acquisition date exceeds 20 percent of the consolidated assets of the reporting issuer as at the last day of the most recently completed interim period or financial year of the reporting issuer, excluding any investments in or advances to the business or related businesses as at that date.
 - (c) **The Profit or Loss Test.** The specified profit or loss calculated under the following subparagraph (i) exceeds 20 percent of the specified profit or loss calculated under the following subparagraph (ii):

Unofficial consolidation – in effect as of October 31, 2011 – for financial years beginning *on or after* January 1, 2011

- (i) the reporting issuer's proportionate share of the consolidated specified profit or loss of the business or related businesses for the later of
 - (A) the most recently completed financial year of the business or related businesses; or
 - (B) the 12 months ended on the last day of the most recently completed interim period of the business or related businesses;
 - (ii) the reporting issuer's consolidated specified profit or loss for the later of
 - (A) the most recently completed financial year, without giving effect to the acquisition; or
 - (B) the 12 months ended on the last day of the most recently completed interim period of the reporting issuer, without giving effect to the acquisition.
- (4.1) For the purposes of subsections (2) and (4), the reporting issuer must not remeasure its previously held equity interest in the business or related businesses.
- (4.2) For the purposes of paragraphs (2)(b) and (4)(b), the reporting issuer's investments in and advances to the business or related businesses must include
 - (a) the consideration transferred for the acquisition, measured in accordance with the issuer's GAAP,
 - (b) payments made in connection with the acquisition which do not constitute consideration transferred but which would not have been paid unless the acquisition had occurred, and
 - (c) contingent consideration for the acquisition measured in accordance with the issuer's GAAP.
- (5) If an acquisition does not meet any of the significance tests under subsection (4), the acquisition is not a significant acquisition.
- (6) Despite subsection (3), the significance of an acquisition of a business or related businesses may be re-calculated using financial statements for periods that ended after the acquisition date only if, after the acquisition date, the business or related businesses remained substantially intact and were not

significantly reorganized, and no significant assets or liabilities were transferred to other entities.

- (7) **Application of the Profit or Loss Test if a Loss Occurred** – For the purposes of paragraphs (2)(c) and (4)(c), if any of the reporting issuer, the business or the related businesses has incurred a loss, the significance test must be applied using the absolute value of the loss from continuing operations attributable to owners of the parent, adjusted to exclude income taxes.
- (8) **Application of the Profit or Loss Test if Lower Than Average Profit or Loss for the Most Recent Year** – For the purposes of paragraph (2)(c) and clause (4)(c)(ii)(A), if the reporting issuer’s consolidated specified profit or loss for the most recently completed financial year was lower by 20 percent or more than its average consolidated specified profit or loss for the three most recently completed financial years, the issuer may, subject to subsection (10), substitute the average consolidated specified profit or loss for the three most recently completed financial years in determining whether the significance test set out in paragraph (2)(c) or (4)(c) is satisfied.
- (9) **Application of the Optional Profit or Loss Test if Lower Than Average Profit or Loss for the Most Recent Year** – For the purpose of clause (4)(c)(ii)(B) if the reporting issuer’s consolidated specified profit or loss for the most recently completed 12-month period was lower by 20 percent or more than its average consolidated specified profit or loss for the three most recently completed 12-month periods, the issuer may, subject to subsection (10), substitute the average consolidated specified profit or loss for the three most recently completed 12-month periods in determining whether the significance test set out in paragraph (4)(c) is satisfied.
- (10) **Lower than Average Profit or Loss of the Issuer if a Loss Occurred** – If the reporting issuer’s consolidated specified profit or loss for either of the two earlier financial periods referred to in subsections (8) and (9) is a loss, the reporting issuer’s specified profit or loss for that period is considered to be zero for the purposes of calculating the average consolidated specified profit or loss for the three financial periods.
- (11) **Application of Significance Tests – Multiple Investments in the Same Business** – If a reporting issuer has made multiple investments in the same business, then for the purposes of applying subsections (2) and (4),
 - (a) if the initial investment and one or more incremental investments were made during the same financial year, the investments must be aggregated and tested on a combined basis;

- (b) if one or more incremental investments were made in a financial year subsequent to the financial year in which an initial or incremental investment was made and the initial or previous incremental investments are reflected in audited annual financial statements of the reporting issuer previously filed, the reporting issuer must apply the significance tests set out in subsections (2) and (4) on a combined basis to the incremental investments not reflected in audited financial statements of the reporting issuer previously filed; and
- (c) if one or more incremental investments were made in a financial year subsequent to the financial year in which the initial investment was made and the initial investment is not reflected in audited annual financial statements of the reporting issuer previously filed, the reporting issuer must apply the significance tests set out in subsections (2) and (4) to the initial and incremental investments on a combined basis.

(11.1) **Application of the Optional Profit or Loss Test based on Pro Forma Financial Information** – For the purposes of calculating the optional profit or loss test under clause (4)(c)(ii)(A), a reporting issuer may use pro forma consolidated specified profit or loss for its most recently completed financial year that was included in a previously filed document if

- (a) the reporting issuer has made a significant acquisition of a business after its most recently completed financial year; and
- (b) the previously filed document included
 - (i) audited annual financial statements of that acquired business for the periods required by this Part; and
 - (ii) the pro forma financial information required by subsection 8.4(5) or (6).

(12) **Application of Significance Tests – Related Businesses** – In determining whether an acquisition of related businesses is a significant acquisition, related businesses acquired after the ending date of the most recently filed audited annual financial statements of the reporting issuer must be considered on a combined basis.

(13) **Application of Significance Tests – Accounting Principles and Currency** – For the purposes of calculating the significance tests in subsections (2) and (4), the amounts used for the business or related businesses must

- (a) subject to subsection (13.1), be based on the issuer's GAAP, and

- (b) be translated into the same presentation currency as that used in the reporting issuer's financial statements.

(13.1) **Application of Significance Tests – Exemption - Canadian GAAP Applicable to Private Enterprises** – Paragraph 8.3(13)(a) does not apply to a venture issuer if

- (a) the financial statements for the business or related businesses referred to in subsections 8.3(2) and (4)
 - (i) are prepared in accordance with Canadian GAAP applicable to private enterprises, and
 - (ii) are prepared in a manner that consolidates any subsidiaries and accounts for significantly influenced investees and joint ventures using the equity method; and
- (b) none of the accounting principles described in paragraphs 3.11(1)(a) through (e) of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* were used to prepare financial statements for the business or related businesses referred to in subsections 8.3(2) and (4).

(14) **Application of Significance Tests – Use of Unaudited Financial Statements** – Despite subsections (2) and (4), the significance of an acquisition of a business or related businesses may be calculated using unaudited financial statements of the business or related businesses that comply with section 3.11 of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* if the financial statements of the business or related businesses for the most recently completed financial year have not been audited.

(15) **Application of Significance Tests – Use of Previous Audited Financial Statements** – Despite subsections (2) and (4), the significance of an acquisition of a business or related businesses may be calculated using the audited financial statements for the financial year immediately preceding the reporting issuer's most recently completed financial year if the reporting issuer has not been required to file, and has not filed, audited financial statements for its most recently completed financial year.

8.4 Financial Statement Disclosure for Significant Acquisitions

- (1) **Comparative Annual Financial Statements** – If a reporting issuer is required to file a business acquisition report under section 8.2, subject to sections 8.6 through 8.11, the business acquisition report must include the following for each business or related businesses:

- (5) **Pro Forma Financial Statements Required in a Business Acquisition Report** – If a reporting issuer is required to include financial statements in a business acquisition report under subsection (1) or (3), the business acquisition report must include

 - (ii) if the reporting issuer has not filed a statement of financial position for any annual or interim period, as at the date of the acquired business’s most recent statement of financial position, that gives effect, as if they had taken place as at the date of the pro forma statement of financial position, to significant acquisitions that have been completed;

FORM 51-102F1
MANAGEMENT'S DISCUSSION & ANALYSIS

PART 1 GENERAL PROVISIONS

(a) What is MD&A?

MD&A is a narrative explanation, through the eyes of management, of how your company performed during the period covered by the financial statements, and of your company's financial condition and future prospects. MD&A complements and supplements your financial statements, but does not form part of your financial statements.

Your objective when preparing the MD&A should be to improve your company's overall financial disclosure by giving a balanced discussion of your company's financial performance and financial condition including, without limitation, such considerations as liquidity and capital resources - openly reporting bad news as well as good news. Your MD&A should

- help current and prospective investors understand what the financial statements show and do not show;
- discuss material information that may not be fully reflected in the financial statements, such as contingent liabilities, defaults under debt, off-balance sheet financing arrangements, or other contractual obligations;
- discuss important trends and risks that have affected the financial statements, and trends and risks that are reasonably likely to affect them in the future; and
- provide information about the quality, and potential variability, of your company's profit or loss and cash flow, to assist investors in determining if past performance is indicative of future performance.

(b) Date of Information

In preparing the MD&A, you must take into account information available up to the date of the MD&A. If the date of the MD&A is not the date it is filed, you must ensure the disclosure in the MD&A is current so that it will not be misleading when it is filed.

(c) Use of "Company"

Wherever this Form uses the word "company", the term includes other types of business organizations such as partnerships, trusts and other unincorporated

business entities.

(d) Explain Your Analysis

Explain the nature of, and reasons for, changes in your company's performance. Do not simply disclose the amount of change in a financial statement item from period to period. Avoid using boilerplate language. Your discussion should assist the reader to understand trends, events, transactions and expenditures.

(e) Focus on Material Information

Focus your MD&A on material information. You do not need to disclose information that is not material. Exercise your judgment when determining whether information is material.

(f) What is Material?

Would a reasonable investor's decision whether or not to buy, sell or hold securities in your company likely be influenced or changed if the information in question was omitted or misstated? If so, the information is likely material.

(g) Venture Issuers Without Significant Revenue

If your company is a venture issuer without significant revenue from operations, focus your discussion and analysis of financial performance on expenditures and progress towards achieving your business objectives and milestones.

(h) Reverse Takeover Transactions

If an acquisition is a reverse takeover, the MD&A should be based on the reverse takeover acquirer's financial statements.

(i) [Repealed]

(j) Resource Issuers

If your company has mineral projects, your disclosure must comply with National Instrument 43-101 *Standards of Disclosure for Mineral Projects*, including the requirement that all scientific and technical disclosure be based on a technical report or other information prepared by or under the supervision of a qualified person.

If your company has oil and gas activities, your disclosure must comply with National Instrument 51-101 *Standards of Disclosure for Oil and Gas*

Activities.

(k) Numbering and Headings

The numbering, headings and ordering of items included in this Form are guidelines only. You do not need to include the headings or numbering or follow the order of items in this Form. Disclosure provided in response to any item need not be repeated elsewhere.

(l) Omitting Information

You do not need to respond to any item in this Form that is inapplicable.

(m) Defined Terms

If a term is used but not defined in this Form, refer to Part 1 of National Instrument 51-102 and to National Instrument 14-101 *Definitions*. If a term is used in this Form and is defined in both the securities statute of the local jurisdiction and in National Instrument 51-102, refer to section 1.4 of Companion Policy 51-102CP for further guidance.

This Form also uses accounting terms that are defined or used in Canadian GAAP applicable to publicly accountable enterprises. For further guidance, see subsections 1.4(7) and (8) of Companion Policy 51-102CP.

(n) Plain Language

Write the MD&A so that readers are able to understand it. Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP for further guidance. If you use technical terms, explain them in a clear and concise manner.

(o) Available Prior Period Information

If you have not presented comparative financial information in your financial statements, in your MD&A you must provide prior period information relating to financial performance that is available.

(p) Use of “Financial Condition”

This Form uses the term “financial condition”. Financial condition reflects the overall health of the company and includes your company’s financial position (as shown on the statement of financial position) and other factors that may affect your company’s liquidity, capital resources and solvency.

PART 2 CONTENT OF MD&A

- (ii) any factors that have affected the value of the project(s) such as change in commodity prices, land use or political or environmental issues.*

1.5 Summary of Quarterly Results

Provide the following information in summary form, derived from your company's financial statements, for each of the eight most recently completed quarters:

- (a) total revenue;
- (b) profit or loss from continuing operations attributable to owners of the parent, in total and on a per-share and diluted per-share basis; and
- (c) profit or loss attributable to owners of the parent, in total and on a per-share and diluted per-share basis.

Discuss the factors that have caused variations over the quarters necessary to understand general trends that have developed and the seasonality of the business.

INSTRUCTIONS

- (i) In the case of the annual MD&A, your most recently completed quarter is the quarter that ended on the last day of your most recently completed financial year.*
- (ii) You do not have to provide information for a quarter prior to your company becoming a reporting issuer if your company has not prepared financial statements for those quarters.*

strengths and weaknesses relative to those of its competitors;

 - (H) changes in the terms and conditions of service contracts;*
 - (I) the progress in achieving previously announced milestones;*
 - (J) for resource issuers with producing mines, identify changes to cash flows caused by changes in production throughput, head-grade, cut-off grade, metallurgical recovery and any expectation of future changes; and*
 - (K) if you have an equity investee that is significant to your company, the nature of the investment and significance to your company.*
- (iv) For each of the eight most recently completed quarters, indicate the accounting principles that the financial data has been prepared in accordance with, the presentation currency and the functional currency if different from the presentation currency.*
- (v) If the financial data provided was not prepared in accordance with the same accounting principles for all eight quarters, focus the discussion on the important trends and risks that have affected the business.*

1.6 Liquidity

Provide an analysis of your company's liquidity, including

- (a) its ability to generate sufficient amounts of cash and cash equivalents, in the short term and the long term, to maintain your company's capacity, to meet your company's planned growth or to fund development activities;*
- (b) trends or expected fluctuations in your company's liquidity, taking into account demands, commitments, events or uncertainties;*

- (g) legal or practical restrictions on the ability of subsidiaries to transfer funds to your company and the effect these restrictions have had or may have on the ability of your company to meet its obligations; and
- (h) defaults or arrears or significant risk of defaults or arrears on
 - (i) distributions or dividend payments, lease payments, interest or principal payment on debt;
 - (ii) debt covenants; and
 - (iii) redemption or retraction or sinking fund payments,

and how your company intends to cure the default or arrears or address the risk.

INSTRUCTIONS

- (i) *In discussing your company's ability to generate sufficient amounts of cash and cash equivalents you should describe sources of funding and the circumstances that could affect those sources that are reasonably likely to occur. Examples of circumstances that could affect liquidity are market or commodity price changes, economic downturns, defaults on guarantees and contractions of operations.*
- (ii) *In discussing trends or expected fluctuations in your company's liquidity and liquidity risks associated with financial instruments you should discuss*
 - (A) *provisions in debt, lease or other arrangements that could trigger an additional funding requirement or early payment. Examples of such situations are provisions linked to credit rating, profit or loss, cash flows or share price; and*
 - (B) *circumstances that could impair your company's ability to undertake transaction considered essential to operations. Examples of such*

circumstances are the inability to maintain investment grade credit rating, earnings per-share, cash flow or share price.

- (iii) *In discussing your company’s working capital requirements you should discuss situations where your company must maintain significant inventory to meet customers’ delivery requirements or any situations involving extended payment terms.*
- (iv) *In discussing your company’s statement of financial position conditions or profit or loss or cash flow items you should present a summary, in tabular form, of contractual obligations including payments due for each of the next five years and thereafter. The summary and table do not have to be provided if your company is a venture issuer. An example of a table that can be adapted to your company’s particular circumstances follows:*

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 year	1 - 3 years	4 - 5 years	After 5 years
<i>Debt</i>					
<i>Finance Lease Obligations</i>					
<i>Operating Leases</i>					
<i>Purchase Obligations¹</i>					
<i>Other Obligations²</i>					
Total Contractual Obligations					

- 1 “Purchase Obligation” means an agreement to purchase goods or services that is enforceable and legally binding on your company that specifies all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction.
- 2 “Other Obligations” means other financial liabilities reflected on your company’s statement of financial position.

The tabular presentation may be accompanied by footnotes to describe provisions that create, increase or accelerate obligations, or other details to the extent necessary for an understanding of the timing and amount of your company’s specified contractual obligations.

1.7 Capital Resources

Provide an analysis of your company’s capital resources, including

- (a) commitments for capital expenditures as of the date of your company’s

financial statements including

- (i) the amount, nature and purpose of these commitments;
 - (ii) the expected source of funds to meet these commitments; and
 - (iii) expenditures not yet committed but required to maintain your company's capacity, to meet your company's planned growth or to fund development activities;
- (b) known trends or expected fluctuations in your company's capital resources, including expected changes in the mix and relative cost of these resources; and
 - (c) sources of financing that your company has arranged but not yet used.

INSTRUCTIONS

- (i) *Capital resources are financing resources available to your company and include debt, equity and any other financing arrangements that you reasonably consider will provide financial resources to your company.*
- (ii) *In discussing your company's commitments you should discuss any exploration and development, or research and development expenditures required to maintain properties or agreements in good standing.*

1.8 Off-Balance Sheet Arrangements

Discuss any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the financial performance or financial condition of your company including, without limitation, such considerations as liquidity and capital resources.

In your discussion of off-balance sheet arrangements you should discuss their business purpose and activities, their economic substance, risks associated with the arrangements, and the key terms and conditions associated with any commitments. Your discussion should include

- (a) a description of the other contracting party(ies);
- (b) the effects of terminating the arrangement;
- (c) the amounts receivable or payable, revenue, expenses and cash flows resulting from the arrangement;
- (d) the nature and amounts of any other obligations or liabilities arising

from the arrangement that could require your company to provide funding under the arrangement and the triggering events or circumstances that could cause them to arise; and

- (e) any known event, commitment, trend or uncertainty that may affect the availability or benefits of the arrangement (including any termination) and the course of action that management has taken, or proposes to take, in response to any such circumstances.

INSTRUCTIONS

- (i) *Off-balance sheet arrangements include any contractual arrangement with an entity not reported on a consolidated basis with your company, under which your company has*
 - (A) *any obligation under certain guarantee contracts;*
 - (B) *a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for the assets;*
 - (C) *any obligation under certain derivative instruments; or*
 - (D) *any obligation held by your company in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to your company, or engages in leasing, hedging activities or, research and development services with your company.*
- (ii) *Contingent liabilities arising out of litigation, arbitration or regulatory actions are not considered to be off-balance sheet arrangements.*
- (iii) *Disclosure of off-balance sheet arrangements should cover the most recently completed financial year. However, the discussion should address changes from the previous year where such discussion is necessary to understand the disclosure.*
- (iv) *The discussion need not repeat information provided in the notes to the financial statements if the discussion clearly cross-references to specific information in the relevant notes and integrates the substance of the notes into the discussion in a manner that explains the significance of the information not included in the MD&A.*

1.9 Transactions Between Related Parties

Discuss all transactions between related parties as defined by the issuer's GAAP.

INSTRUCTION

In discussing your company's transactions between related parties, your discussion should include both qualitative and quantitative characteristics that are necessary for an understanding of the transactions' business purpose and economic substance. You should discuss

- (A) the relationship and identify the related person or entities;*
- (B) the business purpose of the transaction;*
- (C) the recorded amount of the transaction and describe the measurement basis used; and*
- (D) any ongoing contractual or other commitments resulting from the transaction.*

1.10 Fourth Quarter

Discuss and analyze fourth quarter events or items that affected your company's financial condition, financial performance or cash flows, year-end and other adjustments, seasonal aspects of your company's business and dispositions of business segments. If your company has filed separate MD&A for its fourth quarter, you may satisfy this requirement by incorporating that MD&A by reference.

1.11 Proposed Transactions

Discuss the expected effect on financial condition, financial performance and cash flows of any proposed asset or business acquisition or disposition if your company's board of directors, or senior management who believe that confirmation of the decision by the board is probable, have decided to proceed with the transaction. Include the status of any required shareholder or regulatory approvals.

INSTRUCTION

You do not have to disclose this information if, under section 7.1 of National Instrument 51-102, your company has filed a Form 51-102F3 Material Change Report regarding the transaction on a confidential basis and the report remains confidential.

1.12 Critical Accounting Estimates

If your company is not a venture issuer, provide an analysis of your company's critical accounting estimates. Your analysis should

Unofficial consolidation – in effect as of October 31, 2011 – for financial years beginning on or after January 1, 2011

- (a) identify and describe each critical accounting estimate used by your company including
 - (i) a description of the accounting estimate;
 - (ii) the methodology used in determining the critical accounting estimate;
 - (iii) the assumptions underlying the accounting estimate that relate to matters highly uncertain at the time the estimate was made;
 - (iv) any known trends, commitments, events or uncertainties that you reasonably believe will materially affect the methodology or the assumptions described; and
 - (v) if applicable, why the accounting estimate is reasonably likely to change from period to period and have a material impact on the financial presentation;
- (b) explain the significance of the accounting estimate to your company's financial position, changes in financial position and financial performance and identify the financial statement line items affected by the accounting estimate;
- (c) [Repealed]
- (d) discuss changes made to critical accounting estimates during the past two financial years including the reasons for the change and the quantitative effect on your company's overall financial performance and financial statement line items; and
- (e) identify the reportable segments of your company's business that the accounting estimate affects and discuss the accounting estimate on a reportable segment basis, if your company operates in more than one reportable segment.

INSTRUCTIONS

- (i) *An accounting estimate is a critical accounting estimate only if*
 - (A) *it requires your company to make assumptions about matters that are highly uncertain at the time the accounting estimate is made; and*
 - (B) *different estimates that your company could have used in the current period, or changes in the accounting estimate that are reasonably likely to occur from period to period, would have a material impact on your*

company's financial condition, changes in financial condition or financial performance.

- (ii) *As part of your description of each critical accounting estimate, in addition to qualitative disclosure, you should provide quantitative disclosure when quantitative information is reasonably available and would provide material information for investors. Similarly, in your discussion of assumptions underlying an accounting estimate that relates to matters highly uncertain at the time the estimate was made, you should provide quantitative disclosure when it is reasonably available and it would provide material information for investors. For example, quantitative information may include a sensitivity analysis or disclosure of the upper and lower ends of the range of estimates from which the recorded estimate was selected.*

1.13 Changes in Accounting Policies including Initial Adoption

Discuss and analyze any changes in your company's accounting policies, including

- (a) for any accounting policies that you have adopted or expect to adopt subsequent to the end of your most recently completed financial year, including changes you have made or expect to make voluntarily and those due to a change in an accounting standard or a new accounting standard that you do not have to adopt until a future date, you should
- (i) describe the new standard, the date you are required to adopt it and, if determined, the date you plan to adopt it;
 - (ii) disclose the methods of adoption permitted by the accounting standard and the method you expect to use;
 - (iii) discuss the expected effect on your company's financial statements, or if applicable, state that you cannot reasonably estimate the effect; and
 - (iv) discuss the potential effect on your business, for example technical violations or default of debt covenants or changes in business practices; and
- (b) for any accounting policies that you have initially adopted during the most recently completed financial year, you should
- (i) describe the events or transactions that gave rise to the initial adoption of an accounting policy;
 - (ii) describe the accounting policy that has been adopted and the

method of applying that policy;

- (iii) discuss the effect resulting from the initial adoption of the accounting policy on your company's financial position, changes in financial position and financial performance;
- (iv) if your company is permitted a choice among acceptable accounting policies,
 - (A) state that you made a choice among acceptable alternatives;
 - (B) identify the alternatives;
 - (C) describe why you made the choice that you did; and
 - (D) discuss the effect, where material, on your company's financial position, changes in financial position and financial performance under the alternatives not chosen; and
- (v) if no accounting literature exists that covers the accounting for the events or transactions giving rise to your initial adoption of the accounting policy, explain your decision regarding which accounting policy to use and the method of applying that policy.

INSTRUCTION

You do not have to present the discussion under paragraph 1.13(b) for the initial adoption of accounting policies resulting from the adoption of new accounting standards.

1.14 Financial Instruments and Other Instruments

For financial instruments and other instruments,

- (a) discuss the nature and extent of your company's use of, including relationships among, the instruments and the business purposes that they serve;
- (b) describe and analyze the risks associated with the instruments;
- (c) describe how you manage the risks in paragraph (b), including a discussion of the objectives, general strategies and instruments used to manage the risks, including any hedging activities;
- (d) disclose the financial statement classification and amounts of income,

expenses, gains and losses associated with the instrument; and

- (e) discuss the significant assumptions made in determining the fair value of financial instruments, the total amount and financial statement classification of the change in fair value of financial instruments recognized in profit or loss for the period, and the total amount and financial statement classification of deferred or unrecognized gains and losses on financial instruments.

INSTRUCTIONS

- (i) *“Other instruments” are instruments that may be settled by the delivery of non-financial assets. A commodity futures contract is an example of an instrument that may be settled by delivery of non-financial assets.*
- (ii) *Your discussion under paragraph 1.14(a) should enhance a reader’s understanding of the significance of recognized and unrecognized instruments on your company’s financial position, financial performance and cash flows. The information should also assist a reader in assessing the amounts, timing, and certainty of future cash flows associated with those instruments. Also discuss the relationship between liability and equity components of convertible debt instruments.*
- (iii) *For purposes of paragraph 1.14(c), if your company is exposed to significant price, credit or liquidity risks, consider providing a sensitivity analysis or tabular information to help readers assess the degree of exposure. For example, an analysis of the effect of a hypothetical change in the prevailing level of interest or currency rates on the fair value of financial instruments and future profit or loss and cash flows may be useful in describing your company’s exposure to price risk.*
- (iv) *For purposes of paragraph 1.14(d), disclose and explain the revenue, expenses, gains and losses from hedging activities separately from other activities.*

1.15 Other MD&A Requirements

- (a) Your MD&A must disclose that additional information relating to your company, including your company’s AIF if your company files an AIF, is on SEDAR at www.sedar.com.
- (b) Your MD&A must also provide the information required in the following sections of National Instrument 51-102, if applicable:
 - (i) Section 5.3 – Additional Disclosure for Venture Issuers without Significant Revenue;

- (ii) Section 5.4 – Disclosure of Outstanding Share Data; and
 - (iii) Section 5.7 – Additional Disclosure for Reporting Issuers with Significant Equity Investees.
- (c) Your MD&A must include the MD&A disclosure required by National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings* and, as applicable, Form 52-109F1 *Certification of Annual Filings – Full Certificate*, Form 52-109F1R *Certification of Refiled Annual Filings*, or Form 52-109F1 *AIF Certification of Annual Filings in Connection with Voluntarily Filed AIF*.

Item 2 Interim MD&A

2.1 Date

Specify the date of your interim MD&A.

2.2 Interim MD&A

Interim MD&A must update your company's annual MD&A for all disclosure required by Item 1 except section 1.3. This disclosure must include

- (a) a discussion of your analysis of
 - (i) current quarter and year-to-date results including a comparison of financial performance to the corresponding periods in the previous year;
 - (i.i) a comparison of cash flows to the corresponding period in the previous year;
 - (ii) changes in financial performance and elements of profit or loss attributable to owners of the parent that are not related to ongoing business operations;
 - (iii) any seasonal aspects of your company's business that affect its financial position, financial performance or cash flows; and
- (b) a comparison of your company's interim financial condition to your company's financial condition as at the most recently completed financial year-end.

INSTRUCTION

- (i) *If the first MD&A you file in this Form (your first MD&A) is an interim MD&A,*

you must provide all the disclosure called for in Item 1 in your first MD&A. Base the disclosure, except the disclosure for section 1.3, on your interim financial report. Since you do not have to update the disclosure required in section 1.3 in your interim MD&A, your first MD&A will provide disclosure under section 1.3 based on your annual financial statements. Your subsequent interim MD&A for that year will update your first interim MD&A.

- (ii) For the purposes of paragraph 2.2(b), you may assume the reader has access to your annual MD&A or your first MD&A. You do not have to duplicate the discussion and analysis of financial condition in your annual MD&A or your first MD&A. For example, if economic and industry factors are substantially unchanged you may make a statement to this effect.*
- (iii) For the purposes of subparagraph 2.2(a)(i), you should generally give prominence to the current quarter.*
- (iv) In discussing your company's statement of financial position conditions or profit or loss or cash flow items for an interim period, you do not have to present a summary, in tabular form, of all known contractual obligations contemplated under section 1.6. Instead, you should disclose material changes in the specified contractual obligations during the interim period.*
- (v) Interim MD&A prepared in accordance with Item 2 is not required for your company's fourth quarter as relevant fourth quarter content will be contained in your company's annual MD&A prepared in accordance with Item 1 (see section 1.10).*
- (vi) In your interim MD&A, update the summary of quarterly results in section 1.5 by providing summary information for the eight most recently completed quarters.*
- (vii) Your annual MD&A may not include all the information in Item 1 if you were a venture issuer as at the end of your last financial year. If you ceased to be a venture issuer during your interim period, you do not have to restate the MD&A you previously filed. Instead, provide the disclosure for the additional sections in Item 1 that you were exempt from as a venture issuer in the next interim MD&A you file. Base your disclosure for those sections on your interim financial report.*

2.3 Other Interim MD&A Requirements

Your interim MD&A must include the interim MD&A disclosure required by National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings* and, as applicable, Form 52-109F2 *Certification of Interim Filings – Full Certificate* or Form 52-109F2R *Certification of Refiled Interim Filings*.

FORM 51-102F2
ANNUAL INFORMATION FORM

PART 1 GENERAL PROVISIONS

(a) What is an AIF?

An AIF (annual information form) is required to be filed annually by certain companies under Part 6 of National Instrument 51-102. An AIF is a disclosure document intended to provide material information about your company and its business at a point in time in the context of its historical and possible future development. Your AIF describes your company, its operations and prospects, risks and other external factors that impact your company specifically.

This disclosure is supplemented throughout the year by subsequent continuous disclosure filings including news releases, material change reports, business acquisition reports, financial statements and management discussion and analysis.

(b) Date of Information

Unless otherwise specified in this Form, the information in your AIF must be presented as at the last day of your company's most recently completed financial year. If necessary, you must update the information in the AIF so it is not misleading when it is filed. For information presented as at any date other than the last day of your company's most recently completed financial year, specify the relevant date in the disclosure.

(c) Use of “Company”

Wherever this Form uses the word “company”, the term includes other types of business organizations such as partnerships, trusts and other unincorporated business entities.

All references to “your company” in Items 4, 5, 6, 12, 13, 15 and 16 of this Form apply collectively to your company, your company's subsidiaries, joint ventures to which your company is a party and entities in which your company has an investment accounted for by the equity method.

(d) Focus on Material Information

Focus your AIF on material information. You do not need to disclose information that is not material. Exercise your judgment when determining whether information is material. However, you must disclose all corporate

and individual cease trade orders, bankruptcies, penalties and sanctions in accordance with Item 10 and section 12.2 of this Form.

(e) What is Material?

Would a reasonable investor's decision whether or not to buy, sell or hold securities in your company likely be influenced or changed if the information in question was omitted or misstated? If so, the information is likely material.

(f) Incorporating Information by Reference

You may incorporate information required to be included in your AIF by reference to another document, other than a previous AIF. Clearly identify the referenced document or any excerpt of it that you incorporate into your AIF. Unless you have already filed the referenced document or excerpt, including any documents incorporated by reference into the document or excerpt, under your SEDAR profile, you must file it with your AIF. You must also disclose that the document is on SEDAR at www.sedar.com.

(g) Defined Terms

If a term is used but not defined in this Form, refer to Part 1 of National Instrument 51-102 and to National Instrument 14-101 *Definitions*. If a term is used in this Form and is defined in both the securities statute of a local jurisdiction and in National Instrument 51-102, refer to section 1.4 of Companion Policy 51-102CP for further guidance.

This Form also uses accounting terms that are defined or used in Canadian GAAP applicable to publicly accountable enterprises. For further guidance, see subsections 1.4(7) and (8) of Companion Policy 51-102CP.

(h) Plain Language

Write the AIF so that readers are able to understand it. Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP for further guidance. If you use technical terms, explain them in a clear and concise manner.

(i) Special Purpose Entities

If your company is a special purpose entity, you may have to modify the disclosure items in this Form to reflect the special purpose nature of your company's business.

(j) Numbering and Headings

The numbering, headings and ordering of items included in this Form are guidelines only. You do not need to include the headings or numbering or follow the order of items in this Form. Disclosure provided in response to any item need not be repeated elsewhere.

(k) Omitting Information

You do not need to respond to any item in this Form that is inapplicable and you may omit negative answers.

PART 2 CONTENT OF AIF

Without limiting the generality of the foregoing, such matters include alterations of share capital, charter amendments, property acquisitions or dispositions, reverse takeovers, amalgamations, mergers, arrangements or reorganizations and other similar transactions.
- 14.2** If the action to be taken is in respect of a significant acquisition as determined under Part 8 of National Instrument 51-102 under which securities of the acquired business are being exchanged for the company's securities, or in respect of a restructuring transaction under which securities are to be changed, exchanged, issued or distributed, include disclosure for
 - (a) the company, if the company has not filed all documents required under National Instrument 51-102,

- 14.4** Section 14.2 does not apply to an information circular that is sent to holders of voting securities of a reporting issuer soliciting proxies otherwise than on behalf of management of the reporting issuer (a "dissident circular"), unless the sender of the dissident circular is proposing a significant acquisition or restructuring transaction involving the reporting issuer and the sender, under which securities of the sender, or an affiliate of the sender, are to be distributed or transferred to securityholders of the reporting issuer. However, a sender of a dissident circular shall include in the dissident circular the disclosure required by section 14.2 if the sender of the dissident circular is proposing a significant acquisition or restructuring transaction under which securities of the sender or securities of an affiliate of the sender are to be changed, exchanged, issued or distributed.

(1) All compensation to be included

- (a) When completing this form, the company must disclose all compensation paid, payable, awarded, granted, given, or otherwise provided, directly or indirectly, by the company, or a subsidiary of the company, to each NEO and director, in any capacity, including, for greater certainty, all plan and non-plan compensation, direct and indirect pay, remuneration, economic or financial award, reward, benefit, gift or perquisite paid, payable, awarded, granted, given, or otherwise provided to the NEO or director for services provided and for services to be provided, directly or indirectly, to the company or a subsidiary of the company.
- (b) Despite paragraph (a), in respect of the Canada Pension Plan, similar government plans, and group life, health, hospitalization, medical reimbursement and relocation plans that do not discriminate in scope, terms or operation and are generally available to all salaried employees, the company is not required to disclose as compensation
 - (i) any contributions or premiums paid or payable by the company on behalf of an NEO, or of a director, under these plans, and
 - (ii) any cash, securities, similar instruments or any other property received by an NEO, or by a director, under these plans.
- (c) For greater certainty, the plans described in paragraph (b) include plans that provide for such benefits after retirement.
- (d) If an item of compensation is not specifically mentioned or described in this form, it is to be disclosed in column (h) (“All other compensation”) of the summary compensation table in section 3.1.

(2) Departures from format

- (a) Although the required disclosure must be made in accordance with this form, the disclosure may

 - (ii) add a table, column, or other information, if
 - (A) necessary to satisfy the objective in section 1.1, and
 - (B) to a reasonable person, the table, column, or other information does not detract from the prescribed information in the summary compensation table in section 3.1.
- (b) Despite paragraph (a)(ii), a company must not add a column in the summary compensation table in section 3.1.

(3) Information for full financial year

If an NEO acted in that capacity for the company during part of the financial year for which disclosure is required in the summary compensation table, provide details of all of the compensation that the NEO received from the company for that financial year. This includes compensation the NEO earned in any other position with the company during the financial year.

Do not annualize compensation in a table for any part of a year when an NEO was not in the service of the company. Annualized compensation may be disclosed in a footnote.

(4) External management companies

- (a) If one or more individuals acting as an NEO of the company are not employees of the company, disclose the names of those individuals.
- (b) If an external management company employs or retains one or more individuals acting as NEOs or directors of the company and the company has entered into an understanding, arrangement or agreement with the external management company to provide executive management services to the company directly or indirectly, disclose any compensation that:
 - (i) the company paid directly to an individual employed, or retained by the external management company, who is acting as an NEO or director of the company; and

- (ii) the external management company paid to the individual that is attributable to the services they provided to the company directly or indirectly.
- (c) If an external management company provides the company's executive management services and also provides executive management services to another company, disclose the entire compensation the external management company paid to the individual acting as an NEO or director, or acting in a similar capacity, in connection with services the external management company provided to the company, or the parent or a subsidiary of the company. If the management company allocates the compensation paid to an NEO or director, disclose the basis or methodology used to allocate this compensation.

Commentary

An NEO may be employed by an external management company and provide services to the company under an understanding, arrangement or agreement. In this case, references in this form to the CEO or CFO are references to the individuals who performed similar functions to that of the CEO or CFO. They are generally the same individuals who signed and filed annual and interim certificates to comply with National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings.

(5) Director and NEO compensation

Disclose any compensation awarded to, earned by, paid to, or payable to each director and NEO, in any capacity with respect to the company. Compensation to directors and NEOs must include all compensation from the company and its subsidiaries.

Disclose any compensation awarded to, earned by, paid to, or payable to, an NEO, or director, in any capacity with respect to the company, by another person or company.

(6) Determining if an individual is an NEO

For the purpose of calculating total compensation awarded to, earned by, paid to, or payable to an individual under paragraph (c) of the definition of NEO,

- (a) use the total compensation that would be reported under column (i) of the summary compensation table required by section 3.1 for each executive officer, as if that executive officer were an NEO for the company's most recently completed financial year, and
- (b) exclude from the calculation,
 - (i) any compensation that would be reported under column (g) of the summary compensation table required by section 3.1,

- (ii) any incremental payments, payables, and benefits to an executive officer that are triggered by, or result from, a scenario listed in section 6.1 that occurred during the most recently completed financial year, and
- (iii) any cash compensation that relates to foreign assignments that is specifically intended to offset the impact of a higher cost of living in the foreign location, and is not otherwise related to the duties the executive officer performs for the company.

Commentary

The \$150,000 threshold in paragraph (c) of the definition of NEO only applies when determining who is an NEO in a company's most recently completed financial year. If an individual is an NEO in the most recently completed financial year, disclosure of compensation in prior years must be provided if otherwise required by this form even if total compensation in a prior year is less than \$150,000 in that year.

(7) Compensation to associates

Disclose any awards, earnings, payments, or payables to an associate of an NEO, or of a director, as a result of compensation awarded to, earned by, paid to, or payable to the NEO or the director, in any capacity with respect to the company.

(8) New reporting issuers

- (a) Subject to paragraph (b) and subsection 3.1(1), disclose information in the summary compensation table for the three most recently completed financial years since the company became a reporting issuer.
- (b) Do not provide information for a completed financial year if the company was not a reporting issuer at any time during the most recently completed financial year, unless the company became a reporting issuer as a result of a restructuring transaction.
- (c) If the company was not a reporting issuer at any time during the most recently completed financial year and the company is completing the form because it is preparing a prospectus, discuss all significant elements of the compensation to be awarded to, earned by, paid to, or payable to NEOs of the company once it becomes a reporting issuer, to the extent this compensation has been determined.

Commentary

1. *Unless otherwise specified, information required to be disclosed under this form may be prepared in accordance with the accounting principles the company uses to prepare its financial statements, as permitted by National Instrument 52-107 Acceptable Accounting Principles and Auditing Standards.*

2. *The definition of “director” under securities legislation includes an individual who acts in a capacity similar to that of a director.*

(9) Currencies

Companies must report amounts required by this form in Canadian dollars or in the same currency that the company uses for its financial statements. A company must use the same currency in the tables in sections 3.1, 4.1, 4.2, 5.1, 5.2 and 7.1 of this form.

If compensation awarded to, earned by, paid to, or payable to an NEO was in a currency other than the currency reported in the prescribed tables of this form, state the currency in which compensation was awarded, earned, paid, or payable, disclose the currency exchange rate and describe the methodology used to translate the compensation into Canadian dollars or the currency that the company uses in its financial statements.

(10) Plain language

Information required to be disclosed under this form must be clear, concise, and presented in such a way that it provides a reasonable person, applying reasonable effort, an understanding of,

- (a) how decisions about NEO and director compensation are made; and
- (b) how specific NEO and director compensation relates to the overall stewardship and governance of the company.

Commentary

Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP Continuous Disclosure Obligations for further guidance.

ITEM 2 – COMPENSATION DISCUSSION AND ANALYSIS

2.1 Compensation discussion and analysis

- (1) Describe and explain all significant elements of compensation awarded to, earned by, paid to, or payable to NEOs for the most recently completed financial year. Include the following:
 - (a) the objectives of any compensation program or strategy;
 - (b) what the compensation program is designed to reward;
 - (c) each element of compensation;
 - (d) why the company chooses to pay each element;

- (e) how the company determines the amount (and, where applicable, the formula) for each element; and
 - (f) how each element of compensation and the company's decisions about that element fit into the company's overall compensation objectives and affect decisions about other elements.
- (2) If applicable, describe any new actions, decisions or policies that were made after the end of the most recently completed financial year that could affect a reasonable person's understanding of an NEO's compensation for the most recently completed financial year.
- (3) If applicable, clearly state the benchmark and explain its components, including the companies included in the benchmark group and the selection criteria.
- (4) If applicable, disclose performance goals or similar conditions that are based on objective, identifiable measures, such as the company's share price or earnings per share. If performance goals or similar conditions are subjective, the company may describe the performance goal or similar condition without providing specific measures.

If the company discloses performance goals or similar conditions that are non-GAAP financial measures, explain how the company calculates these performance goals or similar conditions from its financial statements.

Exemption

The company is not required to disclose performance goals or similar conditions in respect of specific quantitative or qualitative performance-related factors if a reasonable person would consider that disclosing them would seriously prejudice the company's interests.

For the purposes of this exemption, a company's interest's are not considered to be seriously prejudiced solely by disclosing performance goals or similar conditions if those goals or conditions are based on broad corporate-level financial performance metrics which include earnings per share, revenue growth, and earnings before interest, taxes, depreciation and amortization.

This exemption does not apply if it has publicly disclosed the performance goals or similar conditions.

If the company is relying on this exemption, state this fact and explain why disclosing the performance goals or similar conditions would seriously prejudice the company's interests.

If the company does not disclose specific performance goals or similar conditions, state what percentage of the NEO's total compensation relates to this undisclosed information and how difficult it could be for the NEO, or how likely it will be for the company, to achieve the undisclosed performance goal or similar condition.

- (5) Disclose whether or not the board of directors, or a committee of the board, considered the implications of the risks associated with the company's compensation policies and practices. If the implications were considered, disclose the following:
- (a) the extent and nature of the board of directors' or committee' role in the risk oversight of the company's compensation policies and practices;
 - (b) any practices the company uses to identify and mitigate compensation policies and practices that could encourage an NEO or individual at a principal business unit or division to take inappropriate or excessive risks;
 - (c) any identified risks arising from the company's compensation policies and practices that are reasonably likely to have a material adverse effect on the company.
- (6) Disclose whether or not an NEO or director is permitted to purchase financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars, or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or director.

Commentary

1. *The information disclosed under section 2.1 will depend on the facts. Provide enough analysis to allow a reasonable person, applying reasonable effort, to understand the disclosure elsewhere in this form. Describe the significant principles underlying policies and explain the decisions relating to compensation provided to an NEO. Disclosure that merely describes the process for determining compensation or compensation already awarded, earned, paid, or payable is not adequate. The information contained in this section should give readers a sense of how compensation is tied to the NEO's performance. Avoid boilerplate language.*
2. *If the company's process for determining executive compensation is very simple, for example, the company relies solely on board discussion without any formal objectives, criteria and analysis, then make this clear in the discussion.*
3. *If the company used any benchmarking in determining compensation or any element of compensation, include the benchmark group and describe why the benchmark group and selection criteria are considered by the company to be relevant.*
4. *The following are examples of items that will usually be significant elements of disclosure concerning compensation:*
 - *contractual or non-contractual arrangements, plans, process changes or any other matters that might cause the amounts disclosed for the most recently completed financial year to be misleading if used as an indicator of expected compensation levels in future periods;*

- *the process for determining perquisites and personal benefits;*
 - *policies and decisions about the adjustment or recovery of awards, earnings, payments, or payables if the performance goal or similar condition on which they are based are restated or adjusted to reduce the award, earning, payment, or payable;*
 - *the basis for selecting events that trigger payment for any arrangement that provides for payment at, following or in connection with any termination or change of control;*
 - *any waiver or change to any specified performance goal or similar condition to payout for any amount, including whether the waiver or change applied to one or more specified NEOs or to all compensation subject to the performance goal or similar condition;*
 - *whether the board of directors can exercise a discretion, either to award compensation absent attainment of the relevant performance goal or similar condition or to reduce or increase the size of any award or payout, including if they exercised discretion and whether it applied to one or more named executive officers;*
 - *whether the company will be making any significant changes to its compensation policies and practices in the next financial year;*
 - *the role of executive officers in determining executive compensation; and*
 - *performance goals or similar conditions in respect of specific quantitative or qualitative performance-related factors for NEOs.*
5. *The following are examples of situations that could potentially encourage an executive officer to expose the company to inappropriate or excessive risks:*
- *compensation policies and practices at a principal business unit of the company or a subsidiary of the company that are structured significantly differently than others within the company;*
 - *compensation policies and practices for certain executive officers that are structured significantly differently than other executive officers within the company;*
 - *compensation policies and practices that do not include effective risk management and regulatory compliance as part of the performance metrics used in determining compensation;*

- *compensation policies and practices where the compensation expense to executive officers is a significant percentage of the company's revenue;*
- *compensation policies and practices that vary significantly from the overall compensation structure of the company;*
- *compensation policies and practices where incentive plan awards are awarded upon accomplishment of a task while the risk to the company from that task extends over a significantly longer period of time;*
- *compensation policies and practices that contain performance goals or similar conditions that are heavily weighed to short-term rather than long-term objectives;*
- *incentive plan awards that do not provide a maximum benefit or payout limit to executive officers.*

The examples above are not exhaustive and the situations to consider will vary depending upon the nature of the company's business and the company's compensation policies and practices.

2.2 Performance graph

- (a) This section does not apply to
 - (i) venture issuers,
 - (ii) companies that have distributed only debt securities or non-convertible, non-participating preferred securities to the public, and
 - (iii) companies that were not reporting issuers in any jurisdiction in Canada for at least 12 calendar months before the end of their most recently completed financial year, other than companies that became new reporting issuers as a result of a restructuring transaction.
- (b) Provide a line graph showing the company's cumulative total shareholder return over the five most recently completed financial years. Assume that \$100 was invested on the first day of the five-year period. If the company has been a reporting issuer for less than five years, use the period that the company has been a reporting issuer.

Compare this to the cumulative total return of at least one broad equity market index that, to a reasonable person, would be an appropriate reference point for the company's return. If the company is included in the S&P/TSX Composite Total Return Index, use that index. In all cases, assume that dividends are reinvested.

Discuss how the trend shown by this graph compares to the trend in the company's compensation to executive officers reported under this form over the same period.

Commentary

For section 2.2, companies may also include other relevant performance goals or similar conditions.

2.3 Share-based and option-based awards

Describe the process the company uses to grant share-based or option-based awards to executive officers. Include the role of the compensation committee and executive officers in setting or amending any equity incentive plan under which a share-based or option-based award is granted. State whether previous grants are taken into account when considering new grants.

2.4 Compensation governance

- (1) Describe any policies and practices adopted by the board of directors to determine the compensation for the company's directors and executive officers.
- (2) If the company has established a compensation committee
 - (a) disclose the name of each committee member and, in respect of each member, state whether or not the member is independent or not independent;
 - (b) disclose whether or not one or more of the committee members has any direct experience that is relevant to his or her responsibilities in executive compensation;
 - (c) describe the skills and experience that enable the committee to make decisions on the suitability of the company's compensation policies and practices; and
 - (d) describe the responsibilities, powers and operation of the committee.
- (3) If a compensation consultant or advisor has, at any time since the company's most recently completed financial year, been retained to assist the board of directors or the compensation committee in determining compensation for any of the company's directors or executive officers
 - (a) state the name of the consultant or advisor and a summary of the mandate the consultant or advisor has been given;
 - (b) disclose when the consultant or advisor was originally retained; and
 - (c) if the consultant or advisor has provided any services to the company, or to its affiliated or subsidiary entities, or to any of its directors or members of management,

other than or in addition to compensation services provided for any of the company's directors or executive officers,

- (i) state this fact and briefly describe the nature of the work,
 - (ii) disclose whether the board of directors or compensation committee must pre-approve other services the consultant or advisor, or any of its affiliates, provides to the company at the request of management, and
- (d) For each of the two most recently completed financial year, disclose,
- (i) under the caption "Executive Compensation-Related Fees", the aggregate fees billed by each consultant or advisor, or any of its affiliates, for services related to determining compensation for any of the company's directors and executive officers, and
 - (ii) under the caption "All Other Fees", the aggregate fees billed for all other services provided by each consultant or advisor, or any of its affiliates, that are not reported under subparagraph (i) and include a description of the nature of the services comprising the fees disclosed under this category.

Commentary

For section 2.4, a director is independent if he or she would be independent within the meaning of section 1.4 of NI 52-110 Audit Committees.

ITEM 3 – SUMMARY COMPENSATION TABLE

3.1 Summary compensation table

- (1) For each NEO in the most recently completed financial year, complete this table for each of the company's three most recently completed financial years that end on or after December 31, 2008.

Commentary

Under subsection (1), a company is not required to disclose comparative period disclosure in accordance with the requirements of either Form 51-102F6 Statement of Executive Compensation, which came into force on March 30, 2004, as amended, or this form, in respect of a financial year ending before December 31, 2008.

- (2) In column (c), include the dollar value of cash and non-cash base salary an NEO earned during a financial year covered in the table (a covered financial year). If the company cannot calculate the amount of salary earned in a financial year, disclose this in a footnote, along with the reason why it cannot be determined. Restate the salary figure the next time the company prepares this form, and explain what portion of the restated figure represents an amount that the company could not previously calculate.
- (3) In column (d), disclose the dollar amount based on the fair value of the award on the grant date for a covered financial year.
- (4) In column (e), disclose the dollar amount based on the fair value of the award on the grant date for a covered financial year. Include option-based awards both with or without tandem share appreciation rights.
- (5) For an award disclosed in column (d) or (e), in a footnote to the table,
 - (a) describe the methodology used to calculate the fair value of the award on the grant date, disclose the key assumptions and estimates used for each calculation, and explain why the company chose that methodology, and
 - (b) if the fair value of the award on the grant date is different from the fair value determined in accordance with IFRS 2 *Share-based Payment* (accounting fair value), state the amount of the difference and explain the reasons for the difference.

Commentary

1. *This commentary applies to subsections (3), (4) and (5).*
2. *The value disclosed in columns (d) and (e) of the summary compensation table should reflect what the company paid, made payable, awarded, granted, gave or otherwise provided as compensation on the grant date (fair value of the award) as set out in comment 3, below. This value might differ from the value reported in the issuer's financial statements.*
3. *While compensation practices vary, there are generally two approaches that boards of directors use when setting compensation. A board of directors may decide the value in securities of the company to be awarded or paid as compensation. Alternatively, a board of directors may decide the portion of the potential ownership of the company to be transferred as compensation. A fair value ascribed to the award will normally result from these approaches.*

A company may calculate this value either in accordance with a valuation methodology identified in IFRS 2 Share-based Payment or in accordance with another methodology set out in comment 5 below.

4. *In some cases, the fair value of the award disclosed in columns (d) and (e) might differ from the accounting fair value. For financial statement purposes, the accounting fair value amount is amortized over the service period to obtain an accounting cost (accounting compensation expense), adjusted at year end as required.*
 5. *While the most commonly used methodologies for calculating the value of most types of awards are the Black-Scholes-Merton model and the binomial lattice model, companies may choose to use another valuation methodology if it produces a more meaningful and reasonable estimate of fair value.*
 6. *The summary compensation table requires disclosure of an amount even if the accounting compensation expense is zero. The amount disclosed in the table should reflect the fair value of the award following the principles described under comments 2 and 3, above.*
 7. *Column (d) includes common shares, restricted shares, restricted share units, deferred share units, phantom shares, phantom share units, common share equivalent units, stock, and similar instruments that do not have option-like features.*
- (6)** In column (e), include the incremental fair value if, at any time during the covered financial year, the company has adjusted, amended, cancelled, replaced or significantly modified the exercise price of options previously awarded to, earned by, paid to, or payable to, an NEO.

The repricing or modification date must be determined in accordance with IFRS 2 *Share-based Payment*. The methodology used to calculate the incremental fair value must be the same methodology used to calculate the initial grant.

This requirement does not apply to any repricing that equally affects all holders of the class of securities underlying the options and that occurs through a pre-existing formula or mechanism in the plan or award that results in the periodic adjustment of the option exercise or base price, an antidilution provision in a plan or award, or a recapitalization or similar transaction.

- (7) Include a footnote to the table quantifying the incremental fair value of any adjusted, amended, cancelled, replaced or significantly modified options that are included in the table.
- (8) In column (f), include the dollar value of all amounts earned for services performed during the covered financial year that are related to awards under non-equity incentive plans and all earnings on any such outstanding awards.
 - (a) If the relevant performance goal or similar condition was satisfied during a covered financial year (including for a single year in a plan with a multi-year performance goal or similar condition), report the amounts earned for that financial year, even if they are payable at a later date. The company is not required to report these amounts again in the summary compensation table when they are actually paid to an NEO.
 - (b) Include a footnote describing and quantifying all amounts earned on non-equity incentive plan compensation, whether they were paid during the financial year, were payable but deferred at the election of an NEO, or are payable by their terms at a later date.
 - (c) Include any discretionary cash awards, earnings, payments, or payables that were not based on pre-determined performance goals or similar conditions that were communicated to an NEO. Report any performance-based plan awards that include pre-determined performance goals or similar conditions in column (f).
 - (d) In column (f1), include annual non-equity incentive plan compensation, such as bonuses and discretionary amounts. For column (f1), annual non-equity incentive plan compensation relates only to a single financial year. In column (f2), include all non-equity incentive plan compensation related to a period longer than one year.
- (9) In column (g), include all compensation relating to defined benefit or defined contribution plans. These include service costs and other compensatory items such as plan changes and earnings that are different from the estimated earnings for defined benefit plans and above-market earnings for defined contribution plans.

This disclosure relates to all plans that provide for the payment of pension plan benefits. Use the same amounts included in column (e) of the defined benefit plan table required by Item 5

for the covered financial year and the amounts included in column (c) of the defined contribution plan table as required by Item 5 for the covered financial year.

- (10)** In column (h), include all other compensation not reported in any other column of this table. Column (h) must include, but is not limited to:
- (a) perquisites, including property or other personal benefits provided to an NEO that are not generally available to all employees, and that in aggregate are worth \$50,000 or more, or are worth 10% or more of an NEO’s total salary for the financial year. Value these items on the basis of the aggregate incremental cost to the company and its subsidiaries. Describe in a footnote the methodology used for computing the aggregate incremental cost to the company.

State the type and amount of each perquisite the value of which exceeds 25% of the total value of perquisites reported for an NEO in a footnote to the table. Provide the footnote information for the most recently completed financial year only;
 - (b) other post-retirement benefits such as health insurance or life insurance after retirement;
 - (c) all “gross-ups” or other amounts reimbursed during the covered financial year for the payment of taxes;
 - (d) the incremental payments, payables, and benefits to an NEO that are triggered by, or result from, a scenario listed in section 6.1 that occurred before the end of the covered financial year;
 - (e) the dollar value of any insurance premiums paid or payable by, or on behalf of, the company during the covered financial year for personal insurance for an NEO if the estate of the NEO is the beneficiary;
 - (f) the dollar value of any dividends or other earnings paid or payable on share-based or option-based awards that were not factored into the fair value of the award on the grant date required to be reported in columns (d) and (e);
 - (g) any compensation cost for any security that the NEO bought from the company or its subsidiaries at a discount from the market price of the security (through deferral of salary, bonus or otherwise). Calculate this cost at the date of purchase and in accordance with IFRS 2 *Share-based Payment*; and
 - (h) above-market or preferential earnings on compensation that is deferred on a basis that is not tax exempt other than for defined contribution plans covered in the defined contribution plan table in Item 5. Above-market or preferential applies to non-registered plans and means a rate greater than the rate ordinarily paid by the company or its subsidiary on securities or other obligations having the same or similar features issued to third parties.

- (i) any company contribution to a personal savings plan like a registered retirement savings plan made on behalf of the NEO.

Commentary

1. *Generally, there will be no incremental payments, payables, and benefits that are triggered by, or result from, a scenario described in section 6.1 that occurred before the end of a covered financial year for compensation that has been reported in the summary compensation table for the most recently completed financial year or for a financial year before the most recently completed financial year.*

If the vesting or payout of the previously reported compensation is accelerated, or a performance goal or similar condition in respect of the previously reported compensation is waived, as a result of a scenario described in section 6.1, the incremental payments, payables, and benefits should include the value of the accelerated benefit or of the waiver of the performance goal or similar condition.

2. *Generally, an item is not a perquisite if it is integrally and directly related to the performance of an executive officer's duties. If something is necessary for a person to do his or her job, it is integrally and directly related to the job and is not a perquisite, even if it also provides some amount of personal benefit.*

If the company concludes that an item is not integrally and directly related to performing the job, it may still be a perquisite if the item provides an NEO with any direct or indirect personal benefit. If it does provide a personal benefit, the item is a perquisite, whether or not it is provided for a business reason or for the company's convenience, unless it is generally available on a non-discriminatory basis to all employees.

Companies must conduct their own analysis of whether a particular item is a perquisite. The following are examples of things that are often considered perquisites or personal benefits. This list is not exhaustive:

- *Cars, car lease and car allowance;*
- *Corporate aircraft or personal travel financed by the company;*
- *Jewellery;*
- *Clothing;*
- *Artwork ;*
- *Housekeeping services;*

- *Club membership;*
 - *Theatre tickets;*
 - *Financial assistance to provide education to children of executive officers;*
 - *Parking;*
 - *Personal financial or tax advice;*
 - *Security at personal residence or during personal travel; and*
 - *Reimbursements of taxes owed with respect to perquisites or other personal benefit.*
- (11) In column (i), include the dollar value of total compensation for the covered financial year. For each NEO, this is the sum of the amounts reported in columns (c) through (h).
- (12) Any deferred amounts must be included in the appropriate column for the covered financial year in which they are earned.
- (13) If an NEO elected to exchange any compensation awarded to, earned by, paid to, or payable to the NEO in a covered financial year under a program that allows the NEO to receive awards, earnings, payments, or payables in another form, the compensation the NEO elected to exchange must be reported as compensation in the column appropriate for the form of compensation exchanged: Do not report it in the form in which it was or will be received by the NEO. State in a footnote the form of awards, earnings, payments, or payables substituted for the compensation the NEO elected to exchange.

3.2 Narrative discussion

Describe and explain any significant factors necessary to understand the information disclosed in the summary compensation table required by section 3.1.

Commentary

The significant factors described in section 3.2 will vary depending on the circumstances of each award but may include:

- *the significant terms of each NEO's employment agreement or arrangement;*
- *any repricing or other significant changes to the terms of any share-based or option-based award program during the most recently completed financial year; and*
- *the significant terms of any award reported in the summary compensation table, including a general description of the formula or criterion to be applied in*

determining the amounts payable and the vesting schedule. For example, if dividends will be paid on shares, state this, the applicable dividend rate and whether that rate is preferential.

3.3 [deleted]

3.4 Officers who also act as directors

If an NEO is also a director who receives compensation for services as a director, include that compensation in the summary compensation table and include a footnote explaining which amounts relate to the director role. Do not provide disclosure for that NEO under Item 7.

ITEM 4 – INCENTIVE PLAN AWARDS

4.1 Outstanding share-based awards and option-based awards

- (1) Complete this table for each NEO for all awards outstanding at the end of the most recently completed financial year. This includes awards granted before the most recently completed financial year. For all awards in this table, disclose the awards that have been transferred at other than fair market value.

Name	Option-based Awards				Share-based Awards		
	Number of securities underlying unexercised options (#)	Option exercise price (\$)	Option expiration date	Value of unexercised in-the-money options (\$)	Number of shares or units of shares that have not vested (#)	Market or payout value of share-based awards that have not vested (\$)	Market or payout value of vested share-based awards not paid out or distributed (\$)
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)
CEO							
CFO							
A							
B							
C							

- (2) In column (b), for each award, disclose the number of securities underlying unexercised options.
- (3) In column (c), disclose the exercise or base price for each option under each award reported in column (b). If the option was granted in a different currency than that reported in the table, include a footnote describing the currency and the exercise or base price.
- (4) In column (d), disclose the expiration date for each option under each award reported in column (b).

- (5) In column (e), disclose the aggregate dollar amount of in-the-money unexercised options held at the end of the year. Calculate this amount based on the difference between the market value of the securities underlying the instruments at the end of the year, and the exercise or base price of the option.
- (6) In column (f), disclose the total number of shares or units that have not vested.
- (7) In column (g), disclose the aggregate market value or payout value of share-based awards that have not vested.

If the share-based award provides only for a single payout on vesting, calculate this value based on that payout.

If the share-based award provides for different payouts depending on the achievement of different performance goals or similar conditions, calculate this value based on the minimum payout. However, if the NEO achieved a performance goal or similar condition in a financial year covered by the share-based award that on vesting could provide for a payout greater than the minimum payout, calculate this value based on the payout expected as a result of the NEO achieving this performance goal or similar condition.

- (8) In column (h), disclose the aggregate market value or payout value of vested share-based awards that have not yet been paid out or distributed.

4.2 Incentive plan awards – value vested or earned during the year

- (1) Complete this table for each NEO for the most recently completed financial year.

Name (a)	Option-based awards – Value vested during the year (\$) (b)	Share-based awards – Value vested during the year (\$) (c)	Non-equity incentive plan compensation – Value earned during the year (\$) (d)
CEO			
CFO			
A			
B			
C			

- (2) In column (b), disclose the aggregate dollar value that would have been realized if the options under the option-based award had been exercised on the vesting date. Compute the dollar value that would have been realized by determining the difference between the market price of the underlying securities at exercise and the exercise or base price of the options under the option-based award on the vesting date. Do not include the value of any related payment or other consideration provided (or to be provided) by the company to or on behalf of an NEO.

- (3) In column (c), disclose the aggregate dollar value realized upon vesting of share-based awards. Compute the dollar value realized by multiplying the number of shares or units by the market value of the underlying shares on the vesting date. For any amount realized upon vesting for which receipt has been deferred, include a footnote that states the amount and the terms of the deferral.

4.3 Narrative discussion

Describe and explain the significant terms of all plan-based awards, including non-equity incentive plan awards, issued or vested, or under which options have been exercised, during the year, or outstanding at the year end, to the extent not already discussed under sections 2.1, 2.3 and 3.2. The company may aggregate information for different awards, if separate disclosure of each award is not necessary to communicate their significant terms.

Commentary

The items included in the narrative required by section 4.3 will vary depending on the terms of each plan, but may include:

- *the number of securities underlying each award or received on vesting or exercise;*
- *general descriptions of formulae or criteria that are used to determine amounts payable;*
- *exercise prices and expiry dates;*
- *dividend rates on share-based awards;*
- *whether awards are vested or unvested;*
- *performance goals or similar conditions, or other significant conditions;*
- *information on estimated future payouts for non-equity incentive plan awards (performance goals or similar conditions and maximum amounts); and*
- *the closing market price on the grant date, if the exercise or base price is less than the closing market price of the underlying security on the grant date.*

ITEM 5 – PENSION PLAN BENEFITS

5.1 Defined benefit plans table

- (1) Complete this table for all pension plans that provide for payments or benefits at, following, or in connection with retirement, excluding defined contribution plans. For all disclosure in this table, use the same assumptions and methods used for financial statement reporting

purposes under the accounting principles used to prepare the company’s financial statements, as permitted by National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*.

- (2) In columns (b) and (c), the disclosure must be as of the end of the company’s most recently completed financial year. In columns (d) through (g), the disclosure must be as of the reporting date used in the company’s audited financial statements for the most recently completed financial year.
- (3) In column (b), disclose the number of years of service credited to an NEO under the plan. If the number of years of credited service in any plan is different from the NEO’s number of actual years of service with the company, include a footnote that states the amount of the difference and any resulting benefit augmentation, such as the number of additional years the NEO received.
- (4) In column (c), disclose
- (a) the annual lifetime benefit payable at the end of the most recently completed financial year in column (c1) based on years of credited service reported in column (b) and actual pensionable earnings as at the end of the most recently completed financial year. For purposes of this calculation, the company must assume that the NEO is eligible to receive payments or benefits at year end, and
 - (b) the annual lifetime benefit payable at age 65 in column (c2) based on years of credited service as of age 65 and actual pensionable earnings through the end of the most recently completed financial year, as per column (c1).

Commentary

For purposes of quantifying the annual lifetime benefit payable at the end of the most recently completed financial year in column (c1), the company may calculate the annual lifetime benefit payable as follows:

$$\begin{array}{r} \text{annual benefits payable at the presumed} \\ \text{retirement age used to calculate the closing} \\ \text{present value of the defined benefit} \\ \text{obligation} \end{array} \quad \times \quad \frac{\begin{array}{r} \text{years of credited} \\ \text{service at year end} \\ \hline \text{years of credited} \\ \text{service at the} \\ \text{presumed retirement} \\ \text{age} \end{array}}$$

The company may calculate the annual lifetime benefit payable in accordance with another formula if the company reasonably believes that it produces a more meaningful calculation of the annual lifetime benefit payable at year end.

- (5) In column (d), disclose the present value of the defined benefit obligation at the start of the most recently completed financial year.
- (6) In column (e), disclose the compensatory change in the present value of the defined benefit obligation for the most recently completed financial year. This includes service cost net of employee contributions plus plan changes and differences between actual and estimated earnings, and any additional changes that have retroactive impact, including, for greater certainty, a change in valuation assumptions as a consequence of an amendment to benefit terms.

Disclose the valuation method and all significant assumptions the company applied in quantifying the closing present value of the defined benefit obligation. The company may satisfy all or part of this disclosure by referring to the disclosure of assumptions in its financial statements, footnotes to the financial statements or discussion in its management's discussion and analysis.

- (7) In column (f), disclose the non-compensatory changes in the present value of the defined benefit obligation for the company's most recently completed financial year. Include all items that are not compensatory, such as changes in assumptions other than those already included in column (e) because they were made as a consequence of an amendment to benefit terms, employee contributions and interest on the present value of the defined benefit obligation at the start of the most recently completed financial year.
- (8) In column (g), disclose the present value of the defined benefit obligation at the end of the most recently completed financial year.

5.2 Defined contribution plans table

- (1) Complete this table for all pension plans that provide for payments or benefits at, following or in connection with retirement, excluding defined benefit plans. For all disclosure in this table, use the same assumptions and methods used for financial statement reporting purposes under the accounting principles used to prepare the company’s financial statements, as permitted by National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*.

- (2) In column (c), disclose the employer contribution and above-market or preferential earnings credited on employer and employee contributions. Above-market or preferential earnings applies to non-registered plans and means a rate greater than the rate ordinarily paid by the company or its subsidiary on securities or other obligations having the same or similar features issued to third parties.
- (3) [deleted]
- (4) In column (d), disclose the accumulated value at the end of the most recently completed financial year.

Commentary

1. *For pension plans that provide the maximum of: (i) the value of a defined benefit pension; and (ii) the accumulated value of a defined contribution pension, companies should disclose the global value of the pension plan in the defined benefit plans table under section 5.1.*

For pension plans that provide the sum of a defined benefit component and a defined contribution component, companies should disclose the respective components of the pension plan. The defined benefit component should be disclosed in the defined benefit plans table under section 5.1 and the defined contribution component should be disclosed in the defined contribution plans table under section 5.2.

2. *Any contributions by the company or a subsidiary of the company to a personal savings plan like a registered retirement savings plan made on behalf of the NEO must still be disclosed in column (h) of the summary compensation table, as required by paragraph 3.1(10)(i).*

5.3 Narrative discussion

Describe and explain for each retirement plan in which an NEO participates, any significant factors necessary to understand the information disclosed in the defined benefit plan table in section 5.1 and the defined contribution plan table in section 5.2.

Commentary

Significant factors described in the narrative required by section 5.3 will vary, but may include:

- *the significant terms and conditions of payments and benefits available under the plan, including the plan's normal and early retirement payment, benefit formula, contribution formula, calculation of interest credited under the defined contribution plan and eligibility standards;*
- *provisions for early retirement, if applicable, including the name of the NEO and the plan, the early retirement payment and benefit formula and eligibility standards. Early retirement means retirement before the normal retirement age as defined in the plan or otherwise available under the plan;*
- *the specific elements of compensation (e.g., salary, bonus) included in applying the payment and benefit formula. If a company provides this information, identify each element separately; and*
- *company policies on topics such as granting extra years of credited service, including an explanation of who these arrangements relate to and why they are considered appropriate.*

5.4 Deferred compensation plans

Describe the significant terms of any deferred compensation plan relating to each NEO, including:

- (a) the types of compensation that can be deferred and any limitations on the extent to which deferral is permitted (by percentage of compensation or otherwise);
- (b) significant terms of payouts, withdrawals and other distributions; and
- (c) measures for calculating interest or other earnings, how and when these measures may be changed, and whether an NEO or the company chose these measures. Quantify these measures wherever possible.

ITEM 6 – TERMINATION AND CHANGE OF CONTROL BENEFITS

6.1 Termination and change of control benefits

- (1) For each contract, agreement, plan or arrangement that provides for payments to an NEO at, following or in connection with any termination (whether voluntary, involuntary or constructive), resignation, retirement, a change in control of the company or a change in an NEO's responsibilities, describe, explain, and where appropriate, quantify the following items:
 - (a) the circumstances that trigger payments or the provision of other benefits, including perquisites and pension plan benefits;
 - (b) the estimated incremental payments, payables, and benefits that are triggered by, or result from, each circumstance, including timing, duration and who provides the payments and benefits;
 - (c) how the payment and benefit levels are determined under the various circumstances that trigger payments or provision of benefits;
 - (d) any significant conditions or obligations that apply to receiving payments or benefits. This includes but is not limited to, non-compete, non-solicitation, non-disparagement or confidentiality agreements. Include the term of these agreements and provisions for waiver or breach; and
 - (e) any other significant factors for each written contract, agreement, plan or arrangement.
- (2) Disclose the estimated incremental payments, payables, and benefits even if it is uncertain what amounts might be paid in given circumstances under the various plans and arrangements, assuming that the triggering event took place on the last business day of the company's most recently completed financial year. For valuing share-based awards or option-based awards, use the closing market price of the company's securities on that date.

If the company is unsure about the provision or amount of payments or benefits, make a reasonable estimate (or a reasonable estimate of the range of amounts) and disclose the significant assumptions underlying these estimates.

- (3) Despite subsection (1), the company is not required to disclose the following:
 - (a) Perquisites and other personal benefits if the aggregate of this compensation is less than \$50,000. State the individual perquisites and personal benefits as required by paragraph 3.1(10)(a).

- (b) Information about possible termination scenarios for an NEO whose employment terminated in the past year. The company must only disclose the consequences of the actual termination.
- (c) Information in respect of a scenario described in subsection (1) if there will be no incremental payments, payables, and benefits that are triggered by, or result from, that scenario.

Commentary

1. *Subsection (1) does not require the company to disclose notice of termination without cause, or compensation in lieu thereof, which are implied as a term of an employment contract under common law or civil law.*
2. *Item 6 applies to changes of control regardless of whether the change of control results in termination of employment.*
3. *Generally, there will be no incremental payments, payables, and benefits that are triggered by, or result from, a scenario described in subsection (1) for compensation that has been reported in the summary compensation table for the most recently completed financial year or for a financial year before the most recently completed financial year.*

If the vesting or payout of the previously reported compensation is accelerated, or a performance goal or similar condition in respect of the previously reported compensation is waived, as a result of a scenario described in subsection (1), the incremental payments, payables, and benefits should include the value of the accelerated benefit or of the waiver of the performance goal or similar condition.

4. *A company may disclose estimated incremental payments, payables and benefits that are triggered by, or result from, a scenario described in subsection (1), in tabular format.*

ITEM 7 – DIRECTOR COMPENSATION

7.1 Director compensation table

- (1) Complete this table for all amounts of compensation provided to the directors for the company’s most recently completed financial year.

- (2) All forms of compensation must be included in this table.
- (3) Complete each column in the manner required for the corresponding column in the summary compensation table in section 3.1, in accordance with the requirements of Item 3, as supplemented by the commentary to Item 3, except as follows:
- (a) In column (a), do not include a director who is also an NEO if his or her compensation for service as a director is fully reflected in the summary compensation table and elsewhere in this form. If an NEO is also a director who receives compensation for his or her services as a director, reflect the director compensation in the summary compensation table required by section 3.1 and provide a footnote to this table indicating that the relevant disclosure has been provided under section 3.4.
 - (b) In column (b), include all fees awarded, earned, paid, or payable in cash for services as a director, including annual retainer fees, committee, chair, and meeting fees.
 - (c) In column (g), include all compensation paid, payable, awarded, granted, given, or otherwise provided, directly or indirectly, by the company, or a subsidiary of the company, to a director in any capacity, under any other arrangement. This includes, for greater certainty, all plan and non-plan compensation, direct and indirect pay, remuneration, economic or financial award, reward, benefit, gift or perquisite paid, payable, awarded, granted, given, or otherwise provided to the director for services provided, directly or indirectly, to the company or a subsidiary of the company. In a footnote to the table, disclose these amounts and describe the nature of the services provided by the director that are associated with these amounts.
 - (d) In column (g), include programs where the company agrees to make donations to one or more charitable institutions in a director’s name, payable currently or upon a designated event such as the retirement or death of the director. Include a footnote to the table disclosing the total dollar amount payable under the program.

7.2 Narrative discussion

Describe and explain any factors necessary to understand the director compensation disclosed in section 7.1.

Commentary

Significant factors described in the narrative required by section 7.2 will vary, but may include:

Unofficial consolidation – in effect as of October 31, 2011 – for financial years beginning on or after January 1, 2011

- *disclosure for each director who served in that capacity for any part of the most recently completed financial year;*
- *standard compensation arrangements, such as fees for retainer, committee service, service as chair of the board or a committee, and meeting attendance;*
- *any compensation arrangements for a director that are different from the standard arrangements, including the name of the director and a description of the terms of the arrangement; and*
- *any matters discussed in the compensation discussion and analysis that do not apply to directors in the same way that they apply to NEOs such as practices for granting option-based awards.*

7.3 Share-based awards, option-based awards and non-equity incentive plan compensation

Provide the same disclosure for directors that is required under Item 4 for NEOs.

ITEM 8 – COMPANIES REPORTING IN THE UNITED STATES

8.1 Companies reporting in the United States

- (1) Except as provided in subsection (2), SEC issuers may satisfy the requirements of this form by providing the information required by Item 402 “Executive compensation” of Regulation S-K under the 1934 Act.
- (2) Subsection (1) does not apply to a company that, as a foreign private issuer, satisfies Item 402 of Regulation S-K by providing the information required by Items 6.B “Compensation” and 6.E.2 “Share Ownership” of Form 20-F under the 1934 Act.

ITEM 9 – EFFECTIVE DATE AND TRANSITION

9.1 Effective date

- (1) This form comes into force on December 31, 2008.

9.2 Transition

- (1) The form entitled Form 51-102F6 *Statement of Executive Compensation*, which came into force on March 30, 2004, as amended,
 - (a) does not apply to a company in respect of a financial year ending on or after December 31, 2008, and

- (b) for greater certainty, applies to a company that is required to prepare and file executive compensation disclosure because
 - (i) the company is sending an information circular to a securityholder under paragraph 9.1(2)(a) of National Instrument 51-102 *Continuous Disclosure Obligations*, the information circular includes the disclosure required by Item 8 of Form 51-102F5, and the information circular is in respect of a financial year ending before December 31, 2008, or
 - (ii) the company is filing an AIF that includes the disclosure required by Item 8 of Form 51-102F5, in accordance with Item 18 of Form 51-102F2, and the AIF is in respect of a financial year ending before December 31, 2008.
- (2) A company that is required to prepare and file executive compensation disclosure for a reason set out in paragraph (1)(b) may satisfy that requirement by preparing and filing the disclosure required by this form.

COMPANION POLICY 51-102CP
CONTINUOUS DISCLOSURE OBLIGATIONS

PART 1 INTRODUCTION AND DEFINITIONS

1.1 Introduction and Purpose

- (1) National Instrument 51-102 *Continuous Disclosure Obligations* (the “Instrument”) sets out disclosure requirements for all issuers, other than investment funds, that are reporting issuers in one or more jurisdictions in Canada.
- (2) The purpose of this Companion Policy (the “Policy”) is to help you understand how the provincial and territorial regulatory authorities interpret or apply certain provisions of the Instrument. This Policy includes explanations, discussion and examples of various parts of the Instrument.

1.2 Filing Obligations

- (1) Reporting issuers must file continuous disclosure documents under the Instrument only in the local jurisdictions in which they are a reporting issuer.
- (2) In some circumstances, the Instrument permits an issuer to satisfy a filing requirement by filing a different document instead. If an issuer is relying on one of these sections, the issuer must file the substitute document in the appropriate filing category and type on SEDAR. For example, an exchangeable share issuer relying on section 13.3(2) that must file a copy of its parent issuer’s annual financial statements must file those financial statements under the exchangeable share issuer’s SEDAR profile in the “Annual Financial Statement” filing type.

1.3 Corporate Law Requirements

Reporting issuers are reminded that they may be subject to requirements of corporate law that address matters similar to those addressed by the Instrument, and which may impose additional or more onerous requirements. For example, applicable corporate law may require the delivery of annual financial statements to shareholders or may require the board of directors to approve interim financial reports.

1.4 Definitions

- (1) **General** – Many of the terms for which the Instrument or Forms prescribed by the Instrument provide definitions are defined somewhat differently in the applicable securities legislation of several local jurisdictions. A term used in the Instrument and defined in the securities statute of a local jurisdiction has the meaning given to it in the statute unless: (a) the definition in that statute is restricted to a specific portion of the statute that does not govern continuous disclosure; or (b) the context otherwise requires.

For instance, the terms “form of proxy”, “material change”, “proxy”, and “recognized quotation and trade reporting system” are defined in local securities legislation of most jurisdictions. The provincial and territorial regulatory authorities consider the meanings given to these terms in securities legislation to be substantially similar to the definitions set out in the Instrument.

- (2) **Asset-backed security** – Section 1.8 of Companion Policy 44-101CP provides guidance for the definition of “asset-backed security”.
- (3) **Directors and Executive Officers** – Where the Instrument or any of the Forms use the term “directors” or “executive officers”, a reporting issuer that is not a corporation must refer to the definitions in securities legislation of “director”. The definition of “director” typically includes a person acting in a capacity similar to that of a director of a company. Therefore, non-corporate issuers must determine in light of the particular circumstances which individuals or persons are acting in such capacities for the purposes of complying with the Instrument and the Forms. Further, in considering paragraph (c) of the definition of “executive officer”, we would consider an individual that is employed by an entity separate from the reporting issuer, but that performs a policy-making function in respect of the reporting issuer through that separate entity or otherwise, to fit within this definition.

Similarly, the terms chief executive officer and chief financial officer should be read to include the individuals who have the responsibilities normally associated with these positions or act in a similar capacity. This determination should be made irrespective of an individual’s corporate title or whether that individual is employed directly or acts pursuant to an agreement or understanding.

- (4) **Investment Fund** – Generally, the definition of “investment fund” would not include a trust or other entity that issues securities which entitle the holder to substantially all of the net cash flows generated by: (i) an underlying business owned by the trust or other entity, or (ii) the income-producing properties owned by the trust or other entity. Examples of trusts or other entities that are not included in the definition are business income trusts, real estate investment trusts and royalty trusts.
- (5) **Reverse Takeover** – The definition of reverse takeover includes reverse acquisitions as defined or interpreted in Canadian GAAP applicable to publicly accountable enterprises and any other transaction in which an issuer issues enough voting securities as consideration for the acquisition of an entity such that control of the issuer passes to the securityholders of the acquired entity (such as a Qualifying Transaction, as that term is defined in the TSX Venture Exchange policies). In a reverse acquisition, although legally the entity (the legal parent) that issued the securities is regarded as the parent, the entity (the legal subsidiary) whose former securityholders now control the combined entity is treated as the acquirer for accounting purposes. As a result, for accounting purposes, the issuing entity (the legal parent) is deemed to be a continuation of the acquirer and the acquirer is deemed to have acquired control of the assets and business of the issuing entity in consideration for the issue of capital.

- (6) **Restructuring transaction** – A “restructuring transaction” includes a transaction in which a reporting issuer acquires assets, which may include assets that constitute a business, and issues securities resulting in
- new securityholders owning or controlling more than 50% of the reporting issuer’s outstanding voting securities, and
 - a new control person or company, or new control group.

The acquisition and issuance may be in a single transaction, or a series of transactions. To be a “series of transactions”, the transactions must be related to each other.

The phrase “new securityholders” includes both beneficial owners who did not hold any of the reporting issuer’s securities before the restructuring transaction, and beneficial owners that held some securities in the reporting issuer before the transaction, but who now, as a result of the transaction, own more than 50% of the outstanding voting securities.

- (7) **Accounting terms** – The Instrument uses accounting terms that are defined or used in Canadian GAAP applicable to publicly accountable enterprises. In certain cases, some of those terms are defined differently in securities legislation. In deciding which meaning applies, you should consider that National Instrument 14-101 *Definitions* provides that a term used in the Instrument and defined in the securities statute of a local jurisdiction has the meaning given to it in the statute unless: (a) the definition in that statute is restricted to a specific portion of the statute that does not govern continuous disclosure; or (b) the context otherwise requires.

For example, the term “associate” is defined in local securities statutes and Canadian GAAP applicable to publicly accountable enterprises. Securities regulatory authorities are of the view that the references to the term “associate” in the Instrument and its forms (e.g., item 7.1(g) of Form 51-102F5 *Information Circular*) should be given the meaning of the term under local securities statutes since the context does not indicate that the accounting meaning of the term should be used.

- (8) **Acceptable accounting principles other than Canadian GAAP applicable to publicly accountable enterprises** – If an issuer is permitted under National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* to file financial statements in accordance with acceptable accounting principles other than Canadian GAAP applicable to publicly accountable enterprises, then the issuer may interpret any reference in the Instrument to a term or provision defined or used in Canadian GAAP applicable to publicly accountable enterprises as a reference to the corresponding term or provision in the other acceptable accounting principles.
- (9) **Rate-regulated activities** - If a qualifying entity is relying on the exemption in paragraph 5.4(1)(a) of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*, then the qualifying entity may interpret any reference in the Instrument to a

term or provision defined or used in Canadian GAAP applicable to publicly accountable enterprises as a reference to the corresponding term or provision in Part V of the Handbook.

1.5 Plain Language Principles

You should apply plain language principles when you prepare your disclosure including:

- using short sentences
- using definite everyday language
- using the active voice
- avoiding superfluous words
- organizing the document in clear, concise sections, paragraphs and sentences
- avoiding jargon
- using personal pronouns to speak directly to the reader
- avoiding reliance on glossaries and defined terms unless it facilitates understanding of the disclosure
- not relying on boilerplate wording
- avoiding abstract terms by using more concrete terms or examples
- avoiding multiple negatives
- using technical terms only when necessary and explaining those terms
- using charts, tables and examples where it makes disclosure easier to understand.

Question and answer bullet point formats are consistent with the disclosure requirements of the Instrument.

1.6 Signature and Certificates

Reporting issuers are not required by the Instrument to sign or certify documents filed under the Instrument. Certification requirements apply to some documents under National Instrument 52-109 *Certification of Disclosure in Companies' Annual and Interim Filings*. Whether or not a document is signed or certified, it is an offence under securities legislation to make a false or misleading statement in any required document.

1.7 Audit Committees

Reporting issuers are reminded that their audit committees must fulfill their responsibilities set out in other securities legislation. For example, the responsibilities of audit committees are set out in National Instrument 52-110 *Audit Committees*.

1.8 Acceptable Accounting Principles and Auditing Standards

An issuer filing any of the following items under the Instrument must comply with National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*:

- (a) financial statements;
- (b) an operating statement for an oil and gas property as referred to in section 8.10 of the Instrument;
- (c) summarized financial information, including the aggregated amounts of assets, liabilities, revenue and profit or loss of a business as referred to in section 8.6 of the Instrument; or
- (d) financial information derived from a credit support issuer's financial statements as referred to in section 13.4 of the Instrument.

National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* sets out, among other things, the use of accounting principles other than Canadian GAAP applicable to publicly accountable enterprises or auditing standards other than Canadian GAAS in preparing or auditing financial statements.

1.9 Ordinary Course of Business

Whether a contract has been entered into in the ordinary course of business is a question of fact. It must be considered in the context of the reporting issuer's business and the industry in which it operates.

1.10 Material Deficiencies

After filing a document under the Instrument, a reporting issuer may determine that the document was materially deficient in some respect and, as a result, the filing does not comply with the requirements of the Instrument. In this situation, the reporting issuer is expected to comply with the Instrument by filing an amended version of the materially deficient document.

PART 2 FOREIGN ISSUERS AND INVESTMENT FUNDS

2.1 Foreign Issuers

National Instrument 71-102 *Continuous Disclosure and Other Exemptions Relating to Foreign Issuers* provides relief for foreign reporting issuers from certain continuous disclosure and other obligations, including certain obligations contained in the Instrument.

2.2 Investment Funds

Section 2.1 of the Instrument states that the Instrument does not apply to an investment fund. Investment funds should look to securities legislation of the local jurisdiction including National Instrument 81-106 *Investment Fund Continuous Disclosure* to find the continuous disclosure requirements applicable to them.

PART 3 FINANCIAL STATEMENTS

3.1 Financial Year

- (1) **Length of Financial Year** – For the purposes of the Instrument, unless otherwise expressly provided, references to a financial year apply irrespective of the length of that year. The first financial year of a reporting issuer commences on the date of its incorporation or organization and ends at the close of that year.
- (2) **Non-Standard Year** – An issuer with a non-standard year should advise the regulator or securities regulatory authority how it calculates its interim and annual periods before its first financial statements are due under the Instrument.

3.2 Audit of Comparative Annual Financial Statements

Section 4.1 of the Instrument requires a reporting issuer to file annual financial statements that include comparative information for the immediately preceding financial year and that are audited. The auditor's report must cover both the most recently completed financial year and the comparative period, except if the issuer changed its auditor during the periods presented in the annual financial statements and the new auditor has not audited the comparative period. In this situation, the auditor's report would normally refer to the predecessor auditor's report unless the predecessor auditor's report on the prior period's annual financial statements is reissued with the financial statements. This is consistent with Canadian Auditing Standard 710 *Comparative Information – Corresponding Figures and Comparative Financial Statements*.

3.3 Filing Deadline for Annual Financial Statements and Auditor's Report

Section 4.2 of the Instrument sets out filing deadlines for annual financial statements. While section 4.2 of the Instrument does not address the auditor's report date, reporting

issuers are encouraged to file their annual financial statements as soon as practicable after the date of the auditor's report. The delivery obligations set out in section 4.6 of the Instrument are not tied to the filing of the annual financial statements.

3.4 Auditor Involvement with an Interim Financial Report

- (1) The board of directors of a reporting issuer, in discharging its responsibilities for ensuring the reliability of an interim financial report, should consider engaging an external auditor to carry out a review of the interim financial report.
- (2) Subsection 4.3(3) of the Instrument requires a reporting issuer to disclose if an auditor has not performed a review of the interim financial report, to disclose if an auditor was unable to complete a review and why, and to file a written report from the auditor if the auditor has performed a review and expressed a reservation in the auditor's interim review report. No positive statement is required when an auditor has performed a review and provided an unqualified communication. If an auditor was engaged to perform a review on an interim financial report applying review standards set out in the Handbook, and the auditor was unable to complete the review, the issuer's disclosure of the reasons why the auditor was unable to complete the review would normally include a discussion of
 - (a) inadequate internal control;
 - (b) a limitation on the scope of the auditor's work; or
 - (c) the failure of management to provide the auditor with the written representations the auditor believes are necessary.
- (3) If a reporting issuer's annual financial statements are audited in accordance with Canadian GAAS, the terms "review" and "interim review report" used in subsection 4.3(3) of the Instrument refer to the auditor's review of, and report on, an interim financial report applying standards for a review of an interim financial report by the auditor as set out in the Handbook. However, if the reporting issuer's financial statements are audited in accordance with auditing standards other than Canadian GAAS, the corresponding review standards should be applied.

3.5 Delivery of Financial Statements

Section 4.6 of the Instrument requires reporting issuers to send a request form to the registered holders and beneficial owners of their securities. The registered holders and beneficial owners may use the request form to request a copy of the reporting issuer's annual financial statements and related MD&A, an interim financial report and related MD&A, or both. Reporting issuers are only required to deliver financial statements and MD&A to the person or company that requests them. As a result, if a beneficial owner requests financial statements and MD&A through its intermediary, the issuer is only required to deliver the requested documents to the intermediary.

Failing to return the request form or otherwise specifically request a copy of the financial statements or MD&A from the reporting issuer will override the beneficial owner's standing instructions under NI 54-101 in respect of the financial statements.

The Instrument does not prescribe when the request form must be sent, or how it must be returned to the reporting issuer.

3.6 Comparative Interim Financial Information After Becoming a Reporting Issuer

Section 4.7(4) of the Instrument provides that a reporting issuer does not have to provide comparative financial information when it first becomes a reporting issuer if it complies with specific requirements. Section 4.10(3) of the Instrument provides a similar exemption for comparative financial information for a reverse takeover acquirer. These exemptions may, for example, apply to an issuer that was, before becoming a reporting issuer or before the reverse takeover, a private entity and that is unable to prepare the comparative financial information because it is impracticable to do so. The test of whether "to a reasonable person it is impracticable to present prior-period information on a basis consistent with subsection 4.3(2)" is objective, rather than subjective. Securities regulatory authorities are of the view that a reporting issuer can rely on the exemption only if it has made every reasonable effort to present prior-period information on a basis consistent with subsection 4.3(2) of the Instrument. We are of the view that an issuer should only rely on this exemption in unusual circumstances and generally not related solely to the cost or the time involved in preparing the financial statements.

3.7 Change in Year-End

Appendix A to this Policy is a chart outlining the financial statement filing requirements under section 4.8 of the Instrument if a reporting issuer changes its financial year-end.

3.8 Reverse Takeovers

- (1) Following a reverse takeover, although the reverse takeover acquiree is the reporting issuer, from an accounting perspective, the financial statements will be those of the reverse takeover acquirer. Those financial statements must be prepared and filed as if the reverse takeover acquirer had always been the reporting issuer.
- (2) The reverse takeover acquiree must file its own financial statements required by sections 4.1 and 4.3 and the related MD&A for all interim and annual periods ending before the date of the reverse takeover, even if the filing deadline for those financial statements is after the date of the reverse takeover.

3.9 Change in Corporate Structure

- (1) Section 4.9 of the Instrument requires a reporting issuer to file a notice if the issuer has been party to certain transactions. The reporting issuer may satisfy this requirement by filing a copy of its material change report or news release, provided that

- (a) the material change report or news release contains all the information required in the notice; and
- (b) the reporting issuer files the material change report or news release with the securities regulatory authority or regulator
 - (i) under the Change in Corporate Structure category on SEDAR, or
 - (ii) if the issuer is not an electronic filer, as a notice under section 4.9.
- (2) If the transaction was a reverse takeover, the notice should state that fact and who the reverse takeover acquirer was.
- (3) Under paragraph 4.9(h) of the Instrument, the issuer must state the periods of the interim financial reports and the annual financial statements it has to file for its first financial year. Issuers should explain how they determined the periods, particularly if section 4.7 of the Instrument applies.

3.10 Change of Auditor

The term “disagreement” defined in subsection 4.11(1) should be interpreted broadly. A disagreement may not involve an argument, but rather, a mere difference of opinion. Also, where a difference of opinion occurs that meets the criteria in item (b) of the definition of “disagreement”, and the issuer reluctantly accepts the auditor’s position in order to obtain an unqualified report, a reportable disagreement may still exist. The subsequent rendering of an unqualified report does not, by itself, remove the necessity for reporting a disagreement.

Subsection 4.11(5) of the Instrument requires a reporting issuer, upon a termination or resignation of its auditor, to prepare a change of auditor notice, have the audit committee or board of directors approve the notice, file the reporting package with the regulator or securities regulatory authority in each jurisdiction where it is a reporting issuer, and if there are any reportable events, issue and file a news release describing the information in the reporting package. Subsection 4.11(6) of the Instrument requires the reporting issuer to perform these procedures upon an appointment of a successor auditor. If a termination or resignation of a predecessor auditor and appointment of a successor auditor occur within a short period of time, it may be possible for a reporting issuer to perform the procedures described above required by both subsections 4.11(5) and 4.11(6) concurrently and meet the timing requirements set out in those subsections. In other words, the reporting issuer would prepare only one comprehensive notice and reporting package.

PART 4 DISCLOSURE AND PRESENTATION OF FINANCIAL INFORMATION

4.1 Disclosure of Financial Information

- (1) Subsection 4.5(1) of the Instrument requires that annual financial statements be approved by the board of directors before filing. Subsections 4.5(2) and 4.5(3) of the Instrument require that each interim financial report be approved by the board of directors or by the company's audit committee before filing. We believe that extracting information from financial statements that have not been approved as required by those provisions and releasing that information to the marketplace in a news release is inconsistent with the prior approval requirement. Also see National Policy 51-201 *Disclosure Standards*.
- (2) Reporting issuers that intend to disclose financial information to the marketplace in a news release should consult National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*. We believe that disclosing financial information in a news release without disclosing the accounting principles used is inconsistent with the requirement in National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* to identify the accounting principles used in the financial statements.

4.2 Non-GAAP Financial Measures

Reporting issuers that intend to publish financial measures other than those prescribed by Canadian GAAP applicable to publicly accountable enterprises should refer to CSA Staff Notice 52-306 *Non-GAAP Financial Measures* for a discussion of staff expectations concerning the use of non-GAAP measures.

4.3 Presentation of Financial Information

Canadian GAAP applicable to publicly accountable enterprises provides an issuer two alternatives in presenting its income: (a) in one single statement of comprehensive income, or (b) in a statement of comprehensive income with a separate income statement. If an issuer presents its income using the second alternative, both statements must be filed to satisfy the requirements of this Instrument. (See subsections 4.1(3) and 4.3(2.1) of the Instrument).

PART 4A FORWARD-LOOKING INFORMATION

4A.1 Application

Section 4A.1 of the Instrument indicates that Part 4A applies to forward-looking information that is disclosed by a reporting issuer other than forward-looking information contained in oral statements. Reporting issuers should consider broadly the various instances of forward-looking information made available to the public in considering the scope of forward-looking information that is disclosed. This includes, but is not limited to:

- Information that a reporting issuer files with securities regulators
- Information contained in news releases issued by a reporting issuer
- Information published on a reporting issuer's website
- Information published in marketing materials or other similar materials prepared by a reporting issuer or distributed to the public by a reporting issuer.

4A.2 Reasonable Basis

Section 4A.2 of the Instrument requires a reporting issuer to have a reasonable basis for any forward-looking information it discloses. When interpreting "reasonable basis", reporting issuers should consider:

- (a) the reasonableness of the assumptions underlying the forward-looking information; and
- (b) the process followed in preparing and reviewing forward-looking information.

4A.3 Material Forward-Looking Information

Section 4A.3 and section 5.8 of the Instrument require a reporting issuer to include specified disclosure in material forward-looking information it discloses. Reporting issuers should exercise judgement when determining whether information is material. If a reasonable investor's decision whether or not to buy, sell or hold securities of the reporting issuer would be influenced or changed if the information were omitted or misstated, then the information is likely material.

Section 1.1 contains definitions of the terms "financial outlook" and "FOFI." We consider FOFI and most financial outlooks to be material forward-looking information. Examples of financial outlooks include expected revenue, profit or loss, earnings per share and R&D spending. A financial outlook relating to profit or loss is commonly referred to as "earnings guidance."

An example of forward-looking information that is not a financial outlook or FOFI would be an estimate of future store openings by an issuer in the retail industry. This type of information may or may not be material, depending on whether a reasonable investor's decision whether or not to buy, sell or hold securities of that issuer would be influenced or changed if the information were omitted or misstated.

4A.4 Location of Disclosure

Section 4A.3 of the Instrument requires that any material forward-looking information include specified disclosure. This disclosure should be presented in a manner that allows

an investor who reads the document or other material containing the forward-looking information to be able to readily:

- (a) understand that the forward-looking information is being provided in the document or other material;
- (b) identify the forward-looking information; and
- (c) inform himself or herself of the material assumptions underlying the forward-looking information and the material risk factors associated with the forward-looking information.

4A.5 Disclosure of Cautionary Language and Material Risk Factors

- (1) Paragraph 4A.3(b) of the Instrument requires a reporting issuer to accompany any material forward-looking information with disclosure that cautions users that actual results may vary from the forward-looking information and identifies material risk factors that could cause material variation. The material risk factors identified in the cautionary language should be relevant to the forward-looking information and the disclosure should not be boilerplate in nature.
- (2) The cautionary statements required by paragraph 4A.3(b) of the Instrument should identify significant and reasonably foreseeable factors that could reasonably be expected to cause results to differ materially from those projected in the material forward-looking statement. Reporting issuers should not interpret this as requiring a reporting issuer to anticipate and discuss everything that could conceivably cause results to differ.

4A.6 Disclosure of Material Factors or Assumptions

Paragraph 4A.3(c) of the Instrument requires a reporting issuer to disclose the material factors or assumptions used to develop material forward-looking information. The factors or assumptions should be relevant to the forward-looking information. Disclosure of material factors or assumptions does not require an exhaustive statement of every factor or assumption applied – a materiality standard applies.

4A.7 Date of Assumptions

Management of a reporting issuer that discloses material forward-looking information should satisfy itself that the assumptions are appropriate as of the date management discloses the material forward-looking information even though the material forward-looking information may have been prepared at an earlier time, and may be based on information accumulated over a period of time.

4A.8 Time Period

Paragraph 4B.2(2)(a) of the Instrument requires a reporting issuer to limit the period covered by FOFI or a financial outlook to a period for which the information can be reasonably estimated. In many cases that time period will not go beyond the end of the reporting issuer's next fiscal year. Some of the factors a reporting issuer should consider include the reporting issuer's ability to make appropriate assumptions, the nature of the reporting issuer's industry, and the reporting issuer's operating cycle.

PART 5 MD&A

5.1 Delivery of MD&A

Reporting issuers are not required to send a request form to their securityholders under Part 5 of the Instrument. This is because the request form that must be delivered under section 4.6 of the Instrument relates to both a reporting issuer's financial statements, and the MD&A applicable to those financial statements.

5.2 Additional Information for Venture Issuers Without Significant Revenue

Section 5.3 of the Instrument requires certain venture issuers to provide in their annual or interim MD&A (unless the information is included in their annual financial statements or interim financial report), a breakdown of material costs whether expensed or recognized as assets. A component of cost is generally considered to be a material component if it exceeds the greater of

- (a) 20% of the total amount of the class; and
- (b) \$25,000.

5.3 Disclosure of Outstanding Share Data

Section 5.4 of the Instrument requires disclosure of information relating to the outstanding securities of the reporting issuer as of the latest practicable date. The "latest practicable date" should be current, as close as possible, to the date of filing of the MD&A. Disclosing the number of securities outstanding at the period end is generally not sufficient to meet this requirement.

5.4 Additional Disclosure for Equity Investees

Section 5.7 of the Instrument requires issuers with significant equity investees to provide in their annual or interim MD&A (unless the information is included in their annual financial statements or interim financial report), summarized information about the equity investee. Generally, we will consider that an equity investee is significant if the equity investee would meet the thresholds for the significance tests in Part 8 using the financial statements of the equity investee and the issuer as at the issuer's financial year-end.

5.5 Previously Disclosed Material Forward-Looking Information

- (1) Subsection 5.8(2) of the Instrument requires a reporting issuer to discuss certain events and circumstances that occurred during the period to which its MD&A relates. The events to be discussed are those that are reasonably likely to cause actual results to differ materially from material forward-looking information for a period that is not yet complete. This discussion is only required if the reporting issuer previously disclosed the forward-looking information to the public. Subsection 5.8(2) also requires a reporting issuer to discuss the expected differences.

For example, assume that a reporting issuer published FOFI for the current year assuming no change in the prime interest rate, but by the end of the second quarter the prime interest rate went up by 2%. In its MD&A for the second quarter, the reporting issuer should discuss the interest rate increase and its expected effect on results compared to those indicated in the FOFI.

A reporting issuer should consider whether the events and circumstances that trigger MD&A disclosure under subsection 5.8(2) of the Instrument might also trigger material change reporting requirements under Part 7 of the Instrument.

- (2) Subsection 5.8(4) of the Instrument requires a reporting issuer to disclose and discuss material differences between actual results for the annual or interim period to which its MD&A relates and any FOFI or financial outlook for that period that the reporting issuer previously disclosed to the public. A reporting issuer should disclose and discuss material differences for material individual items included in the FOFI or financial outlook, including assumptions.

For example, if the actual dollar amount of revenue approximates forecasted revenue but the sales mix or sales volume differs materially from what the reporting issuer expected, the reporting issuer should explain the differences.

- (3) Subsection 5.8(5) of the Instrument addresses a reporting issuer's decision to withdraw previously disclosed material forward-looking information. The subsection requires the reporting issuer to disclose that decision and discuss the events and circumstances that led the reporting issuer to the decision to withdraw the material forward-looking information, including a discussion of the assumptions included in the material forward-looking information that are no longer valid. A reporting issuer should consider whether the events and circumstances that trigger MD&A disclosure under subsection 5.8(5) of the Instrument might also trigger material change reporting requirements under Part 7 of the Instrument. We encourage all reporting issuers to promptly communicate to the market a decision to withdraw material forward-looking information, even if the material change reporting requirements are not triggered.

PART 6 AIF

6.1 Additional and Supporting Documentation

Any material incorporated by reference in an AIF is required to be filed with the AIF unless the material has been previously filed. When a reporting issuer using SEDAR files a previously unfiled document with its AIF, the reporting issuer should ensure that the document is filed under the appropriate SEDAR filing type and document type specifically applicable to the document, rather than generic type “Documents Incorporated by Reference”. For example, a reporting issuer that has incorporated by reference an information circular in its AIF and has not previously filed the circular should file the circular under the “Management Proxy Materials” filing subtype and the “Management proxy/information circular” document type.

If the reporting issuer incorporates a document, or a portion of a document, by reference into its AIF, and that document, or that portion of the document, as applicable, incorporates another document by reference, the issuer must also file the underlying document with its AIF.

6.2 AIF Disclosure of Asset-backed Securities

(1) **Factors to consider** – Issuers that have distributed asset-backed securities under a prospectus are required to provide disclosure in their AIF under section 5.3 of Form 51-102F2. Issuers of asset-backed securities must determine which other prescribed disclosure is applicable and ought to be included in the AIF. Disclosure for a special purpose issuer of asset-backed securities will generally explain

- the nature, performance and servicing of the underlying pool of financial assets;
- the structure of the securities and dedicated cash flows; and
- any third party or internal support arrangements established to protect holders of the asset-backed securities from losses associated with non-performance of the financial assets or disruptions in payment.

The nature and extent of required disclosure may vary depending on the type and attributes of the underlying pool and the contractual arrangements through which holders of the asset-backed securities take their interest in such assets.

An issuer of asset-backed securities should consider the following factors when preparing its AIF:

1. The extent of disclosure respecting an issuer will depend on the extent of the issuer's on-going involvement in the conversion of the assets comprising the pool to cash and the distribution of cash to securityholders; this involvement may, in

turn, vary dramatically depending on the type, quality and attributes of the assets comprising the pool and on the overall structure of the transaction.

2. Disclosure about the business and affairs of the issuer should relate to the financial assets underlying the asset-backed securities.
3. Disclosure about the originator or the seller of the underlying financial assets will often be relevant to investors in the asset-backed securities particularly where the originator or seller has an on-going involvement with the financial assets comprising the pool. For example, if asset-backed securities are serviced with the cash flows from a revolving pool of receivables, an evaluation of the nature and reliability of the future origination or the future sales of underlying assets by the seller to or through the issuer may be a critical aspect of an investor's investment decision.

To address this, the focus of disclosure respecting an originator or seller of the underlying financial assets should deal with whether there are current circumstances that indicate that the originator or seller will not generate adequate assets in the future to avoid an early liquidation of the pool and, correspondingly, an early payment of the asset-backed securities. Summary historical financial information respecting the originator or seller will ordinarily be adequate to satisfy the disclosure requirement applicable to the originator or seller in circumstances where the originator or seller has an ongoing relationship with the assets comprising the pool.

Financial information respecting the pool of assets to be described and analyzed in the AIF will consist of information commonly set out in servicing reports prepared to describe the performance of the pool and the specific allocations of profit, loss and cash flows applicable to outstanding asset-backed securities made during the relevant period.

- (2) **Underlying pool of assets** – Paragraph 5.3(2)(a) of Form 51-102F2 requires issuers of asset-backed securities that were distributed by way of prospectus to include financial disclosure relating to the composition of the underlying pool of financial assets, the cash flows from which service the asset-backed securities. Disclosure respecting the composition of the pool will vary depending upon the nature and number of the underlying financial assets. For example, in a geographically dispersed pool of financial assets, it may be appropriate to provide a summary disclosure based on the location of obligors. In the context of a revolving pool, it may be appropriate to provide details relating to aggregate outstanding balances during a year to illustrate historical fluctuations in asset origination due, for example, to seasonality. In pools of consumer debt obligations, it may be appropriate to provide a breakdown within ranges of amounts owing by obligors in order to illustrate limits on available credit extended.

PART 7 MATERIAL CHANGE REPORTS

7.1 Publication of News Release

Section 7.1 of the Instrument requires reporting issuers to immediately issue and file a news release disclosing the nature of a material change. This requirement is substantively the same as the material change reporting requirements in some securities legislation for the news release to be issued *forthwith*.

PART 8 BUSINESS ACQUISITION REPORTS

8.1 Obligations to File a Business Acquisition Report

- (1) **Filing of a Material Change Report** – The requirement in the Instrument for a reporting issuer to file a business acquisition report is in addition to the reporting issuer’s obligation to file a material change report, if the significant acquisition constitutes a material change.
- (2) **Filing of a Business Acquisition Report by SEC Issuers** – If a document or a series of documents that an SEC issuer files with or furnishes to the SEC in connection with a business acquisition contains all of the information, including financial statements, required to be included in a business acquisition report under the Instrument, the SEC issuer may file a copy of the documents as its business acquisition report.
- (3) **Financial Statement Disclosure of Significant Acquisitions** – Reporting issuers are reminded that National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* prescribes the accounting principles and auditing standards that must be used to prepare and audit the financial statements required by Part 8 of the Instrument.
- (4) **Acquisition of a Business** – A reporting issuer that has made a significant acquisition must include in its business acquisition report certain financial statements of each business acquired. The term “business” should be evaluated in light of the facts and circumstances involved. We generally consider that a separate entity, a subsidiary or a division is a business and that in certain circumstances a smaller component of a company may also be a business, whether or not the business previously prepared financial statements. In determining whether an acquisition constitutes the acquisition of a business, a reporting issuer should consider the continuity of business operations, including the following factors:
 - (a) whether the nature of the revenue producing activity or potential revenue producing activity will remain generally the same after the acquisition; and
 - (b) whether any of the physical facilities, employees, marketing systems, sales forces, customers, operating rights, production techniques or trade names are acquired by the reporting issuer instead of remaining with the vendor after the acquisition.

- (5) **Acquisition by a Subsidiary** – If a reporting issuer’s subsidiary, which is also a reporting issuer, has acquired a business, both the parent and subsidiary must test the significance of the acquisition. Even if the subsidiary files a business acquisition report, the parent must also file a business acquisition report if the acquisition is also significant for the parent.

8.2 Significance Tests

- (1) **Nature of Significance Tests** – Subsection 8.3(2) of the Instrument sets out the required significance tests for determining whether an acquisition of a business by a reporting issuer is a “significant acquisition”. The first test measures the assets of the acquired business against the assets of the reporting issuer. The second test measures the reporting issuer’s investments in and advances to the acquired business against the assets of the reporting issuer. The third test measures the specified profit or loss of the acquired business against the specified profit or loss of the reporting issuer. If any one of these three tests is satisfied at the prescribed level, the acquisition is considered “significant” to the reporting issuer. The test must be applied as at the acquisition date using the most recent audited annual financial statements of the reporting issuer and the business. These tests are similar to requirements of the SEC and provide issuers with certainty that if an acquisition is not significant at the acquisition date, then no business acquisition report will be required to be filed.
- (2) **Business Using Accounting Principles Other Than Those Used by the Reporting Issuer** – Subsection 8.3(13) of the Instrument provides that, for the purposes of calculating the significance tests, the amounts used for the business or related businesses must, subject to subsection 8.3(13.1) of the Instrument, be based on the issuer’s GAAP, and translated into the same presentation currency as that used in the reporting issuer’s financial statements. This means that in some cases the amounts must be converted to the issuer’s GAAP and translated into the same presentation currency as that used in the reporting issuer’s financial statements.

Subsection 8.3(13.1) of the Instrument exempts venture issuers from the requirement in paragraph 8.3(13)(a) that, for the purposes of calculating the significance tests, the amounts used for the business or related businesses must be based on the issuer’s GAAP, but only where the financial statements for the business or related businesses were prepared in accordance with Canadian GAAP applicable to private enterprises and certain other conditions are met.

National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* permits financial statements for a business or related businesses to be prepared in accordance with U.S. GAAP without reconciliation to the issuer’s GAAP. This does not impact the application of paragraph 8.3(13)(a) of the Instrument. Thus, if the issuer’s GAAP is not U.S. GAAP, paragraph 8.3(13)(a) of the Instrument requires, for the purposes of calculating the significance tests, that the amounts used for the business or related businesses be based on the issuer’s GAAP.

Paragraph 8.3(13)(b) of the Instrument applies to all issuers and requires, for the purpose of calculating the significance tests, that the amounts used for the business or related businesses be translated into the same presentation currency as that used in the reporting issuer's financial statements.

- (3) **Acquisition of a Previously Unaudited Business** – Subsections 8.3(2) and 8.3(4) of the Instrument require the significance of an acquisition to be determined using the most recent audited annual financial statements of the reporting issuer and the business acquired. However, if the annual financial statements of the business or related businesses for the most recently completed financial year were not audited, subsection 8.3(14) of the Instrument permits use of the unaudited annual financial statements for the purpose of applying the significance tests. If the acquisition is determined to be significant, then the annual financial statements required by subsection 8.4(1) of the Instrument must be audited.
- (3.1) **Application of Significance Tests for Business Combinations Achieved in Stages** – IFRS 3 *Business Combinations*, requires that when a business combination is achieved in stages the acquirer's previously held equity interest in the acquiree is remeasured at its acquisition date fair value with any resulting gain or loss recognized in profit or loss. The remeasurement of the previously held equity interest should not be included in the asset or the investment test and the resulting gain or loss from remeasurement should not be included in the profit or loss test. (See subsection 8.3(4.1) of the Instrument).
- (4) **Application of Investment Test for Significance of an Acquisition** – One of the significance tests set out in subsections 8.3(2) and (4) of the Instrument is whether the reporting issuer's consolidated investments in and advances to the business or related businesses exceed a specified percentage of the consolidated assets of the reporting issuer. In applying this test, the "investments in" the business should be determined using the consideration transferred, measured in accordance with the issuer's GAAP, including any contingent consideration. In addition, any payments made in connection with the acquisition which would not constitute consideration transferred but which would not have been paid unless the acquisition had occurred, should be considered part of investments in and advances to the business for the purpose of applying the significance tests. Examples of such payments include loans, royalty agreements, lease agreements and agreements to provide a pre-determined amount of future services. For purposes of the investment test, "consideration transferred" should be adjusted to exclude the carrying value of assets transferred by the reporting issuer to the business or related businesses that will remain with the business or related businesses after the acquisition.
- (5) **Application of the Significance Tests When the Financial Year Ends are Non-Coterminous** – Subsection 8.3(2) of the Instrument requires the significance of a business acquisition to be determined using the most recent audited annual financial statements of both the reporting issuer and the acquired business. For the purpose of applying the tests under this subsection, the year-ends of the reporting issuer and the acquired business need not be coterminous. Accordingly, neither the audited annual financial statements of the reporting issuer nor those of the business should be adjusted

for the purposes of applying the significance tests. However, if the acquisition of a business is determined to be significant and pro forma income statements are required by subsection 8.4(5) of the Instrument and, if the business' year-end is more than 93 days before the reporting issuer's year-end, the business' reporting period required under paragraph 8.4(7)(c) of the Instrument should be adjusted to reduce the gap to 93 days or less. Refer to subsection 8.7(3) of this Policy for further guidance.

8.3 Optional Significance Tests

- (1) **Optional Significance Tests – Decrease in Significance** – If an acquisition is determined under subsection 8.3(2) of the Instrument to be significant, a reporting issuer has the option under subsections 8.3(3) and (4) of the Instrument of applying optional significance tests using more recent financial statements than those used for the required significance tests in subsection 8.3(2). The optional significance tests under subsections 8.3(3) and (4) have been included to recognize the possible growth of a reporting issuer between the date of its most recently completed year-end and the date of filing a business acquisition report and the corresponding potential decline in significance of the acquisition to the reporting issuer.
- (2) **Availability of the Optional Significance Tests** – The optional significance tests permitted under subsections 8.3(4) and (6) of the Instrument are available to all reporting issuers. However, depending on how or when a reporting issuer integrates the acquired business into its existing operations and the nature of post-acquisition financial records it maintains for the acquired business, it may not be possible for a reporting issuer to apply the optional significance test under subsection 8.3(6).
- (3) **Optional Investment Test** – For the purpose of applying the optional investment test under paragraph 8.3(4)(b) of the Instrument, the reporting issuer's investments in and advances to the business should be as at the acquisition date and not as at the date of the reporting issuer's financial statements used to determine its consolidated assets for the optional investment test.
- (4) **Optional Profit or Loss Test based on Pro Forma Information** – A reporting issuer may apply the optional profit or loss test in subsection 8.3(11.1) of the Instrument based on more recent pro forma consolidated specified profit or loss. By permitting reporting issuers to base the optional profit or loss test on pro forma consolidated specified profit or loss, this test recognizes the possible growth of a reporting issuer as a result of acquisitions completed between its most recently completed year end and the date of filing a business acquisition report and the corresponding potential decline in significance of the acquisition to the reporting issuer.

8.4 Financial Statements of Related Businesses

Subsection 8.4(8) of the Instrument requires that if a reporting issuer includes in its business acquisition report financial statements for more than one related business, separate financial statements must be presented for each business except for the periods

during which the businesses were under common control or management, in which case the reporting issuer may present the financial statements on a combined basis. Although one or more of the related businesses may be insignificant relative to the others, separate financial statements of each business for the same number of periods required must be presented. Relief from the requirement to include financial statements of the least significant related business or businesses may be granted depending on the facts and circumstances.

8.5 Application of the Significance Tests for Multiple Investments in the Same Business

Subsection 8.3(11) of the Instrument explains how the significance test should be applied when the reporting issuer has made multiple investments in the same business. If the reporting issuer acquired an interest in the business in a previous year and that interest is reflected in the most recent audited annual financial statements of the reporting issuer filed, then the issuer should determine the significance of only the incremental investment in the business which is not reflected in the reporting issuer's most recent audited annual financial statements filed.

8.6 Preparation of Divisional and Carve-out Financial Statements

- (1) **Interpretations** – In this section of this Policy, unless otherwise stated,
 - (a) a reference to “a business” includes a division or some lesser component of another business acquired by a reporting issuer that constitutes a significant acquisition; and
 - (b) the term “parent” refers to the vendor from whom the reporting issuer purchased a business.
- (2) **Acquisition of a Division** – As discussed in subsection 8.1(4) of this Policy, the acquisition of a division of a business and in certain circumstances, a lesser component of a person or company, may constitute an acquisition of a business for purposes of the Instrument, whether or not the subject of the acquisition previously prepared financial statements. To determine the significance of the acquisition and comply with the requirements for financial statements in a business acquisition report under Part 8 of the Instrument, financial statements for the business must be prepared. This section provides guidance on preparing these financial statements.
- (3) **Divisional and Carve-Out Financial Statements** – The terms “divisional” and “carve-out” financial statements are often used interchangeably although a distinction is possible. Some companies maintain separate financial records and financial statements for a business activity or unit that is operated as a division. Financial statements prepared from these financial records are often referred to as “divisional” financial statements. In other circumstances, no separate financial records for a business activity are maintained; they are simply consolidated with the parent's records. In these cases, if the parent's financial records are sufficiently detailed, it is possible to extract or “carve-out” the

information specific to the business activity in order to prepare separate financial statements of that business. Financial statements prepared in this manner are commonly referred to as “carve-out” financial statements. The guidance in this section applies to the preparation of both divisional and carve-out financial statements unless otherwise stated.

(4) Preparation of Divisional and Carve-Out Financial Statements

- (a) When complete financial records of the business acquired have been maintained, those records should be used for preparing and auditing the financial statements of the business. For the purposes of this section, it is presumed that the parent maintains separate financial records for its divisions.
- (b) When complete financial records of the business acquired do not exist, carve-out financial statements must be prepared in accordance with subsection 3.11(6) of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*.

- (5) Statements of Assets Acquired, Liabilities Assumed and Statements of Operations –** When it is impracticable to prepare carve-out financial statements of a business, a reporting issuer may be required to include in its business acquisition report an audited statement of assets acquired and liabilities assumed and a statement of operations of the business. The statement of operations should exclude only those indirect operating costs not directly attributable to the business, such as corporate overhead. If indirect operating costs were previously allocated to the business and there is a reasonable basis of allocation, they should not be excluded.

8.7 Preparation of Pro Forma Financial Statements Giving Effect to Significant Acquisitions

- (1) **Objective and Basis of Preparation** – The objective of pro forma financial statements is to illustrate the impact of a transaction on a reporting issuer’s financial position and financial performance by adjusting the historical financial statements of the reporting issuer to give effect to the transaction. Accordingly, the pro forma financial statements should be prepared on the basis of the reporting issuer’s financial statements as already filed. No adjustment should be made to eliminate discontinued operations.
- (2) **Pro Forma Statement of Financial Position** – Subsection 8.4(5) of the Instrument does not require a pro forma statement of financial position to be prepared to give effect to significant acquisitions that are reflected in the reporting issuer’s most recent annual or interim statement of financial position filed under the Instrument.
- (3) **Non-coterminous Year-ends** – Where the financial year-end of a business differs from the reporting issuer’s year-end by more than 93 days, paragraph 8.4(7)(c) requires a statement of comprehensive income for the business to be constructed for a period of 12 consecutive months. For example, if the constructed reporting period is 12 months and ends on June 30, the 12 months should commence on July 1 of the immediately preceding

year; it should not begin on March 1st of the immediately preceding year with three of the following 15 months omitted, such as the period from October 1 to December 31, since this would not be a consecutive 12 month period.

- (4) **Effective Date of Adjustments** – For the pro forma income statements included in a business acquisition report, the acquisition and the adjustments should be computed as if the acquisition had occurred at the beginning of the reporting issuer’s most recently completed financial year and carried through the most recent interim period presented, if any. However, one exception to the preceding is that adjustments related to the allocation of the purchase price, including the amortization of fair value increments and intangibles, should be based on the acquisition date amounts of assets acquired and liabilities assumed as if the acquisition occurred on the date of the reporting issuer’s most recent statement of financial position filed.
- (5) **Acceptable Adjustments** – Pro forma adjustments are generally limited to the following two types of adjustments required by paragraph 8.4(7)(b) of the Instrument:
- (a) those directly attributable to the specific acquisition transaction for which there are firm commitments and for which the complete financial effects are objectively determinable, and
 - (b) adjustments to conform amounts for the business or related businesses to the issuer’s accounting policies.

If financial statements for a business or related businesses are prepared in accordance with accounting principles that differ from the issuer’s GAAP and the financial statements do not include a reconciliation to the issuer’s GAAP, pro forma adjustments as described in item (b) above will often be necessary. For example, financial statements for a business or related businesses may be prepared in accordance with U.S. GAAP, or in the case of a venture issuer, in accordance with Canadian GAAP applicable to private enterprises, in each case without a reconciliation to the issuer’s GAAP. Even if financial statements for a business or related businesses are prepared in accordance with the issuer’s GAAP, pro forma adjustments as described in item (b) may be necessary to conform amounts for the business or related businesses to the issuer’s accounting policies, including, for example, the issuer’s revenue recognition policy where the revenue recognition policy of the business or related businesses differs from the issuer’s policy.

If the presentation currency used in financial statements for a business or related businesses differs from the presentation currency used in the issuer’s financial statements, the pro forma financial statements must present amounts for the business or related businesses in the presentation currency of the issuer’s financial statements. The pro forma financial statements should explain any adjustments to conform presentation currency.

- (6) **Multiple Acquisitions** – If a reporting issuer has completed multiple acquisitions then, under subsection 8.4(5) of the Instrument, the pro forma financial statements must give effect to each acquisition completed since the beginning of the most recently completed financial year. The pro forma adjustments may be grouped by line item on the face of the pro forma financial statements provided the details for each transaction are disclosed in the notes.
- (7) **Pro Forma Financial Statements Based on an Earlier Interim Financial Report** – The pro forma financial statements are prepared on the basis of the financial statements included in the business acquisition report. As a result, if the reporting issuer relies on subsection 8.4(4) of the Instrument to include financial statements for an earlier interim period of the acquired business than would otherwise be required under subsection (3), the issuer uses its comparable interim period to prepare the pro forma financial statements.
- (8) **Indirect Acquisitions** – Under the securities legislation of certain jurisdictions, it is generally an offence to make a statement in a document that is required to be filed under securities legislation, and that does not state a fact that is necessary to make the statement not misleading. When a reporting issuer acquires a business that has itself recently acquired another business or related businesses (an "indirect acquisition"), the reporting issuer should consider whether it needs to provide disclosure of the indirect acquisition in the business acquisition report, including historical financial statements, and whether the omission of these financial statements would cause the business acquisition report to be misleading, untrue or substantially incomplete. In making this determination, the reporting issuer should consider the following factors:
- if the indirect acquisition would meet any of the significance tests in section 8.3 of the Instrument when the reporting issuer applies each of those tests to its proportionate interest in the indirect acquisition of the business, and
 - if the amount of time between the separate acquisitions is such that the effect of the first acquisition is not adequately reflected in the results of the business or related businesses the reporting issuer is acquiring.
- (9) **Pro Forma Financial Statements where Financial Statements of a Business or Related Businesses are Prepared using Accounting Principles that Differ from the Issuer's GAAP** – Section 3.11 of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* permits reporting issuers to include in a business acquisition report financial statements of a business or related businesses prepared in accordance with U.S. GAAP and without a reconciliation to the issuer's GAAP. That section also permits, subject to specified conditions, a venture issuer to include in a business acquisition report financial statements of a business or related businesses prepared in accordance with Canadian GAAP applicable to private enterprises and without a reconciliation to the issuer's GAAP. However, section 3.14 of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* requires that pro forma financial statements be presented using accounting policies that are

permitted by the issuer's GAAP and would apply to the information presented in the pro forma statements if that information were included in the issuer's financial statements for the same time period as that of the pro forma financial statements. As well, subsection 8.4(7) of the Instrument requires pro forma financial statements to include a description of the underlying assumptions on which the pro forma financial statements are prepared, cross-referenced to each related pro forma adjustment. Therefore, the pro forma financial statements must describe the adjustments presented in the pro forma income statement relating to the business or related businesses to adjust amounts to the issuer's GAAP and accounting policies.

The pro forma statement of financial position should present the following information:

- (i) the statement of financial position of the reporting issuer,
- (ii) the statement of financial position of the business or related businesses,
- (iii) pro forma adjustments attributable to each significant acquisition that reflect the reporting issuer's accounting for the acquisition and include new values for the business' assets and liabilities, and
- (iv) a pro forma statement of financial position combining items (i) through (iii).

The pro forma income statement should present the following information:

- (i) the income statement of the reporting issuer,
- (ii) the income statement of the business or related businesses,
- (iii) pro forma adjustments attributable to each significant acquisition and other adjustments relating to the business or related businesses to conform amounts to the issuer's GAAP and accounting policies, and
- (iv) a pro forma income statement combining items (i) through (iii).

8.7.1 Financial Year End Changed

If the transition year of the acquired business is less than 9 months, the issuer may be required to include financial statements for the transition year of the acquired business in addition to financial statements for the two financial years required by subsection 8.4(1) of the Instrument. The transition year may or may not be audited, but at minimum, the most recently completed financial year must be audited in accordance with subsection 8.4(2).

8.8 Relief from the Requirement to Audit Operating Statements of an Oil and Gas Property

The securities regulatory authority or regulator may exempt a reporting issuer from the requirement to audit the operating statements referred to in section 8.10 of the Instrument if, during the 12 months preceding the acquisition date, the average daily production of the property is less than 20 percent of the total average daily production of the vendor for the same or similar periods, and

- (a) the reporting issuer provides written submissions prior to the deadline for filing the business acquisition report which establishes to the satisfaction of the appropriate regulator, that despite reasonable efforts during the purchase negotiations, the reporting issuer was prohibited from including in the purchase agreement the rights to obtain an audited operating statement of the property;
- (b) the purchase agreement includes representations and warranties by the vendor that the amounts presented in the operating statement agree to the vendor's books and records; and
- (c) the reporting issuer discloses in the business acquisition report its inability to obtain an audited operating statement, the reasons therefor, the fact that the representations and warranties referred to in paragraph (b) have been obtained, and a statement that the results presented in the operating statement may have been materially different if the statement had been audited.

For the purpose of determining average daily production when production includes both oil and natural gas, production may be expressed in barrels of oil equivalent using the conversion ratio of 6000 cubic feet of gas to one barrel of oil.

8.9 Exemptions From Requirement for Financial Statements in a Business Acquisition Report

- (1) **Exemptions** – We are of the view that relief from the financial statement requirements of Part 8 of the Instrument should be granted only in unusual circumstances and generally not related solely to cost or the time involved in preparing and auditing the financial statements. Reporting issuers seeking relief from the financial statement or audit requirements of Part 8 must apply for the relief before the filing deadline for the business acquisition report and before the closing date of the transaction, if applicable. Reporting issuers are reminded that many securities regulatory authorities and regulators do not have the power to grant retroactive relief.
- (2) **Conditions to Exemptions** – If relief is granted from the requirements of Part 8 of the Instrument to include audited annual financial statements of an acquired business or related businesses, conditions will likely be imposed, such as a requirement to include audited divisional or partial statements of comprehensive income or divisional statements of cash flows, or an audited statement of operations.

- (3) **Exemption from Comparatives if Financial Statements Not Previously Prepared** – Section 8.9 of the Instrument provides that a reporting issuer does not have to provide comparative financial information for an acquired business in a business acquisition report if it complies with specific requirements. This exemption may, for example, apply to an acquired business that was, before the acquisition, a private entity and that the reporting issuer is unable to prepare the comparative financial information for because it is impracticable to do so.
- (4) Relief may be granted from the requirement to include certain financial statements of an acquired business or related businesses in a business acquisition report in some situations that may include the following:
- (a) the business’s historical accounting records have been destroyed and cannot be reconstructed. In this case, as a condition of granting the exemption, the reporting issuer may be requested by the securities regulatory authority or regulator to
 - (i) represent in writing to the securities regulatory authority or regulator, no later than the time the business acquisition report is required to be filed, that the reporting issuer made every reasonable effort to obtain copies of, or reconstruct the historical accounting records necessary to prepare and audit the financial statements, but such efforts were unsuccessful; and
 - (ii) disclose in the business acquisition report the fact that the historical accounting records have been destroyed and cannot be reconstructed; or
 - (b) the business has recently emerged from bankruptcy and current management of the business and the reporting issuer is denied access to the historical accounting records necessary to audit the financial statements. In this case, as a condition of granting the exemption, the reporting issuer may be requested by the securities regulatory authority or regulator to
 - (i) represent in writing to the securities regulatory authority or regulator, no later than the time the business acquisition report is required to be filed that the reporting issuer has made every reasonable effort to obtain access to, or copies of, the historical accounting records necessary to prepare and audit the financial statements but that such efforts were unsuccessful; and
 - (ii) disclose in the business acquisition report the fact that the business has recently emerged from bankruptcy and current management of the business and the reporting issuer are denied access to the historical accounting records.

8.10 Audits and Auditor Review of Financial Statements of an Acquired Business

- (1) **Unaudited Comparatives in Annual Financial Statements of an Acquired Business** – Subsection 8.4(1) requires a reporting issuer to include comparative financial information

of the business in the business acquisition report. This comparative financial information may be unaudited.

- (2) **Auditor Review of an Interim Financial Report of an Acquired Business** – An issuer does not have to engage an auditor to review the interim financial report of an acquired business included in a business acquisition report. However, if the issuer later incorporates the business acquisition report into a prospectus, the interim financial report will have to be reviewed in accordance with the requirements relating to financial statements included in a prospectus.

PART 9 PROXY SOLICITATION AND INFORMATION CIRCULARS

9.1 Beneficial Owners of Securities

Reporting issuers are reminded that NI 54-101 prescribes certain procedures relating to the delivery of materials, including forms of proxy, to beneficial owners of securities and related matters. It also prescribes certain disclosure that must be included in the proxy-related materials sent to beneficial owners.

9.2 Prospectus-level Disclosure in Certain Information Circulars

Section 14.2 of Form 51-102F5 *Information Circular* requires an issuer to provide prospectus-level disclosure about certain entities if securityholder approval is required in respect of a significant acquisition under which securities of the acquired business are being exchanged for the issuer's securities or in respect of a restructuring transaction under which securities are to be changed, exchanged, issued or distributed.

Section 14.2 provides that the disclosure must be the disclosure (including financial statements) prescribed by the form of prospectus that the entity would be eligible to use immediately prior to the sending and filing of the information circular in respect of the significant acquisition or restructuring transaction, for a distribution of securities in the jurisdiction.

For example, if disclosure was required in an information circular of Company A for both Company A (an issuer that was only eligible to file a long form prospectus) and Company B (an issuer that was eligible to file a short form prospectus), the disclosure for Company A would be that required by the long form prospectus rules and the disclosure for Company B would be that required by the short form prospectus rules. Any information incorporated by reference in the information circular of Company A would have to comply with paragraph (c) of Part 1 of Form 51-102F5 and be filed under Company A's profile on SEDAR.

9.3 Proxy Solicitations Made to the Public by Broadcast, Speech or Publication

Subsection 9.2(4) of the Instrument provides an exemption from the proxy solicitation and information circular requirements for certain proxy solicitations made to the public

by broadcast, speech or publication. The exemption permits securityholders to solicit proxies by public means, including a speech or broadcast, through a newspaper advertisement or over the Internet (provided that the solicitation contains certain information and that information is filed on SEDAR).

The exemption will only apply if the proxy solicitation is made to the public. Securities regulatory authorities generally consider a solicitation to be made to the public if it is disseminated in a manner calculated to effectively reach the marketplace. A solicitation to the public would generally include a solicitation that is made by:

- (a) a speech in a public forum; or
- (b) a press release, a statement or an advertisement provided through a broadcast medium or by a telephone conference call or electronic or other communication facility generally available to the public, or appearing in a newspaper, a magazine, a website or other publication generally available to the public.

A proxy solicitation to the public would generally not include a solicitation made by phone, mail or email to only a select group of securityholders of a reporting issuer.

PART 10 ELECTRONIC DELIVERY OF DOCUMENTS

10.1 Electronic Delivery of Documents

Any documents required to be sent under the Instrument may be sent by electronic delivery, as long as such delivery is made in compliance with Québec Notice 11-201 *Relating to the Delivery of Documents by Electronic Means*, in Québec, and National Policy 11-201 *Delivery of Documents by Electronic Means*, in the rest of Canada.

PART 11 ADDITIONAL DISCLOSURE REQUIREMENTS

11.1 Additional Filing Requirements

Paragraph 11.1(1)(b) of the Instrument requires a document to be filed only if it contains information that has not been included in disclosure already filed by the reporting issuer. For example, if a reporting issuer has filed a material change report under the Instrument and the Form 8-K filed by the reporting issuer with the SEC discloses the same information, whether in the same or a different format, there is no requirement to file the Form 8-K under the Instrument.

11.2 Re-filing Documents or Re-stating Financial Information

If a reporting issuer decides to re-file a document, or re-state financial information for comparative periods in financial statements for reasons other than retroactive application of a change in an accounting standard or policy or a new accounting standard, and the re-filed or re-stated information is likely to differ materially from the information originally

filed, the issuer should disclose in the news release required by section 11.5 of the Instrument when it makes that decision

- (a) the facts underlying the changes,
- (b) the general impact of the changes on previously filed information, and
- (c) the steps the issuer would take before filing an amended document, or filing restated financial information, if the issuer is not filing amended information immediately.

PART 12 FILING OF CERTAIN DOCUMENTS

12.1 Statutory or Regulatory Instruments

Paragraph 12.1(1)(a) of the Instrument requires reporting issuers to file copies of their articles of incorporation, amalgamation, continuation or any other constating or establishing documents, unless the document is a statutory or regulatory instrument. This carve out for a statutory or regulatory instrument is very narrow. For example, the carve out would apply to Schedule I or Schedule II banks under the *Bank Act*, whose charter is the *Bank Act*. It would not apply when only the form of the constating document is prescribed under statute or regulation, such as articles under the *Canada Business Corporations Act*.

- 12.2 Contracts that Affect the Rights or Obligations of Securityholders** – Paragraph 12.1(1)(e) of the Instrument requires reporting issuers to file copies of contracts that can reasonably be regarded as materially affecting the rights of their securityholders generally. A warrant indenture is one example of this type of contract. We would expect that contracts entered into in the ordinary course of business would not usually affect the rights of securityholders generally, and so would not have to be filed under this paragraph.

12.3 Material Contracts

- (1) **Definition** – Under subsection 1.1(1) of the Instrument, a material contract is defined as a contract that a reporting issuer or any of its subsidiaries is a party to, that is material to the reporting issuer. A material contract generally includes a schedule, side letter or exhibit referred to in the material contract and any amendment to the material contract. The redaction and omission provisions in subsections 12.2(3) and (4) of the Instrument apply to these schedules, side letters, exhibits or amendments.
- (2) **Filing Requirements** – Subject to the exceptions in paragraphs 12.2(2)(a) through (f) of the Instrument, subsection 12.2(2) of the Instrument provides an exemption from the filing requirement for a material contract entered into in the ordinary course of business. Whether a reporting issuer entered into a contract in the ordinary course of business is a question of fact that the reporting issuer should consider in the context of its business and industry.

Paragraphs 12.2(2)(a) through (f) of the Instrument describe specific types of material contracts that are not eligible for the ordinary course of business exemption. Accordingly, if subsection 12.2(1) of the Instrument requires a reporting issuer to file a material contract of a type described in these paragraphs, the reporting issuer must file that material contract even if the reporting issuer entered into it in the ordinary course of business.

- (3) **Contract of Employment** – Paragraph 12.2(2)(a) of the Instrument provides that a material contract with certain individuals is not eligible for the ordinary course of business exemption, unless it is a “contract of employment”. One way for reporting issuers to determine whether a contract is a contract of employment is to consider whether the contract contains payment or other provisions that are required disclosure under Form 51-102F6 as if the individual were a named executive officer or director of the reporting issuer.
- (4) **External Management and External Administration Agreements** – Under paragraph 12.2(2)(e) of the Instrument, external management and external administration agreements are not eligible for the ordinary course of business exemption. External management and external administration agreements include agreements between the reporting issuer and a third party, the reporting issuer’s parent entity, or an affiliate of the reporting issuer, under which the latter provides management or other administrative services to the reporting issuer.
- (5) **Material Contracts on which the Reporting Issuer’s Business is Substantially Dependent** – Paragraph 12.2(1)(f) of the Instrument provides that a material contract on which the “reporting issuer’s business is substantially dependent” is not eligible for the ordinary course of business exemption. Generally, a contract on which the reporting issuer’s business is substantially dependent is a contract so significant that the reporting issuer’s business depends on the continuance of the contract. Some examples of this type of contract include:
 - (a) a financing or credit agreement providing a majority of the reporting issuer’s capital requirements for which alternative financing is not readily available at comparable terms;
 - (b) a contract calling for the acquisition or sale of substantially all of the reporting issuer’s property, plant and equipment, long-lived assets, or total assets; and
 - (c) an option, joint venture, purchase or other agreement relating to a mining or oil and gas property that represents a majority of the reporting issuer’s business.
- (6) **Confidentiality Provisions** – Under subsection 12.2(3) of the Instrument, a reporting issuer may omit or redact a provision of a material contract that is required to be filed if an executive officer of the reporting issuer has reasonable grounds to believe that disclosure of the omitted or redacted provision would violate a confidentiality provision. A provision of the type described in paragraphs 12.2(4)(a), (b) or (c) of the Instrument

may not be omitted or redacted even if disclosure would violate a confidentiality provision, including a blanket confidentiality provision covering the entire material contract.

When negotiating material contracts with third parties, reporting issuers should consider their disclosure obligations under securities legislation. A regulator or securities regulatory authority may consider granting an exemption to permit a provision of the type listed in subsection 12.2(4) of the Instrument to be redacted if:

- (a) the disclosure of that provision would violate a confidentiality provision; and
- (b) the material contract was negotiated before the adoption of the exceptions in subsection 12.2(4) of the Instrument.

The regulator may consider the following factors, among others, in deciding whether to grant an exemption:

- (c) whether an executive officer of the reporting issuer reasonably believes that the disclosure of the provisions would be prejudicial to the interests of the reporting issuer; and
- (d) whether the reporting issuer is unable to obtain a waiver of the confidentiality provision from the other party.

(7) **Disclosure Seriously Prejudicial to Interests of Reporting Issuer** – Under subsection 12.2(3) of the Instrument, a reporting issuer may omit or redact certain provisions of a material contract that is required to be filed if an executive officer of the reporting issuer reasonably believes that disclosure of the omitted or redacted provision would be seriously prejudicial to the interests of the reporting issuer. One example of disclosure that may be seriously prejudicial to the interests of the reporting issuer is disclosure of information in violation of applicable Canadian privacy legislation. However, in situations where securities legislation requires disclosure of the particular type of information, applicable privacy legislation generally provides an exemption for the disclosure. Generally, disclosure of information that a reporting issuer or other party has already publicly disclosed is not seriously prejudicial to the interests of the reporting issuer.

(8) **Terms Necessary for Understanding Impact on Business of Reporting Issuer** – A reporting issuer may not omit or redact a provision of a type described in paragraph 12.2(4)(a), (b), or (c) of the Instrument. Paragraph 12.2(4)(c) of the Instrument provides that a reporting issuer may not omit or redact “terms necessary for understanding the impact of the material contract on the business of the reporting issuer”. Terms that may be necessary for understanding the impact of the material contract on the business of the reporting issuer include the following:

- (a) the duration and nature of a patent, trademark, license, franchise, concession, or similar agreement;
 - (b) disclosure about related party transactions; and
 - (c) contingency, indemnification, anti-assignability, take-or-pay clauses, or change-of-control clauses.
- (9) **Summary of Omitted or Redacted Provisions** – Under subsection 12.2(5) of the Instrument, a reporting issuer must include a description of the type of information that has been omitted or redacted in the copy of the material contract filed by the reporting issuer. A brief one-sentence description immediately following the omitted or redacted information is generally sufficient.

PART 13 EXEMPTIONS

13.1 Prior Exemptions and Waivers

Section 13.2 of the Instrument essentially allows a reporting issuer, in certain circumstances, to continue to rely upon an exemption or waiver from continuous disclosure obligations obtained prior to the Instrument coming into force if the exemption or waiver relates to a substantially similar provision in the Instrument and the reporting issuer provides written notice to the securities regulatory authority or regulator of its reliance on such exemption or waiver. Upon receipt of such notice, the securities regulatory authority or regulator, as the case may be, will review it to determine if the provision of the Instrument referred to in the notice is substantially similar to the provision from which the prior exemption or waiver was granted. The written notice should be sent to each jurisdiction where the prior exemption or waiver is relied upon. Contact addresses for these notices are:
